

# DISPLACEMENT TRACKING MATRIX EMERGENCY TRACKING

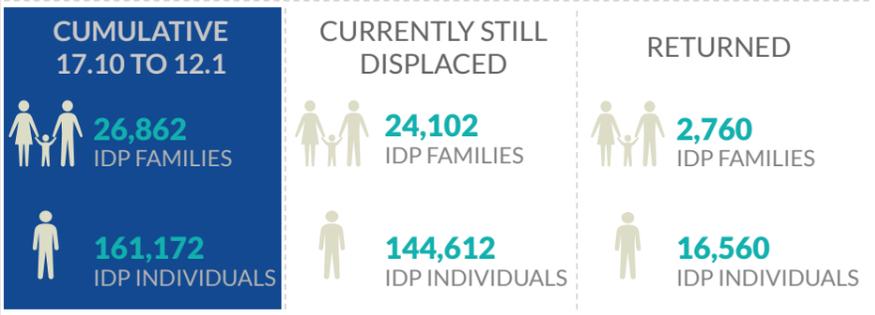

FACTSHEET 11# - MOSUL OPERATIONS FROM 17 OCTOBER TO 12 JANUARY

The Emergency Tracking (ET) system is a crisis-based tool that aims at tracking sudden displacement or return movements triggered by specific crises. The ET figures reported on this portal are not cumulative of the all persons affected by the Mosul crisis thus far, rather the

