

Survey Date: 2019-04-18

Site Location: -19.536036, 32.917147

Site Information		4 Households	14 Individuals
Site ID:	MOZ_S129		
Site Classification:	Spontaneous		
Site type:	Community Center		
Site Opening Date:	2019-03-15		
Expected period of displacement:	Between 1 and 3 months		
District (site Location):	Sussundenga		
Is the site safe and secure?	Yes		
Administrative Post (site location):	Rotanda		
	Is there a Site Management Committee at the site?	Yes	
	Is the Site Management Committee made up of community members?	None	
	What type of organization is managing the site?	None	
	Is there a Site Management Agency at the site?	Yes	
	Is there a service provider contact list?	None	
	Is the site easily accessible?	No	

The information included in this report was collected from 2019-04-15 to 2019-04-18. To access information on IDP population in displacements sites as of today, kindly consult IOM Displacement Movement Tracking – Daily Update [Click here](#)

NEED

First most urgent need:	Food
Second most urgent need:	Seeds
Third most urgent need:	Shelter

SHELTER

Top one NFI need not accessible to IDPs:	Mosquito nets
Top two NFI need not accessible to IDPs:	Items for sleeping (mats, blankets,..)
Top three NFI need not accessible to IDPs:	Cooking items (pots/pans)

FOOD

Percentage of Households who had less than 3 meals per day in the past week:	100%
How people get access to the market?	Walking
Can people buy what they need at the market?	No
Reason why most people cannot buy what they need at the market:	Do not have enough money/Prices are too high

EDUCATION

Percentage of IDP children(3 - 5 years old) attending school:	25%
Percentage of IDP children(6 - 12 years old) attending school:	75%
Percentage of IDP children(13 - 17 years old) attending school:	75%

RETURN

District of Origin of Largest Group of IDPs:	Sussundenga
Post of Origin of Largest Group of IDPs:	Rotanda
What is preventing the largest IDP group from returning home?	Lack of safety

WASH

Main source of drinking water:	Rainwater
Percentage of IDPs who have enough drinking water:	100%
Percentage of IDPs who have access to functioning bathing/shower facilities:	75%
Percentage of IDPs living in areas where open defecation is visible:	25%
Percentage of IDPs living in areas where garbage is visible:	50%
Primary type of sanitation facilities:	Pit latrine without slab / open pit

HEALTH

Distance from the nearest health facility:	Up to 30 minutes
Main reason preventing IDPs from accessing healthcare services:	Nothing is preventing people
Female healthcare workers available at the health facility:	Yes
Are most women seeing a health professional during their pregnancy?	Yes
Where do women give birth?	At health facility

PROTECTION

Is there security provided?	Yes
Is there a threat of eviction?	No
Is there adequate lighting in the majority of communal points?	No
Is there in the site separated Latrines for males and females?	Yes, A few (around 25%)
Is there bathing facilities in the site with functioning locks on the inside of doors?	No

Survey Date: 2019-04-18

Site Location: -19.975771, 33.394848

Site Information		71 Households	134 Individuals
Site ID:	MOZ_S123		
Site Classification:	Spontaneous		
Site type:	Resettlement Center		
Site Opening Date:	2019-04-09		
Expected period of displacement:	Between 2 weeks and 1 month		
District (site Location):	Sussundenga		
Is the site safe and secure?	Yes		
Administrative Post (site location):	Dombe		
	Is there a Site Management Committee at the site?	Yes	
	Is the Site Management Committee made up of community members?	None	
	What type of organization is managing the site?	None

Percentage of Households who had less than 3 meals per day in the past week:	100%
How people get access to the market?	Walking
Can people buy what they need at the market?	No
Reason why most people cannot buy what they need at the market:	Do not have enough money/Prices are too high

EDUCATION

Percentage of IDP children(3 - 5 years old) attending school:	0%
Percentage of IDP children(6 - 12 years old) attending school:	50%
Percentage of IDP children(13 - 17 years old) attending school:	50%

RETURN

District of Origin of Largest Group of IDPs:	Chibabava
Post of Origin of Largest Group of IDPs:	Goonda
What is preventing the largest IDP group from returning home?	House damaged/destroyed

WASH

Main source of drinking water:	Tube well/Borehole
Percentage of IDPs who have enough drinking water:	25%
Percentage of IDPs who have access to functioning bathing/shower facilities:	25%
Percentage of IDPs living in areas where open defecation is visible:	75%
Percentage of IDPs living in areas where garbage is visible:	25%
Primary type of sanitation facilities:	Pit latrine without slab / open pit

HEALTH

Distance from the nearest health facility:	There is no reachable health facility
Main reason preventing IDPs from accessing healthcare services:	Nothing is preventing people
Female healthcare workers available at the health facility:	Yes
Are most women seeing a health professional during their pregnancy?	Yes
Where do women give birth?	At health facility

PROTECTION

Is there security provided?	No
Is there a threat of eviction?	No
Is there adequate lighting in the majority of communal points?	No
Is there in the site separated Latrines for males and females?	Yes, All
Is there bathing facilities in the site with functioning locks on the inside of doors?	No

