

# BASELINE MOBILITY ASSESSMENT

**FARYAB**  
**SUMMARY RESULTS**  
ROUND 7 • OCT – DEC 2018

Although many IDPs in Faryab live in tents or open air, many other IDP families live in shared, mud-brick houses in densely-populated host communities — like this IDP family in Andkhoy district © IOM 2018

## ABOUT DTM

The Displacement Tracking Matrix (DTM) is a system that tracks and monitors displacement and population mobility. It is designed to regularly and systematically capture, process and disseminate information to provide a better understanding of the movements and evolving needs of displaced populations, whether on site or en route. For more information about DTM in Afghanistan, please visit [www.displacement.iom.int/afghanistan](http://www.displacement.iom.int/afghanistan).

In Afghanistan, DTM employs the Baseline Mobility Assessment tool, designed to track mobility, determine the population sizes and locations of forcibly displaced people, reasons for displacement, places of origin, displacement locations and times of displacement, including basic demographics, as well as vulnerabilities and priority needs. Data is collected at the settlement level, through key informant interviews, focus group discussions, and direct observations.

DTM enables IOM and its partners to deliver evidence-based, better targeted, mobility-sensitive and sustainable humanitarian assistance, reintegration, community stabilization and development programming.

## 5 TARGET POPULATIONS

Through the Baseline Mobility Assessments, DTM tracks the locations, population sizes, and cross-sectoral needs of five core target population categories:

- 1. Returnees from Abroad**  
*Afghans who had fled abroad for at least 6 months and have now returned to Afghanistan*
  - 2. Out-Migrants**  
*Afghans who moved or fled abroad*
- Internally Displaced Persons (IDPs), subdivided into the following three categories:
- 3. Fled IDPs**  
*Afghans from an assessed village who fled as IDPs to reside elsewhere in Afghanistan*
  - 4. Arrival IDPs**  
*IDPs from other locations currently residing in an assessed village*
  - 5. Returned IDPs**  
*Afghans from an assessed village who had fled as IDPs in the past and have now returned home*

Data on population sizes for the 5 target population categories is collected by time of displacement, using each of the following time frames: 2012-2015 • 2016 • 2017 • 2018.

## HIGHLIGHTS

-  **13** districts assessed
-  **273** settlements assessed
-  **1,699** key informants interviewed
-  **215,344** returnees from abroad [2012-2018]
-  **56,506** IDPs [2012–2018] currently in host communities
-  **59,783** former IDPs have returned to their homes [2012–2018]
-  **325,621** out-migrants fled abroad [2012–2018]
-  **51,208** out-migrants fled to Europe (16% of out-migrants)
-  **1,976** returnees and IDPs live in tents or in the open air
-  **95,441** individuals have no access to potable water – Faryab has the 3rd highest need of potable water nationwide
-  **325,621** individuals have fled their homes as out-migrants – Faryab has the most out-migrants nationwide
-  **1 in 5** persons in Faryab is either an IDP or Returnee (20%)
-  **1 in 4** 23% of all returnees and IDPs reside in Shirintagab district
-  **34,033** IDPs and returnees (56%) in Khwaja Sabz Posh and Qaramqol districts have no access to health services
-  **8,238** IDP and returnee families in Khwaja Sabz Posh, Shirintagab and Qaramqol districts have no access to schools

Displaced Individuals in all 5 Target Populations | Summary Overview by Province

\* Base Population source: OCHA, CSO Population Estimates for 2016 to 2017, 15-AUG-2016    Symbology: > 25% of population

\*\* Of the 14 districts in Faryab, only 13 were accessible and assessed, therefore the sum population of the 13 listed districts does not equal the total population of Faryab reflected in the above table.

Taken in mid-September 2018, these photos show the devastating effects of the drought in Qaysar district in Faryab, which had dire, cascading consequences, including crop failures, losses of incomes, increased debt and displacement. © IOM 2018

## METHODOLOGY

The overall objective of DTM's Baseline Mobility Assessment in Afghanistan is to track mobility and displacement, provide population estimates, locations and geographic distribution of displaced, return and migrant populations, as well as refugees, nomads, cross-border tribal groups, and both domestic and international labour migrants. DTM captures additional mobility information, including reasons for displacement and return, places of origin and destination, times of displacement and return, secondary displacements, and population demographics, vulnerabilities and multi-sectoral needs.

DTM predominantly employs enumerators who originate from the areas of assessment. Enumerators collect quantitative data at the settlement level, through focus group discussions with key informants (KIs). Through direct observations, enumerators also collect qualitative data on living conditions, basic services, and security and socio-economic situation.

Due to security risks, enumerators cannot carry smart-phones or tablets in the field, therefore they collect data, daily, using a paper-based form, which is pre-filled with data from the previous round for verification of existing data and to expedite the assessment process. Completed forms are submitted weekly to the provincial DTM office and verified for accuracy by the team leader and data entry clerk. Once verified, the data is entered electronically via mobile devices, using KoBo forms, and submitted directly into DTM's central SQL server in Kabul, where it is systematically cleaned and verified daily, through automated and manual systems. This stringent review process ensures that DTM data is of the highest quality, accuracy and integrity.

When DTM assesses a province for the first time, enumerators collect data through two rounds of two-layered assessments:

1. District-level assessment (B1): this assessment aims to identify settlements with high inflows and outflows of Afghan nationals and provide estimated numbers of each target population category.
2. Settlement-level assessment (B2): based on the results of B1, this assessment collects information on inflows and outflows of each target population category at each settlement (village), identified through B1. Additional villages are also identified and assessed, based on referrals from KIs.

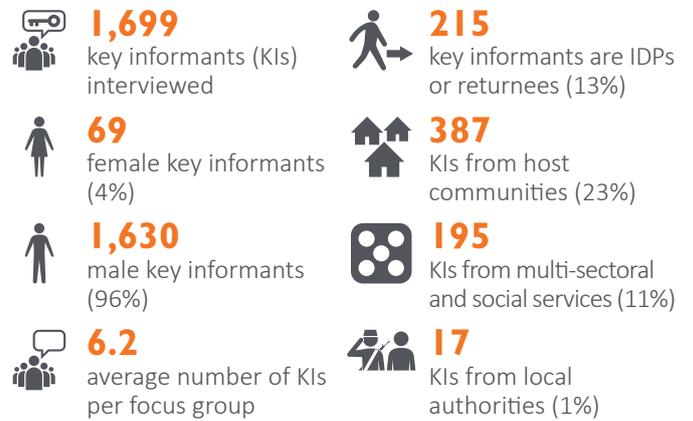

Since DTM has now assessed all 34 provinces, only settlement-level assessments will be conducted in the future. Pending continued funding, DTM aims to conduct baseline mobility assessments, nationwide, twice per year.

