

BI-WEEKLY FLOW MONITORING REPORT: SPONTANEOUS RETURN OF UNDOCUMENTED AFGHANS FROM PAKISTAN (1 JAN. TO 14 JAN. 2023)

OVERVIEW

IOM Pakistan collects data on the outflows of **undocumented Afghan migrants** at the Torkham and Chaman border crossing points in an effort to better understand the migration movements of undocumented Afghan migrants returning to Afghanistan from Pakistan.

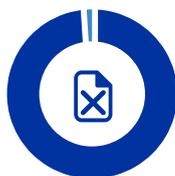

Between 1 January and 14 January 2023, 1,316 undocumented Afghan nationals spontaneously returned to Afghanistan, including 686 through the Torkham border point and 630 through the Chaman border point. Border authorities facilitated the return of 987 individuals due to the lack of legal documentation to remain in Pakistan. Therefore, information about these individuals is not included in the count. Although IOM identified 1,316 undocumented Afghan returnees at two border crossings, this may not reflect the total number of undocumented Afghan returnees. Moreover, for this study, only the head of household or representative of the family were interviewed. This means that the number of interviews conducted by the enumerators is lower than the number of returnees recorded by IOM. Between 1 January and 14 January 2023, IOM interviewed 59 respondents.

HIGHLIGHTS

- During the reporting period, 6 per cent of returnees were categorized as vulnerable persons, mainly chronically ill and elderly.
- The primary occupations reported by returnees were: unskilled labor (63%), skilled labor (26%) and business (11%).
- All returnees were carrying cash and personal belongings when interviewed. They also travelled with additional items, such as household items (99%), productive assets (85%) and transportation or private vehicle (8%).
- The average cost of travelling from Pakistan to Afghanistan reported was 33,377 PKR per family.
- The top 3 challenges returnees expected to face in Afghanistan were: arranging for livelihoods, finding income opportunities and settling into a new city.
- The modes of transportation used by the returnees from their original location to the border and from the border to their destination, were: pickup (45%), truck (43%) and bus/rented car (12%).

1,316 UNDOCUMENTED AFGHAN RETURNEES AT TORKHAM AND CHAMAN (FROM JANUARY 2023)

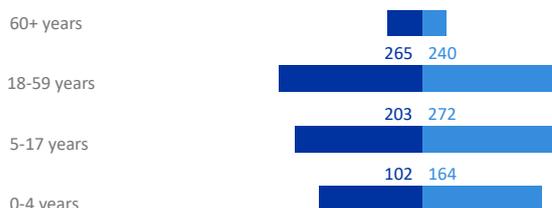

DISTRIBUTION OF UNDOCUMENTED RETURNEES

Undocumented family	99%
Family/Individual holding ACC	1%
