Note: The newly created zones and woredas boundaries in this region are not available in our Geodatabase; hence their boundaries and figures are combined with their mother zones and woredas.

DISPLACEMENT TRACKING MATRIX (DTM) SOMALI REGION, ETHIOPIA

ROUND 15: JANUARY - FEBRUARY 2019

SOMALI REGION - KEY FINDINGS

LOCATION AND CAUSE OF DISPLACEMENT:

1,166,878 displaced individuals comprising 196,628 households in 409 displacement sites were identified in Somali region. These figures represent an increase of 160,602 individuals (+15.96%) an increase of 28,976 households (+17.28%) and an increase of 20 sites (+5.14%) since round 14 (November/December 2018). 3% of sites have opened since the start of 2019, 68% of sites opened before 2018 and 29% opened in 2018. Conflict was the primary cause of displacement for an estimated 70% of the displaced population.

DEMOGRAPHICS: 52% of displaced individuals were female and 48% were male. 61% were younger than 18 years old while 9% were over 60 years old.

SHELTER: 174 sites reported that over 25% of households were living in shelters that were below regional and cultural standards.

WASH: Only 29 sites meet SPHERE standards of access to over 15 liters of water per person per day. 267 displacement sites (65%) reported having no latrines.

*All data, including graphs and maps presented in this report comprise data collected between 1 to 31 January 2019.

FOOD, NUTRITION AND LIVELIHOODS: 100 sites (24%), representing 499,702 individuals, reported no access to food. 97% of sites reported that IDPs did not have access to income generating activities.

HEALTH: Pneumonia was the primary health concern in this round of data collection with 164 sites reporting this health concern.

EDUCATION: In 12% of sites, 50% or less of the children on site are attending formal primary school. Formal primary school education is available at 68% sites. Alternative basic education (ABE) is available at 149 sites.

COMMUNICATION: 54% of sites reported that site management was IDPs' primary source of information followed by local leaders at 23% of sites.

Figure 1 illustrates trends in stock totals of displacement in the region over time compared to recent displacement. Figure 2 shows IDP numbers disaggregated by cause of displacement over time.

Figure 1: Trends in stock totals of displacement and new displacements before 2018, during 2018 and in 2019

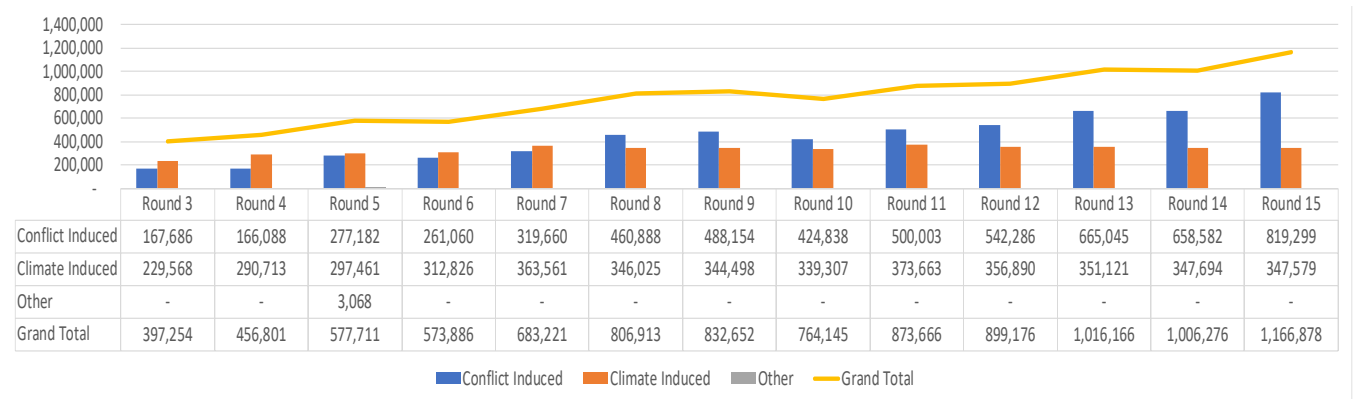

Figure 2: IDPs by cause of displacement by round

DISPLACEMENT TRACKING MATRIX (DTM) SOMALI REGION, ETHIOPIA ROUND 15: JANUARY - FEBRUARY 2019

MOBILITY TRENDS AND CAUSE OF DISPLACEMENT

Conflict has consistently been reported as the primary cause of displacement in the region (as indicated by figure 4). IDPs displaced before 2018, during 2018 and in 2019 reported being displaced by both conflict and climate induced reasons. In addition to this, 3% of IDPs reported being displaced previously. Furthermore, IDPs from 14 sites were leaving the current place of displacement. Of these, IDPs from 13 sites were going to the nearest village and IDPs from 1 site intend to return to their place of origin.

Regarding the duration of sites, 3% of all sites identified opened in 2019, while 29% opened between January and December 2018 and 68% of sites opened before 2018.

The majority of IDPs identified in the region were displaced to locations near their areas of origin. 66% of IDPs in the region are internally displaced from the region, within the region. Of the IDPs displaced within the region, 62% were displaced within their zone of origin.

Figure 3 shows the number of IDPs displaced by zone and cause of displacement. Figure 4 shows the distribution of IDPs by driver of displacement and time of displacement.

Figure 3: IDPs displaced by zone and cause of displacement

Duration	Conflict Induced	Climate Induced	Grand Total
Before 2018	462,299	334,241	796,540
During 2018	316,637	13,338	329,975
In 2019	40,363	0	40,363
Grand Total	819,299	347,579	1,166,878

Figure 4: Distribution of IDPs by cause of displacement and time of displacement

DISPLACEMENT TRACKING MATRIX (DTM) SOMALI REGION, ETHIOPIA ROUND 15: JANUARY - FEBRUARY 2019

DURABLE SOLUTIONS, VULNERABILITIES AND DEMOGRAPHICS

At 69% of sites IDPs foresaw a resolution to their displacement, while IDPs at 31% of sites did not.

At 91.9% of sites, IDPs prefer reintegration as a durable solution to their displacement while at 6.1% sites they prefer return. 2% of sites reported that IDPs prefer relocation.

Figure 5 shows the number of sites reporting various obstacles to returns, while figure 6 shows support IDPs need to return or reintegrate.

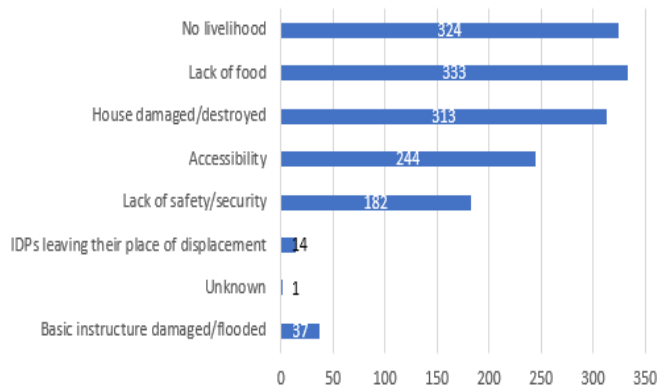

Figure 5: Number of sites reporting obstacles to return

The demographic breakdown is shown in figure 7. Individuals with specific vulnerabilities were also reported at displacement sites and are represented in figure 8.