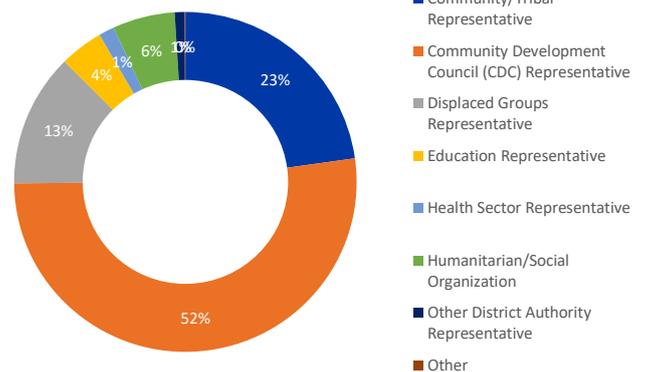

## KEY INFORMANTS

DTM's field enumerators collect data at the settlement level, predominantly through focus group discussions with key informants. While assessing communities, enumerators also observe the living conditions and availability of multi-sectoral services. In the rare case that DTM's District Focal Points cannot physically reach a community, due to insecurity, conflict, or risk of retaliation, DFPs meet the focus groups at safe locations outside their communities or conduct the assessments by phone.

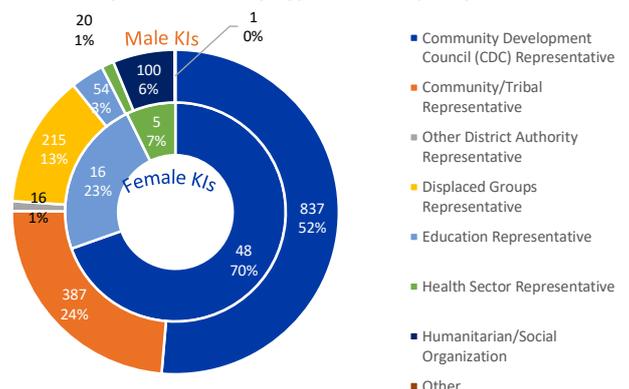

By actively recruiting more female enumerators, though challenging, DTM has made significant strides to improve gender inclusion in focus group discussions, although there is much room for improvement. While women represent only 4% of key informants in Faryab, this is significant compared to the first round of DTM conducted on March 2017, when women only represented 0.1% of the key informants nationally.

Key Informants by Type | Faryab

Key Informants by Type and Sex | Faryab

## RETURNNEES

Returnees are Afghan nationals who have returned to Afghanistan in the assessed location after having spent at least six months abroad. This group includes both documented returnees (Afghans who were registered refugees in host countries and then requested voluntary return with UNHCR and relevant national authorities) and undocumented returnees (Afghans who did not request voluntary return with UNHCR, but rather returned spontaneously from host countries, irrespective of whether or not they were registered refugees with UNHCR and relevant national authorities).

The number of returnees from abroad to Faryab decreased by 44% in 2016 compared to the period between 2012 and 2015. There was a further decrease of 22% in 2017 and a very slight decrease of 4% in 2018.

