OVERVIEW

Sudan hosted an estimated 10,095,054 internally displaced persons (IDPs), including those displaced both before and after the outbreak of conflict between the Sudanese Armed Forces (SAF) and Rapid Support Forces (RSF) on 15 April 2023.¹ An estimated 7,262,187 individuals were displaced internally since 15 April 2023, many of whom were initially displaced prior to the onset of the conflict and therefore experienced secondary displacement. An estimated 2,170,592 individuals reportedly crossed borders into neighbouring countries since 15 April 2023.

This report analyses displacement movements and key demographic information for the total population of IDPs across Sudan, as well as data on mixed cross-border movements into neighbouring countries.

Internal Displacement in Sudan Since 2003

This timeline only represents a few displacement events in Sudan from 2003-2024. All reports and datasets are available on the DTM-IOM website.

INTERNAL DISPLACEMENT PRIOR TO 15 APRIL 2023

Prior to the onset of conflict on 15 April 2023, Sudan already hosted an estimated 3,820,772 IDPs.² The majority (80%) reportedly originated from Darfur states. IDPs were reported across 1,053 locations in 17 different states in Sudan.

Of the IDPs displaced prior to 15 April 2023, an estimated 26 per cent (987,905 IDPs) experienced secondary or tertiary displacement due to armed clashes after 15 April 2023. DTM estimated that 2,832,867 IDPs who were displaced before 15 April 2023 remained in their initial areas of displacement. The majority (75%) were concentrated across the Darfur states and nearly half (47%) were initially displaced between 2003 and 2010.

INTERNAL DISPLACEMENT POST 15 APRIL 2023

Since 15 April 2023, an estimated 7,262,187 individuals were displaced internally within Sudan, many of whom were already displaced prior to the onset of conflict.³

While displacement before 15 April 2023 was primarily concentrated within Darfur and Kordofan states, displacement after 15 April 2023 was more widespread. IDPs were reportedly displaced from 17 different states of origin to 8,238 different locations across all 18 states in Sudan. Khartoum represented the top state of origin among IDPs: an estimated 36 per cent of all IDPs in Sudan (3,664,988 individuals) reportedly originated from Khartoum.

1. DTM Sudan defines an internally displaced person as any person who has been forced or obliged to flee from their habitual residence due to an event dating from 2003 onwards.

2. As of 15 March 2023, Sudan hosted an estimated 3,820,772 IDPs. For more information, see [DTM Sudan Mobility Tracking Round 6](#).

3. The figure for the estimated number of IDPs displaced post 15 April 2023 (7,262,187 IDPs) includes the approximately 987,905 IDPs who were initially displaced prior to 15 April 2023 and experienced secondary or tertiary displacement since 15 April 2023. The figure reported for IDPs displaced prior to 15 April 2023 (2,832,867 IDPs) does not include those who displaced again since 15 April 2023 in order to avoid double counting.

* Internal displacement data is valid as of 21 May 2024. ** Mixed cross-border movement data is valid as of 29 May 2024.