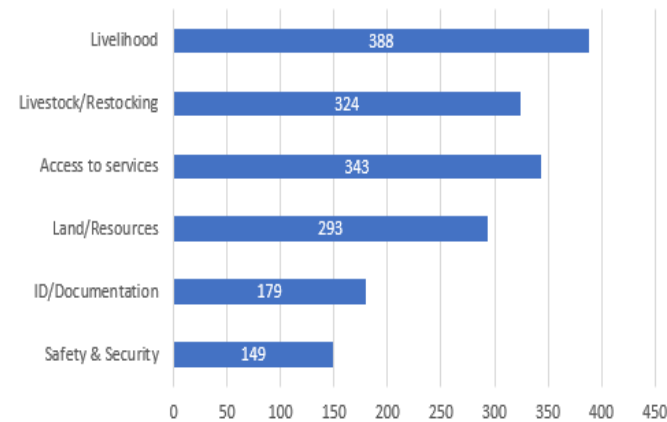

Figure 6: Number of sites by support needed to return or reintegrate

Figure 7: Demographic breakdown

Vulnerable Population	Number of IDPs
Number of breastfeeding mothers	33,681
Elderly-headed households	15,731
Elderly persons without care givers	11,335
Number of members of ethnic minorities	0
Number of members of religious minorities	0
Orphaned children	6,698
Persons with chronic diseases/serious medical conditions	2,584
Number of persons with disabilities over 18	2,496
Number of persons with disabilities under 18	1,826
Number of pregnant girls under 18	3,016
Number of pregnant women over 18	24,013
Separated children	3,978
Single female-headed households	6,685
Single male-headed households	2,356
Unaccompanied Children	1,639
Single-child headed Households	1,187
Grand Total	117,225

ABOUT DTM

DTM GLOBAL

The Displacement Tracking Matrix (DTM) is a system to track and monitor displacement and population mobility. It is designed to regularly and systematically capture, process and disseminate information to provide a better understanding of the movements and evolving needs of displaced populations, whether on site or en route. More information is available at www.globaldtm.info.

DTM IN ETHIOPIA

In Ethiopia, data is collected at zone, woreda and site level. Since September 2016, fifteen rounds of assessments have been completed. The DTM programme is implemented in close collaboration with the National Disaster Risk Management Commission, regional, zonal and woreda counterparts and DTMs implementing partner, the Danish Refugee Council (DRC).

METHODOLOGY

IOM's DTM team composed of enumerators from IOM and DRC were deployed across the country to collect the data. The process involved the following steps:

Zone level: Interviews with key informants from

the Disaster Prevention and Preparedness Office (DPPO), community representatives, and the education and health offices collect information including (among others) estimated caseload of displaced population, identification of woredas within the zone that host displaced populations, reason for displacement, time of arrival of IDPs and location of origin.

Woreda level: Information is collected from key woreda informants and includes (among others) estimated length of stay, number of displaced households and individuals at woreda level, displaced population by type of temporary settlements and approximate locations of identifiable displacement sites. The information is used to plan site assessments.

Site assessments: In-depth IDP site assessments capture detailed information through key informant interviews, direct observation and focus group discussions with male, female, elderly, children and IDP representatives. Data on available services by sector, accessibility constraints, exact type, location and name of the site, place of origin of IDPs, estimated size and type of the site and most common type of shelter are captured. Age and gender disaggregation for the site is extrapolated using a demographic calculator

tool based on the age range and sex of the household members of 20 randomly selected households from the site.

Disclaimer: Age and gender disaggregation for the site is extrapolated using a demographic calculator tool based on the age range and sex of the household members of 20 randomly selected households from the site.

