

## OVERVIEW

The International Organization for Migration (IOM) in Pakistan collects data on the outflows of Afghans at the Torkham (Khyber Pakhtunkhwa), Badini, Bahramcha and Chaman (Balochistan) border crossing points (BCPs) to better understand the movements of Afghans returning to Afghanistan. The data presented below is harmonised with those from the United Nations High Commissioner for Refugees (UNHCR), who also cover Ghulam Khan (Khyber Pakhtunkhwa).

On 26 September 2023, the Ministry of Interior in Pakistan announced its decision to enact its “Illegal Foreigners’ Repatriation Plan (IFRP)”. Between 1 and 15 June 2024, 22,167 Afghan nationals returned to Afghanistan, including 18,367 through the Torkham BCP, 3,439 through the Chaman BCP, 361 through the Ghulam Khan BCP, while no Afghan nationals returned through the Badini and Bahramcha BCPs. In addition, border authorities deported 404 individuals due to a lack of valid documentation. Since 1 January 2024, IOM identified 141,089 returns at the four BCPs.

## HIGHLIGHTS

- During this reporting period (1 – 15 June 2024), DTM teams have observed a slight increase of four per cent in returns compared to the last two weeks of May 2024.
- The number of returns during this reporting period continues to surpass the weekly return figures recorded since January 2024
- Cumulatively, from 15 September 2023, 631,980 individuals have returned to Afghanistan. Twenty-two per cent (141,089 individuals) of this total have returned since 1 January 2024.
- In terms of reasons for outflows, during the current reporting period, 90 per cent of the surveyed returnee families indicated they are moving back to Afghanistan due to fear of arrest.
- During the reporting period, one per cent of the overall flow could be considered vulnerable persons.
- The average cost of travel was higher from the border to the point of destination (PKR 45,649 or USD 164) compared to the point of origin to the border (PKR 41,851 or USD 151).