**215,344**  
returnees from abroad

**54,184**  
returned from Pakistan (28.5%)

**178,143**  
undocumented returnees from Pakistan + Iran (94%)

**135,898**  
returned from Iran (71.5%)

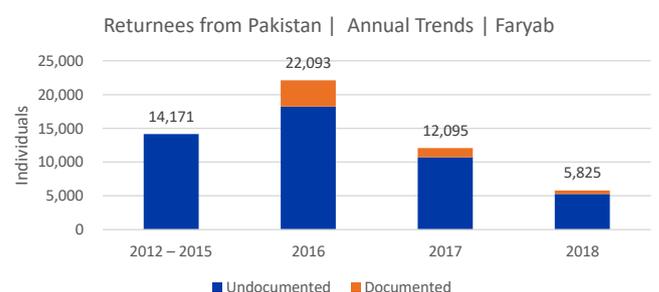

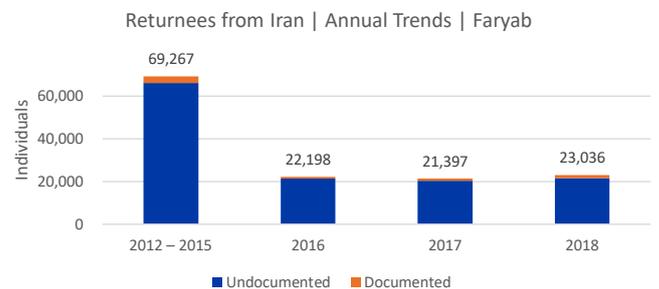

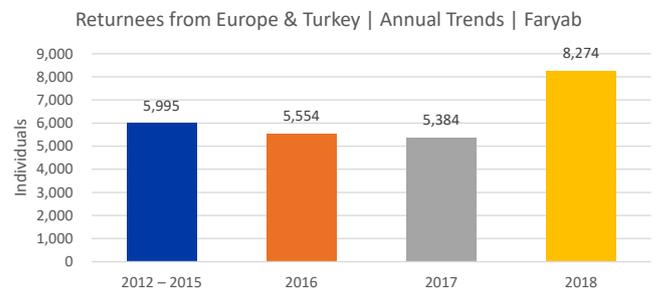

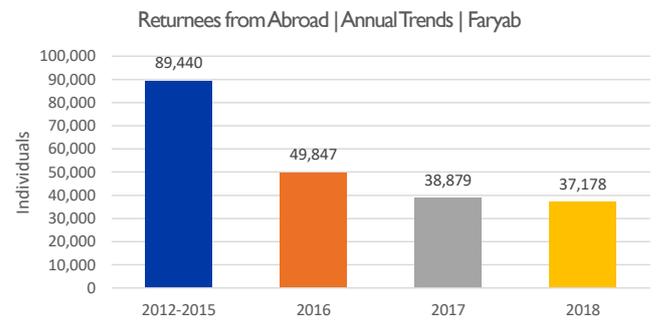

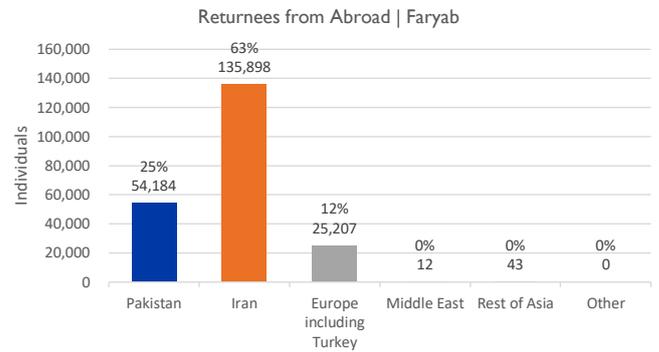

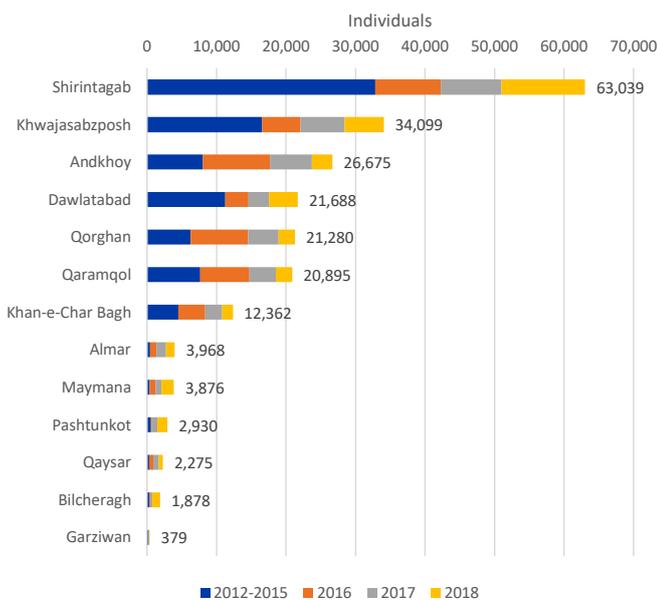

**11,939**  
documented returnees from Pakistan + Iran (6%)

**25,262**  
returnees from non-neighbouring countries (12%)

Returnees from Abroad by District | Faryab

## ARRIVAL IDPs

Arrival IDPs (IDPs) are Afghans who fled from other settlements in Afghanistan and have arrived and presently reside at the assessed location / host community, as a result of, or in order to avoid, the effects of armed conflict, generalized violence, human rights violations, protection concerns, or natural and human-made disasters.

**56,506**

IDPs currently reside in host communities

**90%**

displaced due to conflict

**20,709**

IDPs in Maymana district, which hosts the most IDPs

**10%**

displaced by natural disaster

**735**

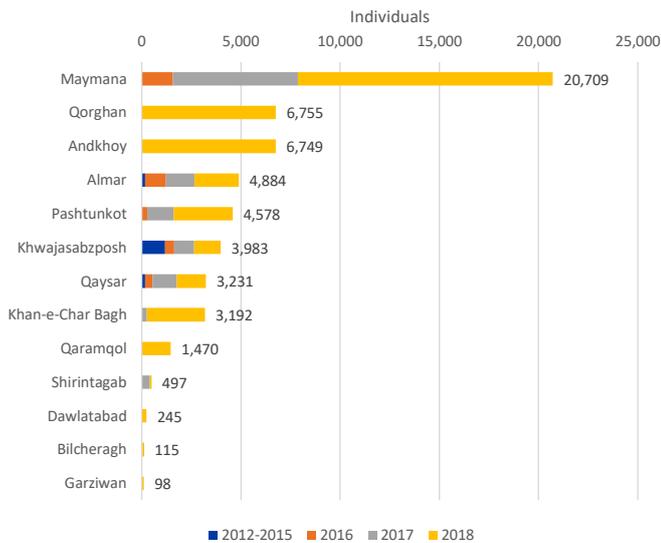

IDPs reside in informal settlements (1.3%)

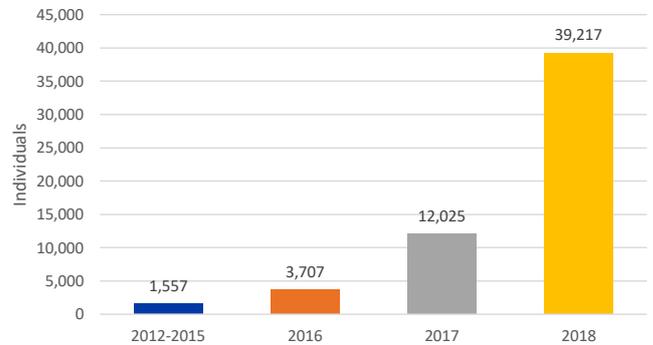

**95%**

IDPs displaced within their home province

Arrival IDPs | Annual Trends | Faryab

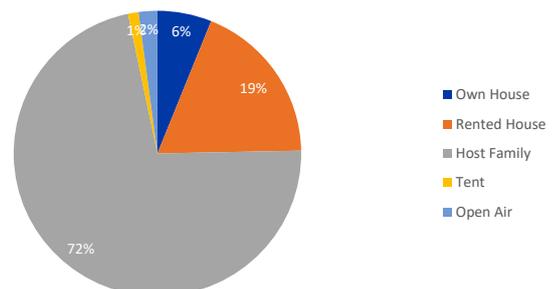

Arrival IDPs by Province of Origin | Faryab

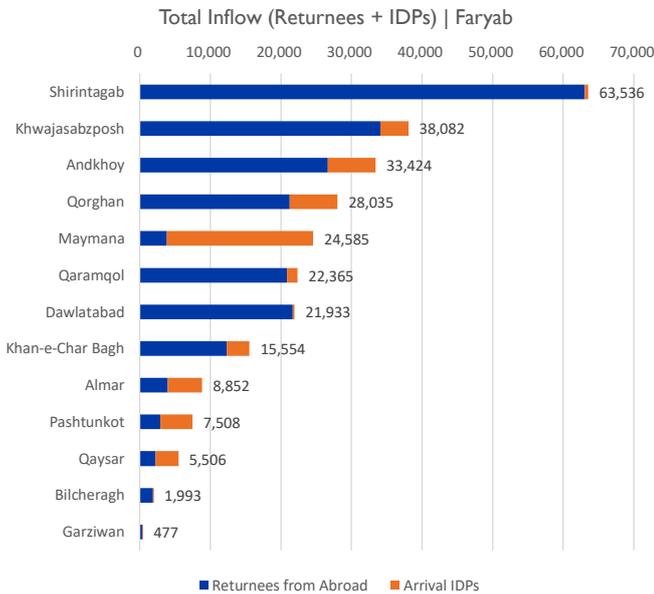

Arrival IDPs in Informal Settlements by District | Faryab

Arrival IDPs | Shelter | Faryab

+ ► **TOTAL INFLOW** [RETURNEES + ARRIVAL IDPs]