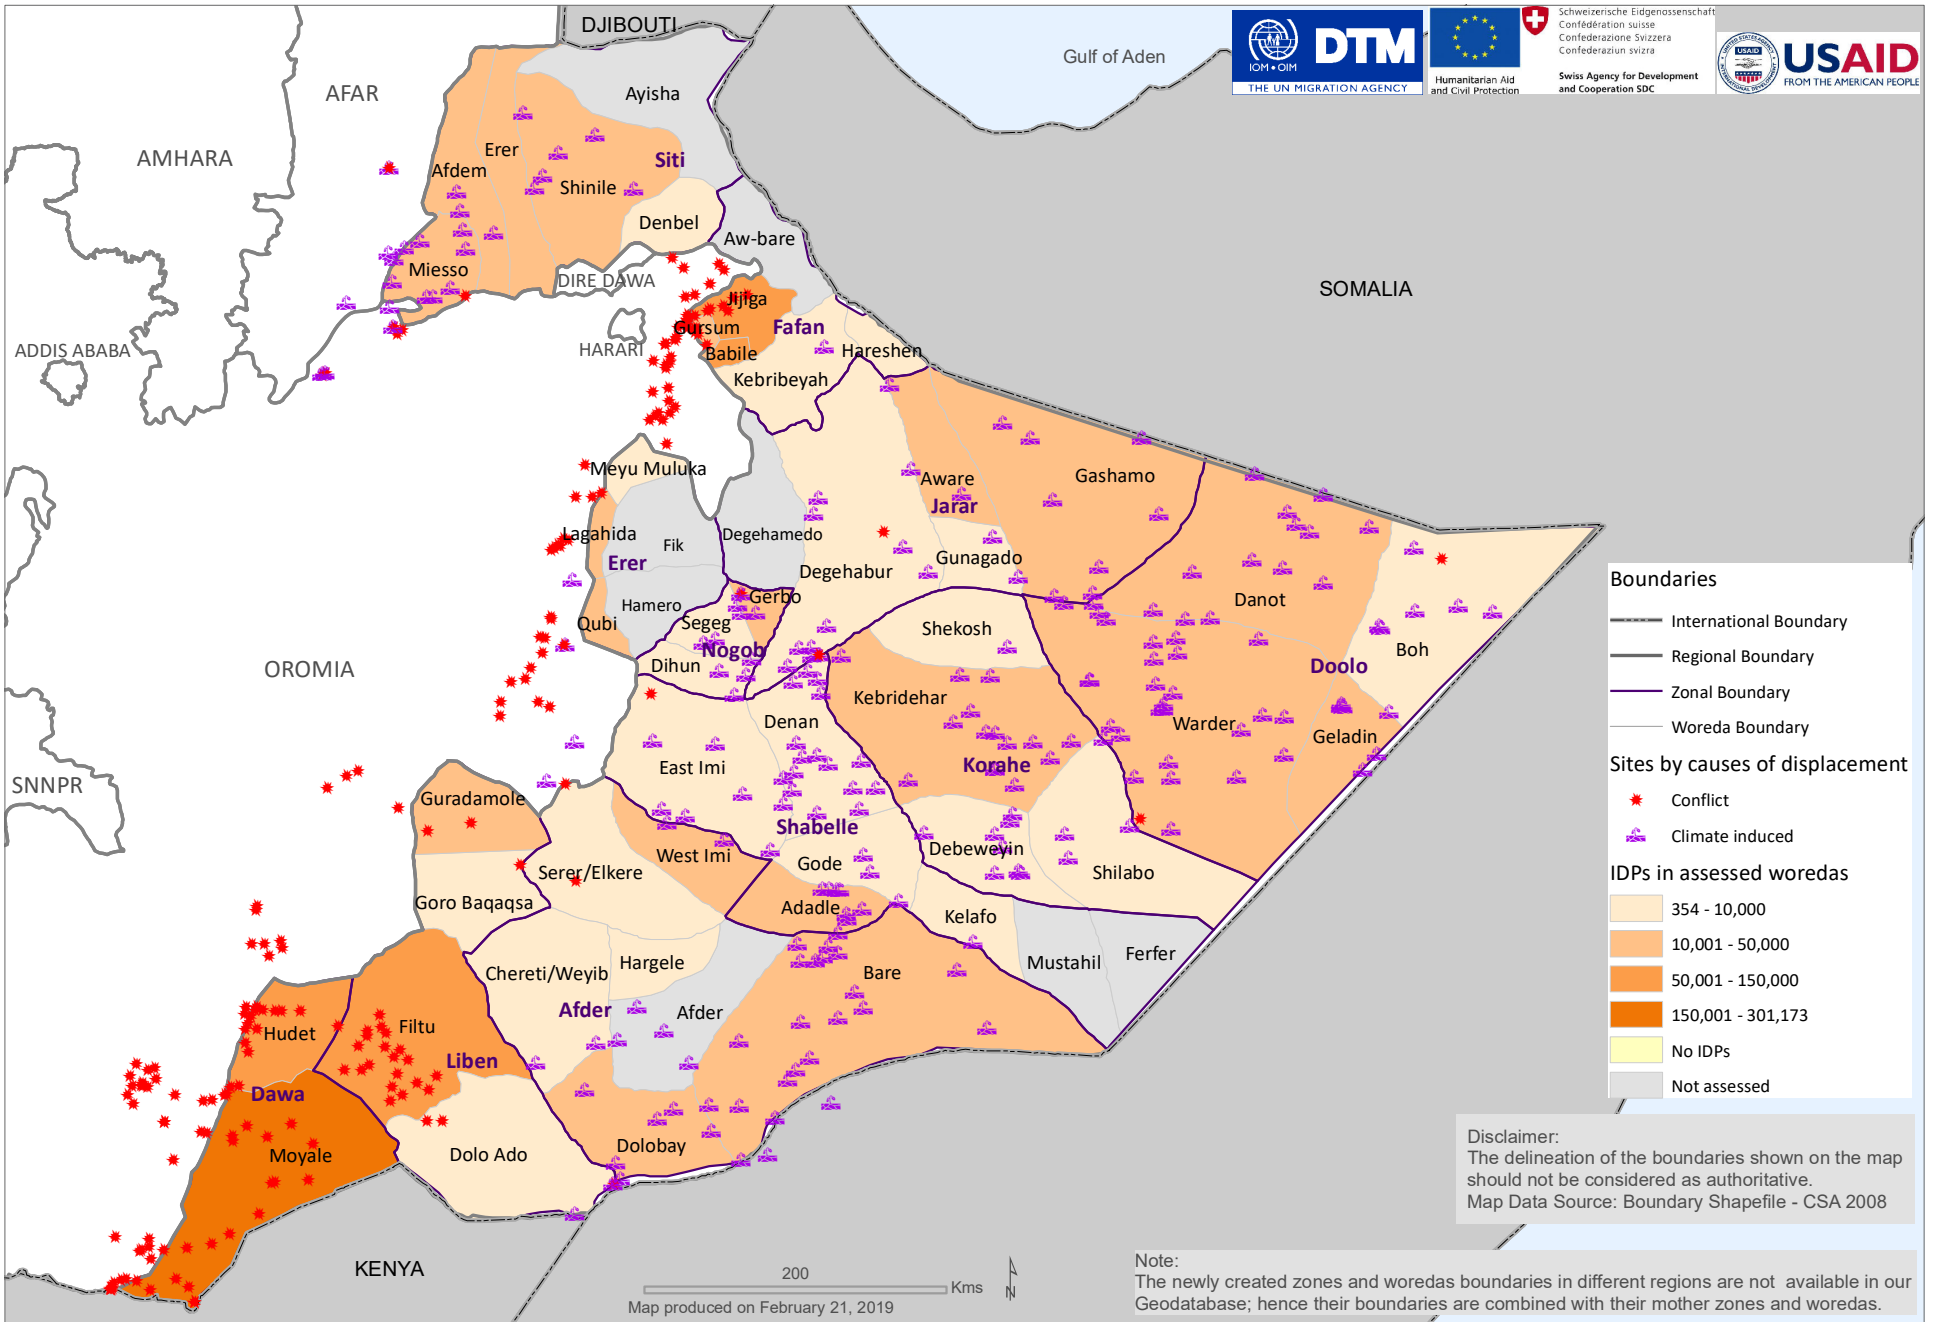

Displacement Tracking Matrix (DTM) conducted in collaboration with Danish Refugee Council (DRC)

