### Persons with special vulnerabilities

**5** breastfeeding mothers      **2** elderly-headed household  
**1** person with Disabilities      **0** person with chronic diseases / serious medical conditions

#### Water

Location of the site's **main water** source: **Off-site (<20 minutes)**  
Main **non-drinking** water source: **Unprotected Well**  
Main **drinking** water source: **Unprotected Well**  
Average **amount of water** available per day/person: **10-15 liters**  
Drinking water treated before consumption **No treatment**  
**Main problem with the water: Odor/smell**

#### Hygiene / Sanitation

People use toilets on or off site: **On-site**  
Condition of most of the latrines: **Not so good (not hygienic)**  
Functioning toilets on-site: **2**  
Evidence of open defecation: **No**  
Evidence of hand-washing practices: **No**  
Garbage Disposal Type: **Municipal collection**

### Food / Nutrition

Access to food: **No**      Screening for malnutrition conducted in the area: **No**  
Access to a market near from the site: **Yes**      Supplementary feeding availability for pregnant/lactating mother: **No**  
Most common source for food: **Own cash**      Supplementary feeding availability for children: **No**

#### Education

Access to formal education facility: **Yes**  
Access to non formal education facility: **No**  
Distance to nearest education facility: **Off-site (<20 minutes)**  
% of girls at the site attending school: **>75%**

#### Protection

Security on-site/settlement areas: **Yes**  
Security incidents reported: **No**  
Main security provider: **Self organized**  
Lighting in communal points: **Yes, but not adequate**

#### Health

Distance to the closest functioning health facility: **Off-site (<30 minutes)**      **Prevalent health problems**  
Provider of on-site health facilities: **Government**      1st most: **None**  
Access to psychosocial support in the last 4 weeks: **No**      2nd most: **None**  
Access to immunization services in the last 4 weeks: **Yes**      3rd most: **None**

#### Livelihood

Occupation of most of the households before EQ: **Agriculture/Livestock**  
Occupation of most of the households after EQ: **Agriculture/Livestock**  
Access to income generating activities: **No**  
Livestock on site: **No**  
IDPs have access to land for cultivation: **Yes**  
Income activities women are interested: **Weaving/knitting**  
Income activities men are interested: **Store/small business**

#### Winterization

HH at site planning to move due to winter: **No**  
Winter may limit access from site to: **No**  
Majority of shelters at site are suitable for the winter: **No**  
Location where families plan to cook during the winter: **In the open**  
1st most needed item for winter: **CGIs**  
2nd most needed item for winter: **Fuel**  
3rd most needed item for winter: **Foam mat (floor)**

#### Communication

Male IDPs get most information from: **Local leader**      Main topic of information requested: **Other relief assistance**  
Female IDPs get most information from: **Local leader**      Complaints being reported: **No**

#### Shelter & NFIs

% of HH living outside (no shelter): **None**      % of HH have access to electricity: **More than 75%**  
% of HH living in tents: **None**      % of HH have access to safe cooking facilities: **< 50%**  
% of HH living in temporary shelter (CGIs): **None**      1st most needed type of NFI: **Cooking Gas**  
% of HH living in emergency makeshift shelters: **More than 75%**      2nd most needed type of NFI: **Blankets**  
% of HH living in Other shelters (Open building): **None**      3rd most needed type of NFI: **None**

### Persons with special vulnerabilities

**14** breastfeeding mothers      **23** elderly-headed household  
**3** persons with Disabilities      **3** person with chronic diseases / serious medical conditions

#### Water

Location of the site's **main water** source: **On-site (<20 minutes)**  
Main **non-drinking** water source: **Piped water supply**  
Main **drinking** water source: **Piped water supply**  
Average **amount of water** available per day/person: **10-15 liters**  
Drinking water treated before consumption **No treatment**  
**Main problem with the water:** **None**

#### Hygiene / Sanitation

People use toilets on or off site: **On-site**  
Condition of most of the latrines: **Not so good (not hygienic)**  
Functioning toilets on-site: **9**  
Evidence of open defecation: **No**  
Evidence of hand-washing practices: **No**  
Garbage Disposal Type: **Burning**

### Food / Nutrition

Access to food: **No**      Screening for malnutrition conducted in the area: **Yes**  
Access to a market near from the site: **Yes**      Supplementary feeding availability for pregnant/lactating mother: **No**  
Most common source for food: **Own cash**      Supplementary feeding availability for children: **No**

#### Education

Access to formal education facility: **Yes**  
Access to non formal education facility: **No**  
Distance to nearest education facility: **On-site (<20 minutes)**  
% of girls at the site attending school: **>75%**

#### Protection

Security on-site/settlement areas: **Yes**  
Security incidents reported: **No**  
Main security provider: **Self organized**  
Lighting in communal points: **No lighting**

#### Health

Distance to the closest functioning health facility: **Off-site (1-2 hours)**      **Prevalent health problems**  
Provider of on-site health facilities: **Government**      1st most: **Skin infections**  
Access to psychosocial support in the last 4 weeks: **No**      2nd most: **None**  
Access to immunization services in the last 4 weeks: **Yes**      3rd most: **None**

#### Livelihood

Occupation of most of the households before EQ: **Agriculture/Livestock**  
Occupation of most of the households after EQ: **Agriculture/Livestock**  
Access to income generating activities: **Yes**  
Livestock on site: **Yes**  
IDPs have access to land for cultivation: **Yes**  
Income activities women are interested: **Weaving/knitting**  
Income activities men are interested: **Art/Craft**