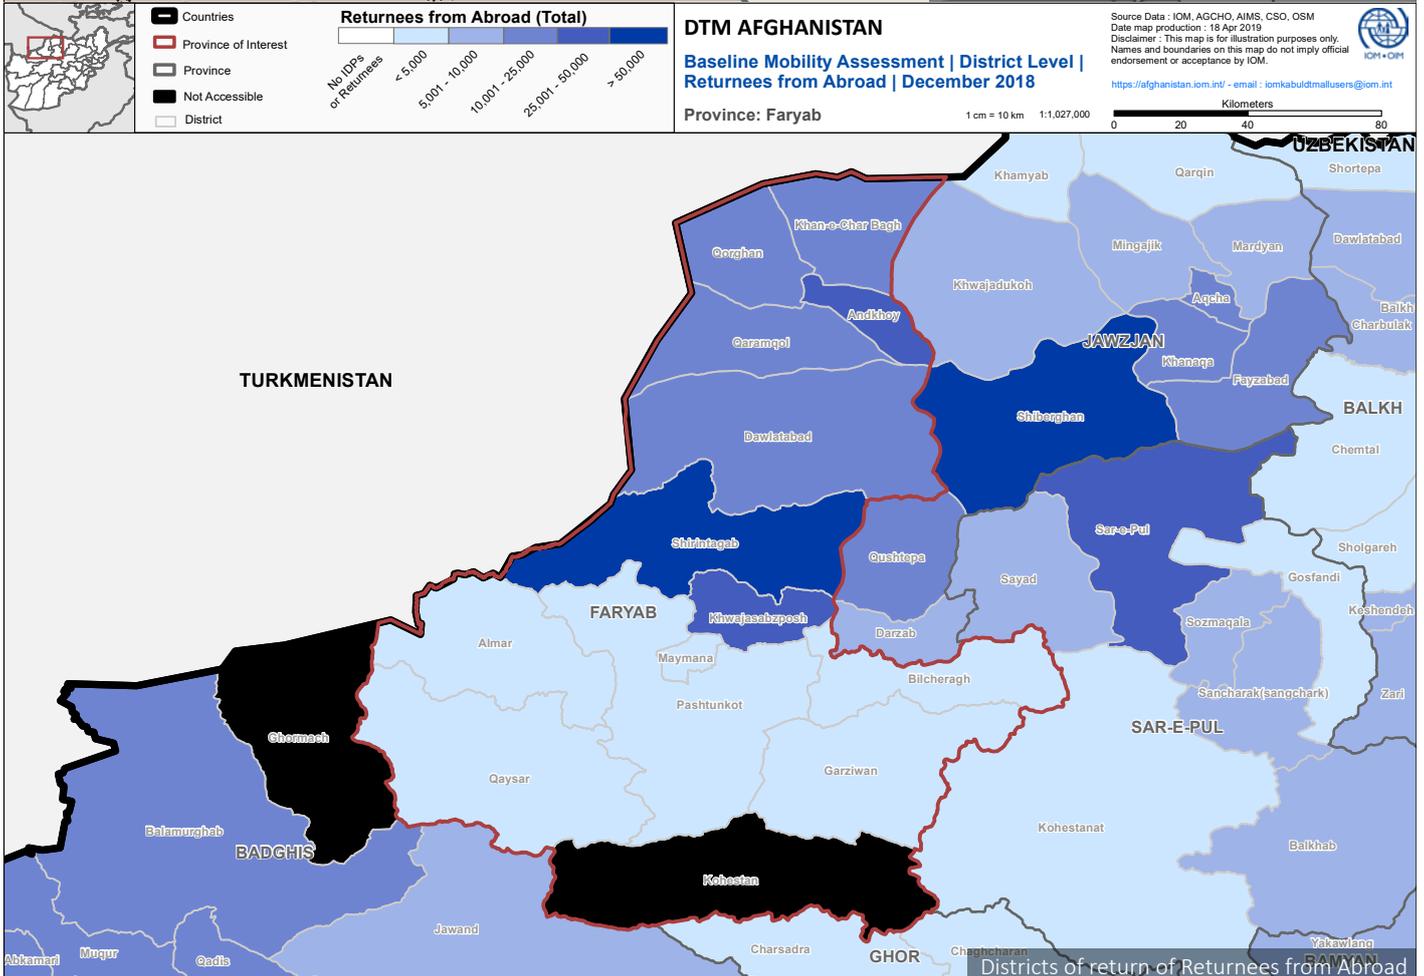

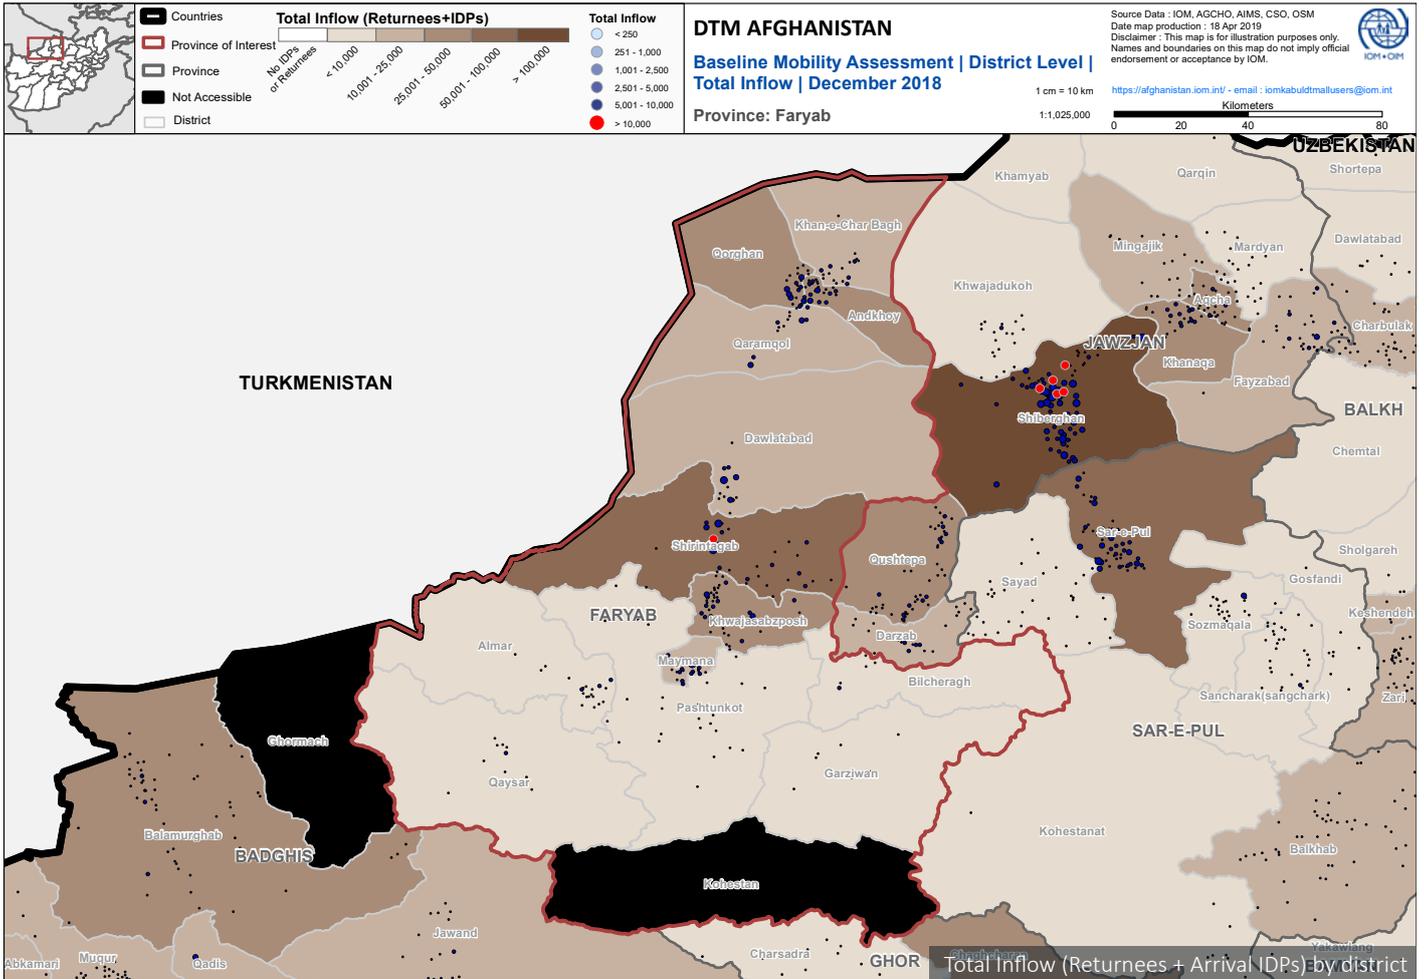

Overall, Faryab province hosts a total inflow of 271,850 returnees and IDPs, of which 79% (215,344) are returnees and 21% (56,506) are IDPs. The table below shows the 20 settlements in Faryab that are most affected by this influx. These 20 settlements (7% of the 273 settlements assessed in Faryab) host 37% of the province’s returnees and IDPs. These communities are especially fragile and susceptible to social instability induced by this large influx and the subsequent competition for limited, already overstretched resources and job opportunities.

Rank	Settlement	District	Individuals
1	Koh Sayyad	Shirintagab	18,955
2	Islam Qala	Shirintagab	9,434
3	Faiz Abad	Shirintagab	8,033

<b>Grand Total</b>	<b>215,344</b>	<b>56,506</b>	<b>271,850</b>

**FLED IDPS**

Fled IDPs are Afghans who have fled from an assessed location or settlement within which they previously resided and now currently reside in a different settlement in Afghanistan, as a result of, or in order to avoid, the effects of armed conflict, generalized violence, human rights violations, protection concerns, or natural and human-made disasters.