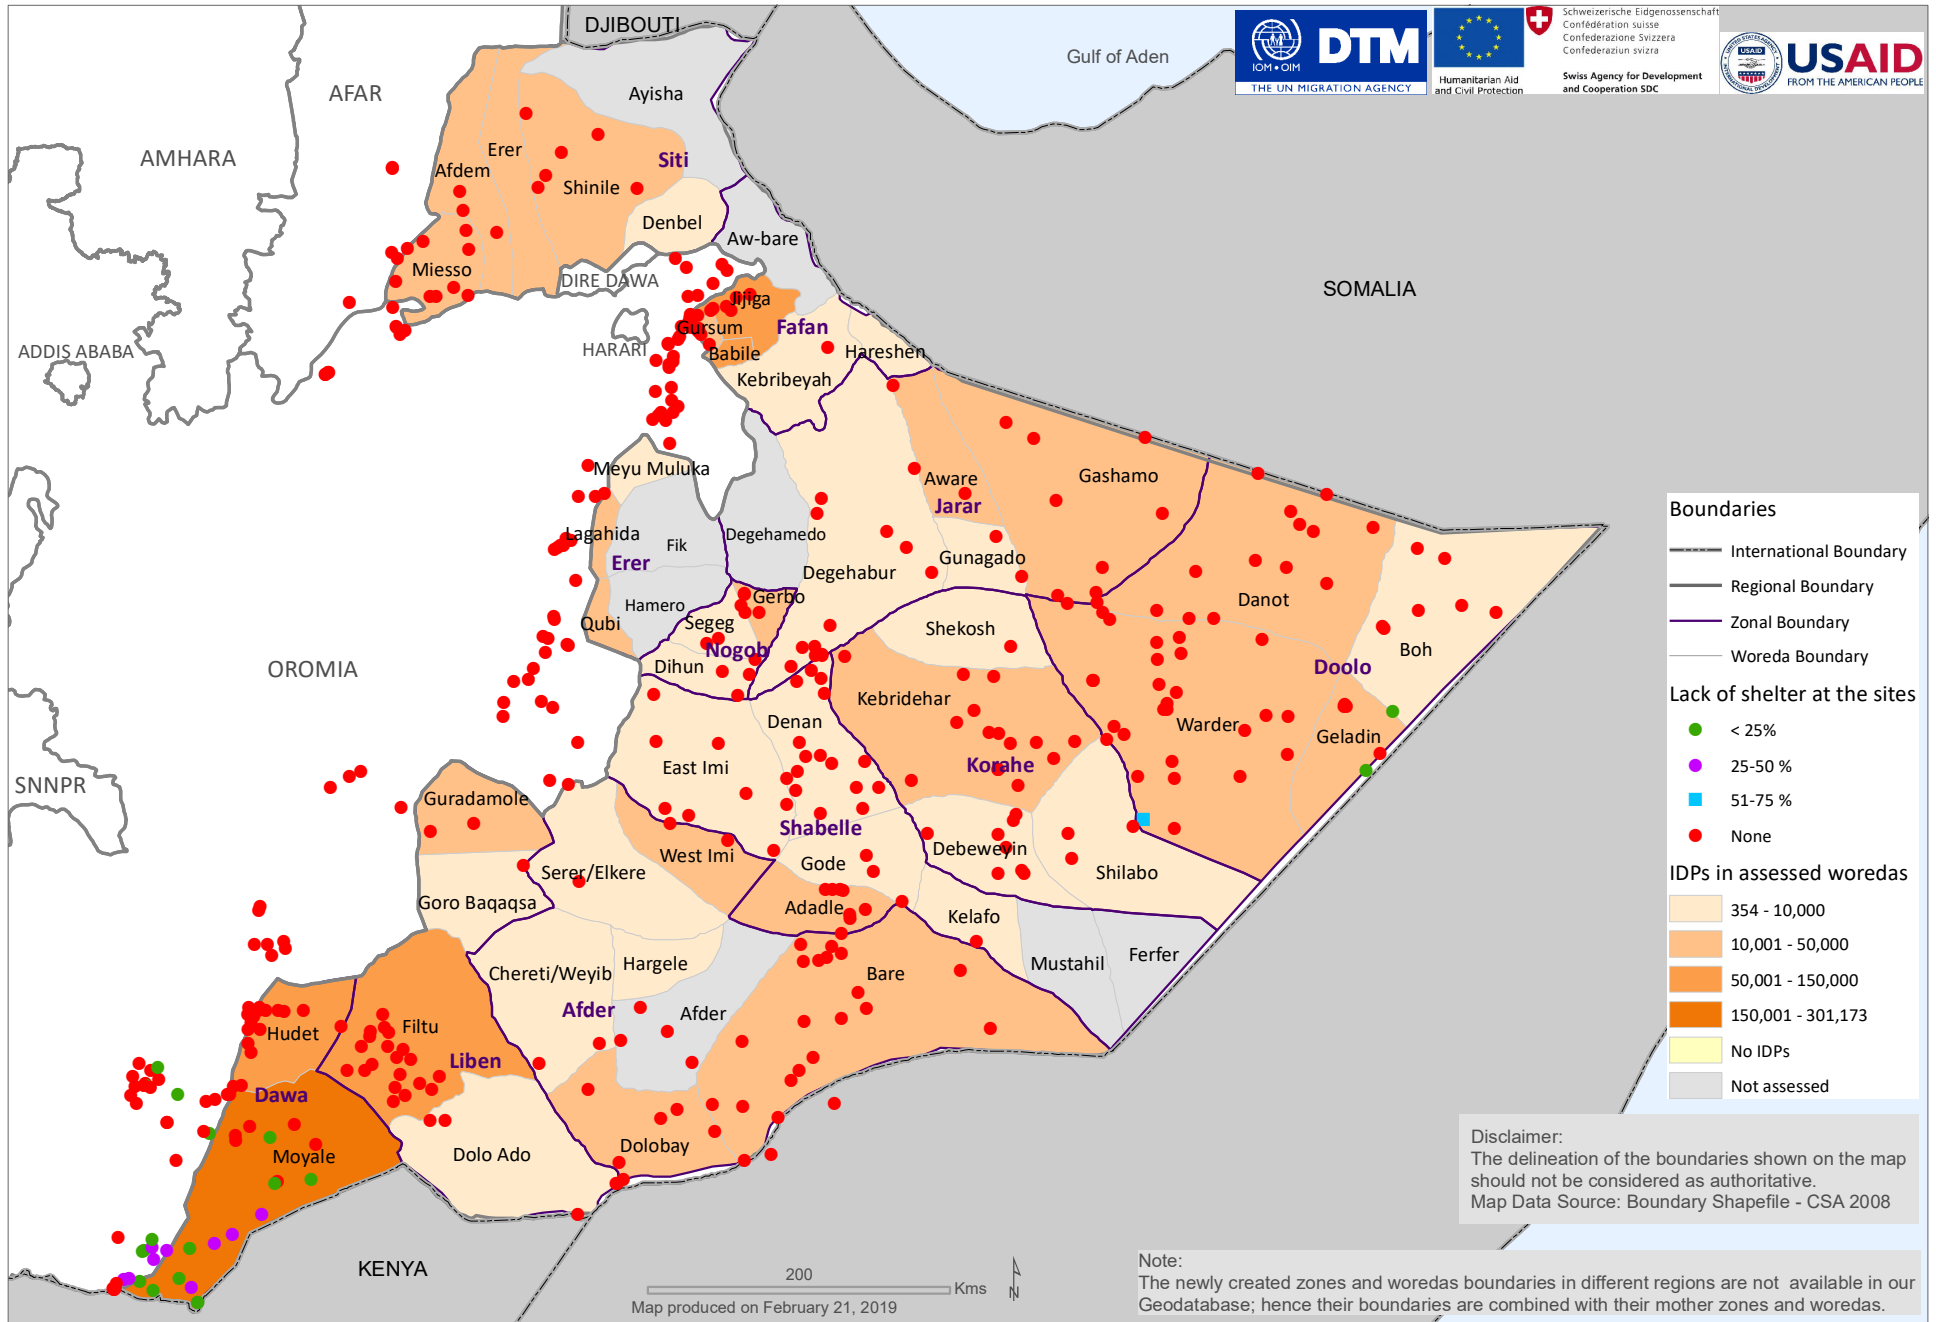

DTM made possible thanks to the European Civil Protection and Humanitarian Aid Operations (ECHO), the Ethiopian Humanitarian Fund (EHF), the Office of United States Foreign Disaster Assistance (OFDA) and the Swiss agency for Development and Cooperation (SDC).

The opinions expressed in this report are those of the authors and do not necessarily reflect the views of the Office of United States Foreign Disaster Assistance.

