Military operations started on 17 October.

Displacement movements have been recorded

Between 24 November and 1 December, 1,709

new IDP families (10,254 individuals) have been

During the same period, return movements have

been recorded as well, with 224 IDP families

(1,344) returning particularly from Al-Shura sub-

district to Al-Namroud sub-district, in Ninewa

governorate. The total number of returnee families is now 1,410 (8,460 individuals).

Taking into account both new displacements and

return movements, on 1 December, 12,979 IDP

families (77,874 individuals) are still displaced,

that is, 13% more (8,910 individuals) than on 24

Please note that the number of the IDPs who

are still displaced on 1 December (12,979 IDP families) is slightly higher than the figures

reported on the Mosul Portal update of 1

December (12,841). The discrepancy of 138

families is due to the movement of IDP families

from one location of displacement to another.

The current location of displacement is still being

verified and has not been confirmed yet, hence it

As of 1 December, the governorate hosting the largest number of IDPs displaced as a result of

Mosul operations is Ninewa, with 99% of them,

The district that recorded the highest increase in

IDP population last week is Hamdaniya, with an

increase of 14% (7,302 individuals) because of new arrivals to the camps in the area, particularly