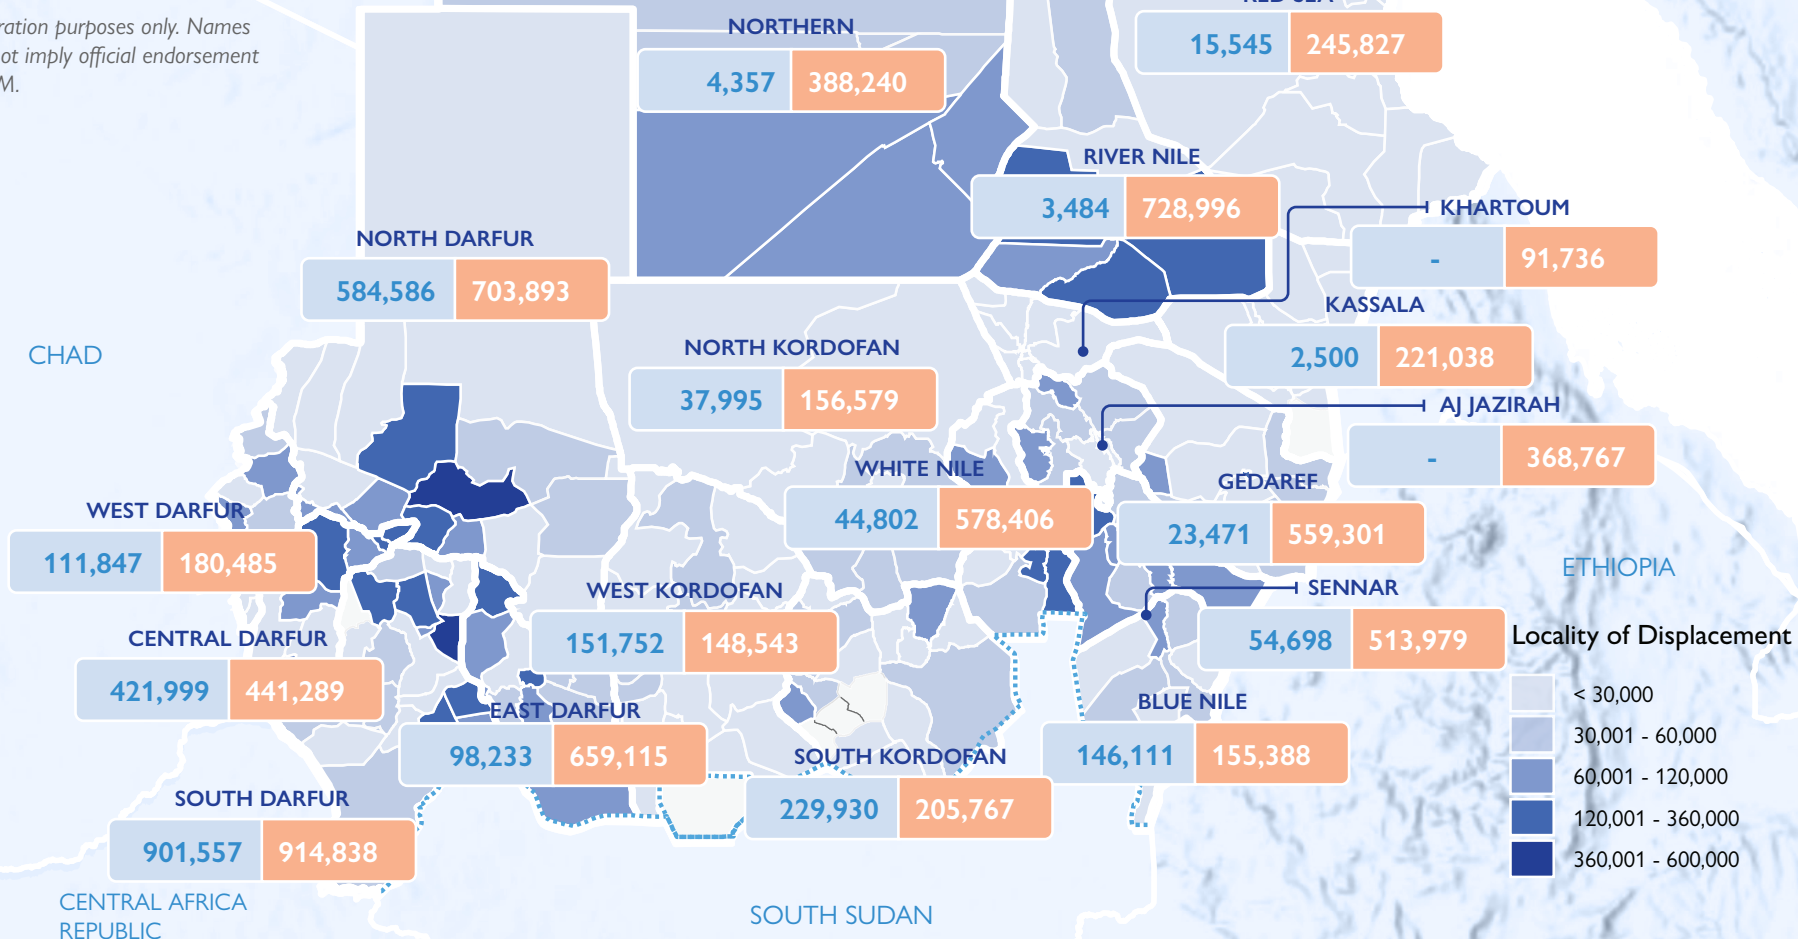

IDPs PER STATE

PRE AND POST 15 APRIL 2023

2,832,867 Displaced Prior to 15 April 2023

7,262,187 Displaced Since 15 April 2023

This map is for illustration purposes only. Names and boundaries do not imply official endorsement or acceptance by IOM.

The estimated figures for IDPs displaced post 15 April 2023 (7,262,187 IDPs) includes the estimated 987,905 individuals who were initially displaced before April 2023 and experienced secondary displacement since 15 April 2023. The estimated figures for IDPs displaced prior 15 April 2023 (2,832,867 IDPs) represents the estimated [3,820,772 IDPs](#) recorded in Sudan in March 2023, minus the estimated 987,905 IDPs who were displaced again after 15 April 2023, in order to avoid double counting.

DISPLACEMENT PATHWAYS

The top states of origin were Khartoum (36%, 3,664,988 IDPs), South Darfur (21%), and North Darfur (12%). IDPs were reportedly displaced to 8,238 different locations in 183 localities across all 18 states. The states of hosting the most IDPs were South Darfur (18%), North Darfur (13%) and Central Darfur (9%).

Over a third (36%) of all IDPs originated from Khartoum. IDPs from Khartoum were displaced across all 18 states, including River Nile (19%), White Nile (14%), and Northern (10%). Notably, 97 per cent of IDPs in River Nile were reportedly displaced from Khartoum.

