DISPLACEMENT TRACKING MATRIX (DTM) AFAR REGION, ETHIOPIA

ROUND 14: NOVEMBER - DECEMBER 2018

Afar REGION - KEY FINDINGS

LOCATION AND CAUSE OF DISPLACEMENT:

50,619 displaced individuals comprising 8,780 households in 54 displacement sites were identified in Afar region. These figures represent an increase of 2,282 in the total individuals (+4.72%) a decrease of (36) households (-0.41%) and since round 13 (September/October 2018) no increment on sites. 14.7% sites opened in 2017 and 1.2% opened in 2018. Drought was the primary cause of displacement for an estimated 35% of the displaced population.

DEMOGRAPHICS: 49% of displaced individuals were female and 51% were male. 59% were younger than 18 years old. 6% were over 60 years old.

SHELTER: 20 sites reported that over 25% of households were living in shelters that were below regional and cultural standards.

WASH: no sites meet SPHERE standards of access to over 15 liters of water per person per day. 44 (81%) displacement sites reported having no latrines.

FOOD, NUTRITION AND LIVELIHOODS: 5 (9%) sites, representing 3,512 individuals, reported no access to food. 87% of sites reported that IDPs did not have access to income generating activities.

HEALTH: Malaria was the primary health concern in this round of data collection with 18 sites reporting this.

EDUCATION: In 9% of sites 50% or less of the children on site are attending formal primary school. Formal primary school education is available at 50 sites. Alternative basic education (ABE) is available at 5 sites.

COMMUNICATION: 57% of sites reported that Families/Friends were IDPs primary source of information followed by Site Management at 24% of sites.

Figure 1 illustrates trends in stock totals of displacement in the region over time compared to recent displacement. Figure 2 shows IDP numbers disaggregated by cause over time.

Figure 2: IDPs by cause of displacement by round

DISPLACEMENT TRACKING MATRIX (DTM) AFAR REGION, ETHIOPIA ROUND 14: NOVEMBER - DECEMBER 2018

MOBILITY TRENDS AND CAUSE OF DISPLACEMENT

Climate Induced has consistently been reported as the primary cause of displacement in the region (as indicated by figure 4). IDPs displaced in 2018, in 2017 and before 2017 reported being displaced by Climate induced.

1.2% of all sites identified opened in 2018 while 14.7% opened between January and December 2017. 84.1% of sites opened before 2017.

Figure 3 shows the number of IDPs displaced by zone and cause of displacement. Figure 4 shows the distribution of IDPs by driver of displacement and time of displacement.

96% of IDPs in the region are internally displaced from the region, within the region. Of the IDPs displaced within the region, 95% were displaced within their zone of origin.

No IDPs had reportedly been previously displaced or leaving the site.

Figure 3: IDPs by zone and cause of displacement

Duration	Conflict	Climate Induced	Other	Grand Total
Before 2017	2,073	38,441	2,052	42,566
During 2017	1,344	3,079	3,035	7,458
In 2018	-	595	-	595
Grand Total	3,417	42,115	5,087	50,619

DISPLACEMENT TRACKING MATRIX (DTM) AFAR REGION, ETHIOPIA

ROUND 14: NOVEMBER - DECEMBER 2018

DURABLE SOLUTIONS, VULNERABILITIES AND DEMOGRAPHICS

None of the sites IDPs foresaw a resolution to their displacement, while IDPs at 100.00% of sites did not.

At 100.00% of sites IDPs prefer reintegration as a durable solution to their displacement while at 0.00% sites they prefer return.

Figure 5 shows the percentage of sites reporting various obstacles to returns, while figure 6 shows support IDPs need to return or reintegrate.

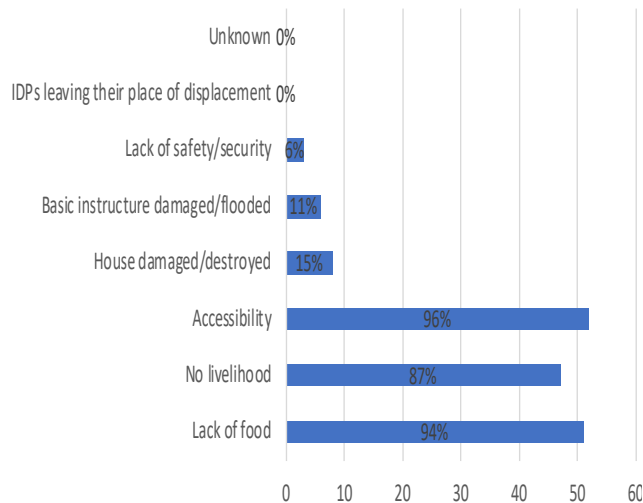

Figure 5: % Sites reporting obstacles to return

The demographic breakdown is shown in figure 7. Individuals with specific vulnerabilities were also reported at displacement sites and are represented in figure 8.

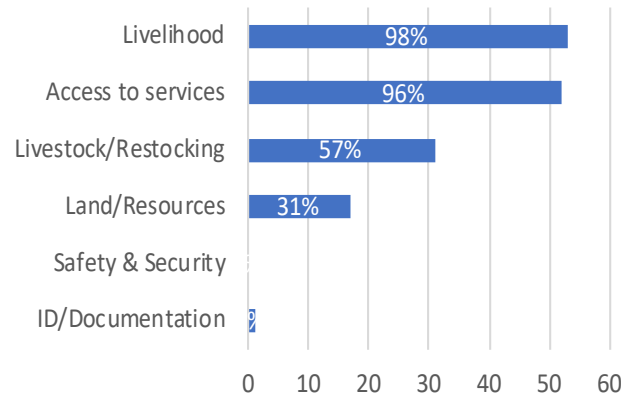

Figure 6: % Sites by support needed to return or reintegrate

DISPLACEMENT TRACKING MATRIX (DTM) AFAR REGION, ETHIOPIA ROUND 14: NOVEMBER - DECEMBER 2018

ABOUT DTM

DTM GLOBAL

The Displacement Tracking Matrix (DTM) is a system to track and monitor displacement and population mobility. It is designed to regularly and systematically capture, process and disseminate information to provide a better understanding of the movements and evolving needs of displaced populations, whether on site or en route. More information is available at www.globaldtm.info.

DTM IN ETHIOPIA

In Ethiopia, data is collected at zone, woreda and site level. Since September 2016, fourteen rounds of assessments have been completed. The DTM programme is implemented in close collaboration with the National Disaster Risk Management Commission, regional, zonal and woreda counterparts and DTMs implementing partner, the Danish Refugee Council (DRC).

METHODOLOGY

IOM's DTM team composed of enumerators from IOM and DRC were deployed across the country to collect the data. The process involved the following steps:

Zone level: Interviews with key informants from

the Disaster Prevention and Preparedness Office (DPPO), community representatives, and the education and health offices collect information including (among others) estimated caseload of displaced population, identification of woredas within the zone that host displaced populations, reason for displacement, time of arrival of IDPs and location of origin.

Woreda level: Information is collected from key woreda informants and includes (among others) estimated length of stay, number of displaced households and individuals at woreda level, displaced population by type of temporary settlements and approximate locations of identifiable displacement sites. The information is used to plan site assessments.

Site assessments: In-depth IDP site assessments capture detailed information through key informant interviews, direct observation and focus group discussions with male, female, elderly, children and IDP representatives. Data on available services by sector, accessibility constraints, exact type, location and name of the site, place of origin of IDPs, estimated size and type of the site and most common type of shelter are captured. Age and gender disaggregation for the site is extrapolated using a demographic calculator

tool based on the age range and sex of the household members of 20 randomly selected households from the site.

