

Displacement overview

222,019 Individuals
45,762 Households

184 Locations assessed
141 sites et 43 host communities

Demographic profile

99% of households have children

5% Elderly

64% Minors

8 Average household size

Demographic data were collected at the household level through a demographic calculator with a sample of 1,154 households

This map is for illustrative purposes only. Representations and the use of boundaries and geographical names on this map may include errors and do not imply judgment of the legal status of a territory, nor official recognition or acceptance of these boundaries by IOM. Geographic coordinates of villages and sites were collected during field assessments. However, some locations, especially those of the sous-préfecture of Kaiga-kindjiria, were evaluated remotely due to security reasons in particular.

Département	Internally Displaced Persons		Returnees		Third Country Nationals	
	Households	Individuals	Households	Individuals	Households	Individuals
Fouli	16,983	80,847	3,944	25,857	142	600
Kaya	13,366	62,807	3,425	16,598	204	1,139
Mamdi	6,085	25,349	943	4,909	670	3,913
Total	36,434	169,003	8,312	47,364	1,016	5,652

Context and methodology

For more than 5 years, Chad and others countries of the Lake Tchad Basin have been the targets of attacks by armed groups that have caused internal and cross-border population displacements. In Chad, IOM is implementing the Displacement Tracking Matrix since May 2015 in the Lac province to gather updates on the number and needs of displaced populations due to this crisis, in order to guide humanitarian and development programs. Data are collected from key informants in villages and sites hosting these people. This dashboard presents results of evaluations carried out between August and September 2019 in 184 locations.

Displaced populations

Year of displacement

Localisation of displaced persons

74% of displaced persons live in sites

26% of displaced persons live in host communities