#### Winterization

HH at site planning to move due to winter: **No**  
Winter may limit access from site to: **None**  
Majority of shelters at site are suitable for the winter: **No**  
Location where families plan to cook during the winter: **In shelter separate for cooking**  
1st most needed item for winter: **Foam mat (floor)**  
2nd most needed item for winter: **Mattress/Bed**  
3rd most needed item for winter: **Winter clothes**

#### Communication

Male IDPs get most information from: **Local leader**      Main topic of information requested: **Situation in areas of origin**  
Female IDPs get most information from: **Families & friends**      Complaints being reported: **No**

#### Shelter & NFIs

% of HH living outside (no shelter): **None**      % of HH have access to electricity: **None**  
% of HH living in tents: **None**      % of HH have access to safe cooking facilities: **None**  
% of HH living in temporary shelter (CGIs): **More than 75%**      1st most needed type of NFI: **Blankets**

Dolakha (Marbu ,5,6) and Dolakha (Khare ,4,5,6)

## Persons with special vulnerabilities

23 breastfeeding mothers

2 elderly-headed household

3 persons with Disabilities

0 person with chronic diseases / serious medical conditions

## Water

Location of the site's main water source: On-site (&lt;20 minutes)

People use toilets on or off site: On-site

Main non-drinking water source: Spring/river

Condition of most of the latrines: Not so good (not hygienic)

Main drinking water source: Piped water supply

Functioning toilets on-site: 15

Average amount of water available per day/person: &gt;15 liters

Evidence of open defecation: Yes

Drinking water treated before consumption Chlorinated

Evidence of hand-washing practices: No

Main problem with the water: None

Garbage Disposal Type: Burning

## Food / Nutrition

Access to food: No

Screening for malnutrition conducted in the area: No

Access to a market near from the site: No

Supplementary feeding availability for pregnant/lactating mother: Yes

Most common source for food: Own cash

Supplementary feeding availability for children: Yes

## Education

Access to formal education facility: Yes

Security on-site/settlement areas: Yes

Access to non formal education facility: Yes

Security incidents reported: No

Distance to nearest education facility: Off-site (&gt;20 minutes)

Main security provider: Police

% of girls at the site attending school: &gt;75%

Lighting in communal points: Yes, but not adequate

## Health

Distance to the closest functioning health facility: Off-site (&lt;30 minutes)

## Prevalent health problems

Provider of on-site health facilities: Local Clinic/med practitioners

1st most: Cough

Access to psychosocial support in the last 4 weeks: Yes

2nd most: Cold

Access to immunization services in the last 4 weeks: No

3rd most: Cold

## Livelihood

## Winterization

Occupation of most of the households before EQ: Trade

HH at site planning to move due to winter: No

Occupation of most of the households after EQ: Trade

Winter may limit access from site to: No

Access to income generating activities: Yes

Majority of shelters at site are suitable for the winter: No

Livestock on site: No

Location where families plan to cook during the winter: In shelter where people sleep

IDPs have access to land for cultivation: No

1st most needed item for winter: Blanket

Income activities women are interested: Weaving/knitting

2nd most needed item for winter: Foam mat (floor)

Income activities men are interested: Construction/daily labour

3rd most needed item for winter: Winter clothes

## Communication

Male IDPs get most information from: Mobile phone

Main topic of information requested: Recovery plans

Female IDPs get most information from: Families &amp; friends

Complaints being reported: Yes

## Shelter &amp; NFIs

% of HH living outside (no shelter): None

% of HH have access to electricity: More than 75%

% of HH living in tents: &lt; 25%

% of HH have access to safe cooking facilities: More than 75%

% of HH living in temporary shelter (CGIs): More than 75%

1st most needed type of NFI: Cooking Gas

% of HH living in emergency makeshift shelters: None

2nd most needed type of NFI: Blankets

% of HH living in Other shelters (Open building): None

3rd most needed type of NFI: Kitchen sets

 Main **problem with the water:** **Odor/smell**

#### Hygiene / Sanitation

People use toilets on or off site: **On-site**  
 Condition of most of the latrines: **Not so good (not hygienic)**  
 Functioning toilets on-site: **20**  
 Evidence of open defecation: **No**  
 Evidence of hand-washing practices: **Yes**  
 Garbage Disposal Type: **Burning**

### Food / Nutrition

Access to food: **No**  
 Access to a market near from the site: **Yes**  
 Most common source for food: **Own cash**  
 Screening for malnutrition conducted in the area: **No**  
 Supplementary feeding availability for pregnant/lactating mother: **No**  
 Supplementary feeding availability for children: **Yes**

#### Education

Access to formal education facility: **Yes**  
 Access to non formal education facility: **No**  
 Distance to nearest education facility: **Off-site (<20 minutes)**  
 % of girls at the site attending school: **>75%**

#### Protection

Security on-site/settlement areas: **No**  
 Security incidents reported: **No**  
 Main security provider: **Unknown**  
 Lighting in communal points: **Yes, but not adequate**

#### Health

Distance to the closest functioning health facility: **Off-site (<30 minutes)**  
 Provider of on-site health facilities: **Local Clinic/med practitioners**  
 Access to psychosocial support in the last 4 weeks: **No**  
 Access to immunization services in the last 4 weeks: **No**  
 Prevalent health problems  
 1st most: **Diarrhea**  
 2nd most: **Cough**  
 3rd most: **Conjunctivitis**