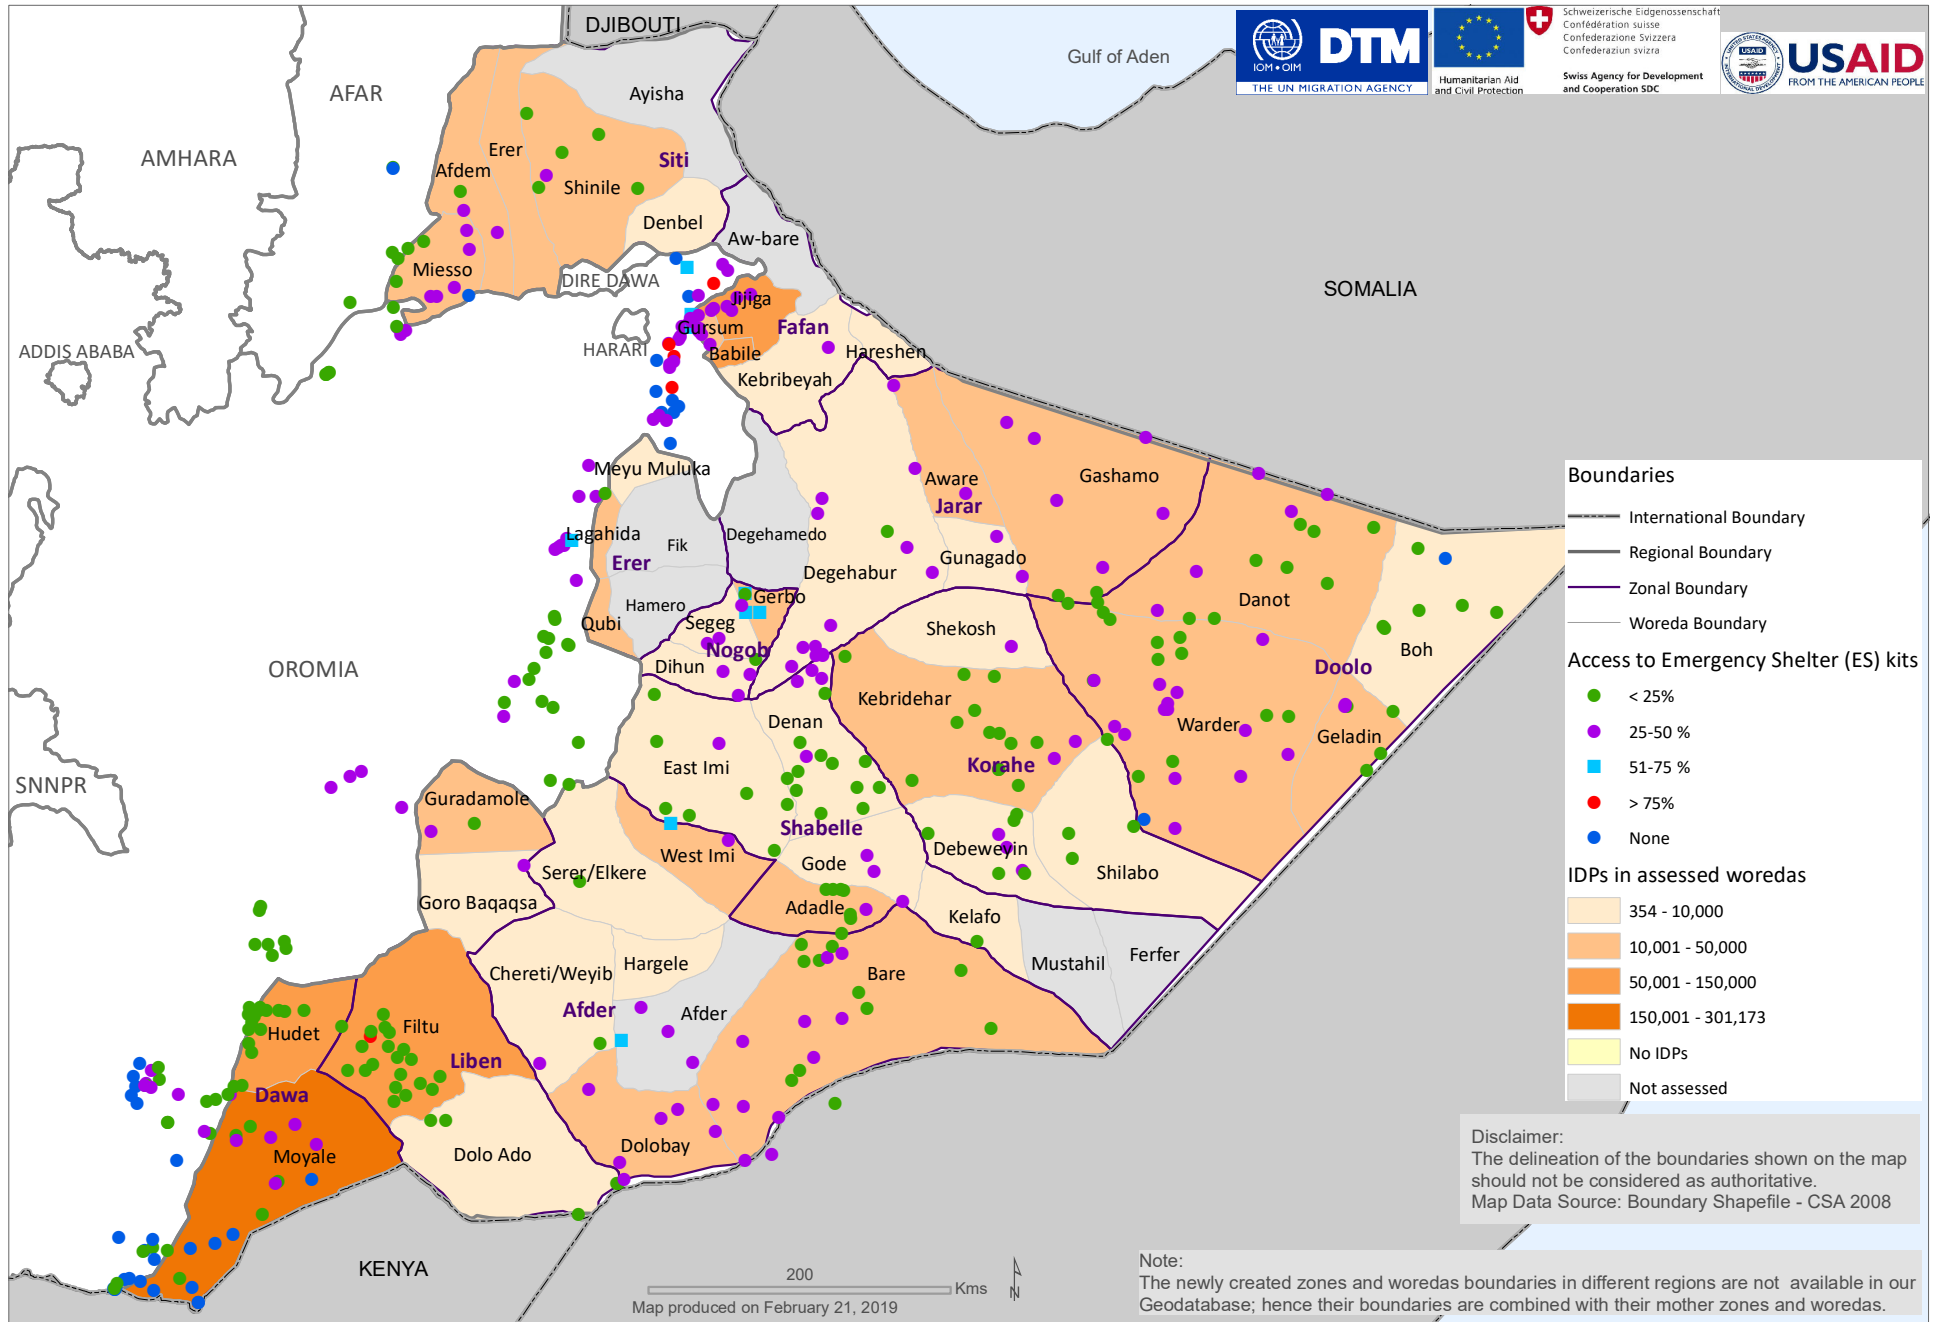

Annex II: Somali region Displacement causes and IDPs in assessed woredas DTM round fifteen (01/01 - 31/01, 2019)

