

The objective of the Emergency Tracking Tool (ETT) is to collect information on large and sudden population movements as well as security and climatic emergencies. Information is collected through interviews with key informants and direct observation. This dashboard presents information on **population displacement which occurred on 12 and 13 August 2023 in the neighborhoods of Carrefour Feuilles and Savane Pistaches in the municipality of Port-au-Prince (West district).**

### Origins and host locations of displaced persons

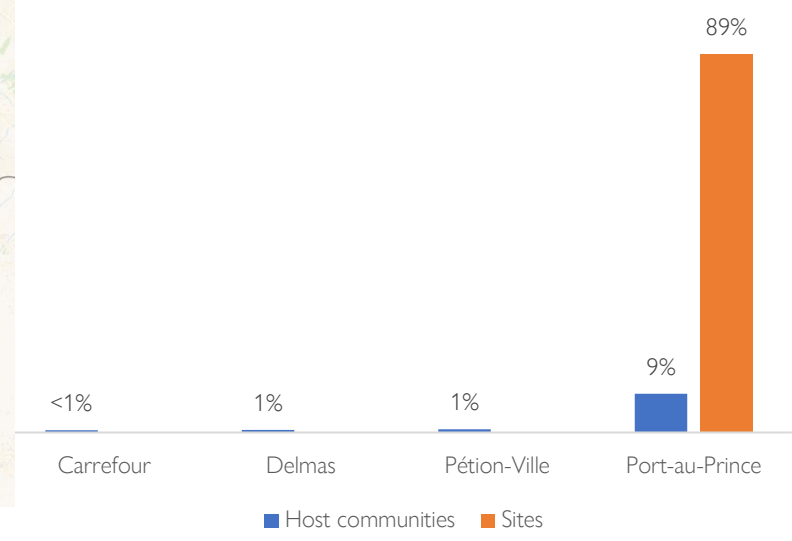

### Event Summary

Between 12 and 13 August 2023, armed violence took place in the neighborhoods of Carrefour-Feuille and Savanes Pistaches, located in the commune of Port-au-Prince (West Department).

This violence caused the displacement of approximately **717 households (3,556 individuals)**, most of whom (89%) took refuge in 7 sites (for more details, see the graph below and the table on page 2).

### Host locations of displaced persons

This map is for illustration purposes only. The depiction and use of boundaries, geographic names and related data shown on maps and included in this report are not warranted to be error free nor do they imply judgment on the legal status of any territory, or any endorsement or acceptance of such boundaries by IOM.

### Methodology

	Assessment conducted in affected areas	✓
	Assessment conducted through phone interviews with key informants	✓

### Limits

The information presented in this report may not represent all displacements caused by this incident. Indeed, it is possible that some displacements were not detected by key informants. In the case new displacement information caused by this incident is reported, updates can be made accordingly.

Furthermore, it is important to consider that figures are estimates and not data from a counting or registration of displaced households.
