

**OVERVIEW**

Tropical Cyclone Idai made landfall in Zimbabwe, on the 15 of March 2019. From the 16th to the 18th of April 2019 IOM, in close coordination with the Government of Zimbabwe conducted baseline assessments in Bikita, Gutu, Masvingo Rural and Zaka districts. DTM will do continuous assessments. For DTM Round 1 in Manicaland click on this [link](#).

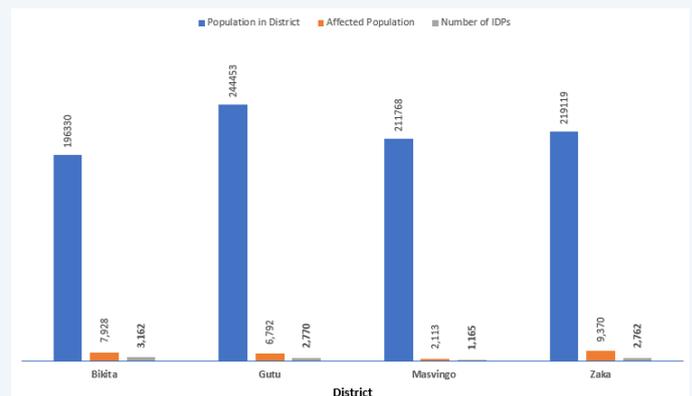

**DEMOGRAPHICS**

9,859 IDPs (2,059 households)\* were reported across the 4 affected districts.

The largest number of IDPs have been identified in Bikita (3,162 IDPs), followed by Gutu (2,770 IDPs), Zaka (2,762 IDPs) and Masvingo Rural (1,165 IDPs). The high number of IDPs in Bikita can be explained by the fact that the district shares the border with Chipinge.

*\*Due to limited time in collecting the 2nd round, data from some of the wards was collected through phone interviews with Ward leaders (Councilors).*

Figure 1. District population, affected population, and IDPs by districts

**LOCATION TYPE**

The majority of IDPs (98%) are living in host communities, while 2% of the IDP population is currently residing in camps.

Figure 2 — Location type

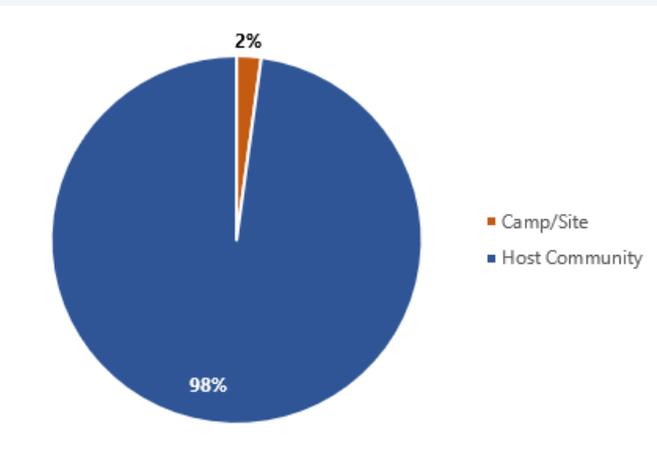

Table 1 — List of Collective Centers

District	Ward Number	Name of the camp
Bikita	20	Borwe Centre
Gutu	30	Chitungidza
Gutu	32	Bustree Camp
Masvingo	8	Black Fontain
Masvingo	32	Hwendedzo Plot
Masvingo	6	Summerton
Masvingo	9	village 8B
Zaka	13	Chanhanga camp
Zaka	13	Chibuku camp
Zaka	13	Mutiziri camp

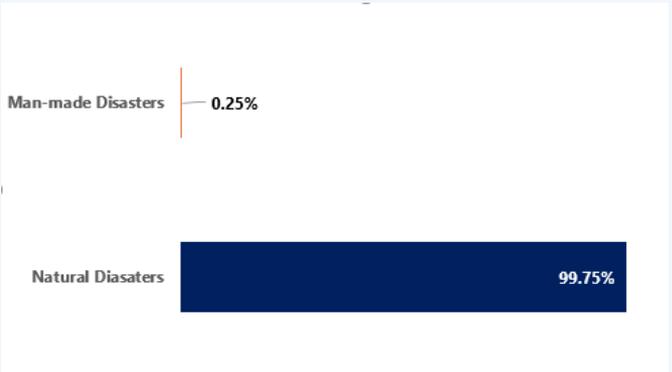

Damaged house in Masvingo Rural District

**DISPLACEMENT REASONS**

The majority of IDPs (99.75%) identified in these 4 districts were displaced due to cyclone Idai. Very few (0.25%) were displaced by man-made disasters.

Figure 3 — Reasons of displacement

**PLACE OF ORIGIN**

One hundred percent of the IDPs identified in Zaka and Bikita originate from the same districts, whereas IDPs identified in Masvingo rural and Gutu have some IDPs that originate from other districts.

District	District of Origin of Majority	Individuals
Masvingo	Masvingo	99.14%
Gutu	Gutu	99.63%
Bikita	Bikita	100%
Zaka	Zaka	100%

**NEEDS**

In 44 out of 143 wards that were assessed, Food has been identified as the primary need. In 38 wards, Shelter/Housing was identified as the primary need.
