NEED

First need:	Food
Second need:	Water
Third need:	Shelter

VULNERABILITIES

Pregnant women:	14	Elderly without care givers:	0
Breastfeeding mothers:	0	Single female head of household:	32
Mental/Physical disability:	7	Single male headed of household:	4
Chronic diseases:	0	Elderly head of household:	0

LAND TENURE

Number of Household renting land in place of origin:	2
Number of Household owning land in place of origin:	159

SHELTER

Top one NFI need not accessible to IDPs:	Shoes and clothes
Top two NFI need not accessible to IDPs:	Items for sleeping (mats, blankets,..)
Top three NFI need not accessible to IDPs:	0
Number of Household living outdoors:	0
Number of Household living in emergency shelter:	161
Number of Household living in permanent shelter:	778

WASH

Main source of drinking water:	Tanks
Main problem with water:	Flavour/Taste
Average daily water consumption per person:	10 - 15 ltr
Average wait time for water:	No wait
Number of functional latrines at site:	40
Is there functional bathing space at site?	Yes
Is there hand washing stations with water and soap close to latrines/bathing space?	Yes
How clean you think the site is in terms of waste?	1. Very clean
Do people live in areas where open defecation is frequently visible?	No

FOOD SECURITY

Do most people have access to functioning market?	No
Why people don't have access to market?	Transport to market is too expensive
Have people received food from a distribution at site?	Yes
When was the latest food distribution at this site?	More than two weeks
Do most people have access to farming lands?	Yes
How far is the farming lands?	1-2 hrs

HEALTH

Availability of healthcare services on site:	Yes
Number of functioning healthcare facilities:	1
Do people have access to healthcare services:	Yes
Time to reach the nearest health facility:	Less than 15 minutes
Why people don't have access to healthcare?	None
Is medicines available for majority of the population:	Yes
During their pregnancy, are most women seeing a health professional?	Yes
Do populations with HIV know where to go to seek treatment and care?	Yes
Do people know where to go to seek Tuberculosis treatment and care?	Yes
Has cholera been reported at this site since the cyclone?	No
When was the last case reported?	None

EDUCATION

Does the majority of the school age children have access to a functioning school?	Yes
Why school age children don't have access to education facility?	Don't know
Number of school age children attending school:	280
Walking time to the nearest education facility:	More than 60 minutes

MOBILITY

Are the majority of the population living on this site?	Yes
Why is the majority of the population not living on site?	Don't know
Province of Origin:	Sofala
District of Origin:	Nhamatanda
Post of Origin:	Nhamatanda
Locality of Origin:	Vila De Nhamatanda

PROTECTION

Is there security provider/mechanism that ensure safety of persons at the location?	Yes
Is there a mechanism for referral for GBV survivors?	No
Is there a support mechanism for psychosocial needs of the population?	Yes

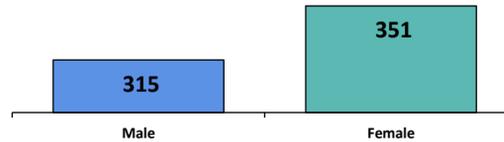

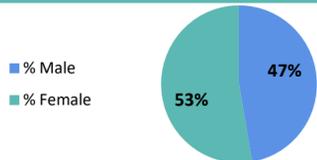

COMMUNITY ENGAGEMENT

Top 3 ways population communicates with humanitarian partners:	Staff from humanitarian agencies; Community leader or group; Local government office
Top 3 ways humanitarian partners communicates with population:	Staff from humanitarian agencies; Community leader or group; Women's groups

Main source of drinking water:	None
Main problem with water:	None
Average daily water consumption per person:	10 - 15 ltr
Average wait time for water:	Between 16 and 30 mintes
Number of functional latrines at site:	2
Is there functional bathing space at site?	No
Is there hand washing stations with water and soap close to latrines/bathing space?	Yes, but without soap
How clean you think the site is in terms of waste?	4. Dirty
Do people live in areas where open defecation is frequently visible?	Unknown

FOOD SECURITY

Do most people have access to functioning market?	No
Why people don't have access to market?	Market is not safe Transportation to market is not currently running
Have people received food from a distribution at site?	Yes
When was the latest food distribution at this site?	More than two weeks
Do most people have access to farming lands?	Yes
How far is the farming lands?	<1 hr