and Cooperation SDC

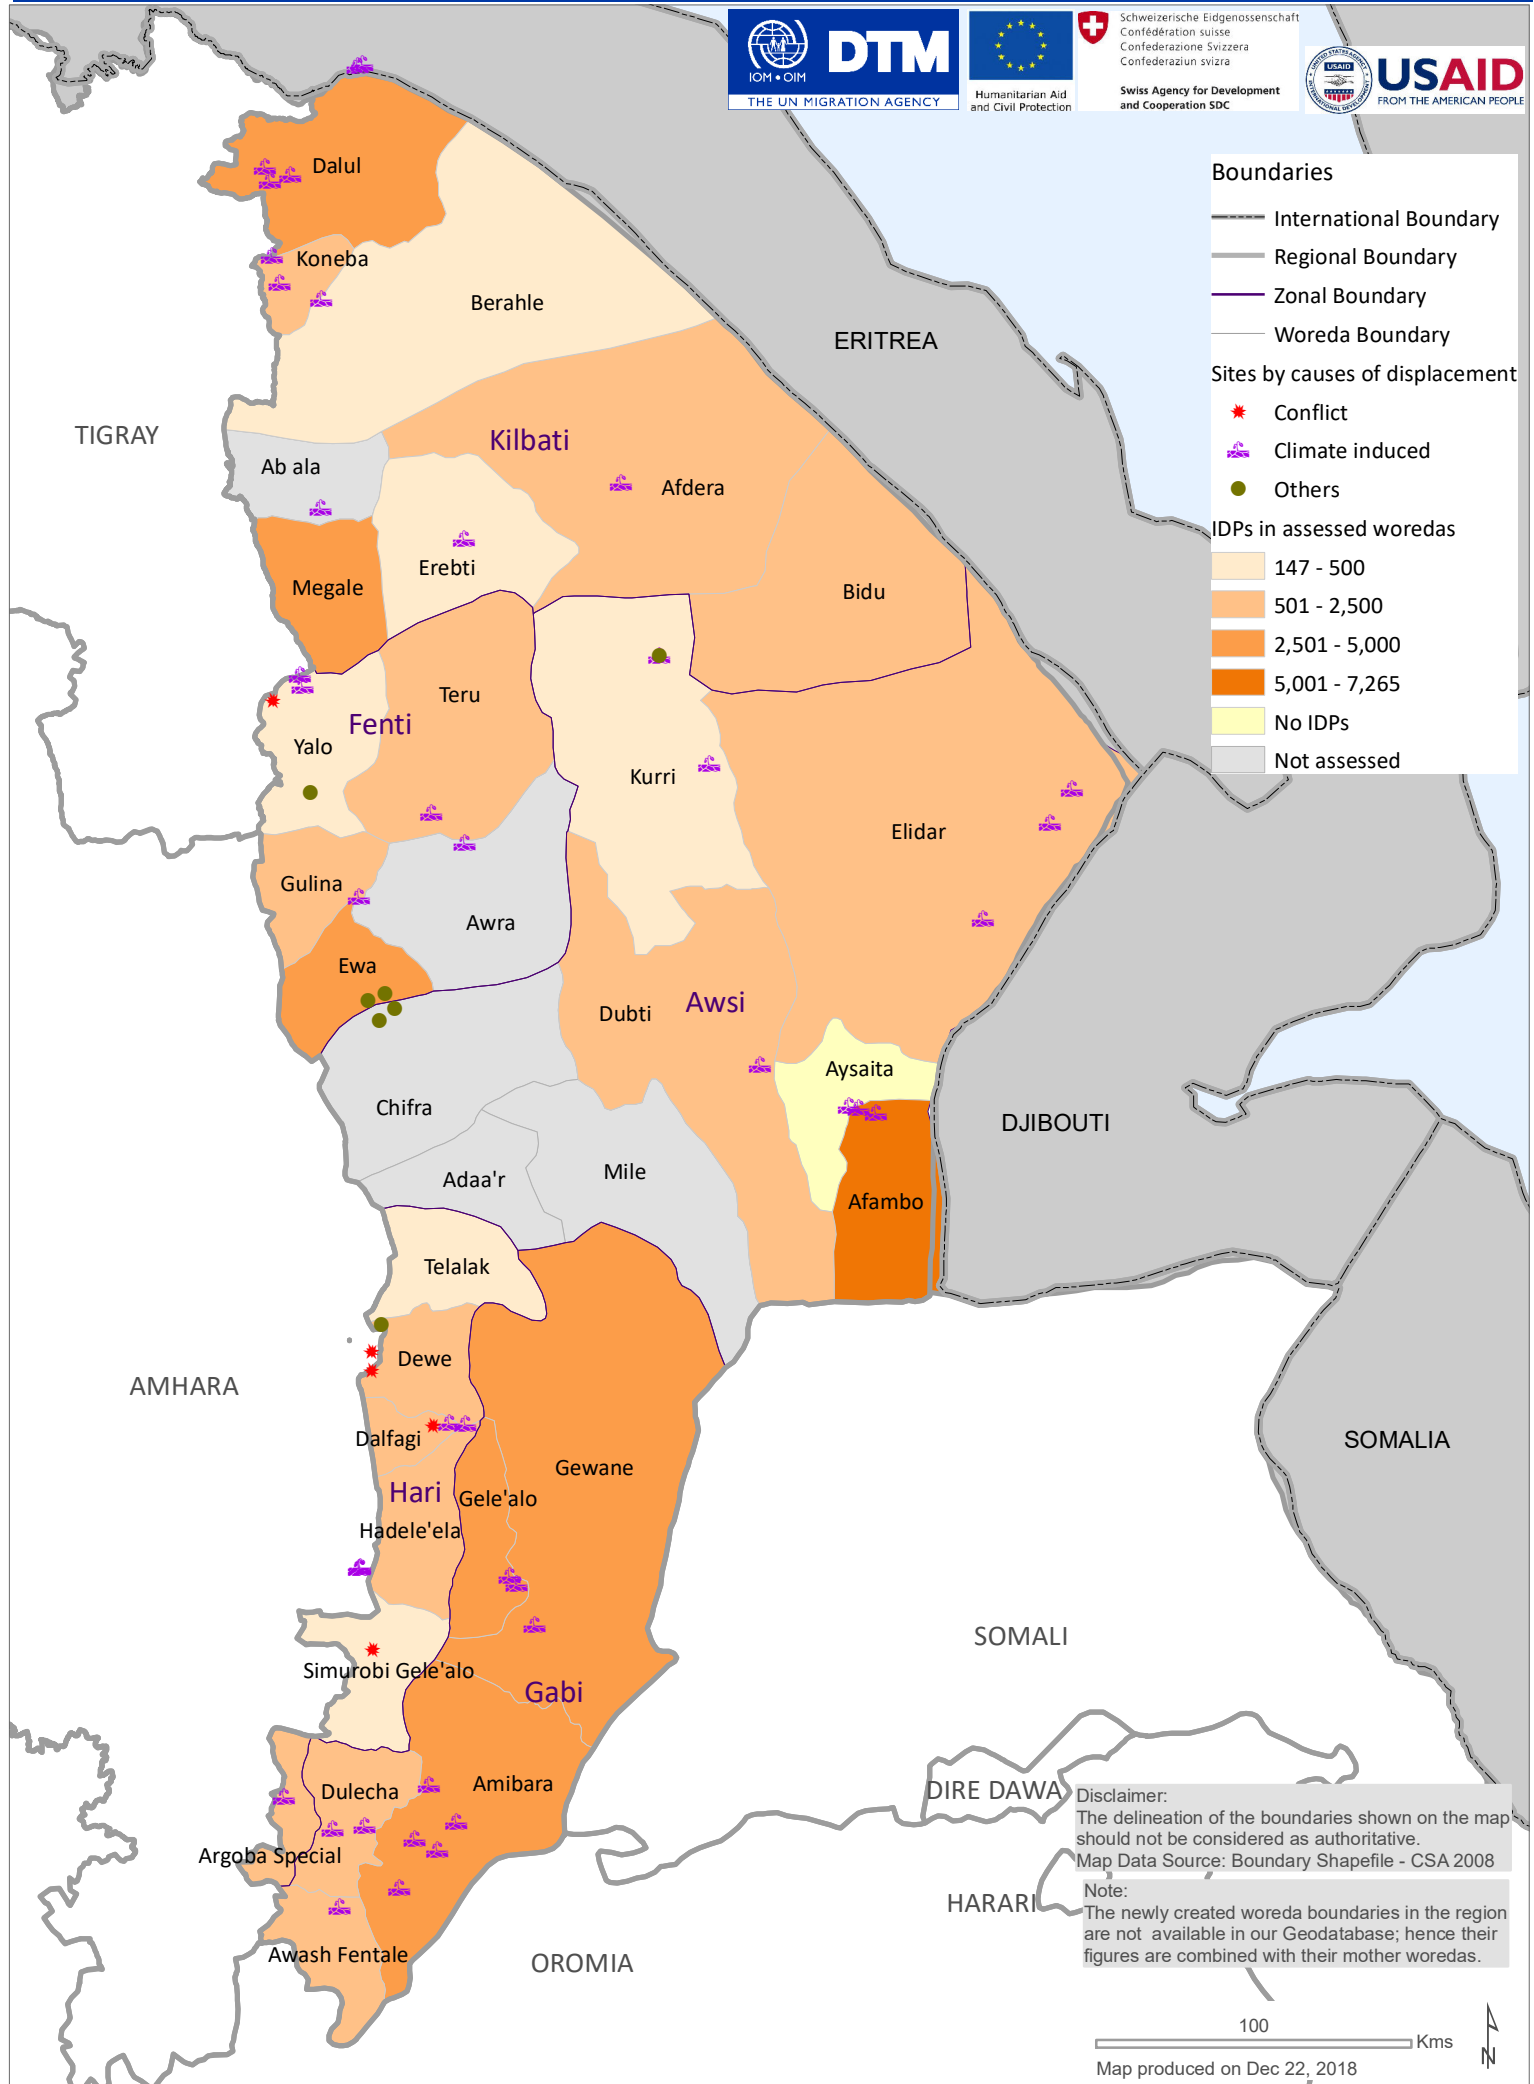

USAID
FROM THE AMERICAN PEOPLE

DTM made possible thanks to the European Civil Protection and Humanitarian Aid Operations (ECHO), the Ethiopian Humanitarian Fund (EHF), the Office of United States Foreign Disaster Assistance (OFDA) and the Swiss agency for Development and Cooperation (SDC).

The opinions expressed in this report are those of the authors and do not necessarily reflect the views of the Office of United States Foreign Disaster Assistance.

Annex II - Afar region displacement causes and IDPs in assessed woredas

DTM round fourteen (01/11 - 30/11, 2018)

