

OVERVIEW

In collaboration with Chiure District Administrative Government, Serviço Distrital de Planeamento e Infra-Estrutura (SDPI) and local authorities, IOM's Displacement Tracking Matrix conducted movement intention surveys to **783** households hosting **3,136** individuals displaced from Chiure and Macomia districts in Cabo Delgado. Conflict and/or fear of attacks due to Non-State Armed Groups (NSAGs) in Cabo Delgado was the main trigger of displacement. At least 70% were displaced from Chiure Velho, 26% from Mazeze and 2% were from Ocuca posto. Other postos of origin includes Chiure sede, Katapula, Quiterajo and Mucojo.

An on-going household verification exercise confirmed the presence of **1,965** households hosting **8,600** individuals in Chiure Posto. Females constitutes 55% of the IDPs whilst 45% are males. Children make up 58% of those remaining displaced within the district.

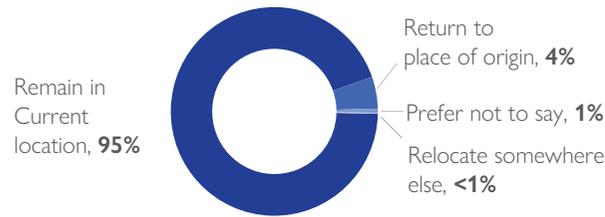

DEMOGRAPHIC PROFILE OF VERIFIED IDPS

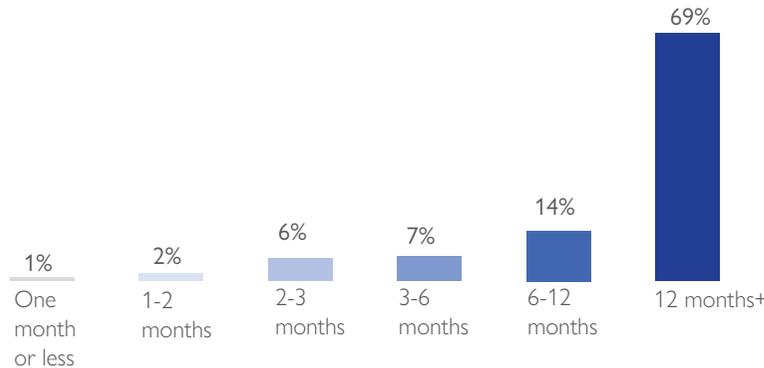

SELF-REPORTED VULNERABILITIES OF VERIFIED IDPS

INTENTIONS (Within 7 days)

INTENDED PERIOD OF STAY

RETURN INTENTIONS

If you intend to return to your place of origin or go to another area, when do you intend to do so?

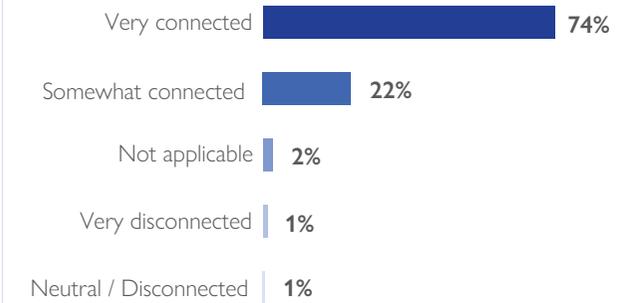

IDPs who intend to return need:
