

**KEY FIGURES**

**Demographics**

**Site Information**

Site Status:	<b>Open</b>
Date Open:	<b>13 March 2023</b>
Is there a Site Management Agency:	<b>Yes</b>
Name of site agent:	<b>Local Risk Management</b>
Is there Site Management committee:	<b>Yes</b>
Site management focal point:	<b>Manuel Caetano</b>
Is the site physically accessible:	<b>Limited</b>
Possibility of inaccessibility in the event of a disaster:	<b>Limited</b>
Is the site safe and secure:	<b>Yes</b>
Are the majority of IDPs currently living on site:	<b>Yes</b>

**Return Intentions**

Does the majority want to go back to the place of origin?	<b>No</b>
Intended period of stay	<b>Permanent</b>

**Vulnerabilities (Reported Estimates)**

**\*\* Vulnerability disaggregation gathered for this assessment represent estimates and perceptions provided by key informants and may not always be accurate/may be subject to under-representation.**

Pregnant women > 18 years of age	<b>40</b>
Persons with physical disabilities < 18 years	<b>31</b>
Persons with chronic illnesses or serious medical conditions	<b>25</b>

**WASH**

Type of latrines on site	<b>Individual</b>
Is there a functional/non-functional latrines?	<b>Non-functional</b>
Is there hand washing station with water and soap close to latrines/bathing spaces?	<b>None</b>
Have hygiene promotion campaigns been conducted at this site?	<b>No</b>
Is there a functional/non-functional bathing space?	<b>No</b>
Main water source	<b>Handpump</b>
Main problems with water	<b>None</b>
Average amount of water obtained per day per person?	<b>5-10 ltrs</b>
Time taken in a queue to obtain water	<b>31-60 min.</b>
How well does the drainage system function?	<b>More or less functioning</b>
Families living in areas where open defecation is visually visible	<b>All</b>
Families that live in areas where dumped garbage is visible	<b>All</b>
Families with access to bathing facilities	<b>None</b>
Families with enough soap to fulfil their needs?	<b>Around 50%</b>
Families with enough water for bathing?	<b>Around 50%</b>
Families with enough water for drinking?	<b>Around 50%</b>

**Health**

Access to health care services	<b>No</b>
Time taken to reach the nearest health facility	<b>&gt;60 min.</b>
Type of Health facility	<b>N/A</b>
Main reasons preventing IDPs from accessing health care services	<b>No facilities</b>
Are most women seeing a health professional during pregnancy?	<b>No</b>
Availability of medicine at the site	<b>Do not know</b>
Has Cholera been reported at this site since the cyclone?	<b>No</b>
Community members know where to go to seek treatment and care for chronic illnesses or serious medical conditions?	<b>Yes</b>
Availability of APE to provide basic care	<b>Yes, on site but not active</b>

**NFI NFI needs**

Blankets	<b>Red</b>	Very significant