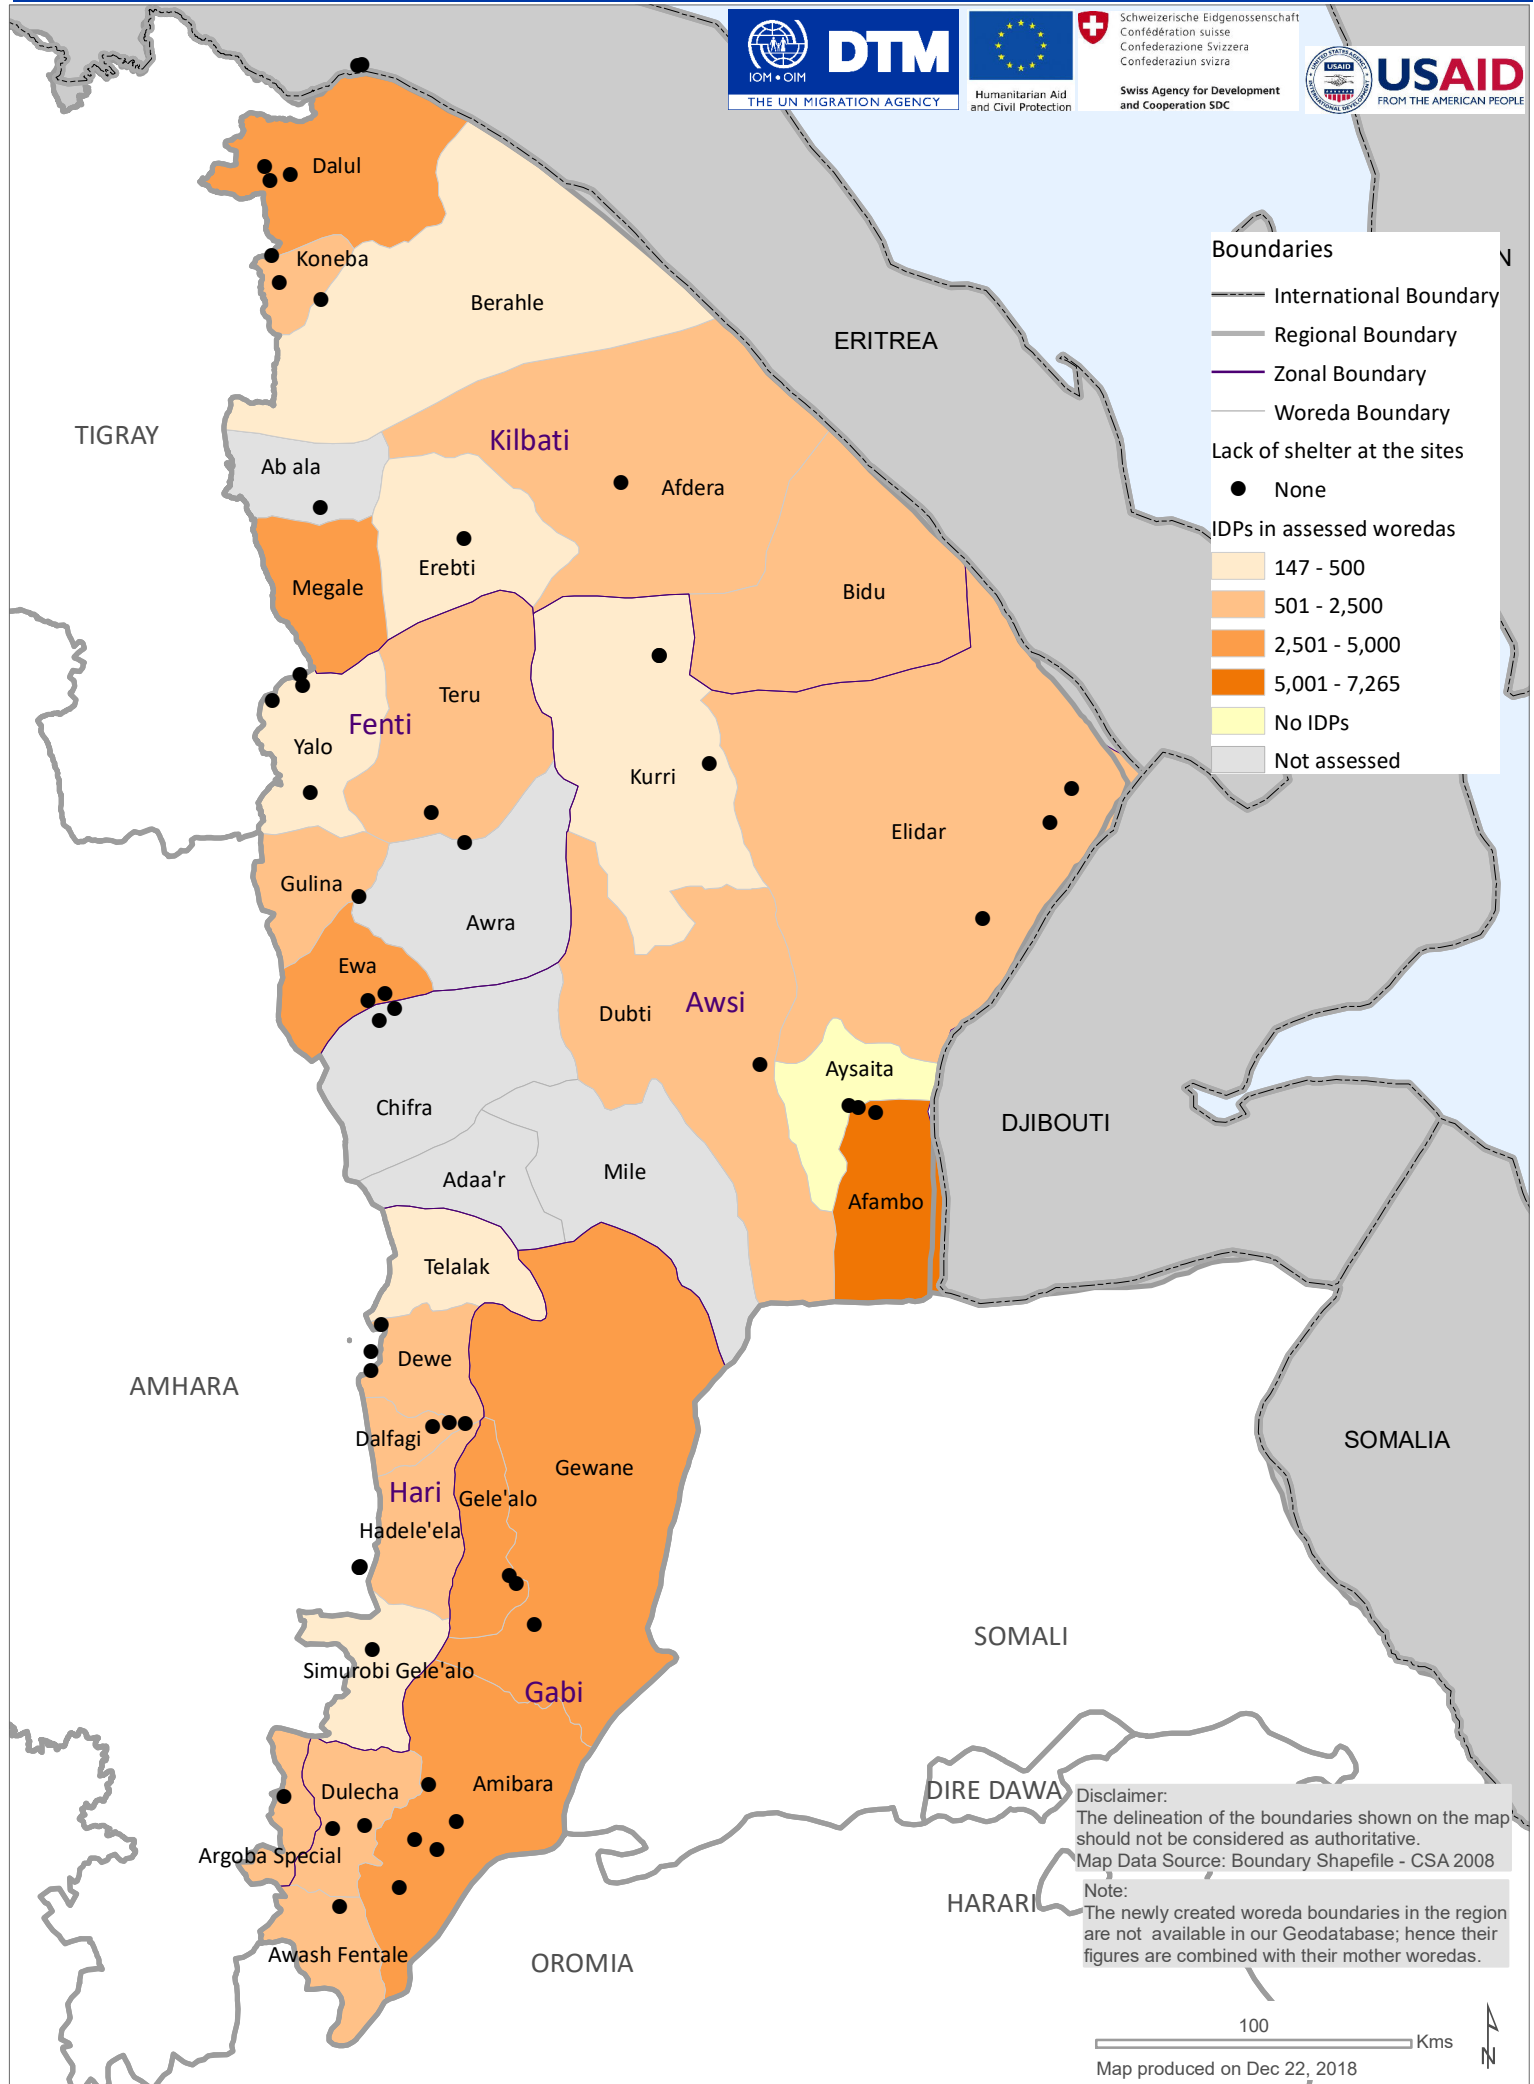

Disclaimer:
The delineation of the boundaries shown on the map should not be considered as authoritative.
Map Data Source: Boundary Shapefile - CSA 2008

Note:
The newly created woreda boundaries in the region are not available in our Geodatabase; hence their figures are combined with their mother woredas.