Top 5 States of Origin

State of Displacement	Localities	Locations	Current IDPs	Current HHs	IDPs %
Aj Jazirah	8	1,530	368,767	73,196	4%
Blue Nile	7	194	301,499	59,745	3%
Central Darfur	9	112	863,288	181,054	9%
East Darfur	9	40	757,348	148,887	8%
Gedaref	12	332	582,772	118,881	6%
Kassala	10	248	223,538	44,770	2%
Khartoum	7	312	91,736	18,260	1%
North Darfur	17	277	1,288,479	276,364	13%
North Kordofan	8	586	194,574	37,276	2%
Northern	7	373	392,597	79,131	4%
Red Sea	10	262	261,372	52,822	3%
River Nile	7	958	732,480	143,454	7%
Sennar	7	412	568,677	109,557	6%
South Darfur	20	152	1,816,395	367,696	18%
South Kordofan	14	507	435,697	81,768	4%
West Darfur	8	126	292,332	58,892	3%
West Kordofan	14	659	300,295	53,769	3%
White Nile	9	1,158	623,208	122,298	6%
Total	183	8,238	10,095,054	2,027,820	100%

Displacement Pathways (Continued)

In contrast, IDPs from Darfur and Kordofan states were primarily displaced within these same states, across the western regions of Sudan. Approximately 84 per cent of IDPs from South Darfur were displaced to other locations within South Darfur and 16 per cent were displaced to other states in the Darfur region.

South Darfur remained the largest hosting state across Sudan for IDPs displaced both before and after 15 April 2023, with an estimated 1,816,395 IDPs as of 21 May 2024. Of these, approximately 50 per cent were displaced prior to 15 April 2023.