#### Livelihood

Occupation of most of the households before EQ: **Agriculture/Livestock**  
 Occupation of most of the households after EQ: **Daily wage/Laborer**  
 Access to income generating activities: **Yes**  
 Livestock on site: **No**  
 IDPs have access to land for cultivation: **Yes**  
 Income activities women are interested: **Store/small business**  
 Income activities men are interested: **Construction/daily labour**

#### Winterization

HH at site planning to move due to winter: **No**  
 Winter may limit access from site to: **No**  
 Majority of shelters at site are suitable for the winter: **No**  
 Location where families plan to cook during the winter: **In shelter where people sleep**  
 1st most needed item for winter: **Foam mat (floor)**  
 2nd most needed item for winter: **Winter footwear**  
 3rd most needed item for winter: **Blanket**

#### Communication

Male IDPs get most information from: **Families & friends**  
 Female IDPs get most information from: **Radio/News**  
 Main topic of information requested: **Work opportunities**  
 Complaints being reported: **Unknown**

#### Shelter & NFIs

% of HH living outside (no shelter): **None**  
 % of HH living in tents: **< 25%**  
 % of HH living in temporary shelter (CGIs): **< 50%**  
 % of HH living in emergency makeshift shelters: **< 50%**  
 % of HH living in Other shelters (Open building): **None**  
 % of HH have access to electricity: **More than 75%**  
 % of HH have access to safe cooking facilities: **< 50%**  
 1st most needed type of NFI: **Fire wood**  
 2nd most needed type of NFI: **Cooking Gas**  
 3rd most needed type of NFI: **Blankets**

Evidence of open defecation: **No**  
Evidence of hand-washing practices: **Yes**  
Garbage Disposal Type: **Garbage pit**

### Food / Nutrition

Access to food: **Yes, Off-site**      Screening for malnutrition conducted in the area: **No**  
Access to a market near from the site: **Yes**      Supplementary feeding availability for pregnant/lactating mother: **No**  
Most common source for food: **Own cash**      Supplementary feeding availability for children: **No**

#### Education

Access to formal education facility: **Yes**  
Access to non formal education facility: **No**  
Distance to nearest education facility: **Off-site (>20 minutes)**  
% of girls at the site attending school: **<50%**

#### Protection

Security on-site/settlement areas: **Yes**  
Security incidents reported: **Yes**  
Main security provider: **Police**  
Lighting in communal points: **Yes, but not adequate**

#### Health

Distance to the closest functioning health facility: **Off-site (1-2 hours)**      **Prevalent health problems**  
Provider of on-site health facilities: **Government**      1st most: **Cold**  
Access to psychosocial support in the last 4 weeks: **No**      2nd most: **Cough**  
Access to immunization services in the last 4 weeks: **Yes**      3rd most: **Diarrhea**

#### Livelihood

Occupation of most of the households before EQ: **Agriculture/Livestock**  
Occupation of most of the households after EQ: **Agriculture/Livestock**  
Access to income generating activities: **No**  
Livestock on site: **Yes**  
IDPs have access to land for cultivation: **Yes**  
Income activities women are interested: **Livestock**  
Income activities men are interested: **Agriculture**

#### Winterization

HH at site planning to move due to winter: **Don't know**  
Winter may limit access from site to: **None**  
Majority of shelters at site are suitable for the winter: **No**  
Location where families plan to cook during the winter: **In shelter where people sleep**  
1st most needed item for winter: **Winter clothes**  
2nd most needed item for winter: **Winter footwear**  
3rd most needed item for winter: **Mattress/Bed**

#### Communication

Male IDPs get most information from: **Site management**      Main topic of information requested: **Shelter**  
Female IDPs get most information from: **Families & friends**      Complaints being reported: **Yes**

#### Shelter & NFIs

% of HH living outside (no shelter): **None**      % of HH have access to electricity: **< 25%**  
% of HH living in tents: **None**      % of HH have access to safe cooking facilities: **< 25%**  
% of HH living in temporary shelter (CGIs): **More than 75%**      1st most needed type of NFI: **Cooking Gas**  
% of HH living in emergency makeshift shelters: **< 25%**      2nd most needed type of NFI: **Kitchen sets**  
% of HH living in Other shelters (Open building): **None**      3rd most needed type of NFI: **None**

Garbage Disposal Type: **No System**

## Food / Nutrition

Access to food: **Yes, Off-site**

Access to a market near from the site: **Yes**

Most common source for food: **Own cash**

Screening for malnutrition conducted in the area: **Yes**

Supplementary feeding availability for pregnant/lactating mother: **No**

Supplementary feeding availability for children: **No**

## Education

Access to formal education facility: **Yes**

Access to non formal education facility: **No**

Distance to nearest education facility: **Off-site (<20 minutes)**

% of girls at the site attending school: **>75%**

## Protection

Security on-site/settlement areas: **No**

Security incidents reported: **No**

Main security provider: **Unknown**

Lighting in communal points: **No lighting**

## Health

Distance to the closest functioning health facility: **Off-site (1-2 hours)**

Provider of on-site health facilities: **Government**

Access to psychosocial support in the last 4 weeks: **No**

Access to immunization services in the last 4 weeks: **Yes**

## Prevalent health problems

1st most: **Diarrhea**

2nd most: **Cough**

3rd most: **Cold**

## Livelihood

Occupation of most of the households before EQ: **Agriculture/Livestock**

Occupation of most of the households after EQ: **Agriculture/Livestock**

Access to income generating activities: **Yes**

Livestock on site: **Yes**

IDPs have access to land for cultivation: **Yes**

Income activities women are interested: **Art/Craft**

Income activities men are interested: **Store/small business**

## Winterization

HH at site planning to move due to winter: **No**

Winter may limit access from site to: **Nearest health facility**

Majority of shelters at site are suitable for the winter: **No**

Location where families plan to cook during the winter: **In other structures nearby**

