

Shelters affected by heavy rainfall in Ngala LGA © IOM 2023

OVERVIEW

On 10 August 2023, heavy rainfall struck International Secondary School and Zullum camps in Ngala LGA of Borno State, which affected a total of 2,472 individuals from 533 households. The incidents damaged 381 shelters, 22 latrines and 23 showers.

In response to these events, the DTM (Displacement Tracking Matrix) field team swiftly conducted evaluations to inform the humanitarian community, the government, and partners and to facilitate a targeted response. The field team utilized direct observation and key informant interviews in flash reports to collect representative data and determine the quantity and immediate needs of the affected groups.

NEEDS

Shelter, food and non-food items (NFIs) were among the most urgent needs of the affected population.
