Preliminary Site Profiles  
**DISPLACEMENT TRACKING MATRIX**  
**PHILIPPINES 2018**

Published on: 2018-09-28

Survey Date: 2018-09-26

Site Location: 16.418249476701, 120.592763470485

Site ID:	PHL_28
Site type:	Collective
Date site opened:	2018-09-16
Date the majority of displaced individuals arrived at the site:	2018-09-16
Expected period of displacement:	Between 1 month and 3 months
Place of origin of largest group of IDPs:	First gate, Itogon, Benguet
Is the site easily accessible?	Yes

Site Information	
Is there a Site Management Committee at the site?	Yes
Is the Site Management Committee made up of community members?	Yes
What type of organization is managing the site?	Religious Entity
Is there a Site Management Agency at the site?	Yes
Is there any registration activity?	Yes
Is there a service provider contact list?	Yes

Households

**63**  
IDPs

### NEEDS

First most urgent need:	Relocation site
Second most urgent need:	Work
Third most urgent need:	Scholarship for children

### VULNERABILITIES

Number of pregnant women:	1	Number of persons with chronic diseases / serious medical conditions:	0	Number of separated children:	0
Number of breastfeeding mothers:	4	Number of child-headed households:	0	Number of orphaned children:	0
Number of persons with physical disabilities:	0	Number of unaccompanied elderly persons:	0	Number of single-female-headed households:	1
Number of persons with mental disabilities:	0	Number of unaccompanied children:	0	Number of single-male-headed households:	0

### SHELTER

Most common type of shelter:	Halls without privacy partitions
Number of households living outside:	0
Number of households living in tents:	0
Number of households living in makeshift shelters:	0
Number of households living indoors:	15

### WASH

Location of site's main water source:	On-site (>20 minutes)
Number of functioning toilets available at the site:	3
Availability of separate male and female latrines:	No
Availability of separate male and female bathing areas:	No

### FOOD

Frequency of food (or cash/vouchers) distribution:	Irregular
Availability of supplemental feeding for pregnant and lactating mothers:	No
Availability of supplemental feeding for children:	Yes

### HEALTH

Most prevalent health problems at the site:	Pneumonia
Second most prevalent health problem at the site:	URTI

### EDUCATION

Access to formal/informal education services for Distance to nearest education facility:	Yes > 10 km
Percentage of the children at the site attending school:	< 50%

### PROTECTION

Security is provided at the site:	No
Security incidents are reported at the site:	No
Is there adequate lighting in the majority of communal points?	Yes, there is lighting and it is adequate

### RETURN

What is preventing the largest IDP group from returning home?	House Damaged / Destroyed