1st most needed item for winter: **Heater**

2nd most needed item for winter: **Winter clothes**

3rd most needed item for winter: **Winter footwear**

## Communication

Male IDPs get most information from: **Local leader**

Female IDPs get most information from: **Local leader**

Main topic of information requested: **Recovery plans**

Complaints being reported: **No**

## Shelter &amp; NFIs

% of HH living outside (no shelter): **None**

% of HH living in tents: **None**

% of HH living in temporary shelter (CGIs): **More than 75%**

% of HH living in emergency makeshift shelters: **None**

% of HH living in Other shelters (Open building): **None**

% of HH have access to electricity: **< 75%**

% of HH have access to safe cooking facilities: **< 50%**

1st most needed type of NFI: **None**

2nd most needed type of NFI: **None**

3rd most needed type of NFI: **Cash assistance**

Functioning toilets on-site: **10**  
Evidence of open defecation: **No**  
Evidence of hand-washing practices: **Yes**  
Garbage Disposal Type: **Burning**

### Food / Nutrition

Access to food: **Yes, On-Site**  
Access to a market near from the site: **No**  
Most common source for food: **Own cash**  
Screening for malnutrition conducted in the area: **Yes**  
Supplementary feeding availability for pregnant/lactating mother: **No**  
Supplementary feeding availability for children: **Yes**

#### Education

Access to formal education facility: **Yes**  
Access to non formal education facility: **No**  
Distance to nearest education facility: **On-site (<20 minutes)**  
% of girls at the site attending school: **>75%**

#### Protection

Security on-site/settlement areas: **Yes**  
Security incidents reported: **No**  
Main security provider: **Self organized**  
Lighting in communal points: **No lighting**

#### Health

Distance to the closest functioning health facility: **Off-site (<30 minutes)**  
Provider of on-site health facilities: **Government**  
Access to psychosocial support in the last 4 weeks: **No**  
Access to immunization services in the last 4 weeks: **Yes**  
**Prevalent health problems**  
1st most: **Cough**  
2nd most: **Cold**  
3rd most: **None**

#### Livelihood

Occupation of most of the households before EQ: **Agriculture/Livestock**  
Occupation of most of the households after EQ: **Agriculture/Livestock**  
Access to income generating activities: **No**  
Livestock on site: **No**  
IDPs have access to land for cultivation: **Yes**  
Income activities women are interested: **Weaving/knitting**  
Income activities men are interested: **Store/small business**

#### Winterization

HH at site planning to move due to winter: **No**  
Winter may limit access from site to: **Market**  
Majority of shelters at site are suitable for the winter: **No**  
Location where families plan to cook during the winter: **In shelter where people sleep**  
1st most needed item for winter: **Foam mat (floor)**  
2nd most needed item for winter: **Blanket**  
3rd most needed item for winter: **Winter clothes**

#### Communication

Male IDPs get most information from: **Local leader**  
Female IDPs get most information from: **Families & friends**  
Main topic of information requested: **Situation in areas of origin**  
Complaints being reported: **Unknown**

#### Shelter & NFIs

% of HH living outside (no shelter): **None**  
% of HH living in tents: **None**  
% of HH living in temporary shelter (CGIs): **None**  
% of HH living in emergency makeshift shelters: **More than 75%**  
% of HH living in Other shelters (Open building): **None**  
% of HH have access to electricity: **None**  
% of HH have access to safe cooking facilities: **None**  
1st most needed type of NFI: **Stove**  
2nd most needed type of NFI: **Foam mat (floor)**  
3rd most needed type of NFI: **CGIs**

### Persons with special vulnerabilities

**1** breastfeeding mothers      **8** elderly-headed household  
**2** person with Disabilities      **0** person with chronic diseases / serious medical conditions

#### Water

Location of the site's **main water** source: **On-site (<20 minutes)**  
Main **non-drinking** water source: **Surface water**  
Main **drinking** water source: **Spring/river**  
Average **amount of water** available per day/person: **10-15 liters**  
Drinking water treated before consumption **Chlorinated**  
**Main problem with the water: None**

#### Hygiene / Sanitation

People use toilets on or off site: **On-site**  
Condition of most of the latrines: **Not so good (not hygienic)**  
Functioning toilets on-site: **8**  
Evidence of open defecation: **Yes**  
Evidence of hand-washing practices: **No**  
Garbage Disposal Type: **Burning**

### Food / Nutrition

Access to food: **No**      Screening for malnutrition conducted in the area: **No**  
Access to a market near from the site: **Yes**      Supplementary feeding availability for pregnant/lactating mother: **No**  
Most common source for food: **Own/Cultivated**      Supplementary feeding availability for children: **No**

#### Education

Access to formal education facility: **Yes**  
Access to non formal education facility: **No**  
Distance to nearest education facility: **Off-site (<20 minutes)**  
% of girls at the site attending school: **>75%**

