

# WEEKLY DISPLACEMENT SNAPSHOT (19)

06 February 2024

Displacement Data Reporting Date: 02 February 2024

Mixed Cross-Border Movement Reporting Date: 04 February 2024

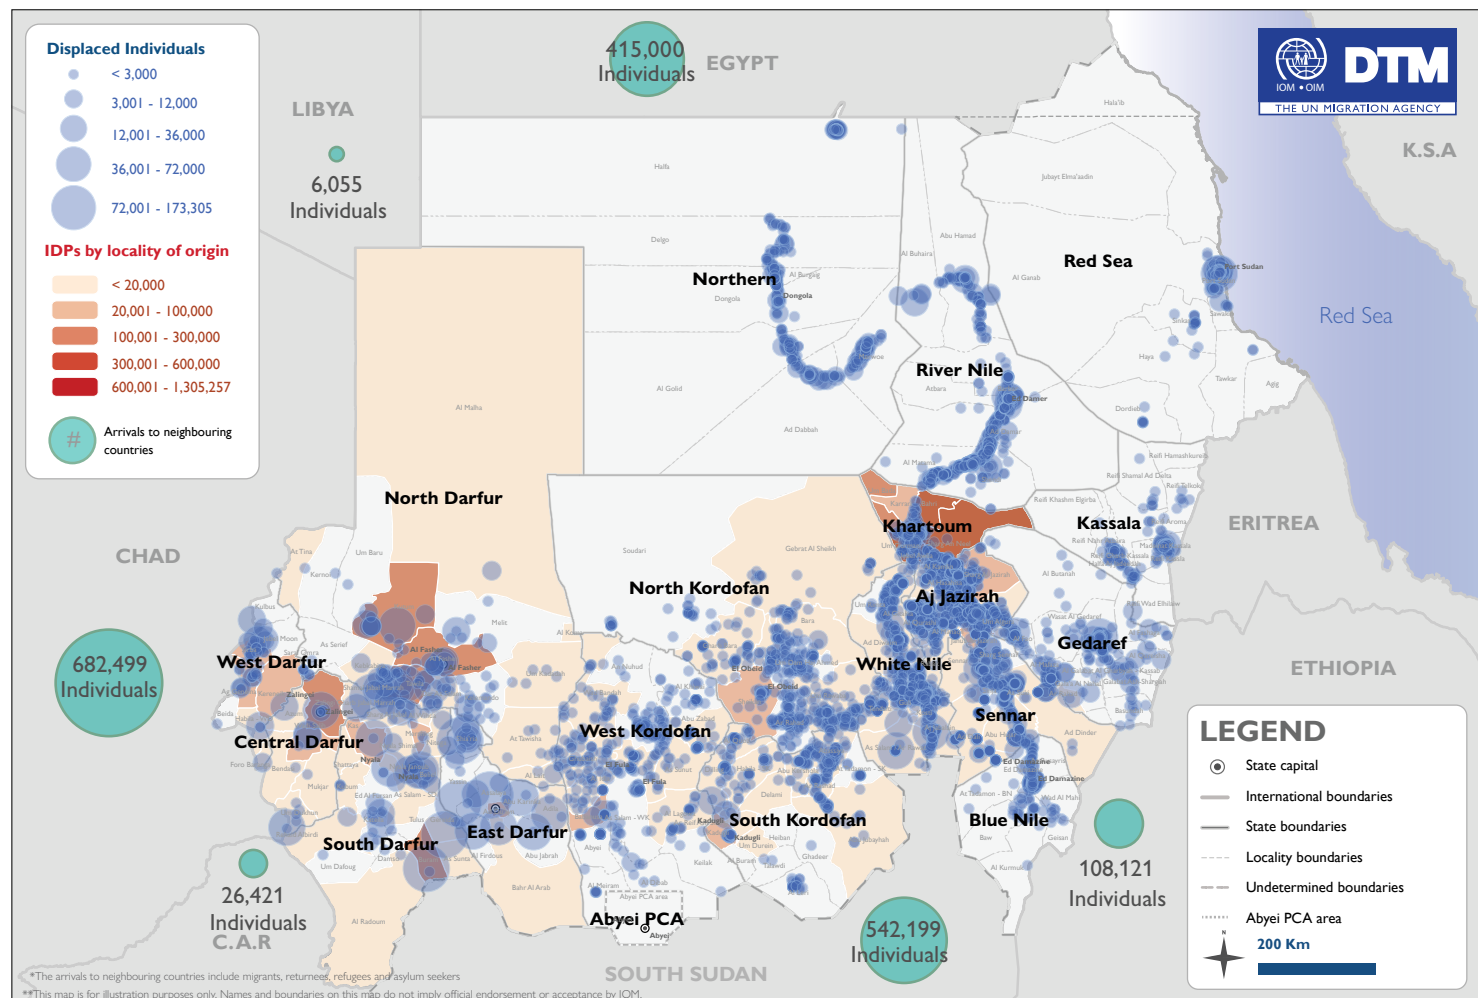

## Overview

From 15 April 2023, armed clashes erupted between the Sudanese Armed Forces (SAF) and the Rapid Support Forces (RSF). As a result of the military clashes, DTM Sudan estimated that 6,144,363 individuals (1,224,269 households) were recently internally displaced. The internally displaced persons (IDP) caseload was observed in 6,594 locations across all of Sudan's 18 states.\* The highest proportions of IDPs were observed across South Darfur (12%), River Nile (11%), East Darfur (11%), White Nile (8%), North Darfur (8%), Northern (7%) and Sennar (7%).

Field teams reported that the IDPs were originally displaced from twelve states. The majority (3,522,784 IDPs, 57%) were reportedly displaced from Khartoum state; followed by South Darfur (15%), North Darfur (8%), Aj Jazirah (7%), Central Darfur (4%), West Darfur (3%), East Darfur (1%), South Kordofan (1%), West Kordofan (1%), North Kordofan (1%), Sennar (<1%), and White Nile (<1%).

DTM Sudan also estimated that approximately 2 per cent of the IDP caseload are non-Sudanese nationals.\*\*

In addition to the internal displacement, the conflict in Sudan has caused the mixed cross border movements of 1,780,295 individuals into neighbouring countries namely: Egypt, Libya, Chad, Central African Republic, South Sudan and Ethiopia. Sixty-three per cent of arrivals tracked in those countries were Sudanese nationals and 37 per cent were estimated to be foreign nationals and returnees. The majority of arrivals were reported in Chad (38%), South Sudan (31%), and Egypt (23%). This product provides a brief snapshot of ongoing displacement across Sudan post-15 April 2023. For more granular information on the humanitarian and displacement context, please see DTM [DTM Sudan's Monthly Displacement Overview 05](#).

