## CROSS BORDER MOVEMENTS

APRIL 2018

In March, a total of 30,198 individuals were recorded in border crossing points monitored by the DTM. This represents a slight decrease in comparison with March 2018. The percentage of inflows in comparison of outflows has continuously increased since January 2018, reaching 65% of inflows and 35% of outflows for this month. Most movements have been recorded in Lower Juba region and northern Somalia (especially Buuhoodle border crossing point). 24% of the total moving population were vulnerable, including pregnant and lactating women, children under 5, unaccompanied minors, persons living with a physical disability and elderly people (over 60 years). Finally, main countries of departure for all flows were Ethiopia (39%), Somalia (34%), Kenya (11%), Djibouti (9%), and Yemen (6%). Main countries of destination for all migrants was Somalia (65%), Kenya (11%), Yemen (11%), Ethiopia (8%), and Djibouti (3%).

### TYPE OF FLOW

### AGE/SEX DISTRIBUTION

	Children 0 - 17	Adults 18+	Total
Male	20%	31%	51%
Female	20%	29%	49%

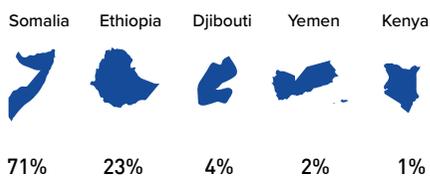

### VULNERABILITIES

Unaccompanied Children	1%
Physical Disability	2%
Elderly	6%
Children Under 5	9%
Pregnant and lactating women	5%

A total of 7,202 vulnerabilities has been reported in April 2018. Vulnerabilities maybe overlapping, hence individuals may have more then one vulnerability

\* The percentages are calculated on the total number of persons observed for this month
