

SUMMARY

Renewed inter-communal violence along the border of Gedeo (SNNPR region) and West Guji (Oromia region) has displaced an estimated 147,040 in West Guji. This is in addition to the 822,187 IDP estimated in Gedeo zone*. Of the eleven woredas in West Guji zone, only six host IDPs displaced as a result of the recent conflict. Only four of the six woredas in West Guji zone could be assessed due to access and security issues. *For further information on displacement in Gedeo please see the DTM Rapid Response Assessment Report for Gedeo Zone available on the DTM website: <https://displacement.iom.int/reports/ethiopia-%E2%80%94-gedeowest-guji-rapid-response-assessment-report-1-july-2018>

OVERVIEW OF DISPLACEMENT: WEST GUJI ZONE

METHODOLOGY

DTM Rapid Response Assessments are designed to provide up-to-date information on large scale population displacement occurring outside the DTM Mobility Tracking data collection periods. The Rapid Response Assessment tool is deployed at woreda level to collect basic information about displaced populations through key informants, mainly woreda and zonal government officials. The aim of the assessment is to provide the humanitarian community with initial population estimates and displacement site lists to facilitate the coordination and planning of the first response. The information contained in this report was collected by DTM staff and government officials.

147,040 Displaced Individuals

27,070 Displaced Households

62,359 In Collective sites / Camp, Collective centers

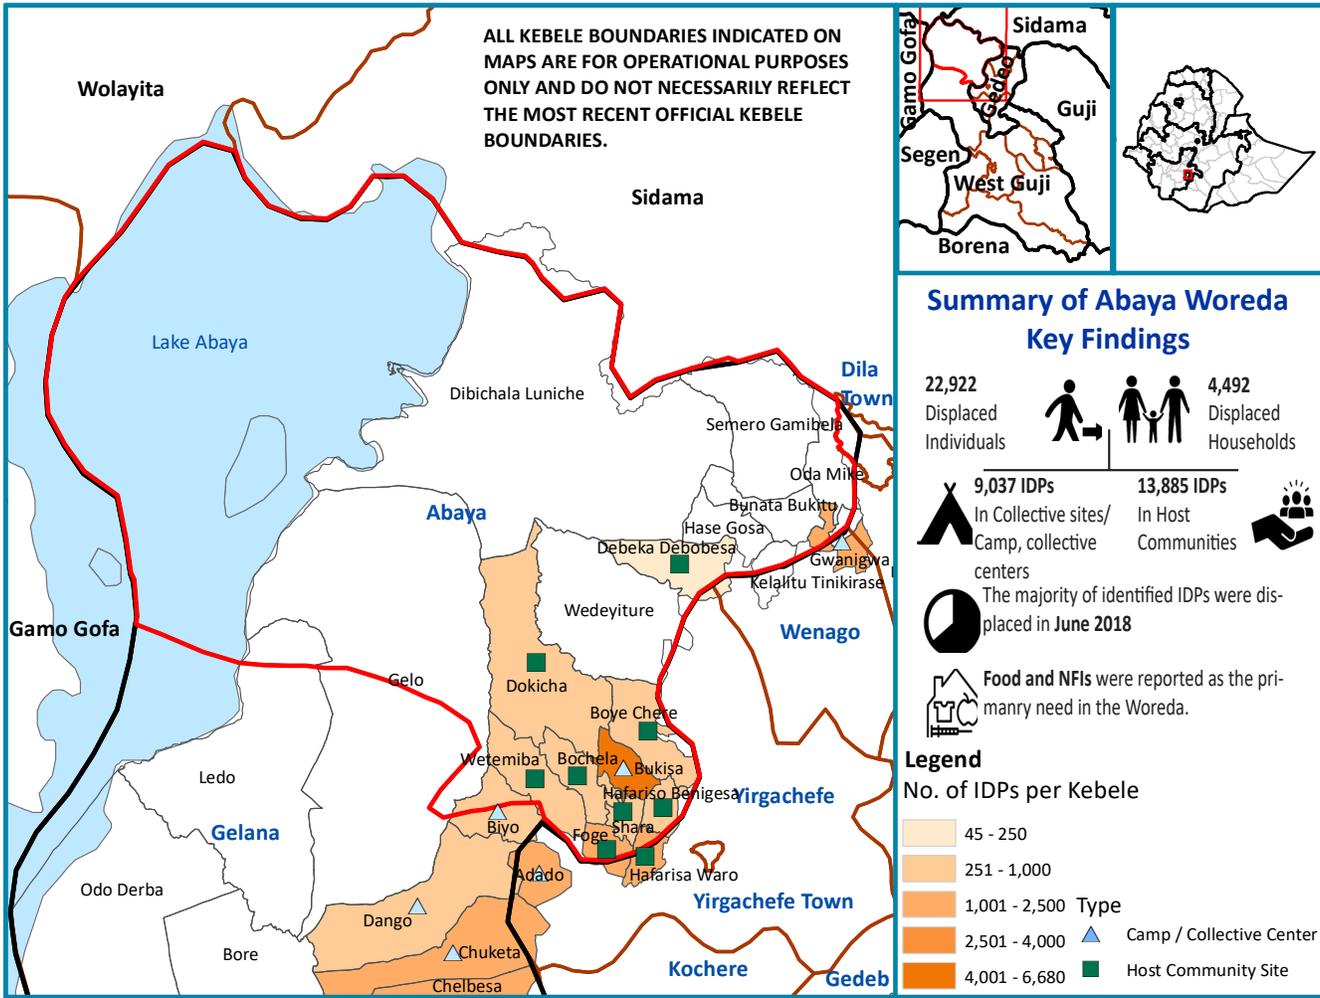

84,681 In Host Communities

The majority of identified IDPs were displaced in June 2018

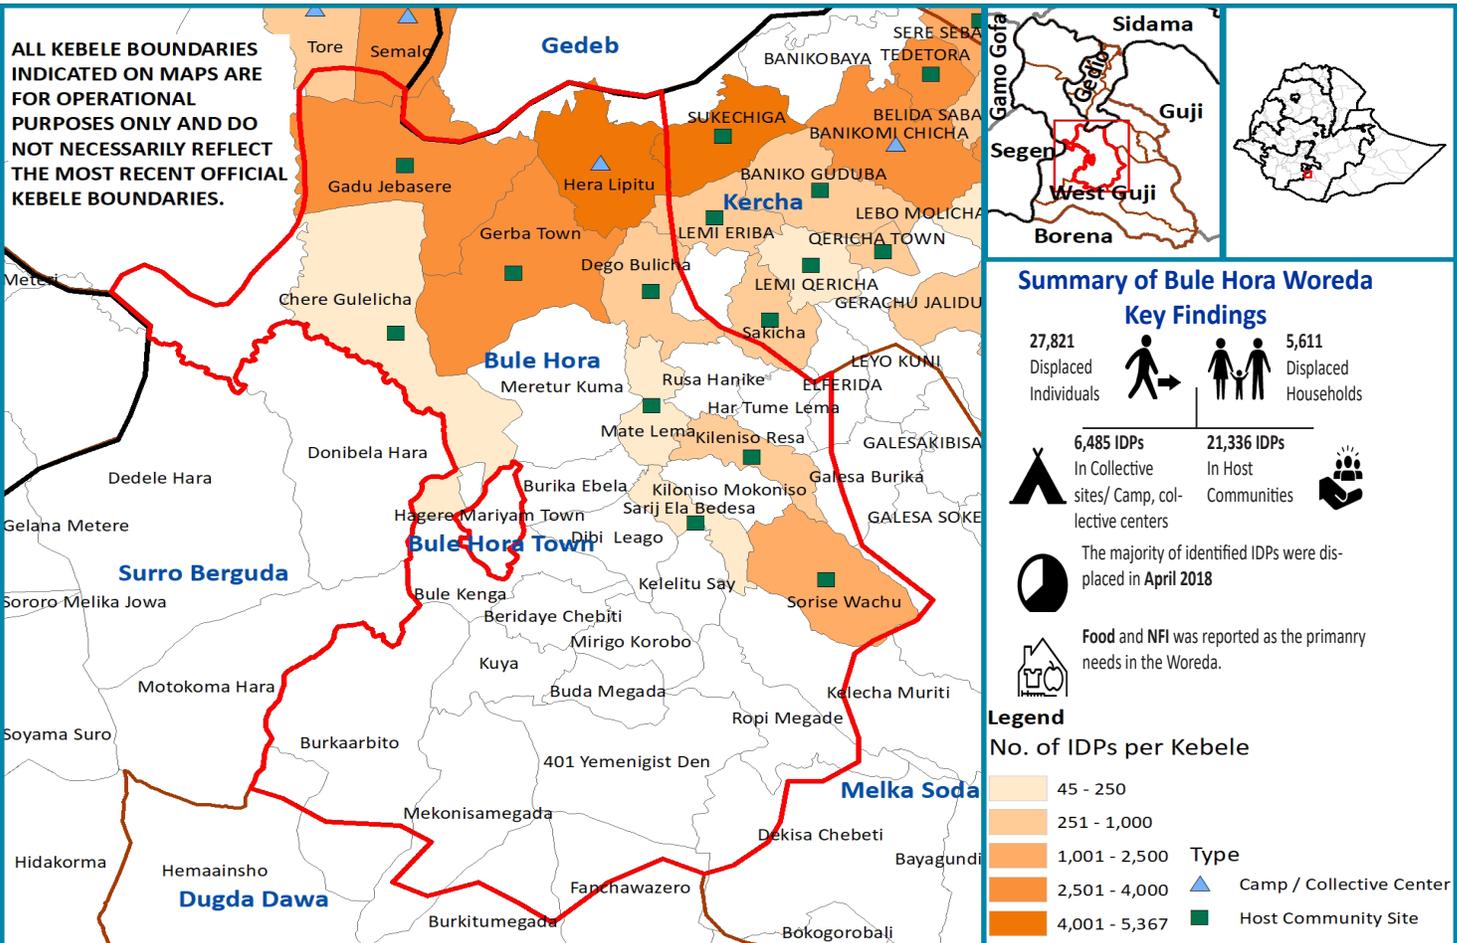

Food was reported as the primary need in the zone.