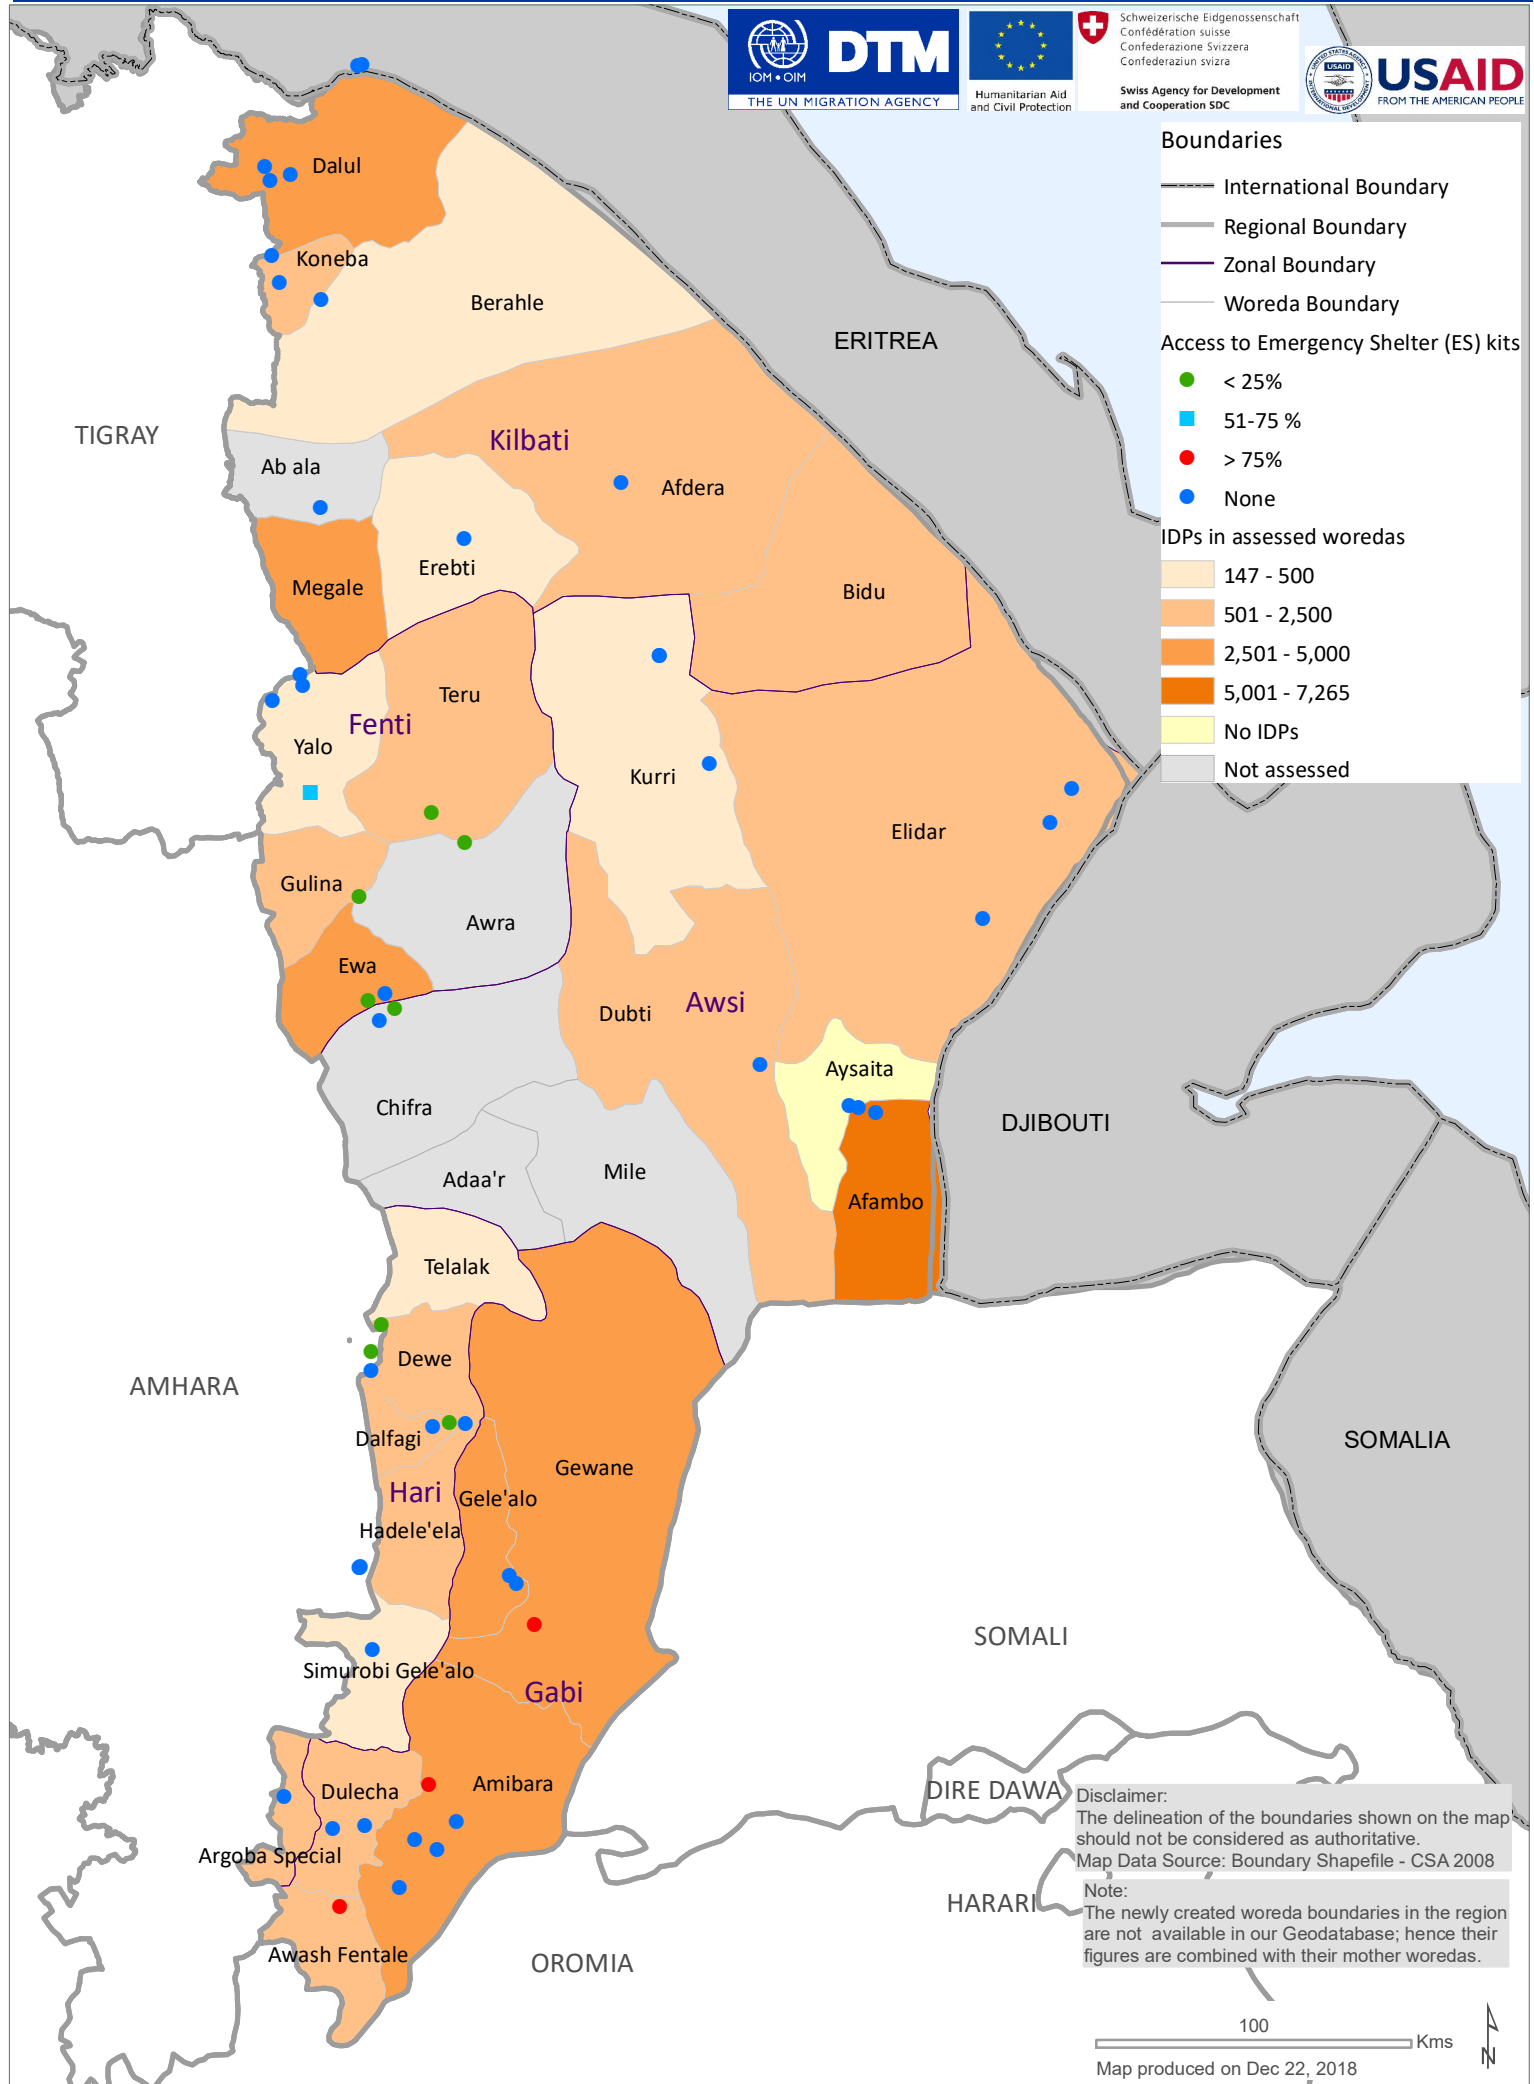

Annex III - Afar region households reporting lack of shelter at the sites and IDPs in assessed woredas

DTM round fourteen (01/11 - 30/11, 2018)