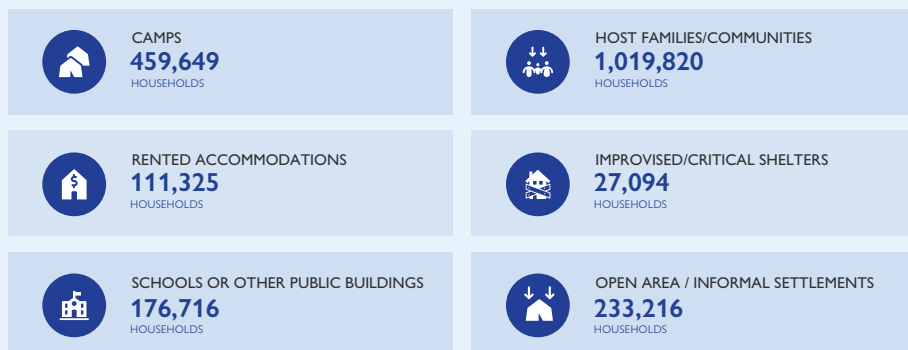

Internal Displacement Since 2023

SHELTER TYPES FOR IDP HOUSEHOLDS

Approximately 50 per cent of IDP households stayed with host families and communities. Others reportedly stayed in camps (24%), schools or other public buildings (9%), informal settlements or open areas (10%), and private rented accommodation (5%). The distribution of shelter types varied widely across different states. The majority of IDPs in Khartoum and Aj Jazirah reportedly

stayed with host families (87% and 84%, respectively). In contrast, IDPs in South Darfur reportedly stayed in camps (61%), with host families (24%), and in schools or other public buildings (7%).

4. Totals may not equal 100 per cent due to rounding.

DEMOGRAPHIC PROFILES

Approximately 52 per cent of IDPs were female, while an estimated 48 per cent were male.⁴ Over half of IDPs (55%) were children under the age of 18-years-old, while approximately a quarter (25%) were children under five-years-old. Approximately 29 per cent of IDPs were female children under 18-years-old, who reportedly faced unique protection risks. Of total IDPs in each state, the states with the highest proportion of displaced children under the age of 18-years-old were reported in Red Sea (60%), North Darfur (59%), and South Darfur (58%).

SUDANESE AND NON-SUDANESE NATIONALS

Of IDPs displaced after 15 April 2023, DTM estimated that 119,987 IDPs (approximately 1%) were non-Sudanese nationals. White Nile state hosted the highest proportion of foreign national IDPs, reflecting its role as a transit state for South Sudanese nationals. Specifically, approximately 14 percent of IDPs in White Nile state were non-Sudanese nationals.

