

January 2019

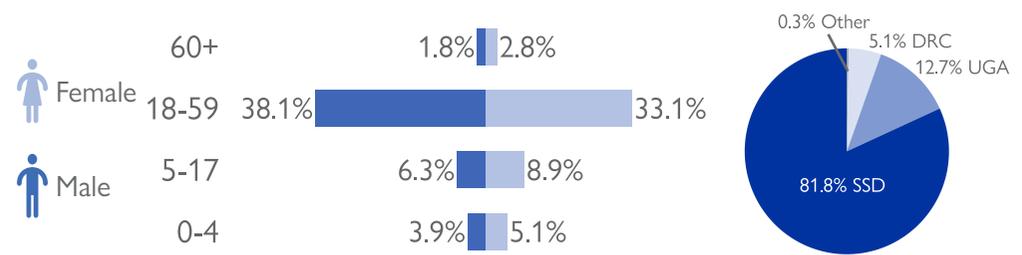

18,584 people surveyed on arrival to South Sudan
3.9 average group size

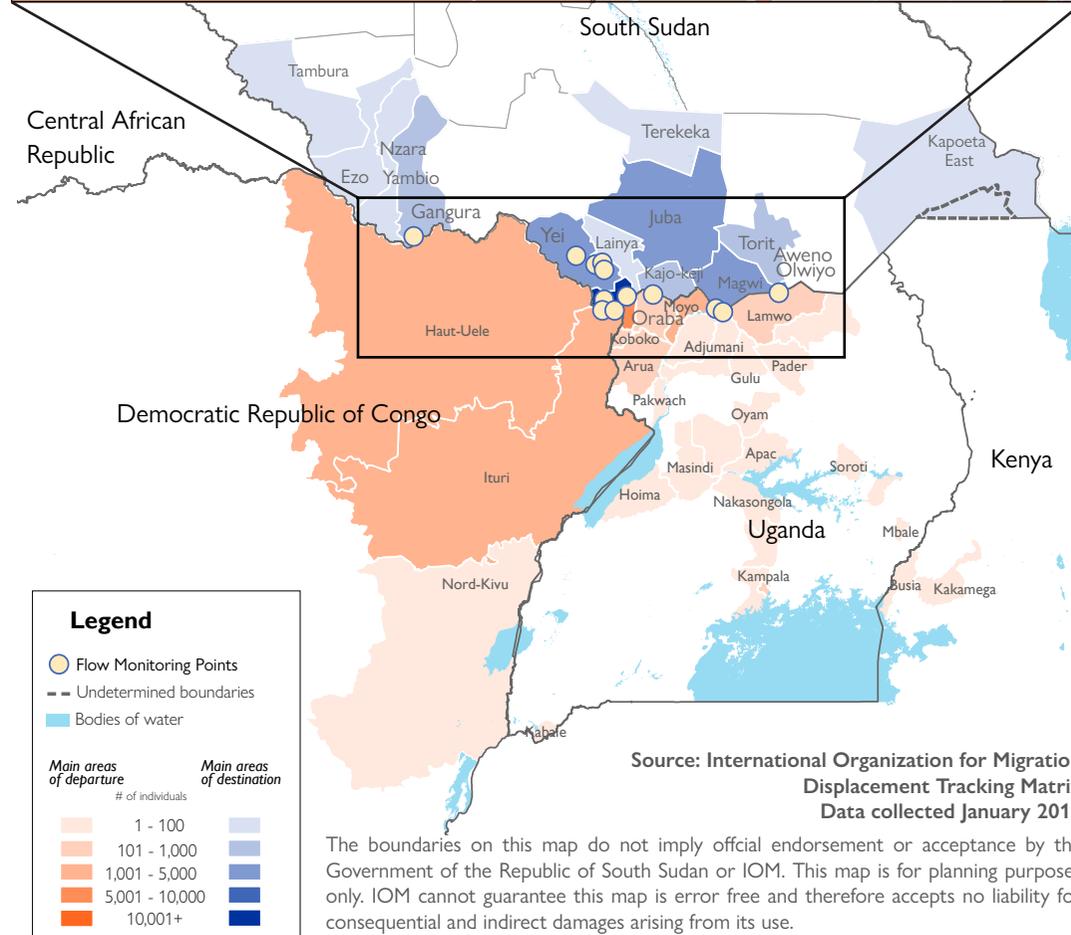

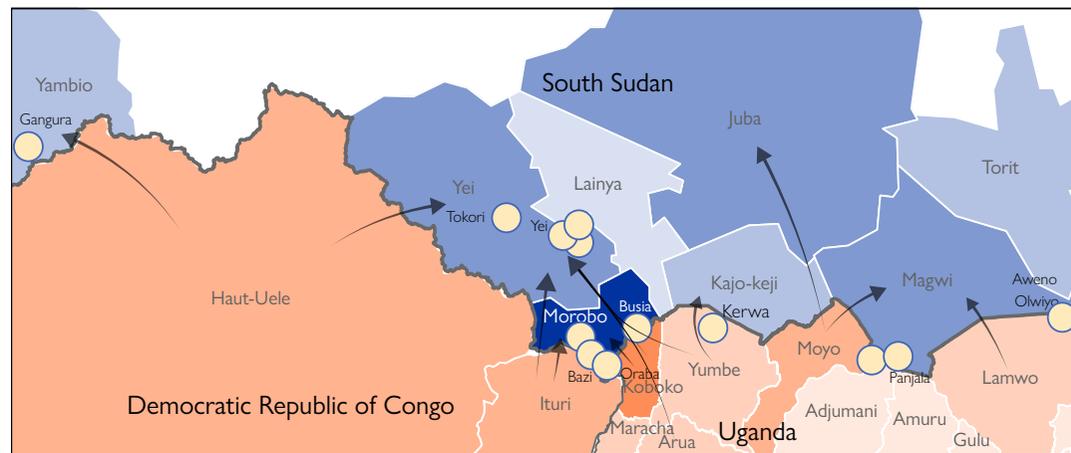

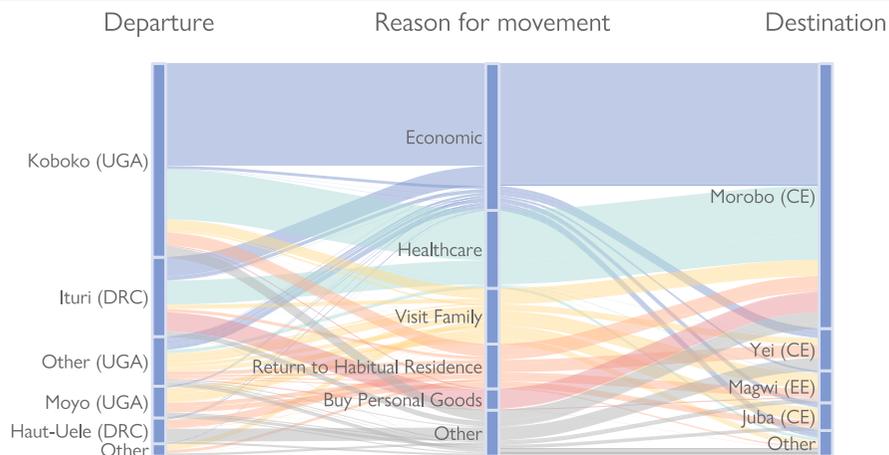

As part of IOM's Ebola Virus Disease (EVD) preparedness activities, DTM operates 7 Flow Monitoring Points (FMPs) in Yambio, Yei and Morobo counties. Six additional FMPs are operated in cooperation with DTM Uganda just across the border with South Sudan (SSD). This dashboard highlights key entry routes and presents the demographic profile of people surveyed on arrival from the Democratic Republic of Congo (DRC) and Uganda (UGA). Participation in the survey is voluntary and the data collected is only indicative of actual flows.

 66.6% on foot  15.2% motorbike  13.5% taxi / car 4.9% other

F.1 Demographic distribution and nationality of respondents

F.2 Flows into South Sudan by reason for travel