**167,170**  
Fled IDPs

**65%**  
fled IDPs displaced within Faryab

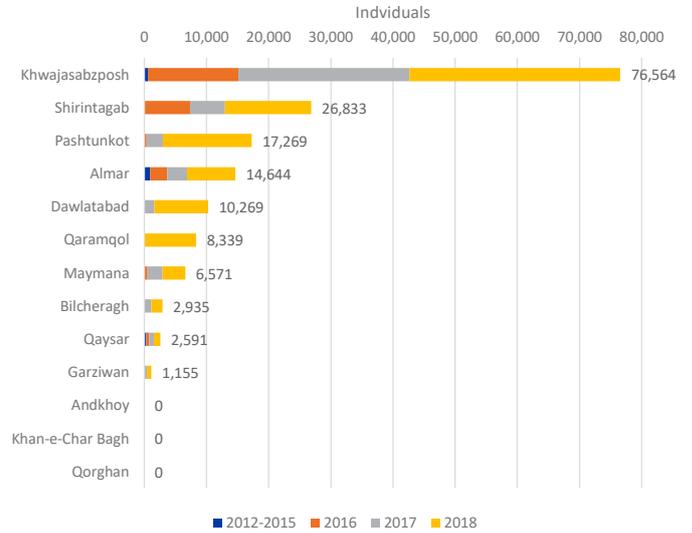

**85%**  
displaced due to conflict

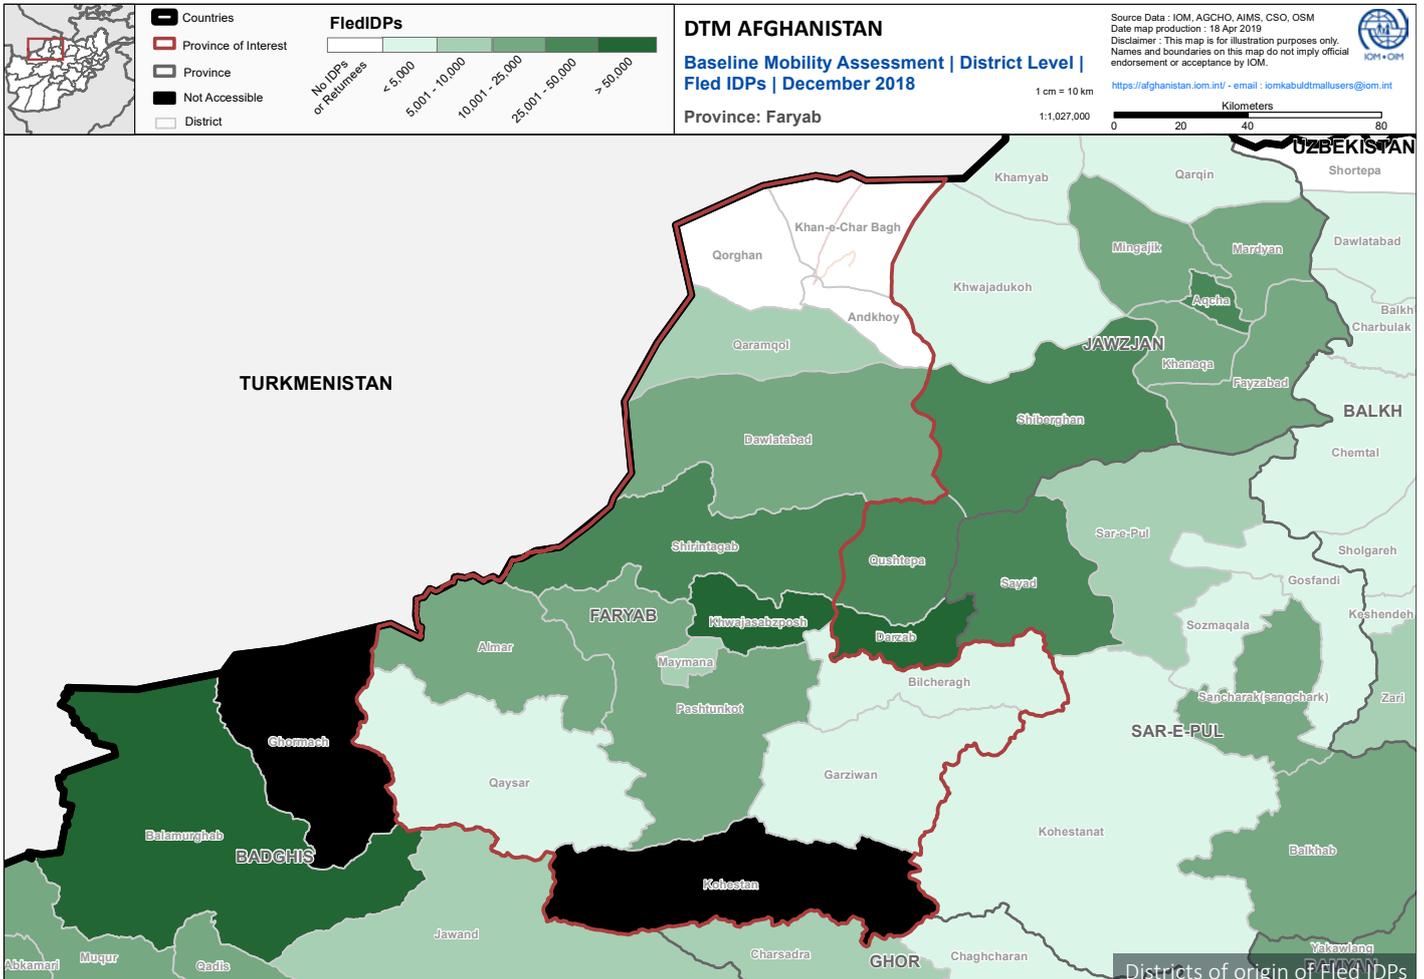

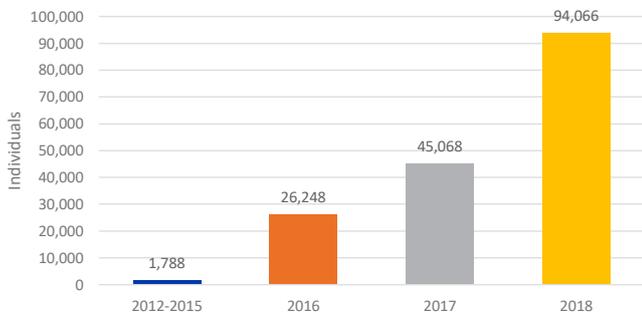

**15%**  
displaced by natural disaster

Fled IDPs by District | Faryab

Fled IDPs | Annual Trends | Faryab

# RETURNED IDPS

Returned IDPs are Afghans who have returned to their home place of origin in the assessed location or settlement from which they had fled as IDPs in the past, as a result of, or in order to avoid, the effects of armed conflict, generalized violence, human rights violations, protection concerns, or natural and human-made disasters.