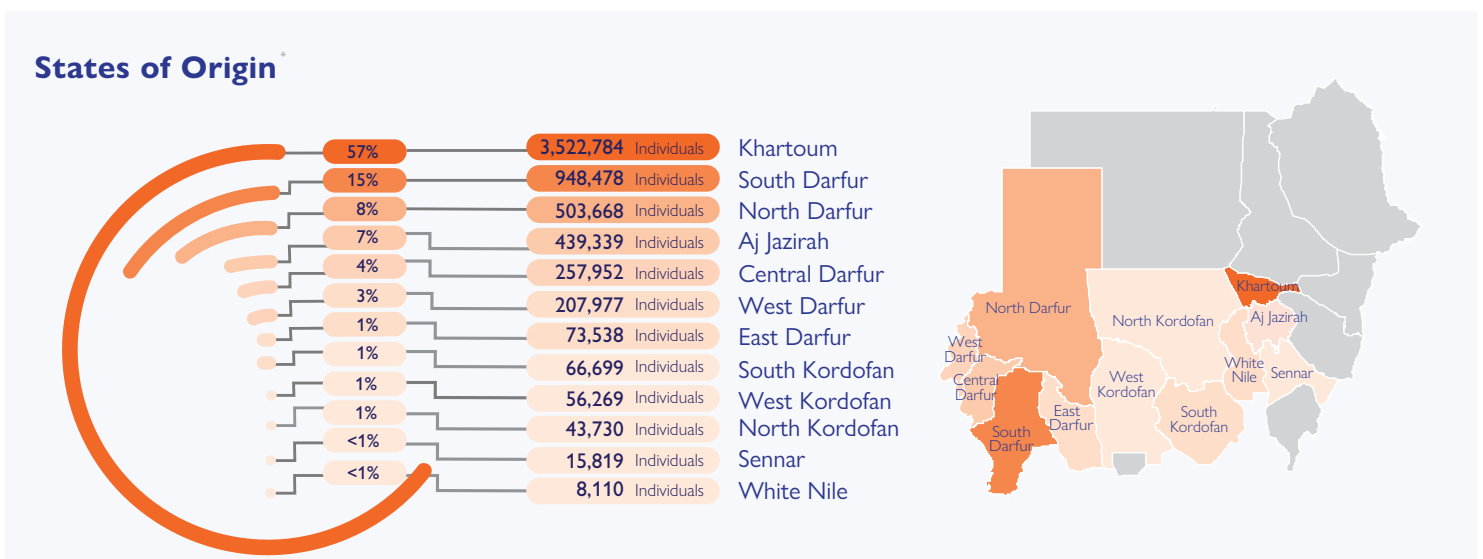

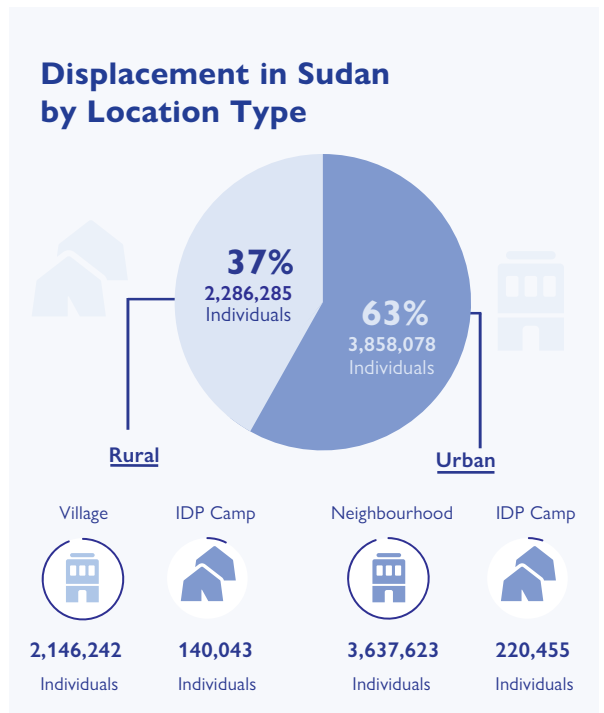

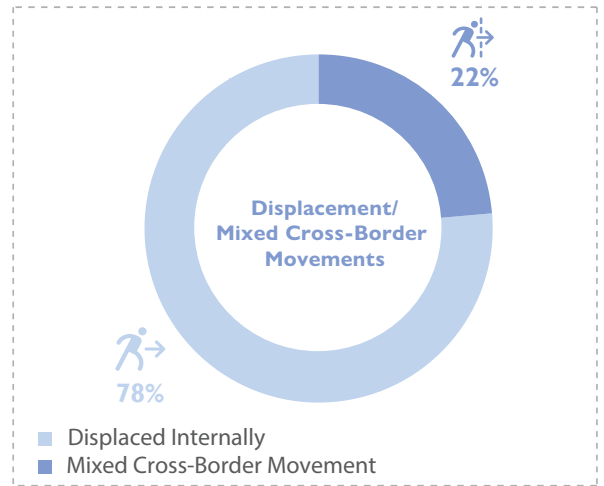

\*The data from many locations has been gathered with the co-ordination of the Humanitarian Aid Commission.

\*\*Field teams collect information on the displacement of foreign nationals in Sudan regardless of whether those individuals have sought registered as a refugee international protection or not. Due to the ongoing operational limitations, DTM is currently unable to distinguish between those who sought asylum and are registered as refugee and those who are not.

States of Displacement	MDO 5 24 Jan 2024	Snapshot19 30 Jan 24	Difference	% Total IDPs*	Number of locations

Table 1: Overview of displacement by state<sup>1</sup>

**Disclaimer:** DTM Sudan is a suite of methodological tools which aims to track and monitor displacement. DTM collects primary data, with a focus on providing best estimates for support of the wider humanitarian community. DTM Sudan notes that military clashes remain continuous in many areas across Sudan. As such, DTM is currently collecting data through a dual combination of face-to-face and remote interviews with key informants across its network. Data on flows into neighbouring countries is based on available information from DTM flow monitoring networks and secondary sources. Figures should be treated as preliminary findings only and are subject to change via future verification exercises. Percentages across the report may not equal 100 per cent due to rounding.

## Displacement of Foreign Nationals within Sudan

 **120,144** → 2%<sup>1</sup>  
individuals

