

Following the onset of armed conflict on 04 April 2019 in South Tripoli, at least 6,995 families (approximately 34,975 individuals) have been displaced from their homes. Since DTM’s last update on 19 April, an additional 570 displaced families (approximately 2,850 individuals) were identified.

Clashes continued in conflict-affected areas of southern Tripoli, reportedly with continued use of airstrikes and shelling. The number of families displaced has continued to steadily increase, and most of the displaced households are currently staying with family and in private accommodations. Most IDP families have been identified in different neighborhoods and suburbs of Tripoli, as well as in the areas along the coastal line of western Libya and the Nafusa mountains. Please refer to pages 2-3 of this report for further details on location disaggregated figures.

IDPs displaced to areas in proximity to the reported sites of ongoing clashes remain at risk, along with host community members currently providing them with shelter. In addition, over 466 IDP families (approximately 2,330 individuals) have been accommodated in collective shelters set up by local authorities. The number of families seeking shelter at these collective sites has remained steady over the past week.

Currently, around 3,127 migrants remain in detention centers in Tripoli and nearby areas and are among the most vulnerable populations at risk, especially the 890 migrants in Qasr Ben Gashir Detention Center in direct vicinity of armed conflict.