#### Protection

Security on-site/settlement areas: **No**  
Security incidents reported: **No**  
Main security provider: **Unknown**  
Lighting in communal points: **No lighting**

### Health

Distance to the closest functioning health facility: **Off-site (<30 minutes)**      **Prevalent health problems**  
Provider of on-site health facilities: **Government**      1st most: **None**  
Access to psychosocial support in the last 4 weeks: **No**      2nd most: **None**  
Access to immunization services in the last 4 weeks: **No**      3rd most: **None**

#### Livelihood

Occupation of most of the households before EQ: **Agriculture/Livestock**  
Occupation of most of the households after EQ: **Agriculture/Livestock**  
Access to income generating activities: **Yes**  
Livestock on site: **Yes**  
IDPs have access to land for cultivation: **Yes**  
Income activities women are interested: **Agriculture**  
Income activities men are interested: **Agriculture**

#### Winterization

HH at site planning to move due to winter: **No**  
Winter may limit access from site to: **None**  
Majority of shelters at site are suitable for the winter: **No**  
Location where families plan to cook during the winter: **In shelter where people sleep**  
1st most needed item for winter: **Blanket**  
2nd most needed item for winter: **Winter clothes**  
3rd most needed item for winter: **Nothing**

### Communication

Male IDPs get most information from: **Families & friends**      Main topic of information requested: **Recovery plans**  
Female IDPs get most information from: **Families & friends**      Complaints being reported: **No**

### Shelter & NFIs

% of HH living outside (no shelter): **None**      % of HH have access to electricity: **None**  
% of HH living in tents: **None**      % of HH have access to safe cooking facilities: **< 75%**  
% of HH living in temporary shelter (CGIs): **More than 75%**      1st most needed type of NFI: **Cooking Gas**  
% of HH living in emergency makeshift shelters: **None**      2nd most needed type of NFI: **None**  
% of HH living in Other shelters (Open building): **None**      3rd most needed type of NFI: **None**

### Persons with special vulnerabilities

**7** breastfeeding mothers      **8** elderly-headed household  
**1** persons with Disabilities      **0** person with chronic diseases / serious medical conditions

#### Water

Location of the site's **main water** source: **Off-site (<20 minutes)**  
 Main **non-drinking** water source: **Spring/river**  
 Main **drinking** water source: **Spring/river**  
 Average **amount of water** available per day/person: **10-15 liters**  
 Drinking water treated before consumption **Chlorinated**  
 Main **problem with the water**: **None**

#### Hygiene / Sanitation

People use toilets on or off site: **On-site**  
 Condition of most of the latrines: **Not so good (not hygienic)**  
 Functioning toilets on-site: **8**  
 Evidence of open defecation: **No**  
 Evidence of hand-washing practices: **No**  
 Garbage Disposal Type: **Burning**

### Food / Nutrition

Access to food: **Yes, On-Site**      Screening for malnutrition conducted in the area: **Yes**  
 Access to a market near from the site: **Yes**      Supplementary feeding availability for pregnant/lactating mother: **No**  
 Most common source for food: **Own cash**      Supplementary feeding availability for children: **No**

#### Education

Access to formal education facility: **Yes**  
 Access to non formal education facility: **No**  
 Distance to nearest education facility: **Off-site (<20 minutes)**  
 % of girls at the site attending school: **>75%**

#### Protection

Security on-site/settlement areas: **No**  
 Security incidents reported: **No**  
 Main security provider: **Unknown**  
 Lighting in communal points: **Yes, it is adequate**

#### Health

Distance to the closest functioning health facility: **Off-site (<30 minutes)**      **Prevalent health problems**  
 Provider of on-site health facilities: **Government**      1st most: **None**  
 Access to psychosocial support in the last 4 weeks: **No**      2nd most: **None**  
 Access to immunization services in the last 4 weeks: **Yes**      3rd most: **None**

#### Livelihood

Occupation of most of the households before EQ: **Agriculture/Livestock**  
 Occupation of most of the households after EQ: **Agriculture/Livestock**  
 Access to income generating activities: **Yes**  
 Livestock on site: **Yes**  
 IDPs have access to land for cultivation: **Yes**  
 Income activities women are interested: **Agriculture**  
 Income activities men are interested: **Agriculture**

#### Winterization

HH at site planning to move due to winter: **No**  
 Winter may limit access from site to: **None**  
 Majority of shelters at site are suitable for the winter: **No**  
 Location where families plan to cook during the winter: **In shelter where people sleep**  
 1st most needed item for winter: **Blanket**  
 2nd most needed item for winter: **Fuel**  
 3rd most needed item for winter: **Winter clothes**

#### Communication

Male IDPs get most information from: **Local leader**      Main topic of information requested: **Recovery plans**  
 Female IDPs get most information from: **Local leader**      Complaints being reported: **No**

#### Shelter & NFIs

% of HH living outside (no shelter): **None**      % of HH have access to electricity: **More than 75%**  
 % of HH living in tents: **None**      % of HH have access to safe cooking facilities: **More than 75%**  
 % of HH living in temporary shelter (CGIs): **More than 75%**      1st most needed type of NFI: **Fire wood**  
 % of HH living in emergency makeshift shelters: **None**      2nd most needed type of NFI: **None**  
 % of HH living in Other shelters (Open building): **None**      3rd most needed type of NFI: **None**

## Persons with special vulnerabilities

**10** breastfeeding mothers  
**1** persons with Disabilities  
**7** elderly-headed household  
**1** person with chronic diseases / serious medical conditions