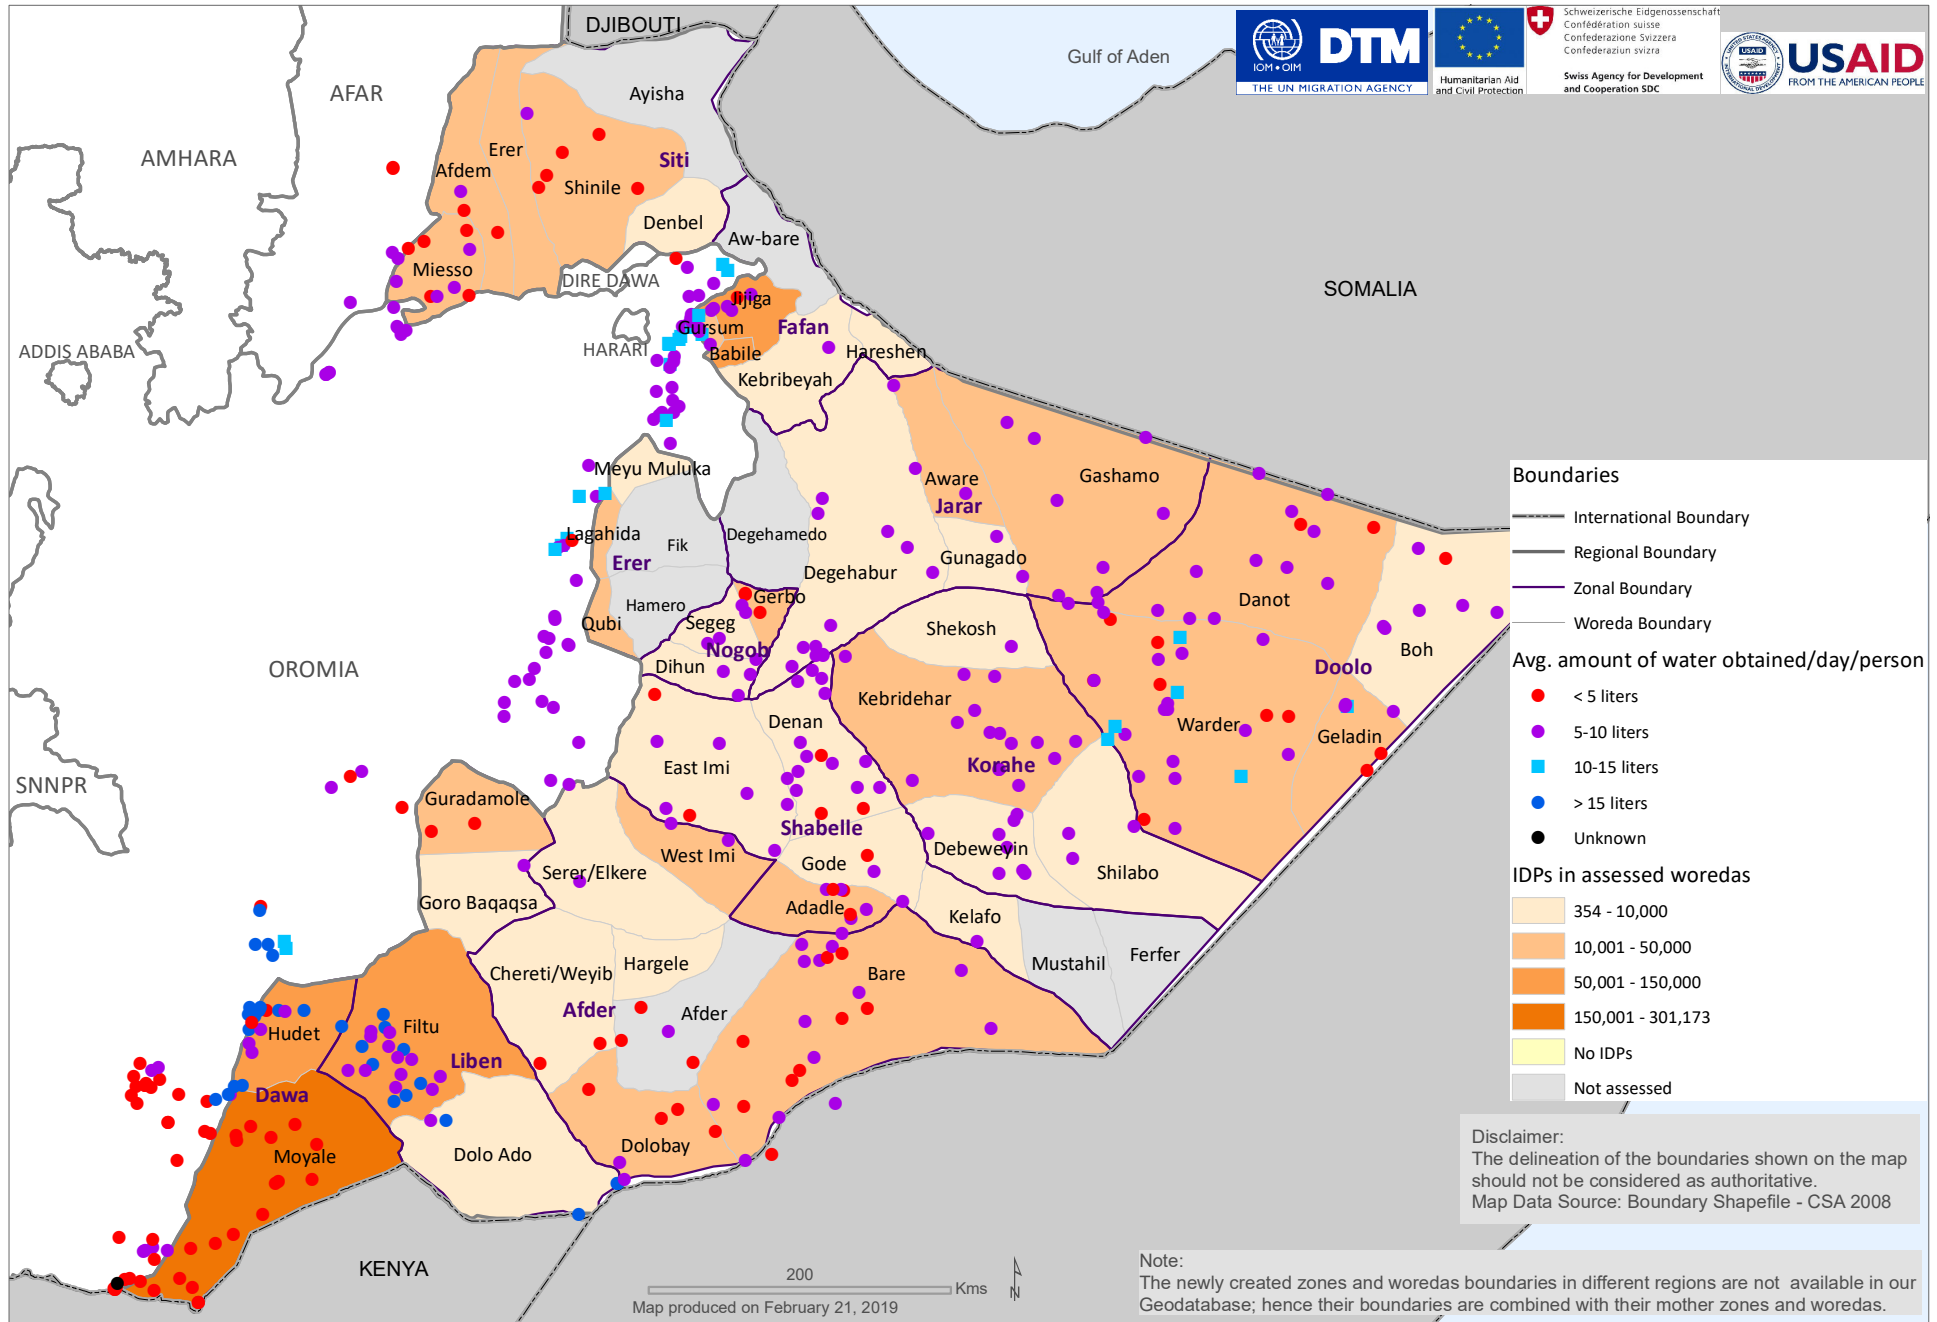

Annex III: Somali region households reporting lack of shelter at the sites and IDPs in assessed woredas DTM round fifteen (01/01 - 31/01, 2019)

