

## KEY MESSAGES

- This week there were 718 new arrivals through Baidoa check points and zero exit. This is the sixth week in a row with no exit. The number of arrivals reported this week was higher than the number recorded last week. The key driving factors for displacements in to Baidoa were prolonged drought and insecurity at their village of origin.
- As for why IDPs were entering Baidoa this week, all the new entries cited either insecurity (36%), water (35%), Luck of food (27%) or access to Health (2%) as the key driving factors for displacement into the IDP sites in Baidoa.
- As reported in this week, (40%) of those entering came from the district of Baidoa, (26%) from Dinsoor district, (16%) from Hudur district, (14%) from Qansaxdheer District and (4%) from Afgoy district. They were heading to the IDP sites of Kalow (24%), Ceelbay 2 (26%), Matalamin (13%), Ceelbay 1 (12%), Isdhorto (6%), Mooragabey (5%), Sarman dhere (5%), Yabal (4%), Balanbal (3%), and Rajo (2%) in Baidoa.
- There were no exits recorded for the sixth week, this is attributed to the prolonged drought, and increasing insecurity at the villages of origin.

MTT enumerator interviews IDPs arriving in Baidoa last week. Photo credit IOM.

## METHODOLOGY

Movement Trend Tracking (MTT) is a movement monitoring exercise that tracks people who are moving in or out of sites on a semi-permanent or permanent basis. MTT aims to gauge the pulse of movements in and out of sites in Baidoa.

MTT figures should not be considered official updates to the population figures of the sites. Rather, the data represents the intentions of IDPs and points towards general trends in their movements.

In Baidoa, IOM enumerators are positioned at the 3 main checkpoints in and out of town (shown on the map on the right) from 6:30am until 5:30pm, 7 days a week.

From these checkpoints, the teams identify people who are moving in or out of Baidoa with luggage. Interviews are done with the individual or the head of household.

MTT aims to complement existing information management products on displacements and movements in Baidoa, by providing site level specific data on population movements on a regular basis, to assist agencies operating in sites and settlements with key information on: demographics of movement, area of origin, area of return/onward movement, reasons for movement and movement trends over time.

IOM MTT enumerators identify new arrivals and conduct interviews with the heads of household. Photo credit IOM.
