## September 2023 observations

- The month of September marked the beginning of the SOND rainfall season and also the beginning of the El-Nino impact as forecasted by UNMA. These climatic events triggered heavy storms/Hailstorms in the different parts of the nation, floods and landslides/Mudslides.
- The disasters affected a total of 2,557 individuals, representing 662 households while 246 individuals from 57 households were internally displaced.
- Adults (19-64 years) were the most affected population group (59%), followed by children under 18 years (30%) and the elderly who were above 64 years (11%).
- The most pressing needs are food assistance, NFI child protection and livelihoods.
- Houses partially damaged totaled 189 while 51 houses were completely destroyed. 28 water facilities and seven schools were also affected.
- Disasters have so far affected 97,727 individuals and displaced over 7,908 people as reported from January to September 2023.
