### Methodology

|  |   |  |
|--|---|--|
|  | Assessment conducted in affected areas                            |  |
|  | Assessment conducted through phone interviews with key informants |  |

### Limits

The information presented in this report may not represent all displacements caused by this incident. Indeed, it is possible that some displacements were not detected by key informants. In the case new displacement information caused by this incident is reported, updates can be made accordingly.

Furthermore, it is important to consider that figures are estimates and not from a counting or registration of displaced households.