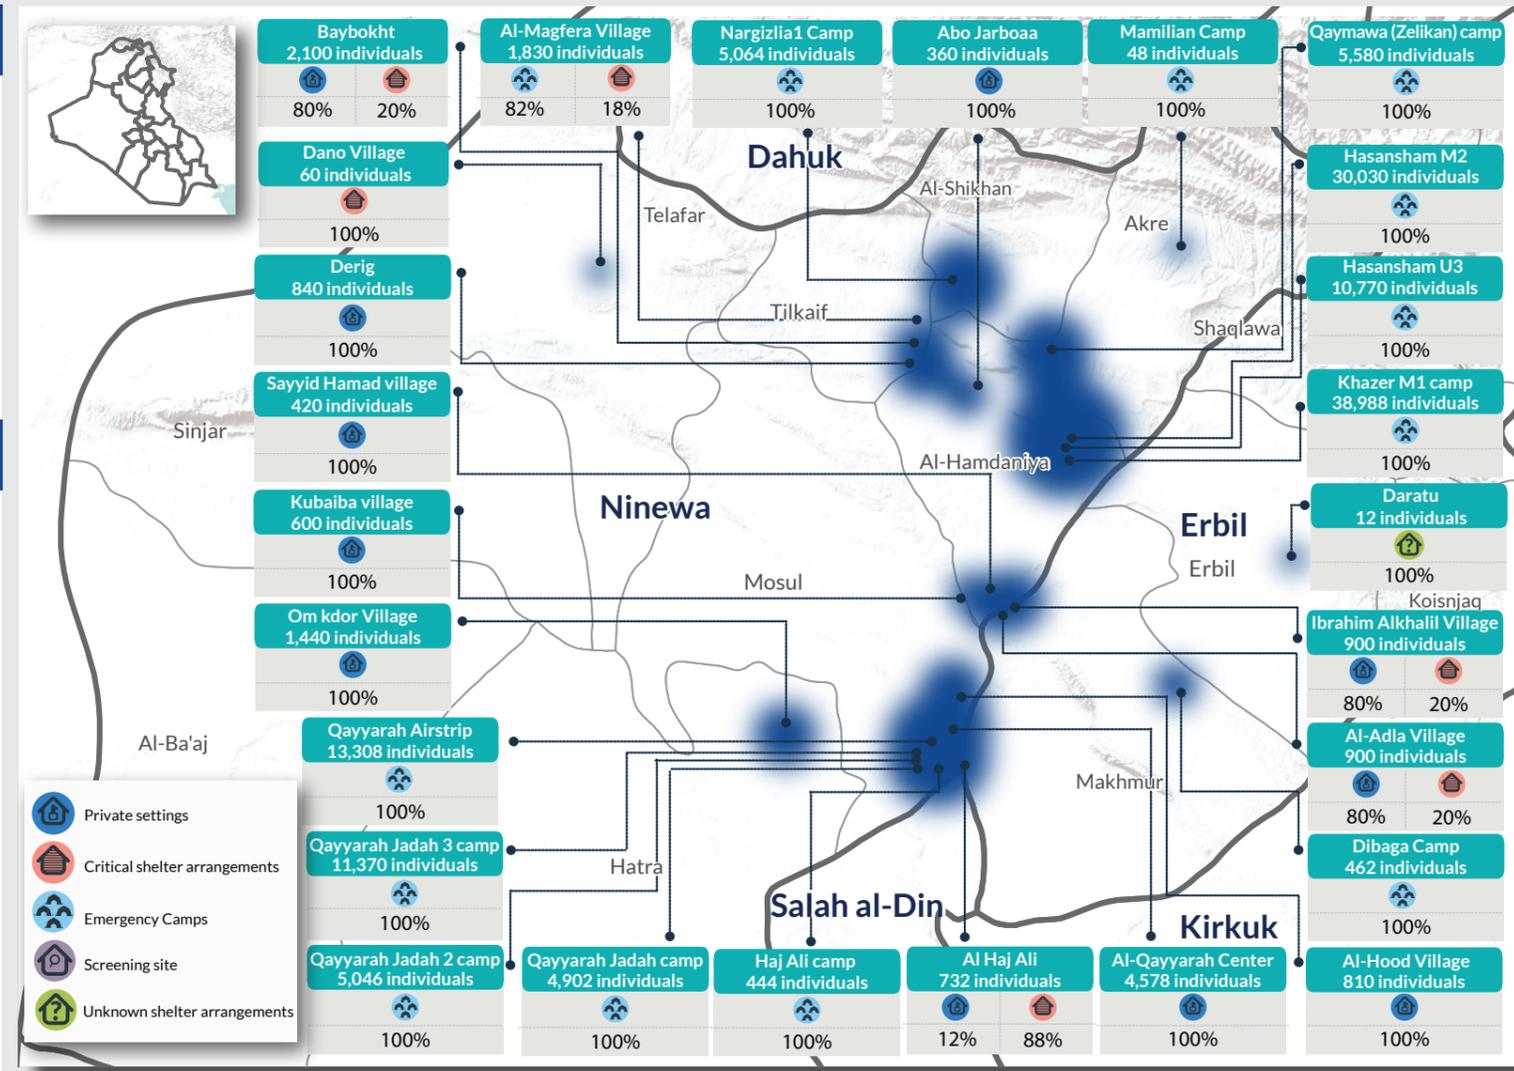

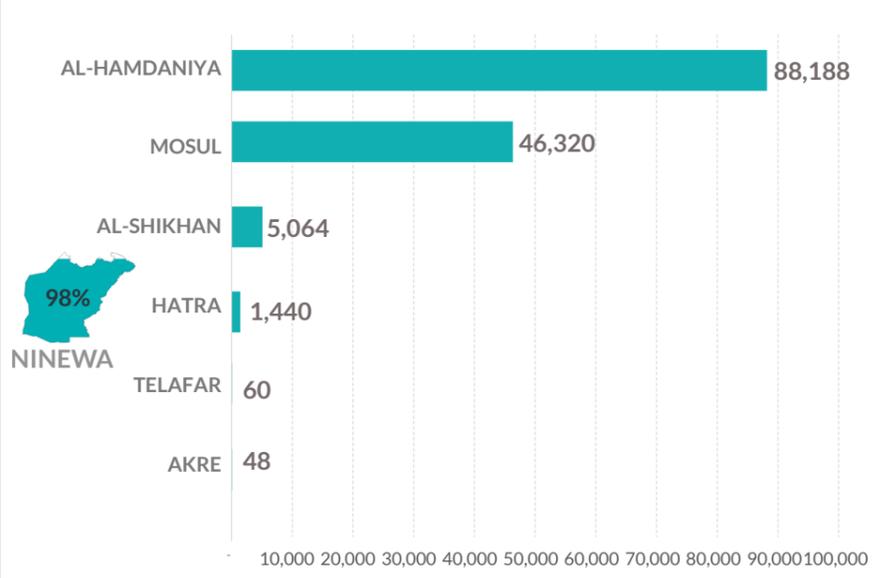

ET update provides only a snapshot of the current displacement situation for the indicated date. The data and information reported on this page are related solely to the displacement caused by the Mosul operations which started on 17 October 2016.