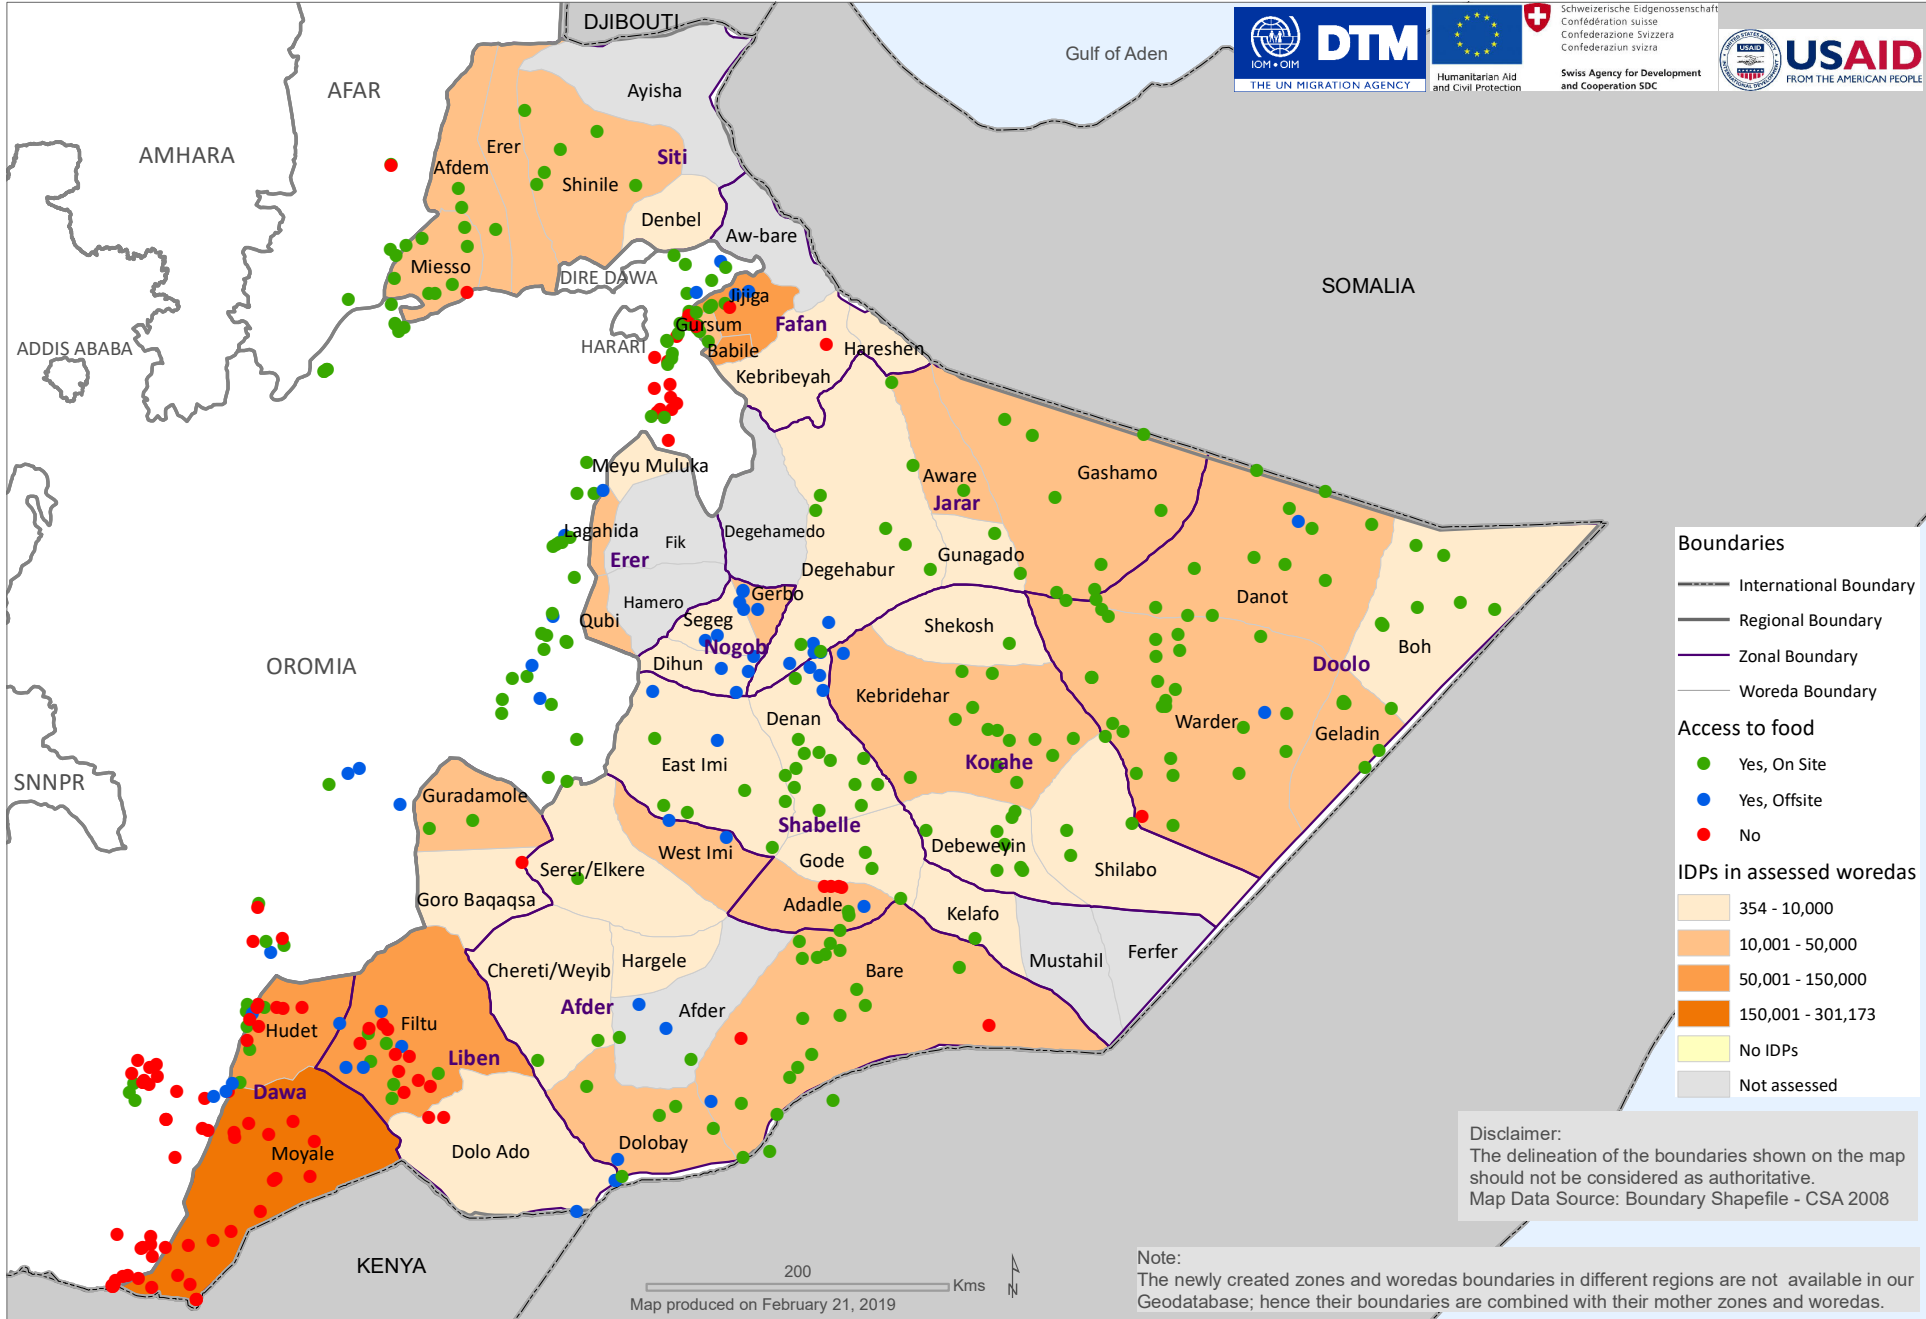

Annex IV: Somali region households reporting access to ES kits and IDPs in assessed woredas DTM round fifteen (01/01 - 31/01, 2019)

Annex V: Somali region sites reporting access to water and IDPs in assessed woredas DTM round fifteen (01/01 - 31/01, 2019)

Annex VI: Somali region sites reporting access to food and IDPs in assessed woredas DTM round fifteen (01/01 - 31/01, 2019)