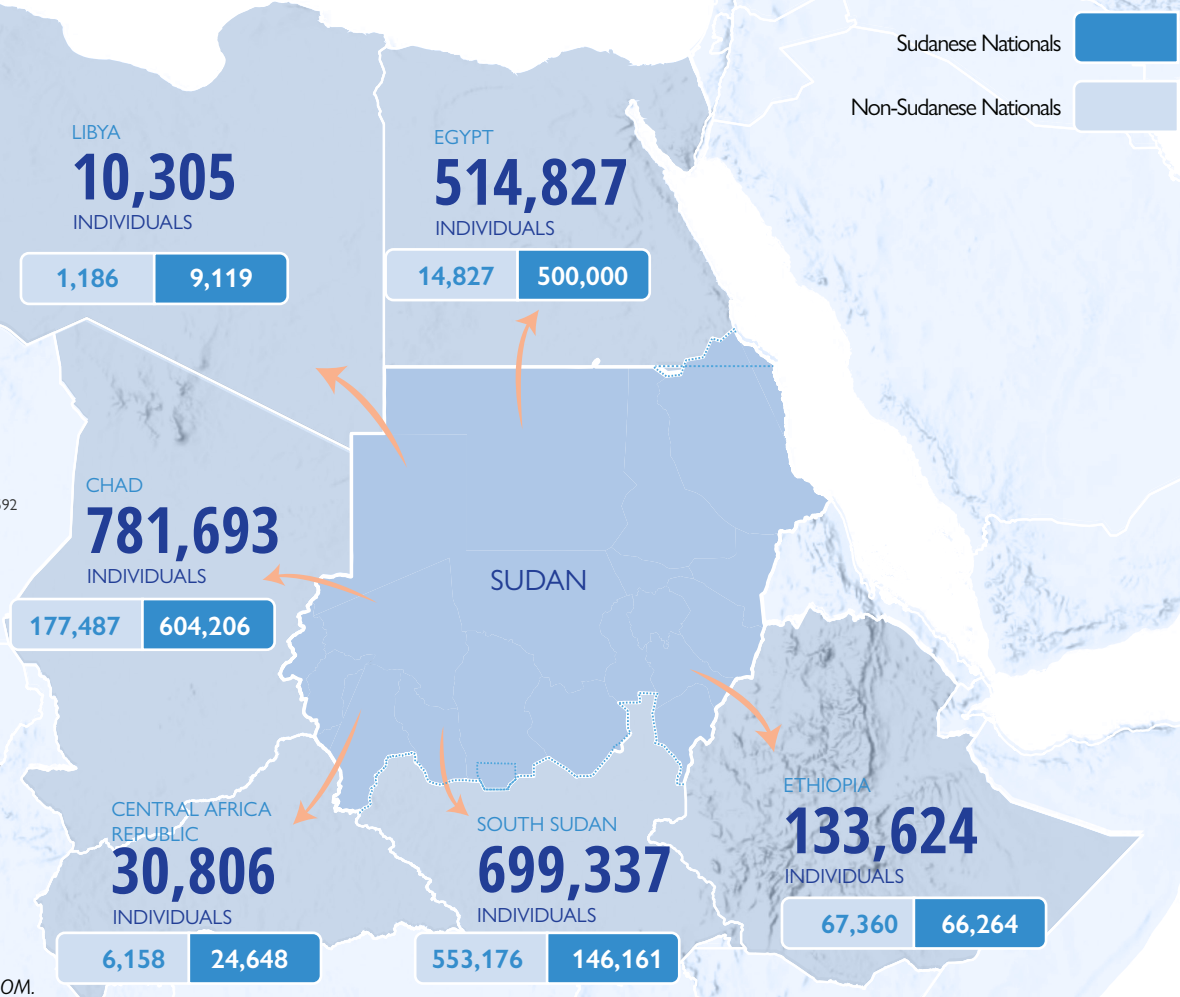

Proportion of Non-Sudanese IDPs Per State

MIXED CROSS-BORDER MOVEMENT SINCE 15 APRIL 2023

Since the outbreak of the conflict on 15 April 2023, an estimated 2,170,592 individuals crossed borders into neighbouring countries. The majority reportedly crossed into Chad (36%), South Sudan (32%), and Egypt (24%). Of these individuals, an estimated 62 per cent were Sudanese nationals, while 38 were foreign nationals or returnees. However, the proportion of Sudanese versus non-Sudanese nationals varied by country. An estimated 97 per cent of individuals who crossed into Egypt were reportedly Sudanese nationals. By contrast, an estimated 79 per cent of individuals who crossed into South Sudan were non-Sudanese nationals, primarily South Sudanese nationals.

Mixed Cross-Border Movement Since 15 April 2023

DISPLACEMENT TRACKING MATRIX (DTM)

DISCLAIMER

Due to on-going insecurity, DTM collects data through a dual combination of face-to-face and remote interview with key informants across its network. Figures should be understood as preliminary estimates and are subject to change pending future verification exercises. Percentages across the report may not equal 100 per cent due to rounding.

METHODOLOGY

DTM Sudan is a suite of methodological tools which aims to track and monitor displacement. DTM collects primary data, with a focus on providing best estimates for the humanitarian community. The data collection is based on DTM's Flow Monitoring and Mobility Tracking methodology. For further information, see [DTM Methodological Note](#).