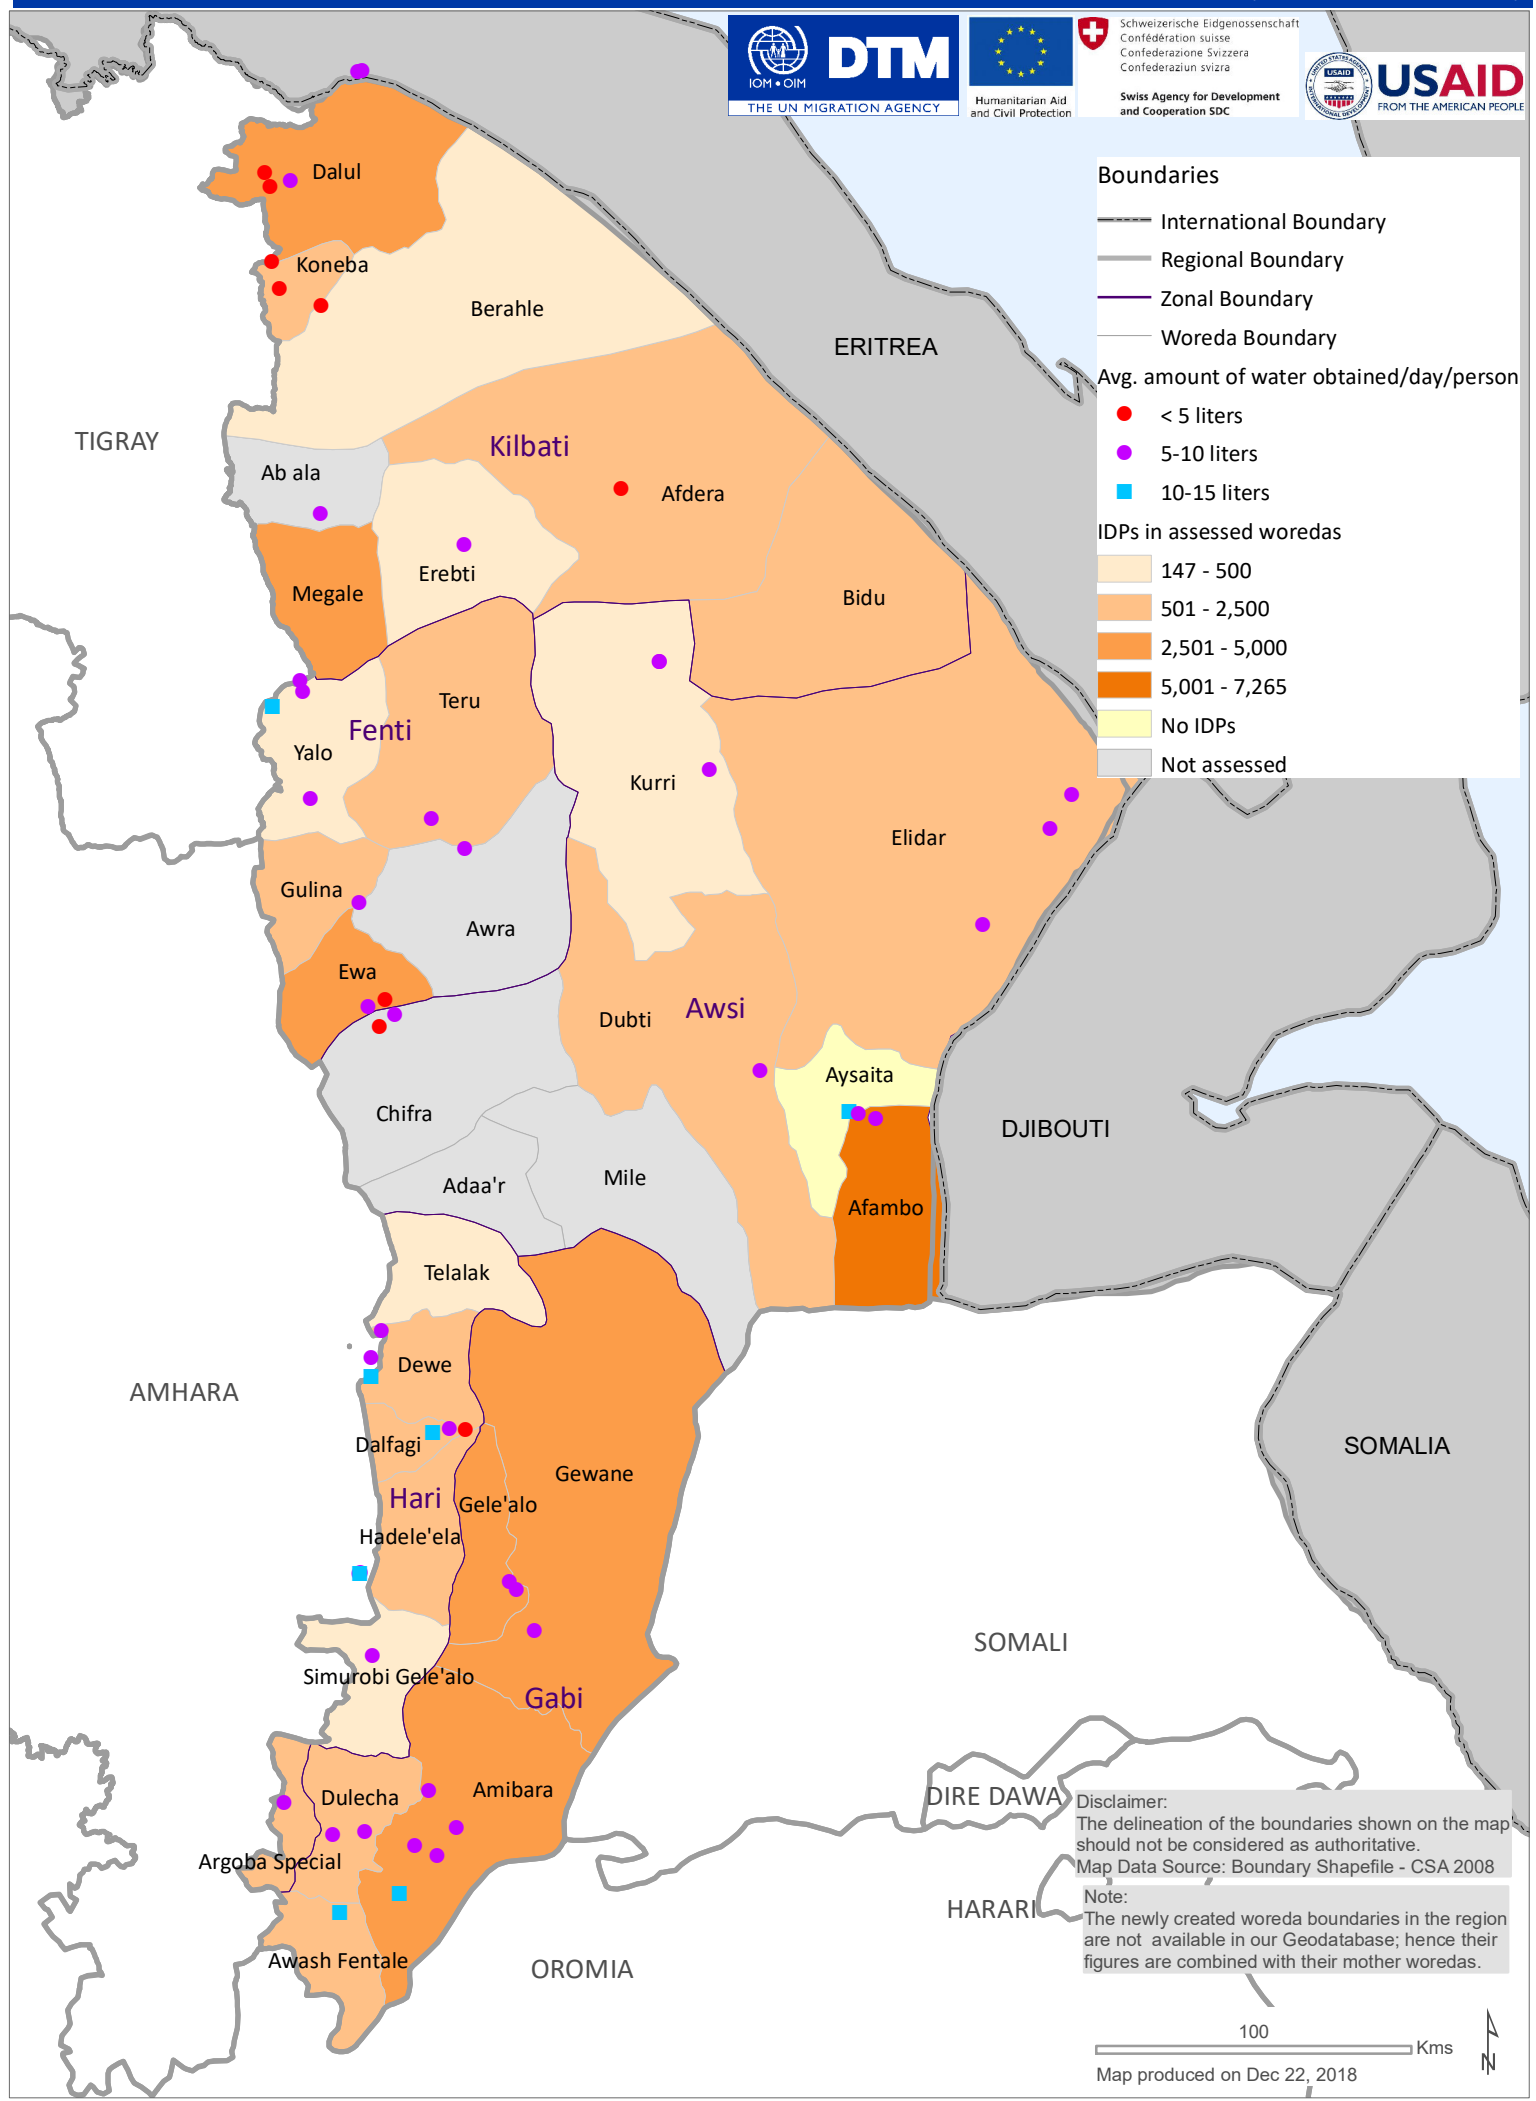

Annex IV - Afar region households reporting access to ES kits and IDPs in assessed woredas

DTM round fourteen (01/11 - 30/11, 2018)

Annex V - Afar region households reporting access to water and IDPs in assessed woredas

DTM round fourteen (01/11 - 30/11, 2018)

Boundaries

- International Boundary
- Regional Boundary
- Zonal Boundary
- Woreda Boundary

Avg. amount of water obtained/day/person

- < 5 liters
- 5-10 liters
- 10-15 liters

IDPs in assessed woredas

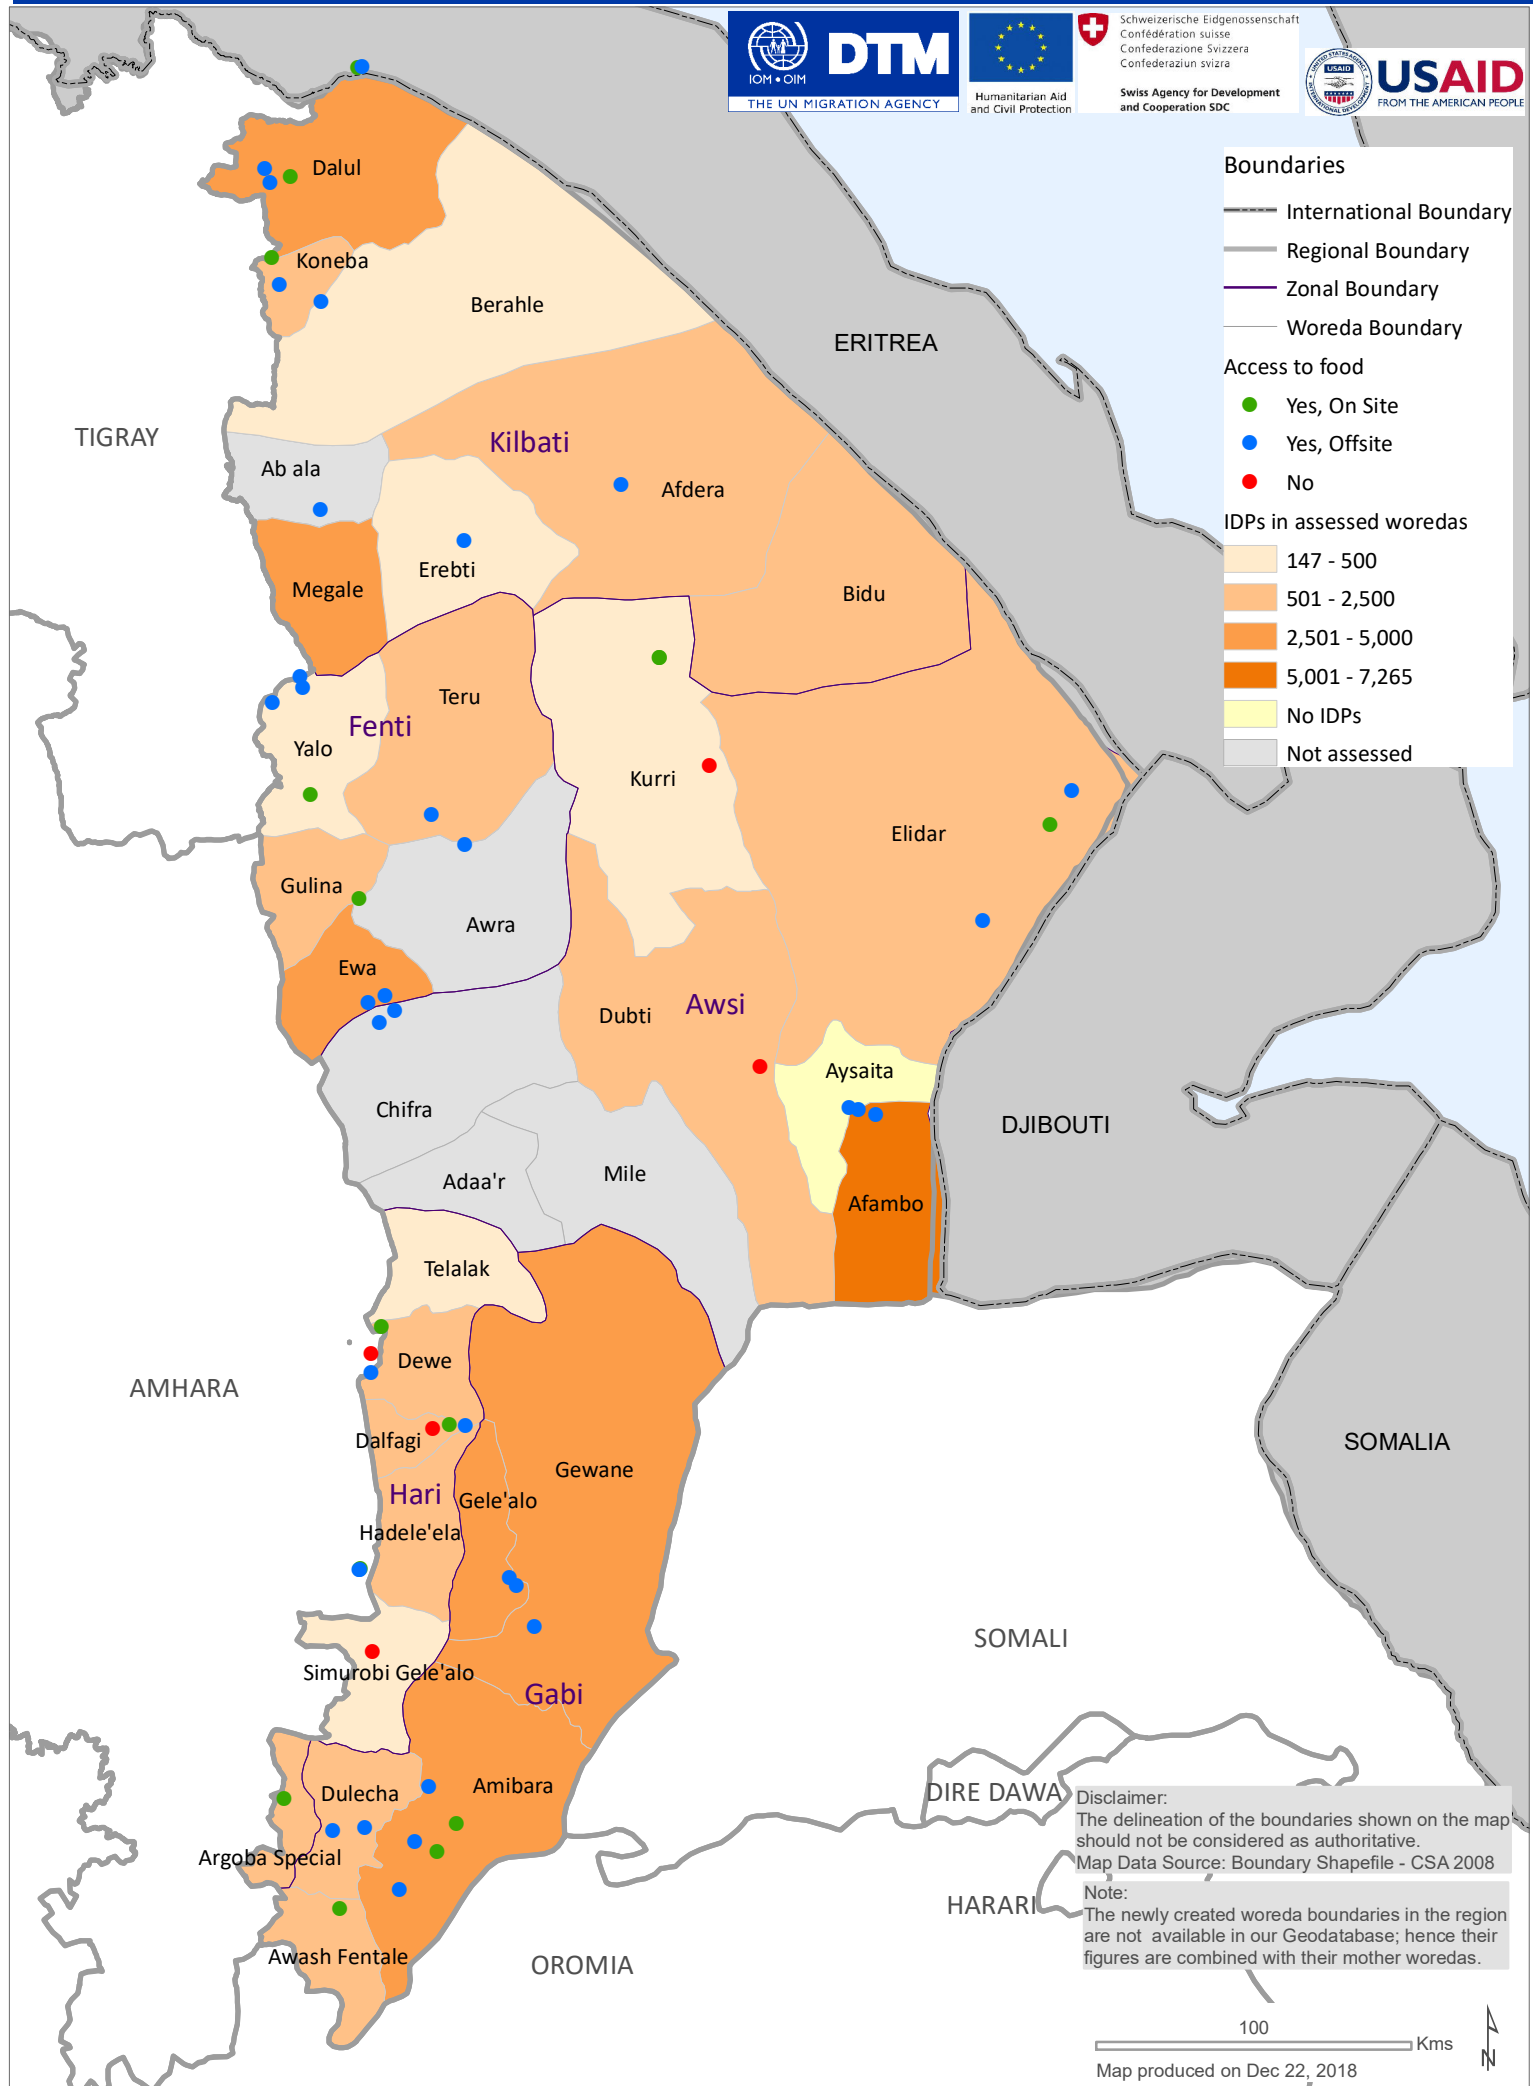

- 147 - 500
- 501 - 2,500
- 2,501 - 5,000
- 5,001 - 7,265
- No IDPs
- Not assessed

Disclaimer:
The delineation of the boundaries shown on the map should not be considered as authoritative.
Map Data Source: Boundary Shapefile - CSA 2008

Note:
The newly created woreda boundaries in the region are not available in our Geodatabase; hence their figures are combined with their mother woredas.

