New displacement in Yambio: Hai Malakia, Ikpiro, St. Mary Catholic Parish, Suk Siro, Timbiro ECS Cathedral Parish, Tiindoka

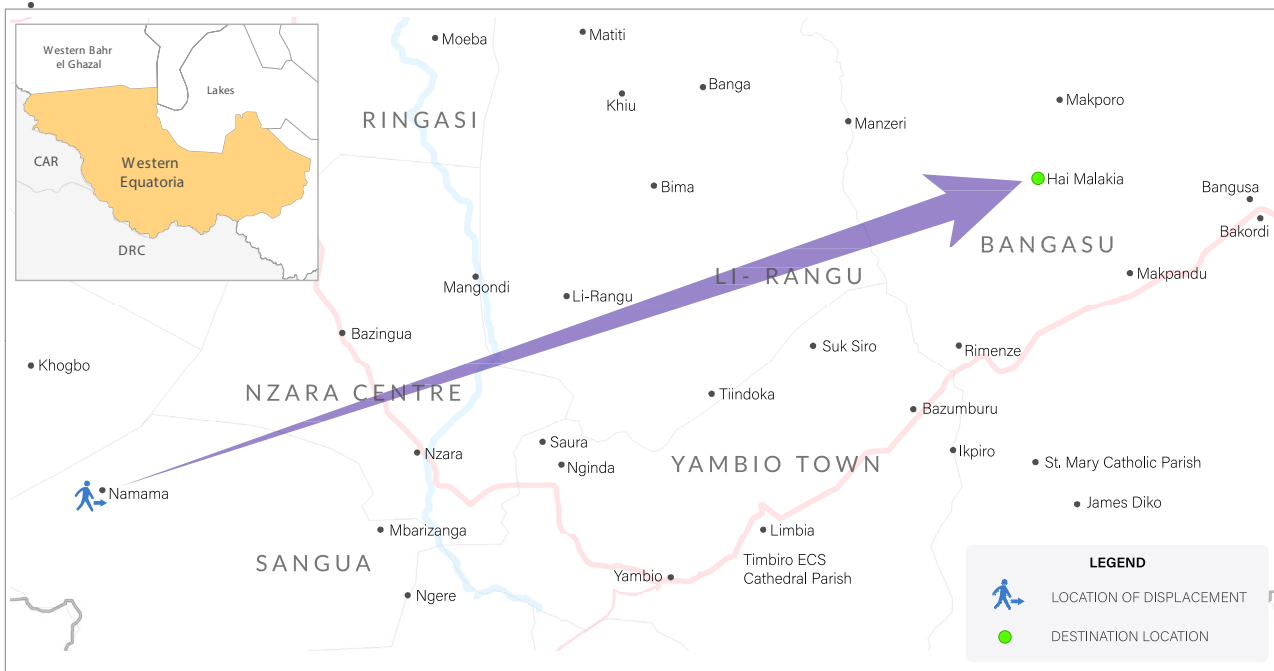

Data Collection: 4-6 July 2018

Background

Internally displaced persons (IDPs) that have recently fled to Yambio town as a result of conflict indicate that they have traveled from areas such as Saura, Makporo, Mamamo, Bazumburu, and Rimenze (Yambio Payam). Transport to and from the town has been limited as travel routes have become insecure, and IDPs have resorted to traveling by foot to reach IDP sites and places of refuge in host community settings. Local churches and humanitarian partners have been able to provide some support to certain locations in Yambio, including meals, non-food items, medical care and family reunification services. However, IDPs in each location indicate that further support is needed.