Survey Date: 2019-04-18

NEED

First most urgent need:	Food
Second most urgent need:	Shelter
Third most urgent need:	Various inputs

SHELTER

Top one NFI need not accessible to IDPs:	Mosquito nets
Top two NFI need not accessible to IDPs:	Items for sleeping (mats, blankets,..)
Top three NFI need not accessible to IDPs:	Hygiene products (for personal hygiene)

FOOD

Percentage of Households who had less than 3 meals per day in the past week:	25%
How people get access to the market?	Walking
Can people buy what they need at the market?	No
Reason why most people cannot buy what they need at the market:	Do not have enough money/Prices are too high

EDUCATION

Percentage of IDP children(3 - 5 years old) attending school:	25%
Percentage of IDP children(6 - 12 years old) attending school:	50%
Percentage of IDP children(13 - 17 years old) attending school:	25%

RETURN

District of Origin of Largest Group of IDPs:	Sussundenga
Post of Origin of Largest Group of IDPs:	Dombe
What is preventing the largest IDP group from returning home?	House damaged/destroyed

WASH

Main source of drinking water:	Protected dug well
Percentage of IDPs who have enough drinking water:	25%
Percentage of IDPs who have access to functioning bathing/shower facilities:	25%
Percentage of IDPs living in areas where open defecation is visible:	50%
Percentage of IDPs living in areas where garbage is visible:	25%
Primary type of sanitation facilities:	Pit latrine without slab / open pit

HEALTH

Distance from the nearest health facility:	There is no reachable health facility
Main reason preventing IDPs from accessing healthcare services:	There are no reachable health services
Female healthcare workers available at the health facility:	No
Are most women seeing a health professional during their pregnancy?	No
Where do women give birth?	At home

PROTECTION

Is there security provided?	Yes
Is there a threat of eviction?	No
Is there adequate lighting in the majority of communal points?	No
Is there in the site separated Latrines for males and females?	No
Is there bathing facilities in the site with functioning locks on the inside of doors?	No

Is there a service provider contact list?	None
Is the site easily accessible?	Limited access

The information included in this report was collected from 2019-04-15 to 2019-04-18. To access information on IDP population in displacements sites as of today, kindly consult IOM Displacement Movement Tracking – Daily Update [Click here](#)

NEED

First most urgent need:	Food
Second most urgent need:	Shelter
Third most urgent need:	Clothes

SHELTER

Top one NFI need not accessible to IDPs:	Shoes and clothes
Top two NFI need not accessible to IDPs:	Items for sleeping (mats, blankets,..)
Top three NFI need not accessible to IDPs:	Soap/detergent for washing clothes

FOOD

Percentage of Households who had less than 3 meals per day in the past week:	100%
How people get access to the market?	Walking
Can people buy what they need at the market?	No
Reason why most people cannot buy what they need at the market:	Do not have enough money/Prices are too high

EDUCATION

Percentage of IDP children(3 - 5 years old) attending school:	0%
Percentage of IDP children(6 - 12 years old) attending school:	75%
Percentage of IDP children(13 - 17 years old) attending school:	75%

RETURN

District of Origin of Largest Group of IDPs:	Sussundenga
Post of Origin of Largest Group of IDPs:	Dombe
What is preventing the largest IDP group from returning home?	House damaged/destroyed

WASH

Main source of drinking water:	Surface water
Percentage of IDPs who have enough drinking water:	75%
Percentage of IDPs who have access to functioning bathing/shower facilities:	100%
Percentage of IDPs living in areas where open defecation is visible:	0%
Percentage of IDPs living in areas where garbage is visible:	0%
Primary type of sanitation facilities:	Pit latrine without slab / open pit

HEALTH

Distance from the nearest health facility:	Up to 30 minutes
Main reason preventing IDPs from accessing healthcare services:	Nothing is preventing people
Female healthcare workers available at the health facility:	Yes
Are most women seeing a health professional during their pregnancy?	Yes
Where do women give birth?	At health facility

PROTECTION

Is there security provided?	Yes
Is there a threat of eviction?	No
Is there adequate lighting in the majority of communal points?	No
Is there in the site separated Latrines for males and females?	Yes, About half (around 50%)
Is there bathing facilities in the site with functioning locks on the inside of doors?	No

Survey Date: 2019-04-18

Site Location: -19.975035, 33.394558

Site Information		155 Households	774 Individuals
Site ID:	MOZ_S125		
Site Classification:	Spontaneous		
Site type:	Tent		
Site Opening Date:	2019-03-16		
Expected period of displacement:	Between 1 and 3 months		
District (site Location):	Sussundenga		
Is the site safe and secure?	Yes		
Administrative Post (site location):	Dombe		
	Is there a Site Management Committee at the site?	Yes	
	Is the Site Management Committee made up of community members?	None	
	What type of organization is managing the site?	None	
	Is there a Site Management Agency at the site?	Yes	
	Is there a service provider contact list?	None	
	Is the site easily accessible?	Yes