Annex VI - Afar region households reporting access to food and IDPs in assessed woredas

DTM round fourteen (01/11 - 30/11, 2018)

Boundaries

- International Boundary
- Regional Boundary
- Zonal Boundary
- Woreda Boundary

Access to food

- Yes, On Site
- Yes, Offsite
- No

IDPs in assessed woredas

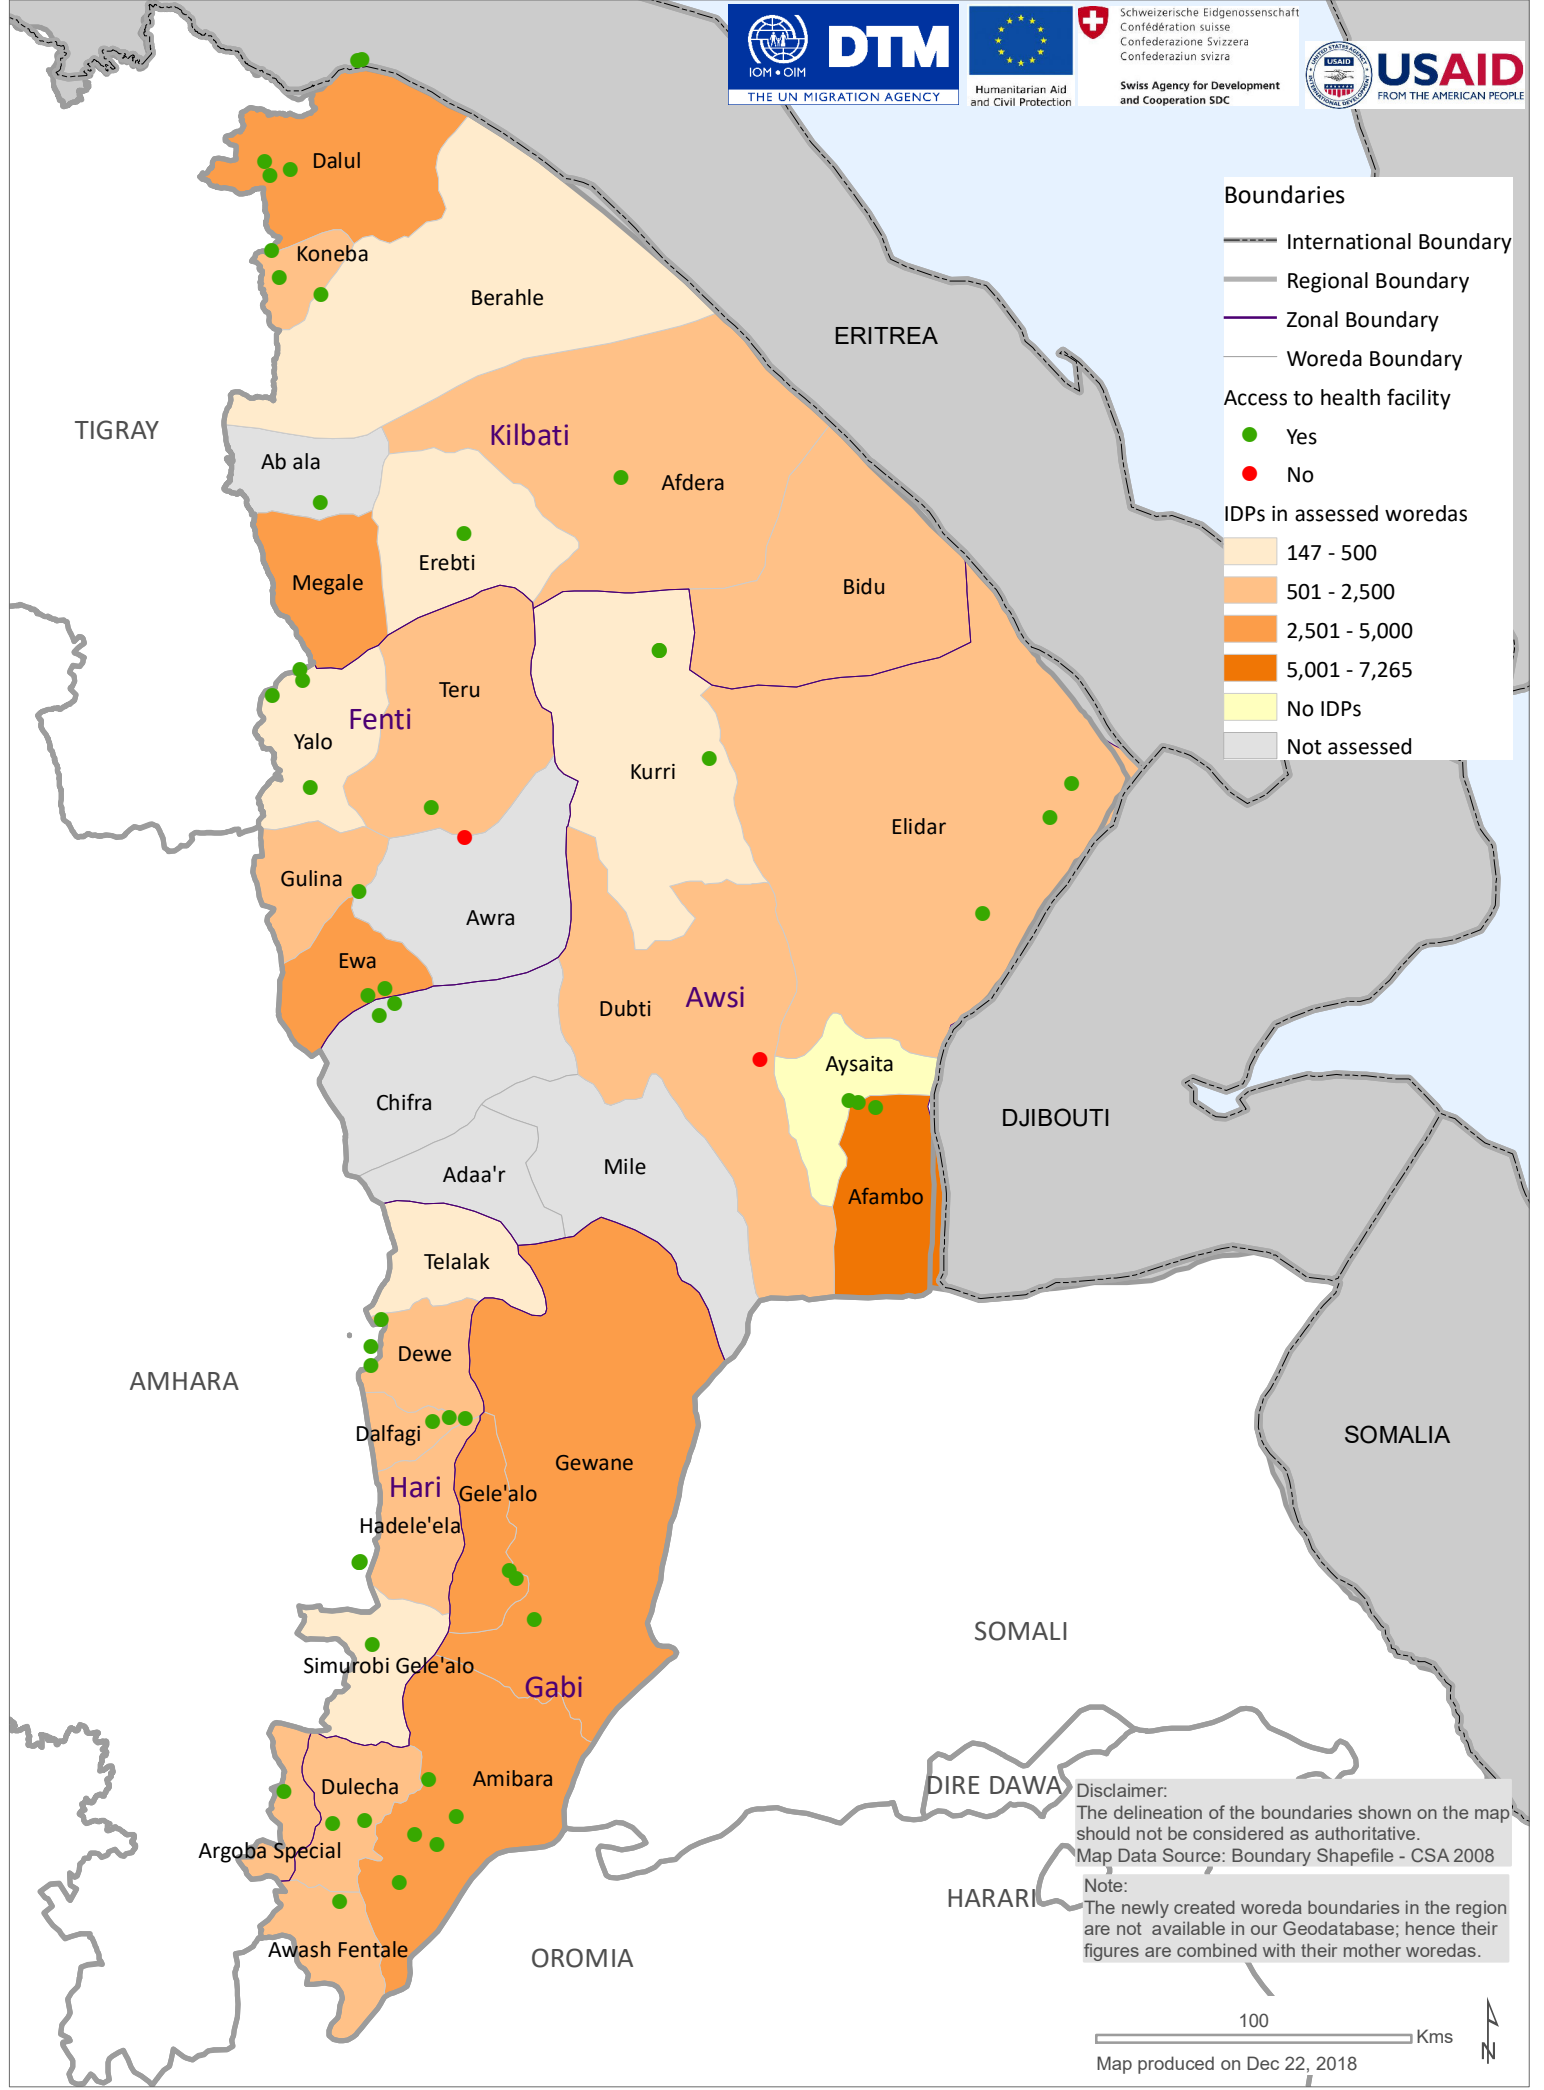

- 147 - 500
- 501 - 2,500
- 2,501 - 5,000
- 5,001 - 7,265
- No IDPs
- Not assessed

Disclaimer:
The delineation of the boundaries shown on the map should not be considered as authoritative.
Map Data Source: Boundary Shapefile - CSA 2008

Note:
The newly created woreda boundaries in the region are not available in our Geodatabase; hence their figures are combined with their mother woredas.

