

OVERVIEW

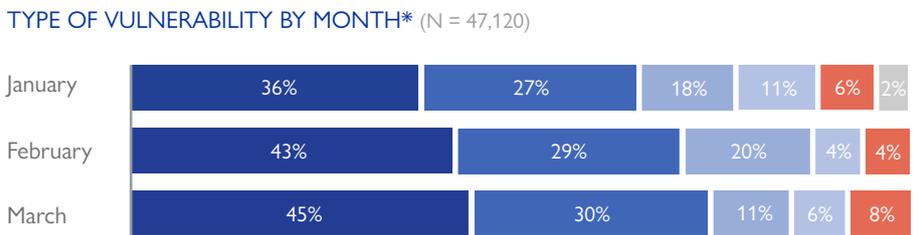

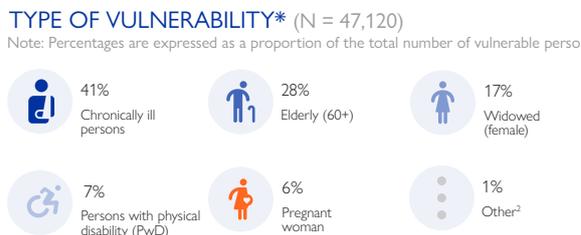

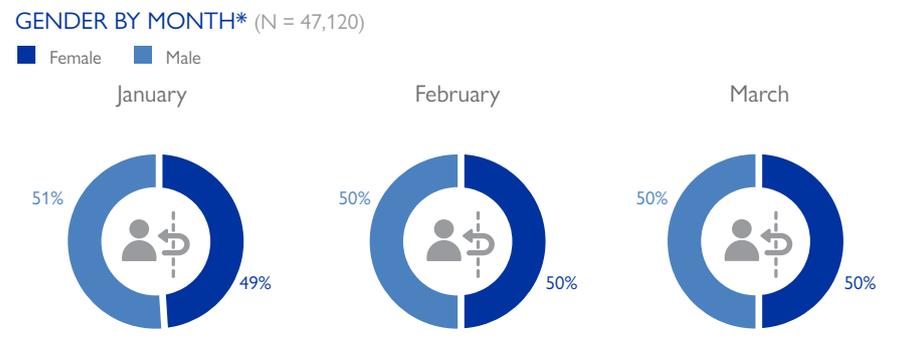

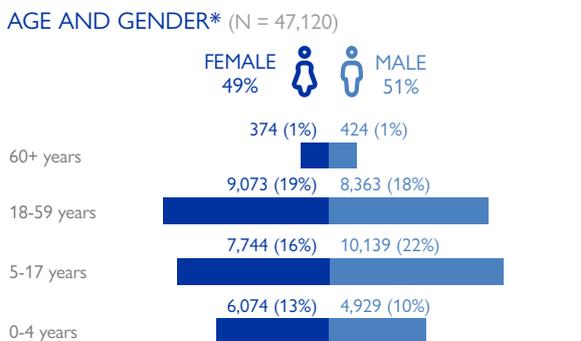

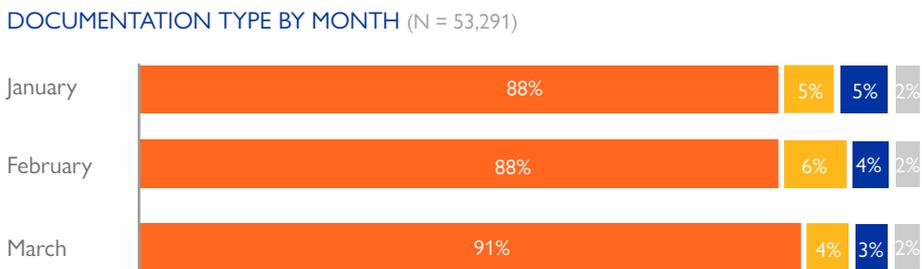

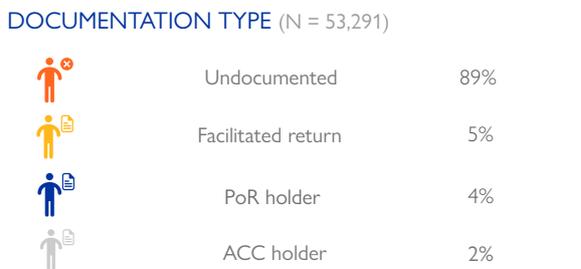

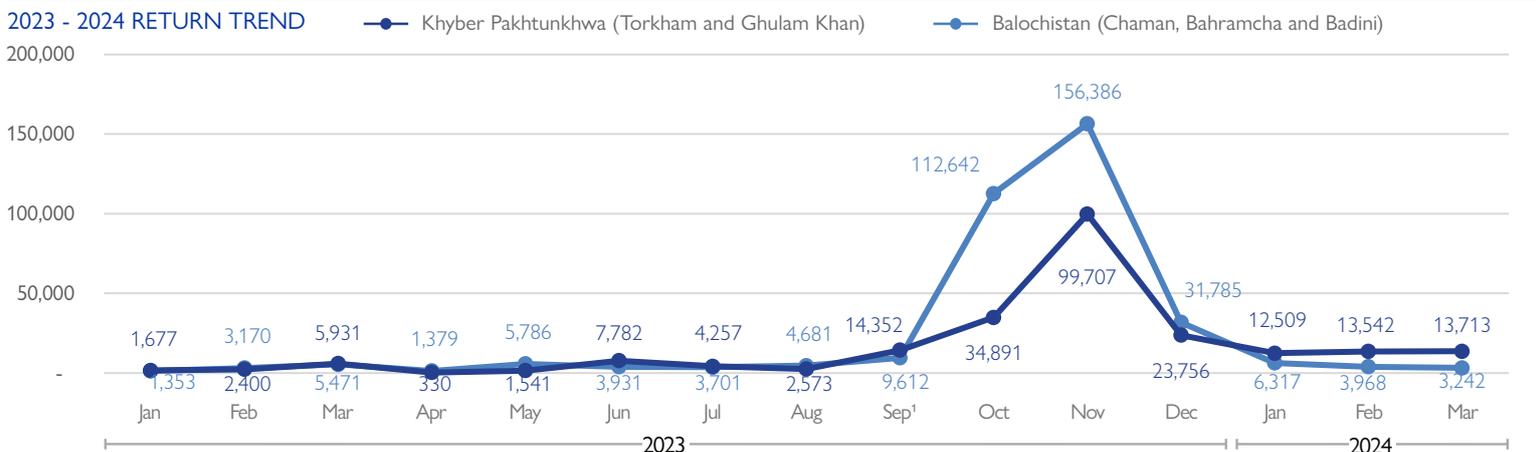

The International Organization for Migration (IOM) in Pakistan collects data on the outflows of Afghans at the Torkham (Khyber Pakhtunkhwa), Badini, Bahramcha and Chaman (Balochistan) border crossing points (BCPs) to better understand the movements of Afghans returning to Afghanistan. The data presented below is harmonised with those from the United Nations High Commissioner for Refugees (UNHCR), who also cover Ghulam Khan (Khyber Pakhtunkhwa).

On 26 September 2023, the Ministry of Interior in Pakistan announced its decision to enact its “Illegal Foreigners’ Repatriation Plan (IFRP)”. Since 1 January 2024, IOM identified 54,227 returns at the five BCPs. Cumulatively, from 15 September 2023, 545,118 individuals have returned to Afghanistan. Ten per cent (54,227 individuals) of this total have returned between January and March 2024.

KEY FINDINGS

