

# **HAITI — EMERGENCY TRACKING TOOL (ETT)**

Dashboard #20 1023 - July 2023

Data Collection: 23 – 27 July 2023

<u>Publication: 28 July 2023</u>

Displacement in the municipality of Tabarre (West District)

The objective of the Emergency Tracking Tool (ETT) is to collect information on large and sudden population movements as well as security and climatic emergencies. Information is collected through phone interviews with key informants and direct observation. This dashboard presents information on **population** displacement which occurred from 23 to 27 July 2023 in the neighborhoods of Truitier, Dumornay, HT Monquette in the municipality of Tabarre (West district).

### Origins and host locations of displaced persons

This map is for illustration purposes only. The depiction and use of boundaries, geographic names and related data shown on maps and included in this report are not warranted to be error free nor do they imply judgment on the legal status of any territory, or any endorsement or acceptance of such boundaries by IOM.

#### **Event Summary**

On  $23^{\rm rd}$  July 2023, armed violence erupted in the neighborhoods of Truitier, Dumornay, HT Monquette located in the municipality of Tabarre (in the Metropolitan Area of Port-au-Prince, West District).

In addition to loss of life, this violence has also caused the displacement of approximatively 1,148 individuals (457 households) of which more than half (56%) took refuge in a site located in the same municipality of Tabarre (for more details, see the chart below and the table on page 2).

It should be noted that at the beginning of July 2023, armed violence had already broken out around the same area and displaced 375 people (see <u>ETT 19</u>).

Host community	Croix-Des-Bouquets	1ère section des Varreux	Molea		3	12
					457	1,148

### Methodology

#### Limits

The information presented in this report may not represent all displacements caused by this incident. Indeed, it is possible that some displacements were not detected by key informants. In the case new displacement information caused by this incident is reported, updates can be made accordingly.

Furthermore, it is important to consider that figures are estimates and not data from a counting or registration of displaced households.
