CROSS BORDER MOVEMENTS

MAY 2018

In May, a total of 31,464 individuals were recorded in border crossing points monitored by the DTM. This represents a slight increase in comparison with April 2018. The ratio of inflows and outflows remained relatively stable, with 63% of flows entering Somalia and 37% exiting Somalia. This month saw a significant increase of movements from Ethiopia to Somaliland, through the Harirad border point (4,083) along the Ethiopian border. Significant movements through the Lowyacado point (4,348) along the Djibouti border were also recorded. The Elayo border point in Sanaag also saw a significant number of exits, all headed to Yemen (2,970). Main nationality observed are Somali (64%), Ethiopian (25%), and Djiboutian (8%); Yemeni and Kenyan nationals represent 1% each. Finally, main countries of departure for all flows were Ethiopia (48%), Somalia (29%), Djibouti (11%), Kenya (8%), and Yemen (3%). Main countries of destination for all migrants was Somalia (68%), Ethiopia (12%), Yemen (10%), Kenya (7%), and Djibouti (2%)

TYPE OF FLOW

AGE/SEX DISTRIBUTION

	Children 0 - 17	Adults 18+	Total
	20%	29%	49%
	21%	30%	51%

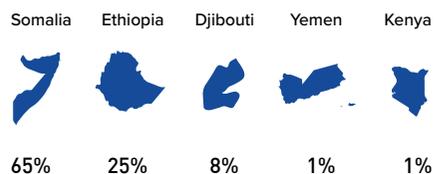

VULNERABILITIES

	Unaccompanied Children	1%
	Physical Disability	3%
	Elderly	6%
	Children Under 5	9%
	Pregnant and lactating women	6%

A total of 8,038 vulnerabilities has been reported in May 2018. Vulnerabilities may be overlapping, hence individuals may have more than one vulnerability

* The percentages are calculated on the total number of persons observed for this month
