

12 October 2023

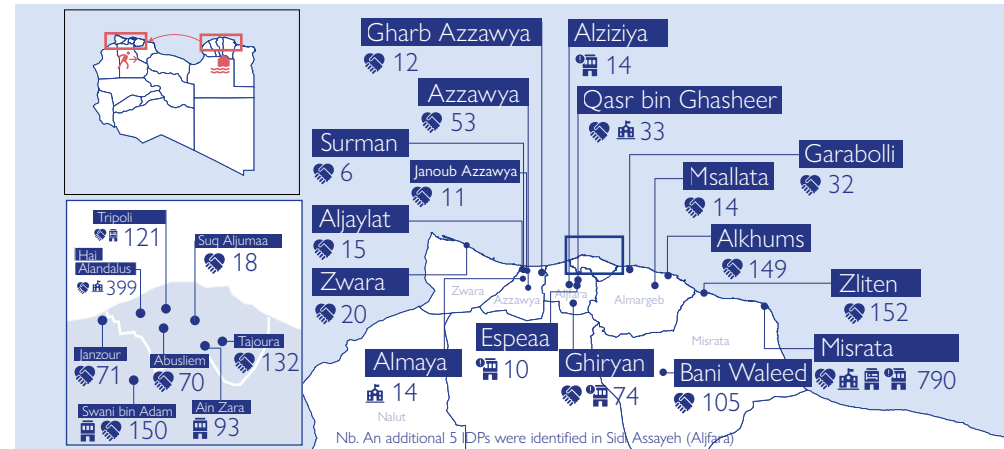

## HIGHLIGHTS

- There are an estimated **43,421 individuals**<sup>1</sup> who remain displaced after storm Daniel made landfall in northeastern Libya on 11 September 2023.
- Displaced households from Derna have continued relocating to **western municipalities** (see map 1). A total of six per cent of displaced individuals are in western Libya. The majority of displaced individuals (94%) remain in **eastern Libyan municipalities**, the largest shares of whom are in the municipalities of Derna (38%), Benghazi (10%), Albayda (10%), Shahat (9%), and Tobruk (8%) (see tables 1 and 2).

