

## Wau County, Western Bahr el Ghazal

Data collection 6 April 2019

Clashes between pastoralists and farmers in Kuarjena and Rocrocdong, Jur River broke out in early March 2019 which led to displacement within Ju River and beyond, as already reported on 15 March 2019 ([link](#)). Due to continued fighting, 2,815 individuals decided to flee further, reaching Wau PoC AA and Masna collective centre since 24 March 2019. New arrivals will be registered by IOM DTM in the coming week to facilitate access to services.

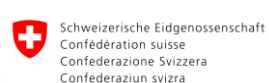

To reach Wau Town, IDPs from Kuarjena walked approximately 45km along a main road (see image below).

IOM DTM employs Event Tracking as a more rapid and localized assessment tool complementing overall efforts to report on IDP and returnee figures nationally (see Mobility Tracking round 4 reports and maps on [displacement.iom.int/south-sudan](http://displacement.iom.int/south-sudan)). IOM teams access IDP / returnee locations and consult local key informants including community representatives, local authorities or humanitarian partners and triangulate findings to provide partners with the most accurate as possible, actionable and current data.
