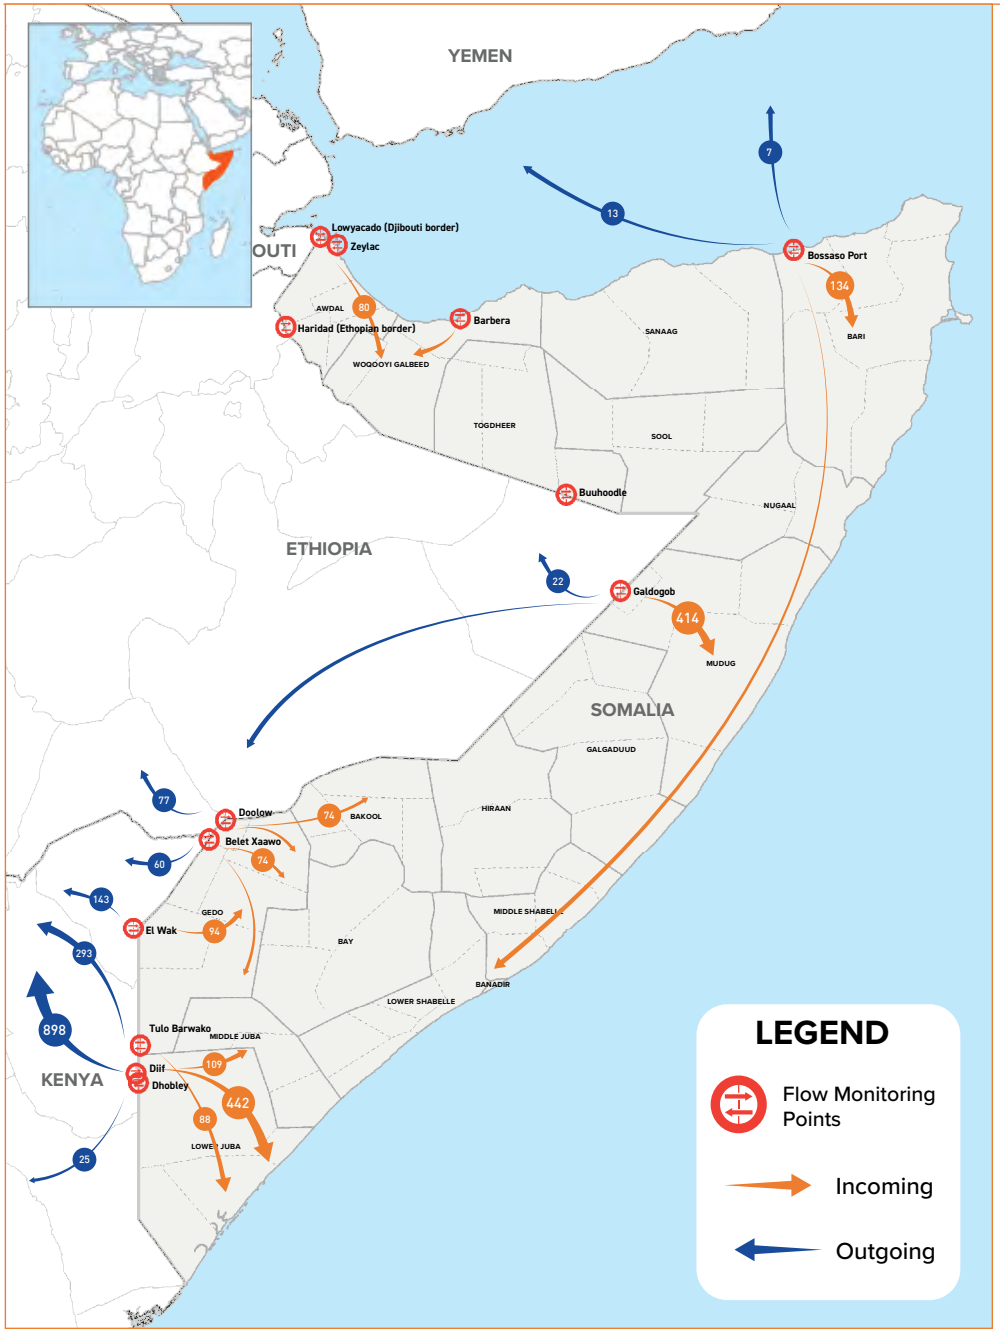
CROSS BORDER MOVEMENTS

NOVEMBER 2017



Disclaimer: The boundaries and the names shown and the designations used on this dashboard do not imply official endorsement or acceptance by IOM.

DTM monitors population movement at 12 border crossing locations between Somalia and neighbouring countries. In November, a total of 5,383 cross border movements were recorded, which represents a slight decrease in comparison with October (when 6,670 individuals were recorded). The majority of both entries and exits for this month have been observed at the Diff Flow Monitoring Point (in the Lower Juba region). Individuals were equally identified as entering and exiting Somalia (both at 50%).