Annex VII - Afar region households reporting access to health facility and IDPs in assessed woredas

DTM round fourteen (01/11 - 30/11, 2018)

Boundaries

- International Boundary
- Regional Boundary
- Zonal Boundary
- Woreda Boundary

Access to health facility

- Yes (Green dot)
- No (Red dot)

IDPs in assessed woredas

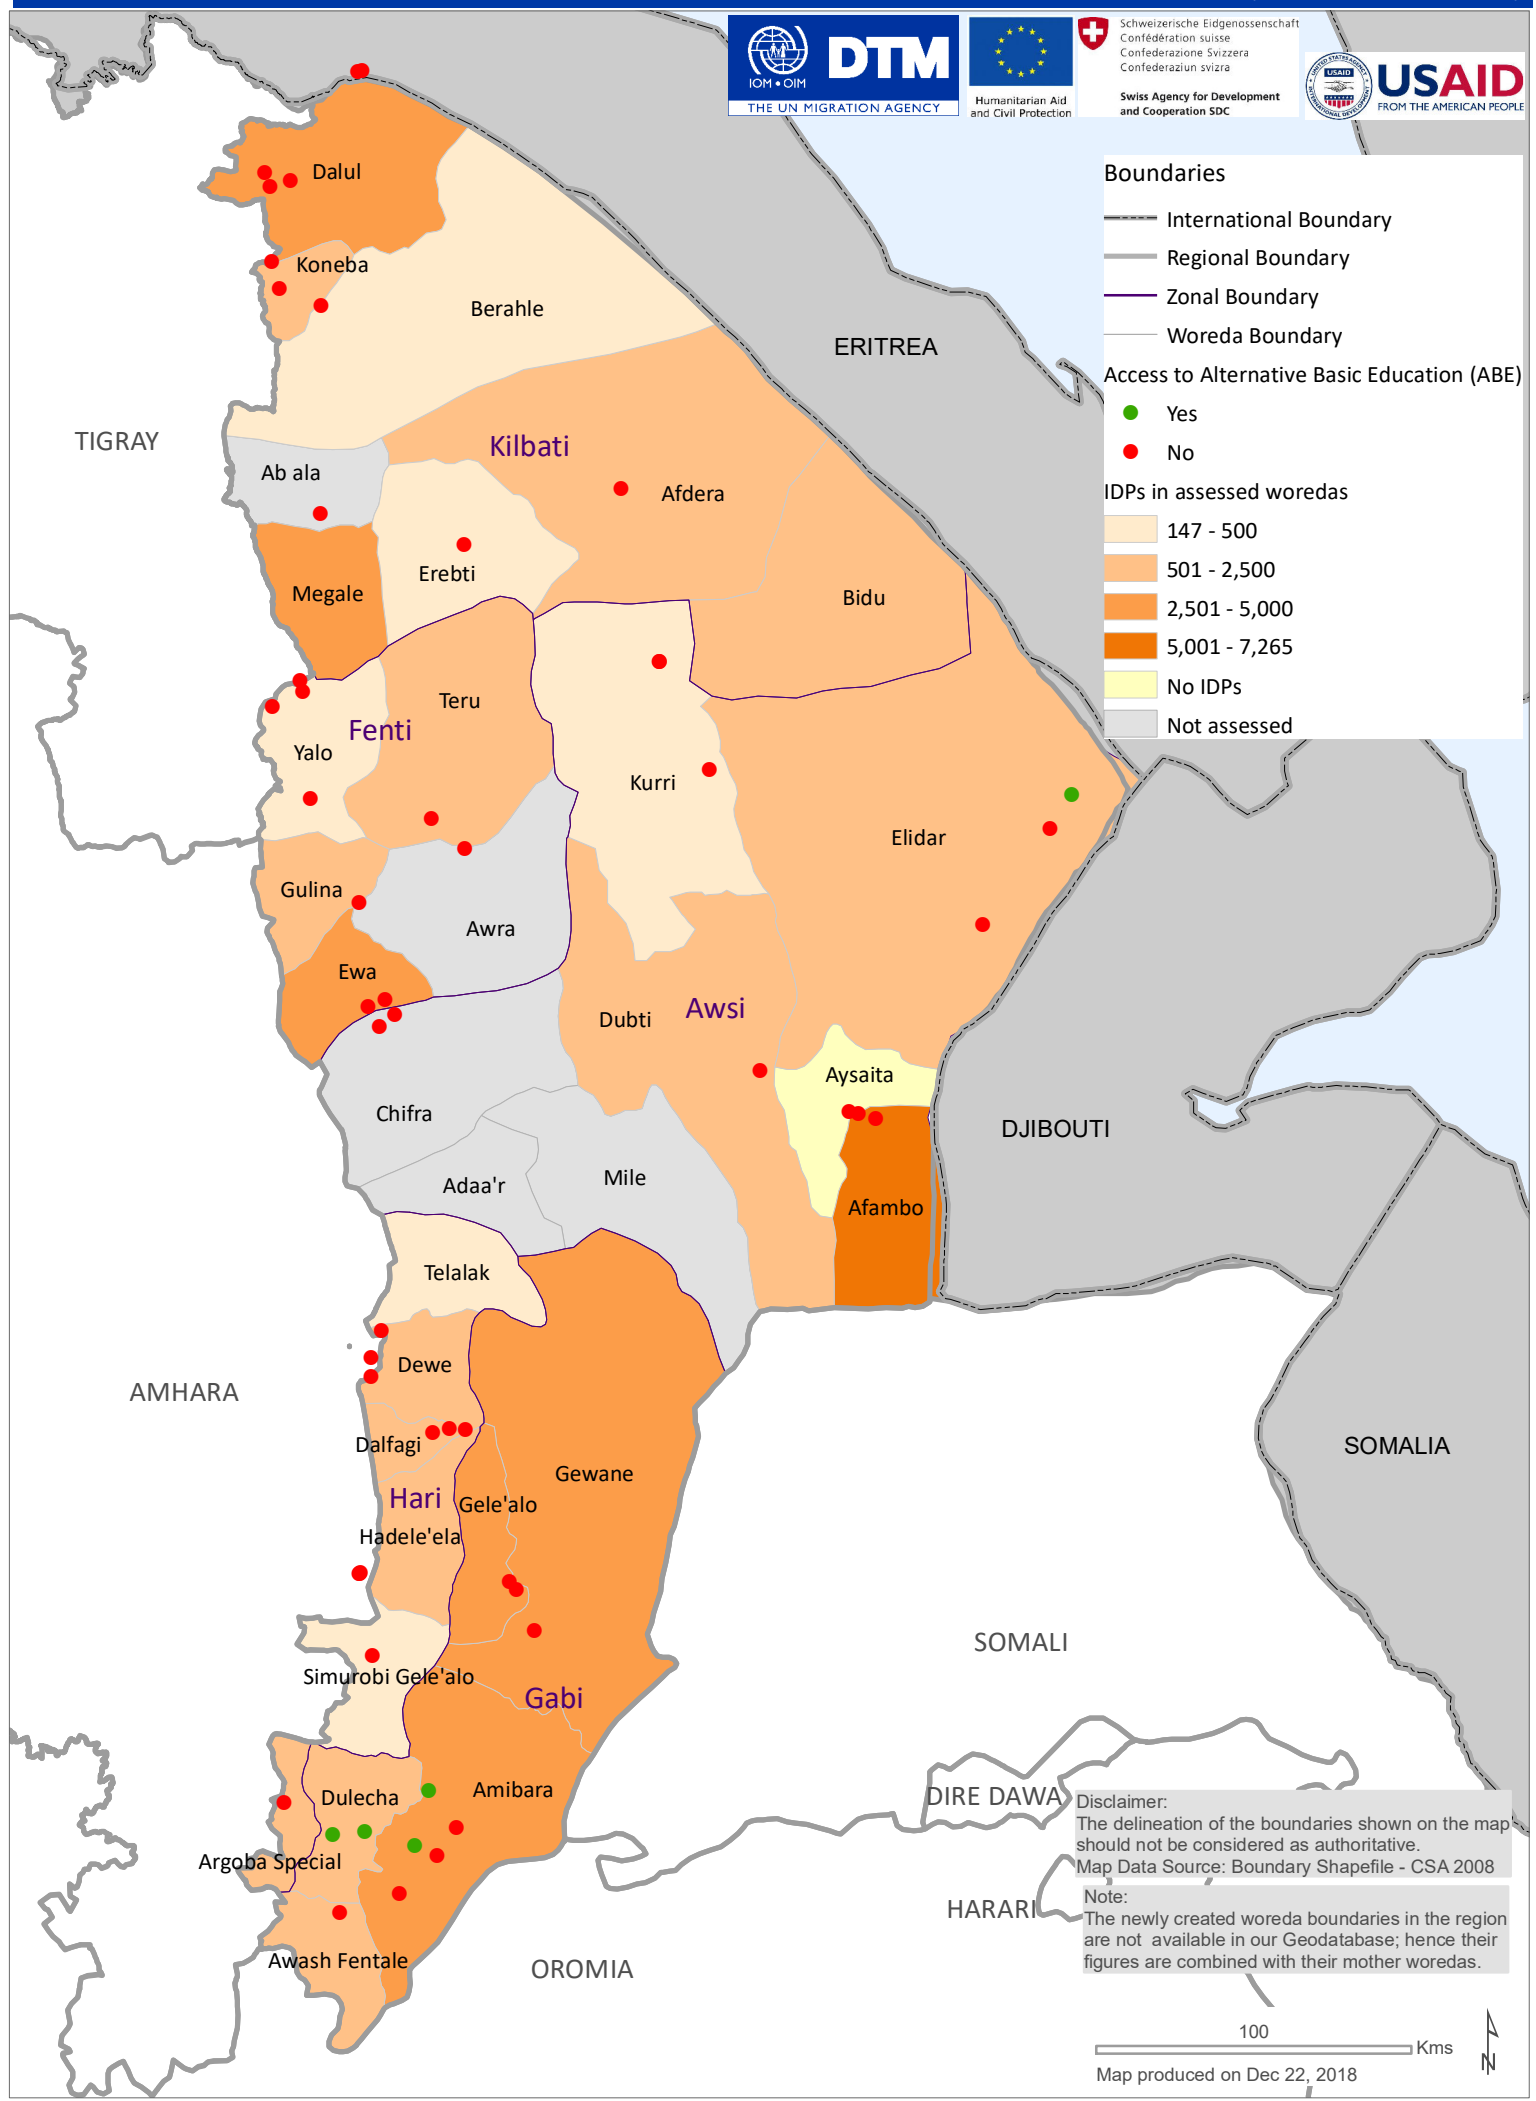

- 147 - 500
- 501 - 2,500
- 2,501 - 5,000
- 5,001 - 7,265
- No IDPs
- Not assessed

Disclaimer:
The delineation of the boundaries shown on the map should not be considered as authoritative.
Map Data Source: Boundary Shapefile - CSA 2008

Note:
The newly created woreda boundaries in the region are not available in our Geodatabase; hence their figures are combined with their mother woredas.