### Water

Location of the site's **main water** source: **Off-site (<20 minutes)**  
 Main **non-drinking** water source: **Surface water**  
 Main **drinking** water source: **Piped water supply**  
 Average **amount of water** available per day/person: **>15 liters**  
 Drinking water treated before consumption **No treatment**  
 Main **problem with the water**: **None**

### Hygiene / Sanitation

People use toilets on or off site: **On-site**  
 Condition of most of the latrines: **Not so good (not hygienic)**  
 Functioning toilets on-site: **3**  
 Evidence of open defecation: **Yes**  
 Evidence of hand-washing practices: **No**  
 Garbage Disposal Type: **Garbage pit**

## Food / Nutrition

Access to food: **No**  
 Access to a market near from the site: **No**  
 Most common source for food: **Own cash**  
 Screening for malnutrition conducted in the area: **Yes**  
 Supplementary feeding availability for pregnant/lactating mother: **No**  
 Supplementary feeding availability for children: **No**

### Education

Access to formal education facility: **Yes**  
 Access to non formal education facility: **No**  
 Distance to nearest education facility: **On-site (<20 minutes)**  
 % of girls at the site attending school: **>75%**

### Protection

Security on-site/settlement areas: **No**  
 Security incidents reported: **No**  
 Main security provider: **Unknown**  
 Lighting in communal points: **No lighting**

## Health

Distance to the closest functioning health facility: **Off-site (>2 hours)**  
 Provider of on-site health facilities: **Government**  
 Access to psychosocial support in the last 4 weeks: **No**  
 Access to immunization services in the last 4 weeks: **No**  
**Prevalent health problems**  
 1st most: **Diarrhea**  
 2nd most: **Cough**  
 3rd most: **Cold**

### Livelihood

Occupation of most of the households before EQ: **Agriculture/Livestock**  
 Occupation of most of the households after EQ: **None**  
 Access to income generating activities: **No**  
 Livestock on site: **Yes**  
 IDPs have access to land for cultivation: **No**  
 Income activities women are interested: **Art/Craft**  
 Income activities men are interested: **Store/small business**

### Winterization

HH at site planning to move due to winter: **No**  
 Winter may limit access from site to: **Market**  
 Majority of shelters at site are suitable for the winter: **No**  
 Location where families plan to cook during the winter: **In shelter where people sleep**  
 1st most needed item for winter: **Blanket**  
 2nd most needed item for winter: **CGIs**  
 3rd most needed item for winter: **Winter footwear**

## Communication

Male IDPs get most information from: **Local leader**  
 Female IDPs get most information from: **Local leader**  
 Main topic of information requested: **Other relief assistance**  
 Complaints being reported: **No**

## Shelter & NFIs

% of HH living outside (no shelter): **None**  
 % of HH living in tents: **< 25%**  
 % of HH living in temporary shelter (CGIs): **None**  
 % of HH living in emergency makeshift shelters: **More than 75%**  
 % of HH living in Other shelters (Open building): **None**  
 % of HH have access to electricity: **None**  
 % of HH have access to safe cooking facilities: **< 25%**  
 1st most needed type of NFI: **CGIs**  
 2nd most needed type of NFI: **Blankets**  
 3rd most needed type of NFI: **Food**

### Persons with special vulnerabilities

**25** breastfeeding mothers      **10** elderly-headed households  
**15** persons with Disabilities      **0** person with chronic diseases / serious medical conditions

#### Water

Location of the site's **main water** source: **Off-site (>20 minutes)**  
Main **non-drinking** water source: **Piped water supply**  
Main **drinking** water source: **Piped water supply**  
Average **amount of water** available per day/person: **10-15 liters**  
Drinking water treated before consumption: **No treatment**  
**Main problem with the water:** **Suspended solids**

#### Hygiene / Sanitation

People use toilets on or off site: **On-site**  
Condition of most of the latrines: **Good (Hygienic)**  
Functioning toilets on-site: **60**  
Evidence of open defecation: **No**  
Evidence of hand-washing practices: **No**  
Garbage Disposal Type: **Burning**

### Food / Nutrition

Access to food: **No**      Screening for malnutrition conducted in the area: **No**  
Access to a market near from the site: **Yes**      Supplementary feeding availability for pregnant/lactating mother: **No**  
Most common source for food: **Food Distribution/Don**      Supplementary feeding availability for children: **No**

#### Education

Access to formal education facility: **Yes**  
Access to non formal education facility: **Yes**  
Distance to nearest education facility: **Off-site (>20 minutes)**  
% of girls at the site attending school: **>75%**

#### Protection

Security on-site/settlement areas: **Yes**  
Security incidents reported: **No**  
Main security provider: **Police**  
Lighting in communal points: **No lighting**

#### Health

Distance to the closest functioning health facility: **Off-site (1-2 hours)**      **Prevalent health problems**  
Provider of on-site health facilities: **Government**      1st most: **Cough**  
Access to psychosocial support in the last 4 weeks: **No**      2nd most: **Cold**  
Access to immunization services in the last 4 weeks: **No**      3rd most: **Diarrhea**

#### Livelihood

Occupation of most of the households before EQ: **Agriculture/Livestock**  
Occupation of most of the households after EQ: **Daily wage/Laborer**  
Access to income generating activities: **No**  
Livestock on site: **No**  
IDPs have access to land for cultivation: **Yes**  
Income activities women are interested: **Agriculture**  
Income activities men are interested: **Store/small business**