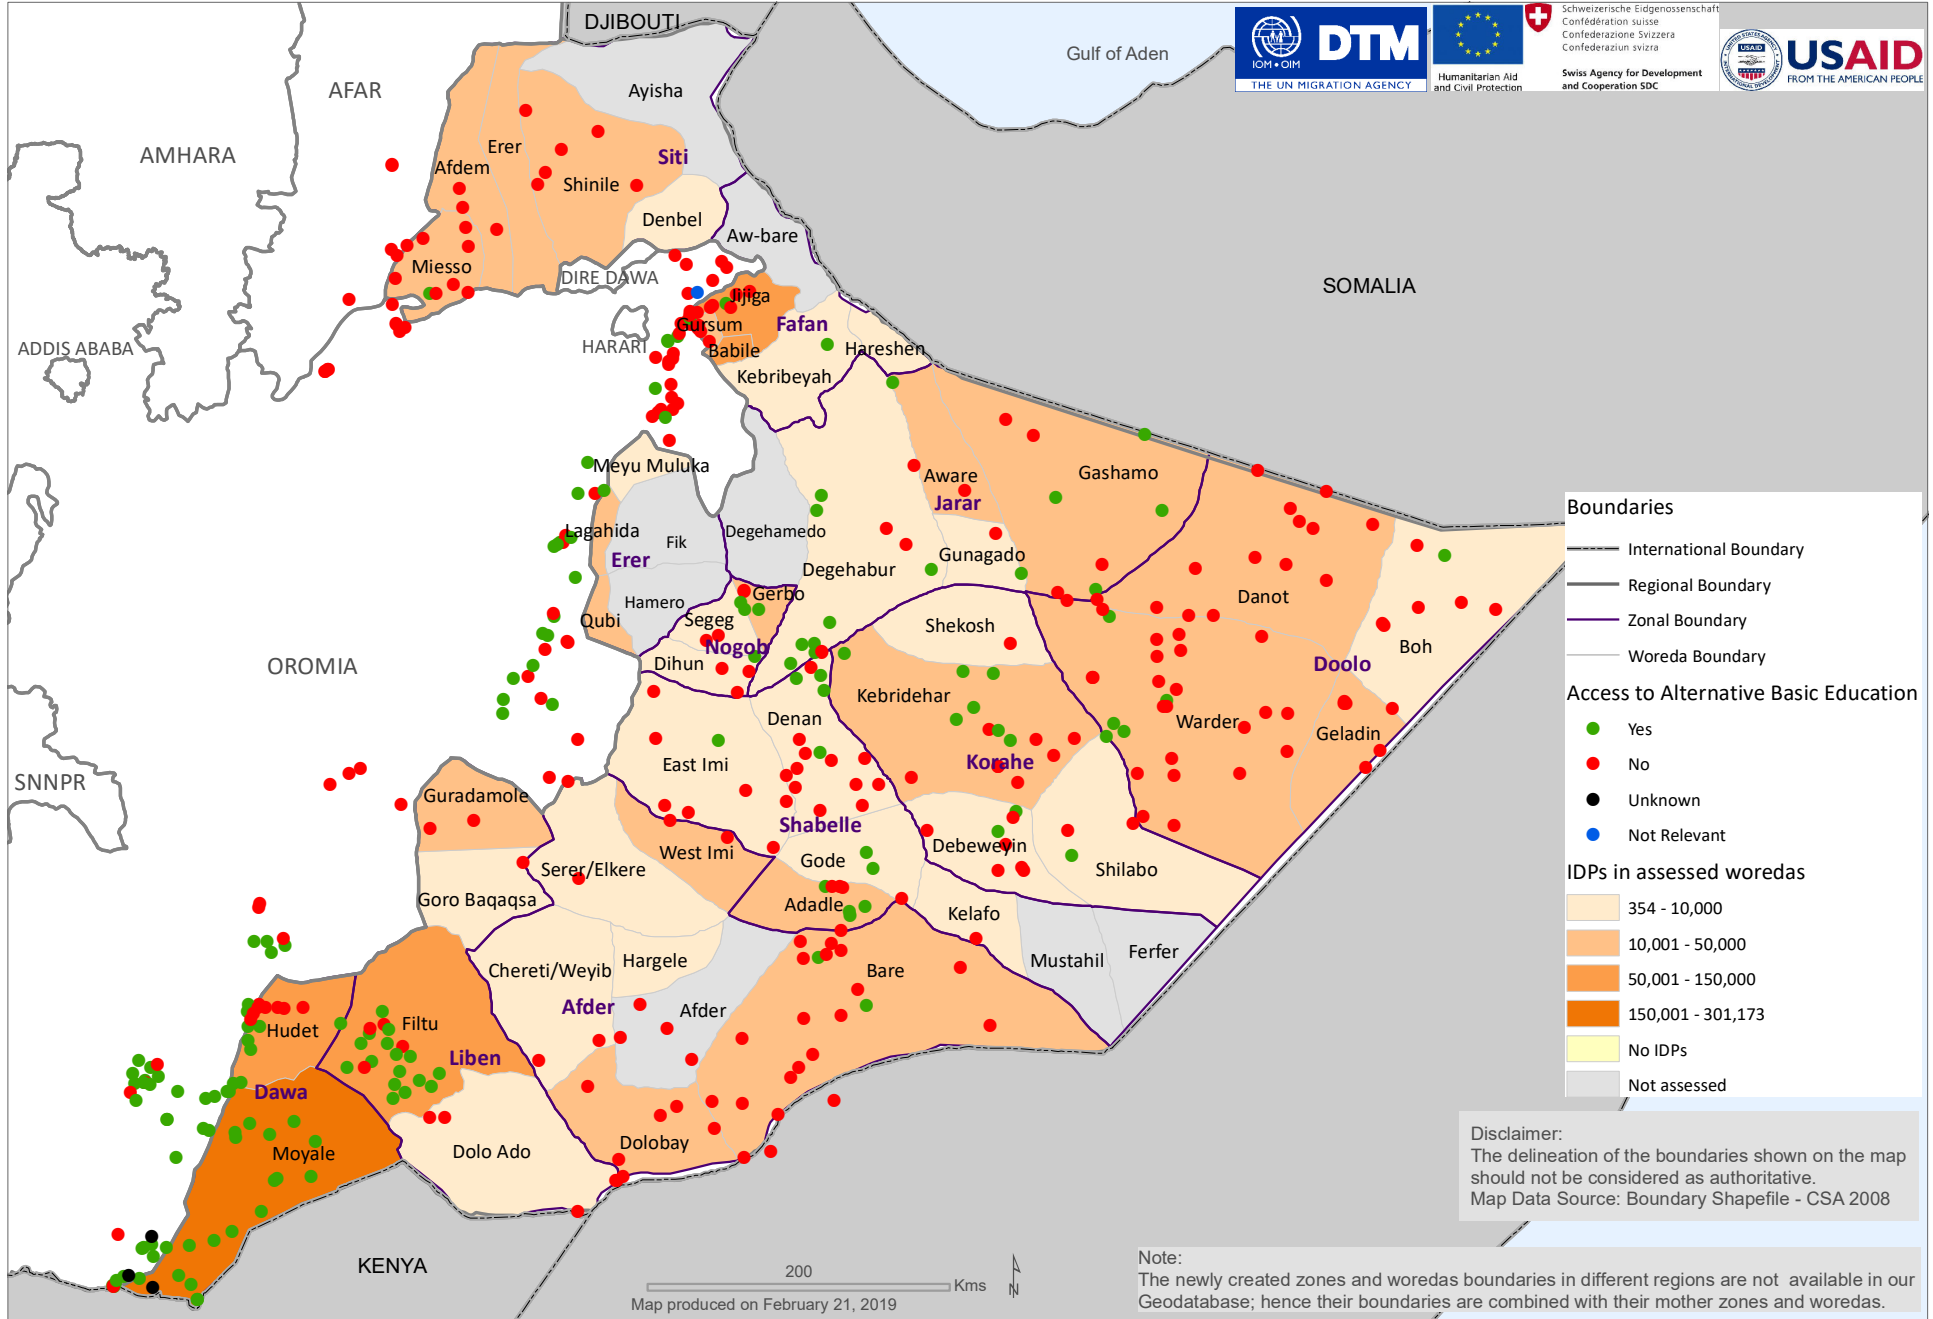

Disclaimer:
The delineation of the boundaries shown on the map should not be considered as authoritative.
Map Data Source: Boundary Shapefile - CSA 2008

Note:
The newly created zones and woredas boundaries in different regions are not available in our Geodatabase; hence their boundaries are combined with their mother zones and woredas.

200 Kms
Map produced on February 21, 2019

Annex VIII: Somali region sites reporting access to ABE and IDPs in assessed woredas DTM round fifteen (01/01 - 31/01, 2019)

Boundaries

- International Boundary
- Regional Boundary
- Zonal Boundary
- Woreda Boundary

Access to Alternative Basic Education

- Yes
- No
- Unknown
- Not Relevant

IDPs in assessed woredas

- 354 - 10,000
- 10,001 - 50,000
- 50,001 - 150,000
- 150,001 - 301,173
- No IDPs
- Not assessed