HEALTH

Availability of healthcare services on site:	No
Number of functioning healthcare facilities:	0
Do people have access to healthcare services:	No
Time to reach the rearest health facility:	None
Why people don't have access to healthcare?	Facility is not physically accessible
Is medicines available for majority of the population:	No
During their pregnancy, are most women seeing a health professional?	No
Do populations with HIV know where to go to seek treatment and care?	No
Do people know where to go to seek Tuberculosis treatment and care?	No
Has cholera been reported at this site since the cyclone?	No
When was the last case reported?	None

EDUCATION

Does the majority of the school age children have access to a functioning school?	Yes
Why school age children don't have access to education facility?	Don't know
Number of school age children attending school:	100
Walking time to the neasrest education facility:	16 - 30 minutes

MOBILITY

Are the majority of the population living on this site?	No
Why is the majority of the population not living on site?	Lack of humanitarian assistance Lack of shelter materials Plots have not been allocated
Province of Origin:	Manica
District of Origin:	Sussundenga
Post of Origin:	Dombe
Locality of Origin:	Muoco

PROTECTION

Is there security provider/mechanism that ensure safety of persons at the location?	No
Is there a mechanism for referral for GBV survivors?	No
Is there a support mechanism for psychosocial needs of the population?	No

COMMUNITY ENGAGEMENT

Top 3 ways population communicates with humanitarian partners:	Religious Leader or group; Community leader or group; Local government office

NEED	VULNERABILITIES	LAND TENURE
First need: Food	Pregnant women: 0	Number of Household renting land in place of origin: 0
Second need: Shelter	Breastfeeding mothers: 0	Number of Household owning land in place of origin: 174
Third need: Health	Mental/Physical disability: 0	
	Chronic diseases: 0	
	Elderly without care givers: 0	
	Single female head of household: 0	
	Single male headed of household: 0	
	Elderly head of household: 0	

SHELTER	WASH
Top one NFI need not accessible to IDPs: Shoes and clothes	Main source of drinking water: Hand pumps
Top two NFI need not accessible to IDPs: Cooking items (pots/pans)	Main problem with water: None
Top three NFI need not accessible to IDPs: Soap/detergent for washing clothes	Average daily water consumption per person: > 15 ltr
Number of Household living outdoors: 29	Average wait time for water: Between 31 and 60 minutes
Number of Household living in emergency shelter: 174	Number of functional latrines at site: 12
Number of Household living in permanent shelter: 0	Is there functional bathing space at site? No
	Is there hand washing stations with water and soap close to latrines/bathing space? Yes, but without soap
	How clean you think the site is in terms of waste? 3. More or less clean
	Do people live in areas where open defecation is frequently visible? Yes

FOOD SECURITY	HEALTH
Do most people have access to functioning market? No	Availability of healthcare services on site: No
Why people don't have access to market? None	Number of functioning healthcare facilities: 0
Have people received food from a distribution at site? Yes	Do people have access to healthcare services: Yes
When was the latest food distribution at this site? More than two weeks	Time to reach the nearest health facility: More than 60 minutes
Do most people have access to farming lands? No	Why people don't have access to healthcare? None
How far is the farming lands? None	Is medicines available for majority of the population: Yes
	During their pregnancy, are most women seeing a health professional? Yes
	Do populations with HIV know where to go to seek treatment and care? Yes
	Do people know where to go to seek Tuberculosis treatment and care? Yes
	Has cholera been reported at this site since the cyclone? No
	When was the last case reported? None

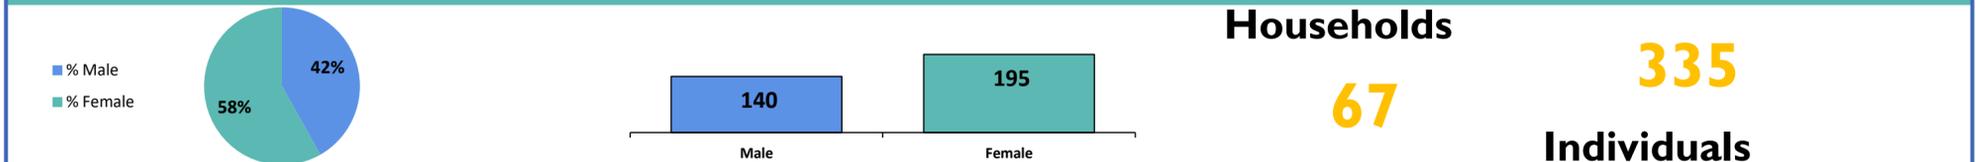

EDUCATION	PROTECTION
Does the majority of the school age children have access to a functioning school? Yes	Is there security provider/mechanism that ensure safety of persons at the location? Yes
Why school age children don't have access to education facility? Don't know	Is there a mechanism for referral for GBV survivors? Unknown
Number of school age children attending school: 0	Is there a support mechanism for psychosocial needs of the population? No
Walking time to the nearest education facility: 16 - 30 minutes	

