

Wau, Western Bahr el Ghazal

Data collected on 22 April-9 May 2019

The displacement caused by the clashes between pastoralists and farmers in Kuarjena and Rocrocdong, Jur River that broke out in early March 2019 continues within the county and beyond, as reported on 15 March 2019 ([link](#)) and 09 April 2019 ([link](#)).

During this reporting period, an additional 4,119 displaced individuals arrived to Wau PoC AA, Hai Masna and Cathedral Collective Centers*.

These latest figures show a decrease in the influx to the three sites from these areas as reported since 15 March 2019.

IOM DTM employs Event Tracking as a more rapid and localized assessment tool complementing overall efforts to report on IDP and returnee figures nationally (see Mobility Tracking round 4 reports and maps on displacement.iom.int/south-sudan). IOM teams access IDP / returnee locations and consult local key informants including community representatives, local authorities or humanitarian partners and triangulate findings to provide partners with the most accurate as possible, actionable and current data.
