

**Ibo, Macomia, Mueda and Muidumbe Districts, Cabo Delgado, Mozambique**

Between 26 December 2023 and 8 January 2024, a series of attacks in villages across Macomia, and Muidumbe triggered 1,811 individual displacements. Of the total 304 individuals displaced, 89 families with 293 individuals have taken refuge in displacement centers of Mueda (Lyanda, Mpeme and Eduardo Mondlane), 113 families with 397 individuals have taken refuge in displacement centers of Macomia (Nanga A and Nanga B) and 6 families with 31 individuals have taken refuge in displacement centers of Muidumbe (Matambalale and Lutete).

During this reporting period, cumulative displacements have been mapped across 5 districts. Please consider below graphs for movement flows at Posto level. Further locational-level data is also available from DTM teams.

- In summary, Macomia reports an estimate of 224 families with 819 individuals (inclusive of 412 children) who have been displaced to Nanga A, Nanga B and Changane.
- In Ibo, 27 families with 112 individuals (inclusive of 57 children) have been displaced from Macomia and are currently located on Matemo Island. Approximately 68 families with 255 individuals arriving on Matemo Island have proceeded to Quirambo Island within the last weeks.
- In Muidumbe, an estimate of 54 families with 250 individuals (inclusive of 80 children) have been displaced to Namacande, Miteda and Muatide.
- In Mueda, 91 families with 304 individuals (inclusive of 166 children) have been displaced from Muidumbe and are currently located in Mueda Sede, Mpeme and Imbuho.

Owing to prevailing security concerns in the region reported by displaced families, intentions on duration of their stay in current locations of displacement sites and host communities remains uncertain. Movements in the region continue to be dynamic within the districts. The objective of the Emergency Tracking Tool (ETT) - Movement Alert is to collect information on large and sudden population movements, providing humanitarian response partners with data on IDPs to support effective humanitarian response. Information is collected through key informants' interviews or direct observation. This alert provides basic information on displacements, and additional information can be shared upon request.

**URGENT NEEDS**

Urgent needs are calculated by weighting the total number of IDP arrivals in each group against the stated priority