From the total reported IDP caseload, field teams indicated that 120,144 IDPs individuals are foreign nationals (approximately 2% of total IDPs across Sudan). These individuals are located across the following locations, in descending order of the number of foreign nationals: White Nile, Red Sea, Gedaref, Kassala, South Kordofan, Northern, River Nile, Blue Nile, NorthKordofan, and Khartoum.

DTM estimates that the IDP caseload in the remaining states are all Sudanese nationals. The majority of foreign nationals (90,476 IDPs) are located in White Nile state – where they constitute 18 per cent of the IDP caseload in that state. By comparison, foreign nationals constituted smaller proportions of the observed caseload (in descending order of the number of foreign nationals): Red Sea (7%), Kassala (2%) Gedaref (2%), South Kordofan (1%), Khartoum (1%), Blue Nile (<1%), North Kordofan (<1%) and Northern (<1%).

## Mixed Cross-Border Movement

 **1,780,295**  
Mixed Cross-Border Movement

Since the onset of the conflict on 15 April 2023 DTM has noted substantial mixed cross-border movements involving both Sudanese and foreign nationals (including returnees). Field teams reported that reported these movements have proved challenging for communities. Security concerns, such as military clashes, or the breakdown in law and order in many areas, as well as steep fuel and transportation costs, and environmental events (such as flooding during the rainy season) have all impacted options for both domestic and cross-border travel.