MOBILITY	COMMUNITY ENGAGEMENT
Are the majority of the population living on this site? Yes	Top 3 ways population communicates with humanitarian partners: Staff from humanitarian agencies; Community leader or group; Local government office
Why is the majority of the population not living on site? Don't know	Top 3 ways humanitarian partners communicates with population: Staff from humanitarian agencies; Community leader or group; local government office

Mental/Physical disability:	0	Single male headed of household:	0
Chronic diseases:	0	Elderly head of household:	0

LAND TENURE

Number of Household renting land in place of origin:	0
Number of Household owning land in place of origin:	194

SHELTER

Top one NFI need not accessible to IDPs:	Heaters Items for sleeping (mats, blankets,..)
Top two NFI need not accessible to IDPs:	Soap/detergent for washing clothes
Top three NFI need not accessible to IDPs:	0
Number of Household living outdoors:	0
Number of Household living in emergency shelter:	194
Number of Household living in permanent shelter:	0

WASH

Main source of drinking water:	Lake/Dam
Main problem with water:	None
Average daily water consumption per person:	10 - 15 ltr
Average wait time for water:	Between 16 and 30 mintes
Number of functional latrines at site:	191
Is there functional bathing space at site?	No
Is there hand washing stations with water and soap close to latrines/bathing space?	Yes, but without water
How clean you think the site is in terms of waste?	2. Clean
Do people live in areas where open defecation is frequently visible?	No

FOOD SECURITY

Do most people have access to functioning market?	No
Why people don't have access to market?	Market is not accessible the transport to market is not
Have people received food from a distribution at site?	Yes
When was the latest food distribution at this site?	More than two weeks
Do most people have access to farming lands?	Yes
How far is the farming lands?	> 3 hrs

HEALTH

Availability of healthcare services on site:	No
Number of functioning healthcare facilities:	0
Do people have access to healthcare services:	Unknown
Time to reach the rearest health facility:	None
Why people don't have access to healthcare?	None
Is medicines available for majority of the population:	No
During their pregnancy, are most women seeing a health professional?	No
Do populations with HIV know where to go to seek treatment and care?	No
Do people know where to go to seek Tuberculosis treatment and care?	No
Has cholera been reported at this site since the cyclone?	No
When was the last case reported?	None

EDUCATION

Does the majority of the school age children have access to a functioning school?	Yes
Why school age children don't have access to education facility?	Don't know
Number of school age children attending school:	0
Walking time to the neasrest education facility:	16 - 30 minutes

MOBILITY

Are the majority of the population living on this site?	Yes
Why is the majority of the population not living on site?	Don't know
Province of Origin:	Manica
District of Origin:	Sussundenga
Post of Origin:	Dombe
Locality of Origin:	Matacara

PROTECTION

Is there security provider/mechanism that ensure safety of persons at the location?	Yes
Is there a mechanism for referral for GBV survivors?	No
Is there a support mechanism for psychosocial needs of the population?	No

COMMUNITY ENGAGEMENT

NEED

First need:	Food
Second need:	Water
Third need:	Shelter

VULNERABILITIES

Pregnant women:	33	Elderly without care givers:	0
Breastfeeding mothers:	53	Single female head of household:	11
Mental/Physical disability:	24	Single male headed of household:	5
Chronic diseases:	64	Elderly head of household:	8

LAND TENURE

Number of Household renting land in place of origin:	0
Number of Household owning land in place of origin:	250

SHELTER

Top one NFI need not accessible to IDPs:	Closed containers to transport and /or store water
Top two NFI need not accessible to IDPs:	Shoes and clothes
Top three NFI need not accessible to IDPs:	Soap/detergent for washing clothes
Number of Household living outdoors:	250
Number of Household living in emergency shelter:	0
Number of Household living in permanent shelter:	0