Annex VIII - Afar region households reporting access to ABE and IDPs in assessed woredas

DTM round fourteen (01/11 - 30/11, 2018)

Boundaries

- International Boundary
- Regional Boundary
- Zonal Boundary
- Woreda Boundary

Access to Alternative Basic Education (ABE)

- Yes (Green dot)
- No (Red dot)

IDPs in assessed woredas

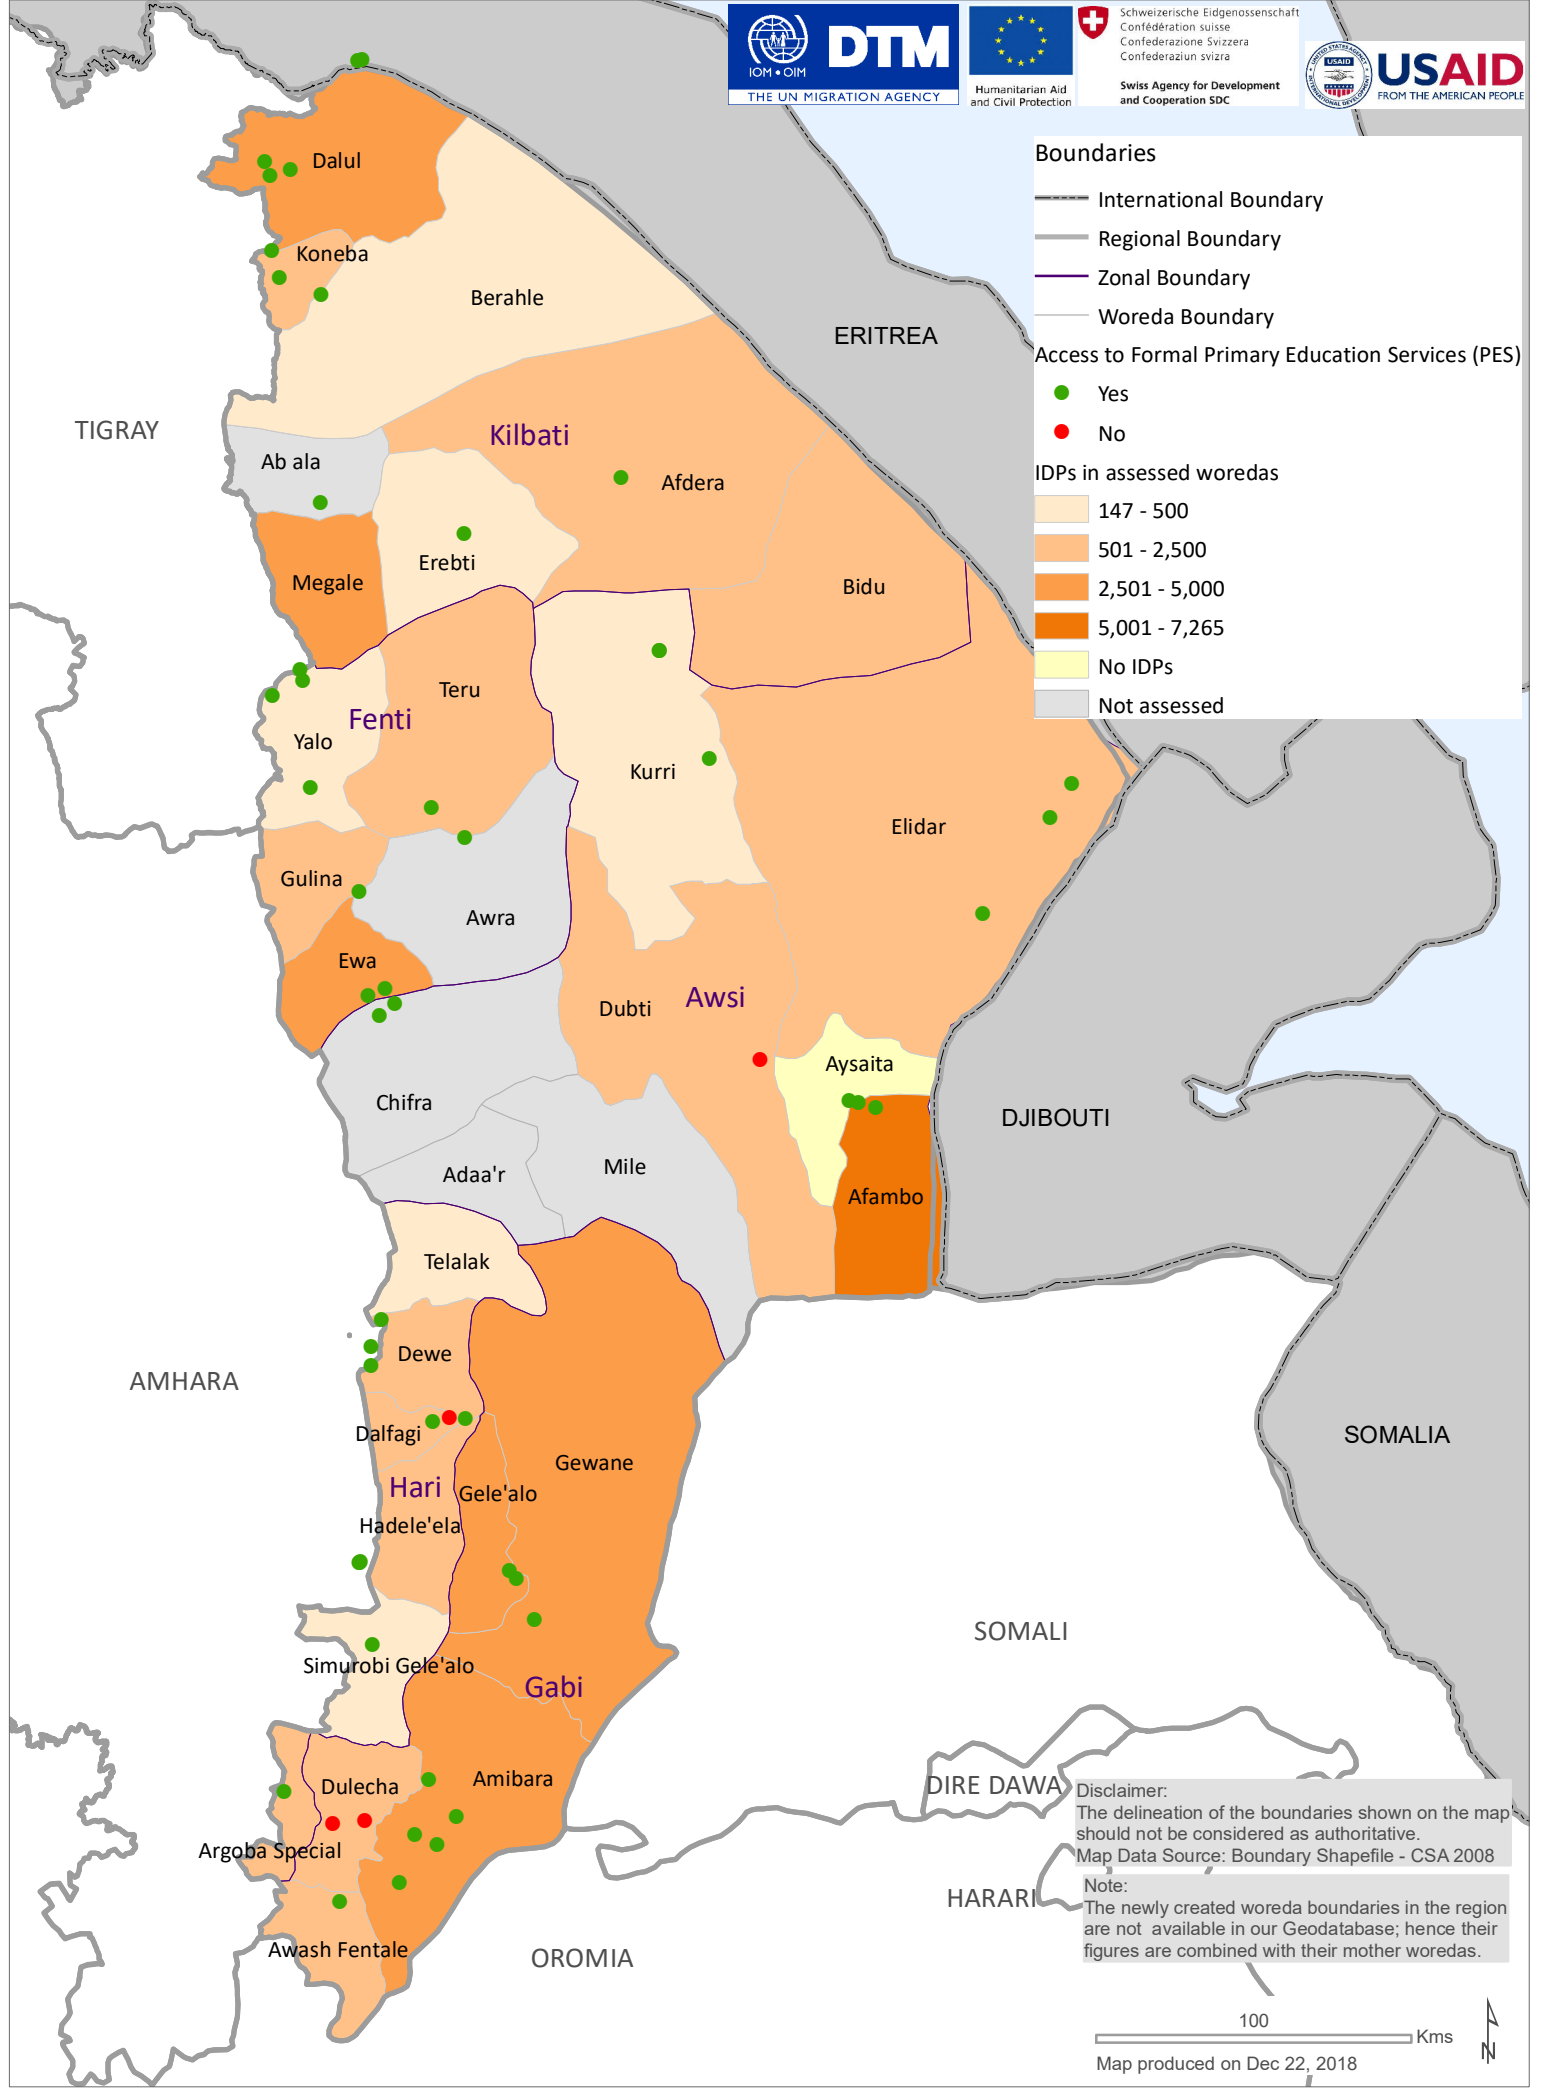

- 147 - 500
- 501 - 2,500
- 2,501 - 5,000
- 5,001 - 7,265
- No IDPs
- Not assessed

Disclaimer:
The delineation of the boundaries shown on the map should not be considered as authoritative.
Map Data Source: Boundary Shapefile - CSA 2008

Note:
The newly created woreda boundaries in the region are not available in our Geodatabase; hence their figures are combined with their mother woredas.

Annex IX - Afar region households reporting access to Formal PES and IDPs in assessed woredas

DTM round fourteen (01/11 - 30/11, 2018)

Disclaimer:
The delineation of the boundaries shown on the map should not be considered as authoritative.
Map Data Source: Boundary Shapefile - CSA 2008

Note:
The newly created woreda boundaries in the region are not available in our Geodatabase; hence their figures are combined with their mother woredas.