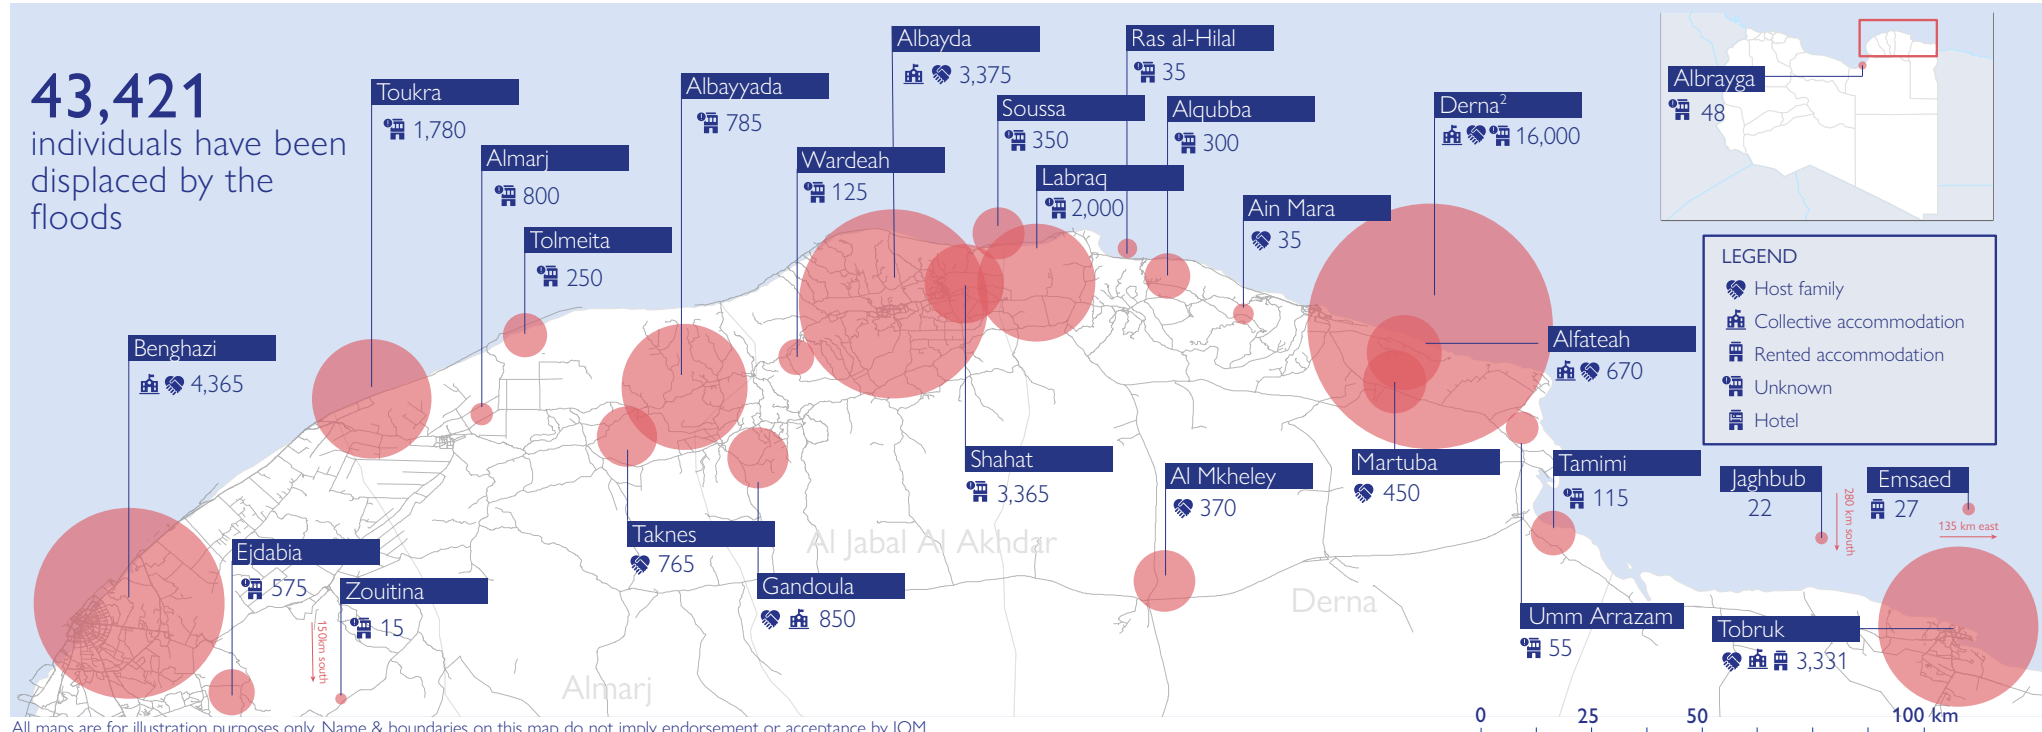

- According to field reports, there are **250 Egyptian migrants** who were displaced from the floods in Derna and who relocated to Tobruk. Key informants identified **20 migrants** having been displaced from Derna who are in Toukra, **50 migrants** who were displaced within the municipality of Shahat (who moved from the community (muhalla) of Soussa to Shahat (muhalla) and **53 migrants** who were displaced from Derna to Shahat (muhalla). An estimated **400 migrants** who were displaced from Derna are in Albayda (250 Egyptians, 75 Sudanese, 50 Bangladeshi and 25 Chadians).

<sup>1</sup> The variations in numbers of displaced individuals reported is related to the quickly evolving situation and limited access of the field assessment team.  
<sup>2</sup> The number of displaced individuals identified by key informants within Derna is likely to be an underestimation given the dynamic context, and the complex process of registering displaced individuals. The number of displaced individuals for Derna (16,000) does not include those displaced in Alfateah and Ras al-Hilal (two communities (muhallas) which are also part of the municipality of Derna according to the common operational dataset).

MAP 1: LOCATIONS IN WESTERN LIBYA WHERE DISPLACED INDIVIDUALS HAVE RELOCATED AND TYPES OF ACCOMMODATION

MAP 2: LOCATIONS OF DISPLACEMENT, NUMBER OF DISPLACED INDIVIDUALS AND TYPES OF ACCOMMODATION