- During this reporting period, 53,291 Afghan nationals returned to Afghanistan, including 33,593 (63%) through the Torkham BCP, 13,208 (25%) through the Chaman BCP, 6,171 (11%) through the Ghulam Khan BCP, 319 (1%) through the Badini BCP, while no Afghan nationals returned through the Bahramcha BCP. In addition, border authorities deported 936 individuals due to a lack of valid documentation.
- Between January and March 2024, DTM teams have observed an 88 per cent decrease in returns as compared to the previous quarterly report (October – December 2023).
- In terms of reasons for outflows, during the current reporting period, 75 per cent of the surveyed returnee families indicated they are moving back to Afghanistan due to fear of arrest.
- During the reporting period, two per cent of the overall flow could be considered vulnerable persons.

54,227 AFGHAN NATIONALS RETURNED TO AFGHANISTAN BETWEEN JANUARY AND MARCH 2024

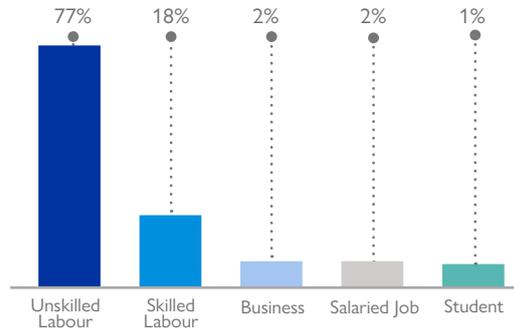

* An asterisk means the visual only applies to ACC holders and undocumented Afghans returning through Torkham, Badini, Bahramcha and Chaman, excluding deportees and data collected by UNHCR.

¹ As of 15 September 2023, IOM and UNHCR have harmonized their flow monitoring data, therefore, data prior to 15 September 2023 does not include PoR holders.

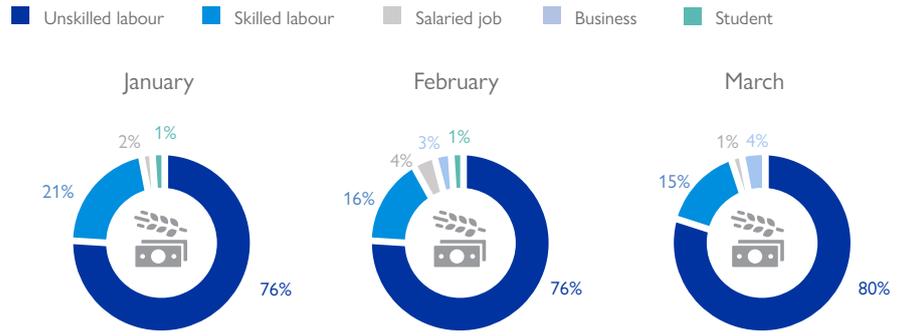

² Other vulnerable persons include: other special cases.
