Water

Hygiene / Sanitation

Location of the site's **main water source**: **Off-site (More than 20 minutes)**

People use toilets on or off site: **On-site**

Main **non-drinking** water source: **Unprotected Well**

Condition of most of the latrines: **Good (Hygienic)**

Main **drinking** water source: **Hand pumps**

Functioning toilets on-site: **12**

Average amount of water available per day/person: **5 liters and less**

Evidence of open defecation: **No**

Drinking water treated before consumption: **Chlorinated**

Evidence of hand-washing practices: **Unknown**

Main **problem with the water**: **None**

Garbage Disposal Type: **Burning**

Food / Nutrition

Access to food: **Yes, On-Site**

Screening for malnutrition conducted in the area: **No**

Access to a market near from the site: **No**

Supplementary feeding availability for pregnant/lactating mother: **No**

Most common source for food: **Own cash**

Supplementary feeding availability for children: **No**

Education

Protection

Access to formal education facility: **Yes**

Security on-site/settlement areas: **Yes**

Access to non formal education facility: **No**

Security incidents reported: **No**

Distance to nearest formal education facility: **Off-site (More than 20 minutes)**

Main security provider: **Self organized**

% of girls at the site attending school: **26% to 50%**

Lighting in communal points: **Yes, there is lighting and it is adequate**

Health

Prevalent health problems

Distance to the closest functioning health facility: **Off-site (1-2 hours)**

1st most: **Cough**

Provider of on-site health facilities: **Local Clinic/med practitioners**

2nd most: **Skin infections**

Access to psychosocial support in the last 4 weeks: **Yes**

3rd most: **Diarrhea**

Access to immunization services in the last 4 weeks: **No**

Livelihood

Communication

Occupation of most of the households before EQ: **Agriculture/Livestock**

Male IDPs get most information from: **Local leader**

Occupation of most of the households after EQ: **Daily wage laborer**

Persons with chronic diseases/serious medical conditions: **2**

Water

Hygiene / Sanitation

Location of the site's main water source: **Off-site (More than 20 minutes)**

People use toilets on or off site: **On-site**

Main non-drinking water source: **Piped water supply**

Condition of most of the latrines: **Not so good (not hygienic)**

Main drinking water source: **Piped water supply**

Functioning toilets on-site: **6**

Average amount of water available per day/person: **11-15 liters**

Evidence of open defecation: **No**

Drinking water treated before consumption: **Filtered**

Evidence of hand-washing practices: **No**

Main problem with the water: **None**

Garbage Disposal Type: **Garbage pit**

Food / Nutrition

Access to food: **No**

Screening for malnutrition conducted in the area: **No**

Access to a market near from the site: **Yes**

Supplementary feeding availability for pregnant/lactating mother: **No**

Most common source for food: **Borrowed cash**

Supplementary feeding availability for children: **No**

Education

Protection

Access to formal education facility: **Yes**

Security on-site/settlement areas: **No**

Access to non formal education facility: **No**

Security incidents reported: **No**

Distance to nearest formal education facility: **Off-site (More than 20 minutes)**

Main security provider: **Unknown**

% of girls at the site attending school: **More than 75%**

Lighting in communal points: **Yes, there is lighting but it is NOT adequate**

Health

Prevalent health problems

Distance to the closest functioning health facility: **Off-site (1-2 hours)**

1st most: **None**

Provider of on-site health facilities: **Government**

Water

Hygiene / Sanitation

Location of the site's **main water** source: **Off-site (Less than 20 minutes)**

People use toilets on or off site: **On-site**

Main **non-drinking** water source: **Water truck**

Condition of most of the latrines: **Not so good (not hygienic)**

Main **drinking** water source: **Water truck**

Functioning toilets on-site: **10**

Average amount of water available per day/person: **More than 15 liters**

Evidence of open defecation: **No**

Drinking water treated before consumption: **Filtered**

Evidence of hand-washing practices: **No**

Main problem with the water: **Odor/smell**

Garbage Disposal Type: **Municipal collection**

Food / Nutrition

Access to food: **No**

Screening for malnutrition conducted in the area: **No**

Access to a market near from the site: **Yes**

Supplementary feeding availability for pregnant/lactating mother: **No**

Most common source for food: **Own cash**

Supplementary feeding availability for children: **No**

Education

Protection

Access to formal education facility: **Yes**

Security on-site/settlement areas: **Yes**

Access to non formal education facility: **No**

Security incidents reported: **No**

Distance to nearest formal education facility: **Off-site (Less than 20 minutes)**

Main security provider: **Self organized**

% of girls at the site attending school: **More than 75%**

Lighting in communal points: **Yes, there is lighting and it is adequate**

Health

Prevalent health problems

Distance to the closest functioning health facility: **Off-site (Less than 30 minutes)**

1st most: **None**

Provider of on-site health facilities: **Local Clinic/med practitioners**

2nd most: **None**

Access to psychosocial support in the last 4 weeks: **No**

3rd most: **None**

Access to immunization services in the last 4 weeks: **No**

Livelihood

Communication

Occupation of most of the households before EQ: **Agriculture/Livestock**

Persons with special vulnerabilities

Breastfeeding mothers: **7**

Elderly-headed households: **3**

Person with disabilities: **1**

Person with chronic diseases/serious medical conditions: **1**

Water

Hygiene / Sanitation

Location of the site's **main water** source: **Off-site (Less than 20 minutes)**