## CUMULATIVE FIGURES

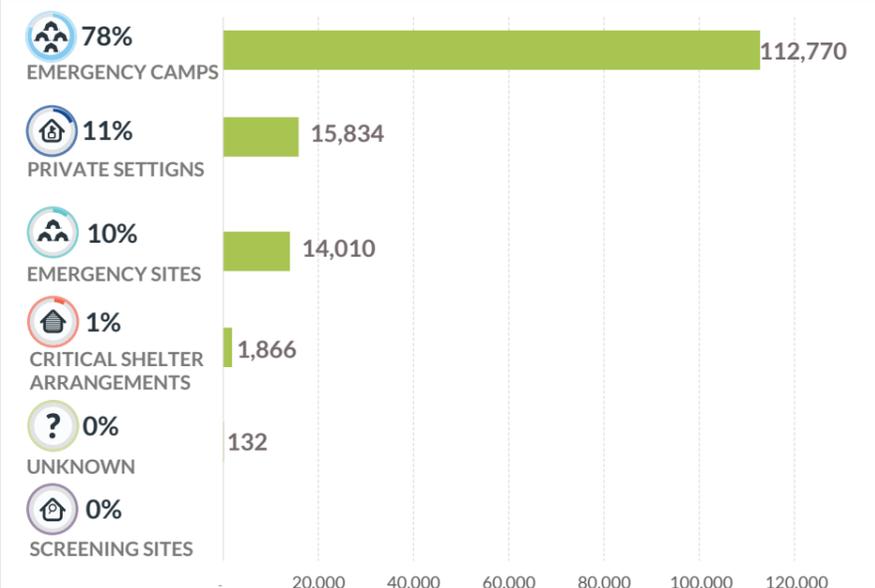

## NUMBER OF IDPS BY MAIN DISTRICT OF DISPLACEMENT

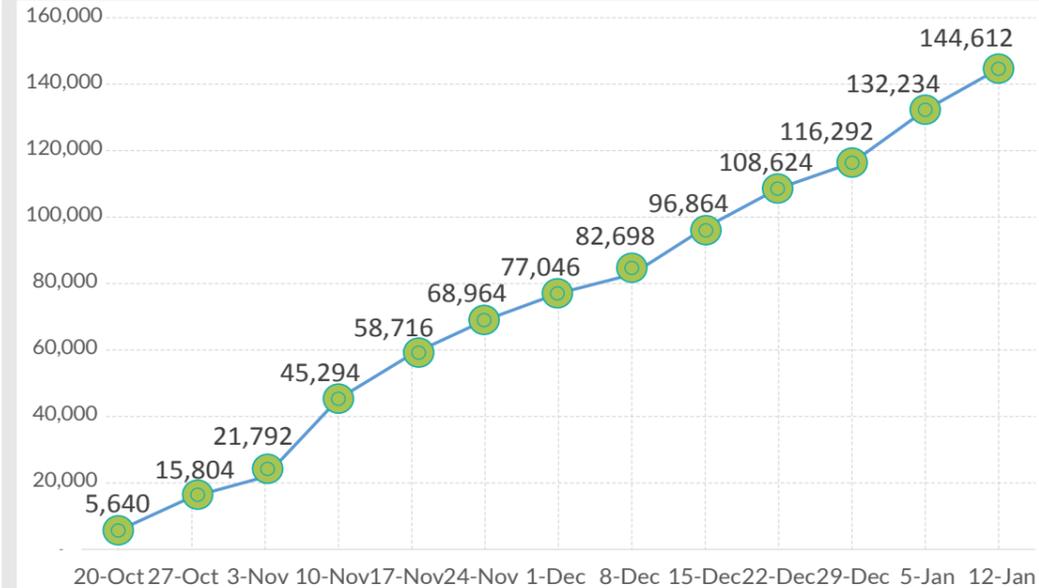

- Military operations started on 17 October 2016. Displacement movements have been recorded since 18 October.
- On 12 January 2017, 24,102 IDP families (144,612 individuals) were still displaced, that is, 9% more than on 5 January. Between the updates of 5 and 12 January, an increase of 2,063 new IDP families (12,378 individuals) has been recorded.
- The sub-districts that recorded the highest increase during the past week are Merkaz Al-Hamdaniya (5% or 4,236 individuals), Merkaz Al-Shikhan (273% or 3,708 individuals), and Al Qayara (7% or 2,826 individuals).
- The increase in Al Hamdaniya sub-district is due to the large number of new arrivals to Khazer M1 camp, whose IDP population grew by 15% during last week (5,016 individuals). The high increase reported during the last two weeks in Al-Shikhan is due to the opening of Nargizliya 1 camp on 31 December. In Al Qayara sub-district, the Qayyara Airstrip emergency site recorded an increase of 23% (2,502 individuals).
- As of 12 January 2017, the governorate hosting the largest number of IDPs displaced as a result of Mosul operations is still Ninewa, with 98% of IDPs, that is, 141,120 individuals.
- Approximately 88% of the currently displaced IDPs (126,780 individuals) are hosted in camps or emergency sites, with a high concentration in Ninewa.
- Between 5 and 12 January, the overall population in camps and emergency sites grew by 9% (10,812 individuals).
