

The objective of the Emergency Tracking Tool (ETT) is to collect information on large and sudden population movements as well as security and climatic emergencies. Information is collected through interviews with key informants and direct observation. This dashboard presents information on **population displacement which occurred since 13 November 2023 following armed attacks in the neighborhoods of Belecou, Terre noire-Blanchard, Duvivier, Bas Fontaine and Sarhe, in the municipality of Cité Soleil.**

Origins and host locations of displaced persons

Event Summary

After the death of a gang leader in the municipality of Cité of Soleil, armed attacks occurred there, leading to the displacement of approximately 248 households made up of more than 1,000 individuals.

These attacks are still ongoing at the time of writing this report and further population displacements may occur, in which case the DTM will issue update reports.

Almost all of displaced people took refuge in host families, particularly towards the municipality of Delmas.

Host locations of displaced persons

(See page 2 for more details on host locations)

This map is for illustration purposes only. The depiction and use of boundaries, geographic names and related data shown on maps and included in this report are not warranted to be error free nor do they imply judgment on the legal status of any territory, or any endorsement or acceptance of such boundaries by IOM.

Methodology

	Assessment conducted in affected areas	
	Assessment conducted through phone interviews with key informants	

Limits

The information presented in this report may not represent all displacements caused by this incident. Indeed, it is possible that some displacements were not detected by key informants. In the case new displacement information caused by this incident is reported, updates can be made accordingly.

Furthermore, it is important to consider that figures are estimates and not from a counting or registration of displaced households.