WASH

Main source of drinking water:	Lagoons and waterways
Main problem with water:	Smell
Average daily water consumption per person:	Unknown
Average wait time for water:	Between 31 and 60 minutes
Number of functional latrines at site:	0
Is there functional bathing space at site?	No
Is there hand washing stations with water and soap close to latrines/bathing space?	None
How clean you think the site is in terms of waste?	3. More or less clean
Do people live in areas where open defecation is frequently visible?	No

FOOD SECURITY

Do most people have access to functioning market?	Yes
Why people don't have access to market?	None
Have people received food from a distribution at site?	Yes
When was the latest food distribution at this site?	Last 14 days
Do most people have access to farming lands?	Yes
How far is the farming lands?	<1 hr

HEALTH

Availability of healthcare services on site:	No
Number of functioning healthcare facilities:	0
Do people have access to healthcare services:	Yes
Time to reach the nearest health facility:	More than 60 minutes
Why people don't have access to healthcare?	None
Is medicines available for majority of the population:	Yes
During their pregnancy, are most women seeing a health professional?	Yes
Do populations with HIV know where to go to seek treatment and care?	Yes
Do people know where to go to seek Tuberculosis treatment and care?	Yes
Has cholera been reported at this site since the cyclone?	No
When was the last case reported?	None

EDUCATION

Does the majority of the school age children have access to a functioning school?	Yes
Why school age children don't have access to education facility?	Don't know
Number of school age children attending school:	142
Walking time to the nearest education facility:	More than 60 minutes

MOBILITY

Are the majority of the population living on this site?	Yes
Why is the majority of the population not living on site?	Don't know
Province of Origin:	Sofala
District of Origin:	Chibabava
Post of Origin:	Goonda
Locality of Origin:	Hamamba

PROTECTION

Is there security provider/mechanism that ensure safety of persons at the location?	No
Is there a mechanism for referral for GBV survivors?	No
Is there a support mechanism for psychosocial needs of the population?	No

NEED **VULNERABILITIES** **LAND TENURE**

First need: Food	Pregnant women: 7	Elderly without care givers: 0	Number of Household renting land in place of origin: 0
Second need: Health	Breastfeeding mothers: 32	Single female head of household: 12	Number of Household owning land in place of origin: 0
Third need: Household Items (NFI)	Mental/Physical disability: 2	Single male headed of household: 5	
	Chronic diseases: 0	Elderly head of household: 2	

SHELTER **WASH**

Top one NFI need not accessible to IDPs: Shoes and clothes	Main source of drinking water: Hand pumps
Top two NFI need not accessible to IDPs: Cooking items (pots/pans)	Main problem with water: None
Top three NFI need not accessible to IDPs: Hygiene products (for personal hygiene)	Average daily water consumption per person: 10 - 15 ltr
Number of Household living outdoors: 0	Average wait time for water: Between 16 and 30 mintes
Number of Household living in emergency shelter: 0	Number of functional latrines at site: 15
Number of Household living in permanent shelter: 0	Is there functional bathing space at site? Yes
	Is there hand washing stations with water and soap close to latrines/bathing space? None
	How clean you think the site is in terms of waste? 3. More or less clean
	Do people live in areas where open defecation is frequently visible? Yes

FOOD SECURITY **HEALTH**

Do most people have access to functioning market? No	Availability of healthcare services on site: Yes
Why people don't have access to market? Transport to market is too expensive	Number of functioning healthcare facilities: 1
Have people received food from a distribution at site? Yes	Do people have access to healthcare services: Yes
When was the latest food distribution at this site? Last 7 days	Time to reach the rearest health facility: 31 - 60 minutes
Do most people have access to farming lands? Yes	Why people don't have access to healthcare? None
How far is the farming lands? 1-2 hrs	Is medicines available for majority of the population? No
	During their pregnancy, are most women seeing a health professional? Yes
	Do populations with HIV know where to go to seek treatment and care? Yes
	Do people know where to go to seek Tuberculosis treatment and care? Yes
	Has cholera been reported at this site since the cyclone? No
	When was the last case reported? None

EDUCATION **PROTECTION**

Does the majority of the school age children have access to a functioning school? Yes	Is there security provider/mechanism that ensure safety of persons at the location? No
Why school age children don't have access to education facility? Don't know	Is there a mechanism for referral for GBV survivors? No
Number of school age children attending school: 100	Is there a support mechanism for psychosocial needs of the population? No
Walking time to the neasrest education facility: 16 - 30 minutes
