

The objective of the Emergency Tracking Tool (ETT) is to collect information on large and sudden population movements as well as security and climatic emergencies. Information is collected through phone interviews with key informants and direct observation.

Origins and host locations of displaced people

Event Summary

On December 18th, armed attacks occurred in the city center of Ganthier, located in the 5th communal section of Pays Pourri, within the commune of Ganthier. This dashboard update provides the latest information on ETT 32.

These clashes resulted in the displacement of approximately 551 households, comprising a total of 2,740 individuals. The majority of the displaced people (71%) sought refuge with host families, while 29% settled in 4 sites situated in the 3rd communal section of Fond Parisien, within the same commune.

					551	2,740

Three main needs of displaced populations in sites

1. FOOD

2. HYGIENE KITS

3. MATTRESS

Methodology

	Assessment conducted in affected areas	
	Assessment conducted through phone interviews with key informants	

Limits

The information presented in this report may not represent all displacements caused by this incident. Indeed, it is possible that some displacements were not detected by key informants. In the case new displacement information caused by this incident is reported, updates can be made accordingly.

Furthermore, it is important to consider that figures are estimates and not data from a counting or registration of displaced households.