#### Winterization

HH at site planning to move due to winter: **No**  
Winter may limit access from site to: **None**  
Majority of shelters at site are suitable for the winter: **No**  
Location where families plan to cook during the winter: **In shelter where people sleep**  
1st most needed item for winter: **Blanket**  
2nd most needed item for winter: **Winter clothes**  
3rd most needed item for winter: **Water bags**

 Most common source for food: **Own cash**      Supplementary feeding availability for children: **No**

#### Education

Access to formal education facility: **Yes**  
 Access to non formal education facility: **No**  
 Distance to nearest education facility: **Off-site (<20 minutes)**  
 % of girls at the site attending school: **>75%**

#### Protection

Security on-site/settlement areas: **Yes**  
 Security incidents reported: **Yes**  
 Main security provider: **Self organized**  
 Lighting in communal points: **Yes, but not adequate**

### Health

Distance to the closest functioning health facility: **Off-site (1-2 hours)**      **Prevalent health problems**  
 Provider of on-site health facilities: **Government**      1st most: **Cough**  
 Access to psychosocial support in the last 4 weeks: **No**      2nd most: **Skin infections**  
 Access to immunization services in the last 4 weeks: **No**      3rd most: **None**

#### Livelihood

Occupation of most of the households before EQ: **Agriculture/Livestock**  
 Occupation of most of the households after EQ: **Agriculture/Livestock**  
 Access to income generating activities: **No**  
 Livestock on site: **No**  
 IDPs have access to land for cultivation: **Yes**  
 Income activities women are interested: **Weaving/knitting**  
 Income activities men are interested: **Store/small business**

#### Winterization

HH at site planning to move due to winter: **Yes**  
 Winter may limit access from site to: **None**  
 Majority of shelters at site are suitable for the winter: **No**  
 Location where families plan to cook during the winter: **In the open**  
 1st most needed item for winter: **Blanket**  
 2nd most needed item for winter: **Ventilation**  
 3rd most needed item for winter: **Fuel**

### Communication

Male IDPs get most information from: **Local leader**      Main topic of information requested: **Work opportunities**  
 Female IDPs get most information from: **Local leader**      Complaints being reported: **Yes**

### Shelter & NFIs

% of HH living outside (no shelter): **None**      % of HH have access to electricity: **More than 75%**  
 % of HH living in tents: **None**      % of HH have access to safe cooking facilities: **More than 75%**  
 % of HH living in temporary shelter (CGIs): **More than 75%**      1st most needed type of NFI: **Cooking Gas**  
 % of HH living in emergency makeshift shelters: **None**      2nd most needed type of NFI: **Water Pipe / Filtration**  
 % of HH living in Other shelters (Open building): **None**      3rd most needed type of NFI: **Blankets**

### Persons with special vulnerabilities

**0** breastfeeding mothers  
**1** person with Disabilities  
**0** elderly-headed household  
**0** person with chronic diseases / serious medical conditions

#### Water

Location of the site's **main water** source: **On-site (<20 minutes)**  
 Main **non-drinking** water source: **Protected Well**  
 Main **drinking** water source: **Water truck**  
 Average **amount of water** available per day/person: **>15 liters**  
 Drinking water treated before consumption **No treatment**  
 Main **problem with the water**: **None**

#### Hygiene / Sanitation

People use toilets on or off site: **On-site**  
 Condition of most of the latrines: **Good (Hygienic)**  
 Functioning toilets on-site: **10**  
 Evidence of open defecation: **No**  
 Evidence of hand-washing practices: **No**  
 Garbage Disposal Type: **Municipal collection**

### Food / Nutrition

Access to food: **No**  
 Access to a market near from the site: **Yes**  
 Most common source for food: **Own cash**  
 Screening for malnutrition conducted in the area: **No**  
 Supplementary feeding availability for pregnant/lactating mother: **No**  
 Supplementary feeding availability for children: **No**

#### Education

Access to formal education facility: **Yes**  
 Access to non formal education facility: **No**  
 Distance to nearest education facility: **Off-site (<20 minutes)**  
 % of girls at the site attending school: **>75%**

#### Protection

Security on-site/settlement areas: **Yes**  
 Security incidents reported: **No**  
 Main security provider: **Self organized**  
 Lighting in communal points: **Yes, but not adequate**

### Health

Distance to the closest functioning health facility: **Off-site (<30 minutes)**  
 Provider of on-site health facilities: **Local Clinic/med practitioners**  
 Access to psychosocial support in the last 4 weeks: **Yes**  
 Access to immunization services in the last 4 weeks: **Yes**  
**Prevalent health problems**  
 1st most: **None**  
 2nd most: **None**  
 3rd most: **None**

#### Livelihood

Occupation of most of the households before EQ: **Employed**  
 Occupation of most of the households after EQ: **Agriculture/Livestock**  
 Access to income generating activities: **Yes**  
 Livestock on site: **Yes**  
 IDPs have access to land for cultivation: **Yes**  
 Income activities women are interested: **Weaving/knitting**  
 Income activities men are interested: **Agriculture**

#### Winterization

HH at site planning to move due to winter: **No**  
 Winter may limit access from site to: **No**  
 Majority of shelters at site are suitable for the winter: **No**  
 Location where families plan to cook during the winter: **In shelter where people sleep**  
 1st most needed item for winter: **Blanket**  
 2nd most needed item for winter: **Mattress/Bed**  
 3rd most needed item for winter: **Foam mat (floor)**