**59,783**  
Returned IDPs

**76%**  
returned from other locations within Faryab

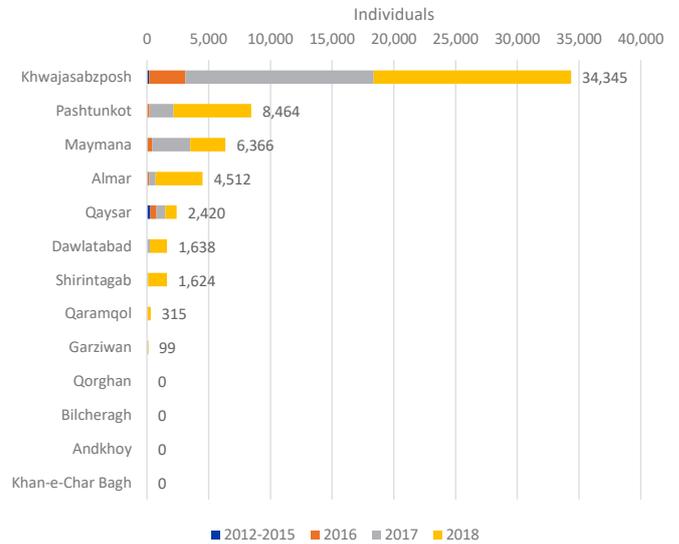

**3 in 4**  
former IDPs returned to just 2 Districts Khwajasabzposh and Pashtunkot (72%)

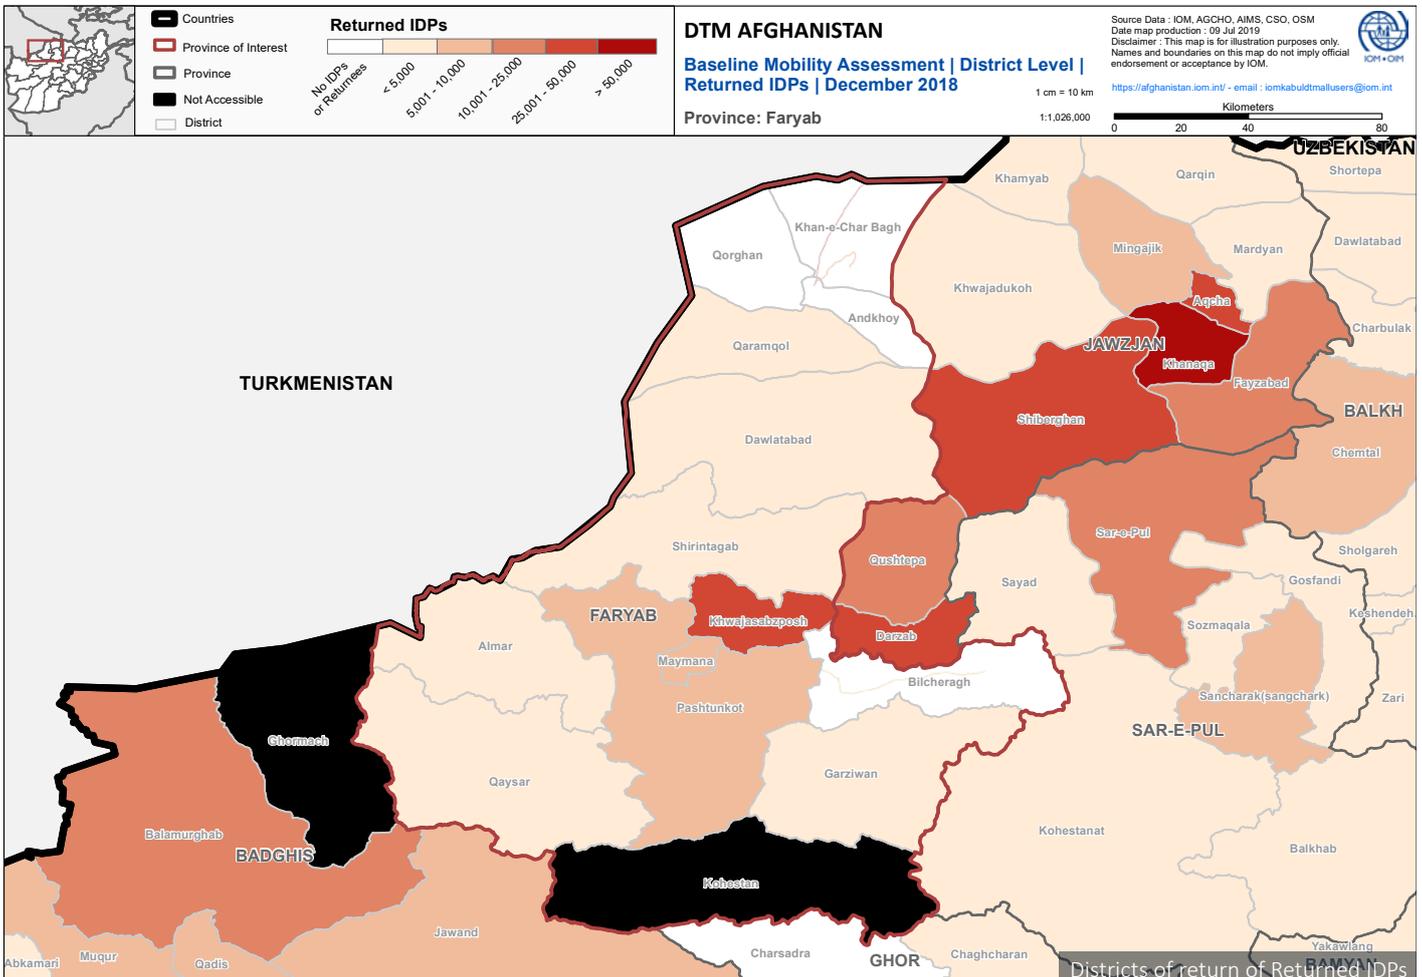

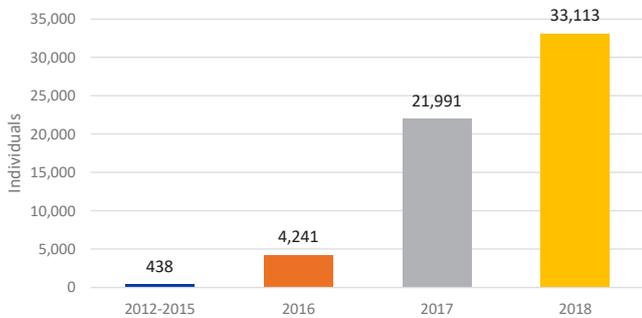

**1 in 2**  
57% of all returned IDPs in Faryab returned to Khwajasabzposh district

Returned IDPs by District | Faryab

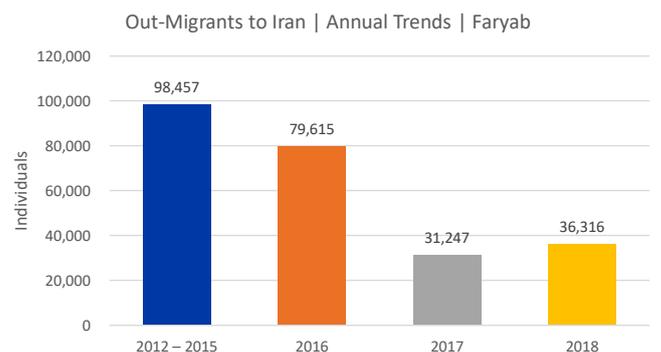

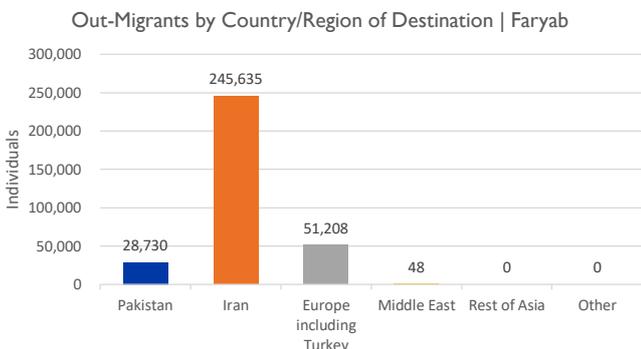

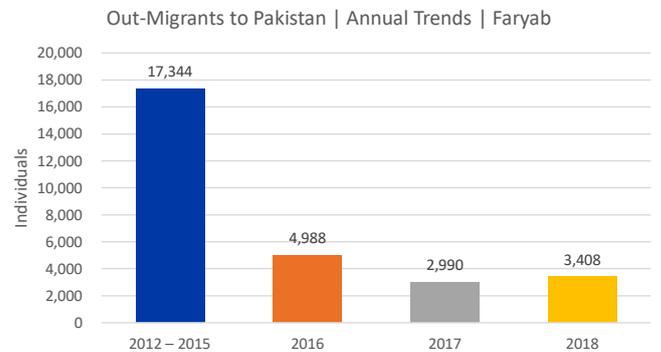

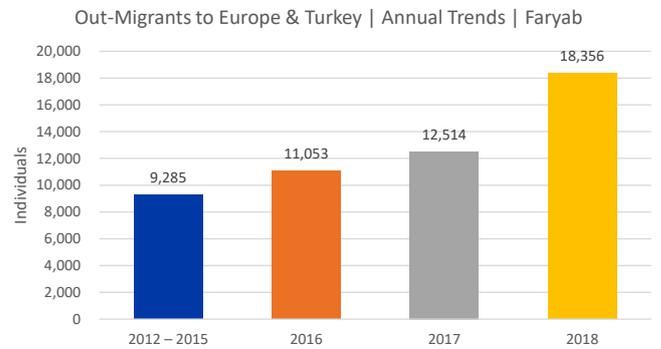

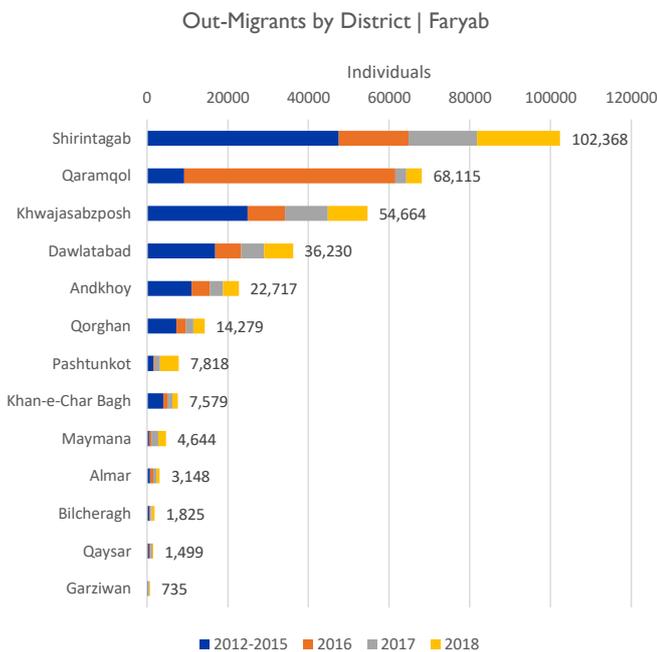

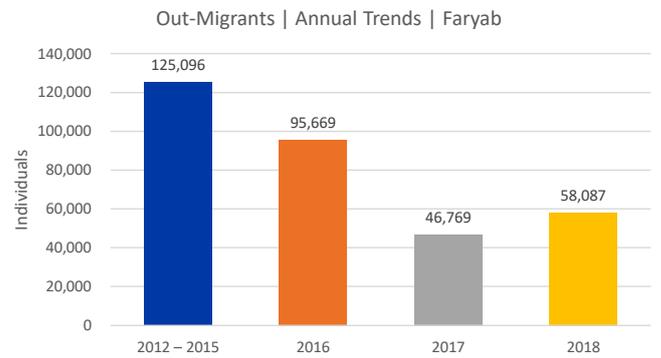

Returned IDPs | Annual Trends | Faryab

## OUT-MIGRANTS

Out-Migrants are Afghans who have moved or fled abroad from the assessed location, whatever the cause, reason or duration of expatriation. This category includes refugees, displaced and uprooted people, and economic migrants who have left Afghanistan.

## SECTORAL NEEDS

### TOP 5 DISTRICTS

Evidence-based prioritization is essential to the delivery of better targeted assistance and basic services. DTM provides partners with lists of priority areas in most need of assistance, based on a variety of sectoral indicators, at Province, District and Settlement levels.

(NOTE: The number of individuals reported below is based on the Total Inflow: IDPs + Returnees)

#### TOP 5 Districts with the most Returnees and IDPs (Returnees + IDPs)

Rank	District	Individuals
1	Shirintagab	63,536
2	Khwajasabzposh	38,082
3	Andkhoy	33,424
4	Qorghan	28,035
5	Maymana	24,585
<b>Grand Total</b>		<b>187,662</b>

#### TOP 5 in need of Shelter (IDPs + Returnees living in Tents or in the Open Air)

Rank	District	Individuals
1	Qaysar	1,213
2	Almar	453
3	Khwajasabzposh	270
4	Maymana	24
5	Shirintagab	17
<b>Grand Total</b>		<b>1,976</b>

#### TOP 5 in need of Water (potable water > 3 km away)

Rank	District	Individuals
1	Andkhoy	26,331
2	Qorghan	24,197
3	Qaramqol	15,084
4	Khan-e-CharBagh	13,651
5	Shirintagab	9,675
<b>Grand Total</b>		<b>88,938</b>

#### TOP 5 in need of Clinics (nearest clinic > 5 km away)

Rank	District	Individuals