People use toilets on or off site: **On-site**

Main **non-drinking** water source: **Spring/river**

Condition of most of the latrines: **Not so good (not hygienic)**

Main **drinking** water source: **Spring/river**

Functioning toilets on-site: **3**

Average amount of water available per day/person: **More than 15 liters**

Evidence of open defecation: **Yes**

Drinking water treated before consumption: **Filtered**

Evidence of hand-washing practices: **Unknown**

Main problem with the water: **None**

Garbage Disposal Type: **No waste disposal system**

Food / Nutrition

Access to food: **Yes, Off-site**

Screening for malnutrition conducted in the area: **No**

Access to a market near from the site: **Yes**

Supplementary feeding availability for pregnant/lactating mother: **No**

Most common source for food: **Own cash**

Supplementary feeding availability for children: **No**

Education

Protection

Access to formal education facility: **Yes**

Security on-site/settlement areas: **Yes**

Access to non formal education facility: **No**

Security incidents reported: **No**

Distance to nearest formal education facility: **Off-site (More than 20 minutes)**

Main security provider: **Police**

% of girls at the site attending school: **More than 75%**

Lighting in communal points: **No lighting**

Health

Prevalent health problems

Distance to the closest functioning health facility: **Off-site (More than 2 hours)**

1st most: **Cough**

Provider of on-site health facilities: **Government**

2nd most: **Cold**

Access to psychosocial support in the last 4 weeks: **No**

3rd most: **None**

Access to immunization services in the last 4 weeks: **Yes**

Livelihood

Communication

Occupation of most of the households before EQ: **Agriculture/Livestock**

Male IDPs get most information from: **Radio/Newspaper**

Occupation of most of the households after EQ: **Daily wage laborer**

Female IDPs get most information from: **Radio/Newspaper**

Access to income generating activities: **Yes**

Complaints being reported: **Unknown**

Livestock on site: **Yes**

Main topic of information requested:

IDPs have access to land for cultivation: **No**

Recovery plans

Monsoon Specific

Site accessible in monsoon: **Yes**

Drinking water accessible in monsoon: **No**

Shelters that can survive in monsoon: **25% or less**

Health facility accessible in monsoon: **No**

Water-proof shelters at site: **25% or less**

Education facility accessible in monsoon: **Yes**

Wash facilities functional in monsoon: **No**

Food support accessible in monsoon: **Yes**

Shelter & NFIs

% of HH living outside (no shelter): **None**

% of HH have access to electricity: **More than 75%**

% of HH living in tents: **None**

% of HH have access to safe cooking facilities: **25% or less**

% of HH living in temporary shelter (CGIs): **More than 75%**

1st most needed type of NFI: **CGIs**

% of HH living in emergency makeshift shelters: **25% or less**

2nd most needed type of NFI: **Kitchen sets**

% of HH living in Other shelters (Open building): **None**

3rd most needed type of NFI: **Mosquito nets**

		123	TOTAL 127

Persons with special vulnerabilities

Breastfeeding mothers: **4**

Elderly-headed households: **40**

Person with disabilities: **0**

Persons with chronic diseases/serious medical conditions: **6**

Water

Hygiene / Sanitation

Location of the site's main water source: **Off-site (More than 20 minutes)**

People use toilets on or off site: **On-site**

Main non-drinking water source: **Piped water supply**

Condition of most of the latrines: **Good (Hygienic)**

Main drinking water source: **Piped water supply**

Functioning toilets on-site: **40**

Average amount of water available per day/person: **11-15 liters**

Evidence of open defecation: **No**

Drinking water treated before consumption: **No treatment**

Evidence of hand-washing practices: **No**

Main problem with the water: **None**

Garbage Disposal Type: **Garbage pit**

Food / Nutrition

Access to food: **No**

Screening for malnutrition conducted in the area: **Yes**

Access to a market near from the site: **Yes**

Supplementary feeding availability for pregnant/lactating mother: **No**

Most common source for food: **Own cash**

Supplementary feeding availability for children: **No**

Education

Protection

Access to formal education facility: **Yes**

Security on-site/settlement areas: **Yes**

Access to non formal education facility: **No**

Security incidents reported: **No**

Distance to nearest formal education facility: **Off-site (Less than 20 minutes)**

Main security provider: **Self organized**

% of girls at the site attending school: **51% to 75%**

Lighting in communal points: **Yes, there is lighting and it is adequate**

Health

Prevalent health problems

Distance to the closest functioning health facility: **Off-site (Less than 30 minutes)**

1st most: **None**

Provider of on-site health facilities: **Local Clinic/med practitioners**

2nd most: **None**

Access to psychosocial support in the last 4 weeks: **No**

3rd most: **None**

Access to immunization services in the last 4 weeks: **No**

Livelihood

Communication

Occupation of most of the households before EQ: **Agriculture/Livestock**

Male IDPs get most information from: **Radio/Newspaper**

Occupation of most of the households after EQ: **Craftsmen**

Female IDPs get most information from: **Radio/Newspaper**

Access to income generating activities: **Yes**

Complaints being reported: **No**

Livestock on site: **Yes**

Main topic of information requested:

IDPs have access to land for cultivation: **Yes**

Access to services

Monsoon Specific

Site accessible in monsoon: **Yes**

Drinking water accessible in monsoon: **Yes**

Shelters that can survive in monsoon: **26% to 50%**

Health facility accessible in monsoon: **Yes**

Water-proof shelters at site: **None**

Education facility accessible in monsoon: **Yes**

Wash facilities functional in monsoon: **Yes**

Food support accessible in monsoon: **Yes**

Shelter & NFIs

% of HH living outside (no shelter): **None**

% of HH have access to electricity: **26% to 50%**

% of HH living in tents: **None**

% of HH have access to safe cooking facilities: **51% to 75%**

% of HH living in temporary shelter (CGIs): **More than 75%**

1st most needed type of NFI: **Mosquito nets**

% of HH living in emergency makeshift shelters: **None**

2nd most needed type of NFI: **Electric fans**

% of HH living in Other shelters (Open building): **None**

3rd most needed type of NFI: **Water filters**

Nyagal