 Evidence of hand-washing practices: **No**  
 Garbage Disposal Type: **No System**

### Food / Nutrition

Access to food: **Yes, Off-site**  
 Access to a market near from the site: **No**  
 Most common source for food: **Own cash**

Screening for malnutrition conducted in the area: **Yes**  
 Supplementary feeding availability for pregnant/lactating mother: **No**  
 Supplementary feeding availability for children: **No**

#### Education

Access to formal education facility: **Yes**  
 Access to non formal education facility: **No**  
 Distance to nearest education facility: **On-site (<20 minutes)**  
 % of girls at the site attending school: **>75%**

#### Protection

Security on-site/settlement areas: **No**  
 Security incidents reported: **No**  
 Main security provider: **Unknown**  
 Lighting in communal points: **No lighting**

#### Health

Distance to the closest functioning health facility: **Off-site (1-2 hours)**  
 Provider of on-site health facilities: **Government**  
 Access to psychosocial support in the last 4 weeks: **No**  
 Access to immunization services in the last 4 weeks: **Yes**

#### Prevalent health problems

1st most: **Diarrhea**  
 2nd most: **Cold**  
 3rd most: **Cough**

#### Livelihood

Occupation of most of the households before EQ: **Agriculture/Livestock**  
 Occupation of most of the households after EQ: **Daily wage/Laborer**  
 Access to income generating activities: **Yes**  
 Livestock on site: **Yes**  
 IDPs have access to land for cultivation: **No**  
 Income activities women are interested: **Art/Craft**  
 Income activities men are interested: **Construction/daily labour**

#### Winterization

HH at site planning to move due to winter: **No**  
 Winter may limit access from site to: **Nearest health facility**  
 Majority of shelters at site are suitable for the winter: **No**  
 Location where families plan to cook during the winter: **In shelter where people sleep**  
 1st most needed item for winter: **Heater**  
 2nd most needed item for winter: **Winter clothes**  
 3rd most needed item for winter: **Food stock**

#### Communication

Male IDPs get most information from: **Mobile phone**  
 Female IDPs get most information from: **Mobile phone**

Main topic of information requested: **Shelter**  
 Complaints being reported: **No**

#### Shelter & NFIs

% of HH living outside (no shelter): **None**  
 % of HH living in tents: **None**  
 % of HH living in temporary shelter (CGIs): **More than 75%**  
 % of HH living in emergency makeshift shelters: **None**  
 % of HH living in Other shelters (Open building): **None**

% of HH have access to electricity: **< 50%**  
 % of HH have access to safe cooking facilities: **< 25%**  
 1st most needed type of NFI: **CGIs**  
 2nd most needed type of NFI: **Tools**  
 3rd most needed type of NFI: **Cash assistance**

Evidence of open defecation: **No**  
Evidence of hand-washing practices: **No**  
Garbage Disposal Type: **No System**

### Food / Nutrition

Access to food: **No**      Screening for malnutrition conducted in the area: **Yes**  
Access to a market near from the site: **Yes**      Supplementary feeding availability for pregnant/lactating mother: **Yes**  
Most common source for food: **Own cash**      Supplementary feeding availability for children: **Yes**

#### Education

Access to formal education facility: **Yes**  
Access to non formal education facility: **No**  
Distance to nearest education facility: **Off-site (<20 minutes)**  
% of girls at the site attending school: **>75%**

#### Protection

Security on-site/settlement areas: **No**  
Security incidents reported: **No**  
Main security provider: **Unknown**  
Lighting in communal points: **No lighting**

#### Health

Distance to the closest functioning health facility: **Off-site (<30 minutes)**      **Prevalent health problems**  
Provider of on-site health facilities: **Government**      1st most: **None**  
Access to psychosocial support in the last 4 weeks: **No**      2nd most: **None**  
Access to immunization services in the last 4 weeks: **Yes**      3rd most: **None**

#### Livelihood

Occupation of most of the households before EQ: **Craftsmen**  
Occupation of most of the households after EQ: **Craftsmen**  
Access to income generating activities: **Yes**  
Livestock on site: **No**  
IDPs have access to land for cultivation: **Yes**  
Income activities women are interested: **Weaving/knitting**  
Income activities men are interested: **Agriculture**

#### Winterization

HH at site planning to move due to winter: **No**  
Winter may limit access from site to: **No**  
Majority of shelters at site are suitable for the winter: **No**  
Location where families plan to cook during the winter: **In the open**  
1st most needed item for winter: **Mattress / Bed**  
2nd most needed item for winter: **Heater**  
3rd most needed item for winter: **Foam mat (floor)**

#### Communication

Male IDPs get most information from: **Radio/News**      Main topic of information requested: **Recovery plans**  
Female IDPs get most information from: **Families & friends**      Complaints being reported: **Unknown**

#### Shelter & NFIs

% of HH living outside (no shelter): **None**      % of HH have access to electricity: **More than 75%**  
% of HH living in tents: **None**      % of HH have access to safe cooking facilities: **< 50%**  
% of HH living in temporary shelter (CGIs): **More than 75%**      1st most needed type of NFI: **WASH facility**  
% of HH living in emergency makeshift shelters: **None**      2nd most needed type of NFI: **Insulator in shelter**  
% of HH living in Other shelters (Open building): **None**      3rd most needed type of NFI: **Cooking Gas**