1	Khwajasabzposh	21,278
2	Qaramqol	12,755
3	Shirintagab	9,223
4	Qorghan	7,749
5	Khan-e-CharBagh	7,539
<b>Grand Total</b>		<b>58,544</b>

#### TOP 5 in need of Schools (nearest school > 3 km away)

Rank	District	Individuals
1	Khwajasabzposh	5,722
2	Shirintagab	5,270
3	Qaramqol	4,849
4	Dawlatabad	1,487
5	Qaysar	1,427
<b>Grand Total</b>		<b>18,755</b>

#### TOP 5 in need of Markets (nearest market > 10 km away)

Rank	District	Individuals
1	Qaramqol	19,931
2	Qorghan	14,763
3	Shirintagab	6,726
4	Khan-e-CharBagh	6,057
5	Maymana	412
<b>Grand Total</b>		<b>47,889</b>

## STORIES FROM THE DISPLACED

### The Harrowing Tale of a Single Mother

Zahra says she was sixteen years old when her father married her off to a man in her village in Pashtunkot district. After a few months of marriage, her husband's family started becoming aggressive and started threatening her. Meanwhile, her husband, Payanda Mohammad, like 70,062 other out-migrants from Faryab, decided to migrate to Iran to seek employment to pay off his accumulated debts, leaving her behind with the rest of his family.

After six months, Payanda was deported from Iran and returned home. He started working as a farmer and joined the Afghan Local Police. When insurgents overran their village, they had to flee for the provincial capital Maymana.

Life in Maymana was difficult for Zahra and her family, which also included her children at this point. Payanda again joined the local police in Maymana in order to make a living. Sadly, only a month later, he was killed during fighting in Chahartoot area.

Zahra, now 25 years old, is left widowed and helpless with her four children, two boys and two girls.

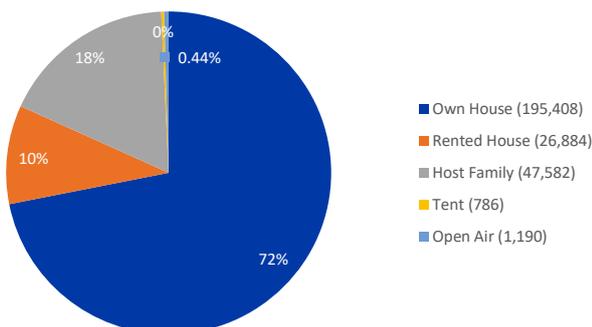

*"I don't know how to raise them. When I can't even feed them, how will I enrol them into school?"*

*\*Please note that the names have changed and village locations have been kept anonymous to protect the identity of the interviewee.*

Zahra lives in a temporary shelter in Maymana with her 4 children, whom she cannot afford to feed or send to school. © IOM 2018
