Context and methodology

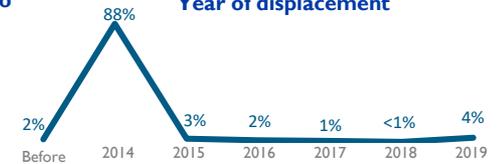

Ever since the start of the Central African crisis in 2013, Chadian nationals have been fleeing the Central African Republic to return to Chad, and in particular to the country's southern provinces (Moyen-Chari, Mandoul, Logone Oriental and Logone Occidental). IOM is implementing the Displacement Tracking Matrix (DTM) in the Moyen-Chari and Logone Oriental provinces to gain a better understanding of the number and needs of returnees living in the

province. Data is collected from key informants in sites and villages hosting returnees. This dashboard presents the findings of assessments carried out in October and November 2019 in 88 locations. A total of 77,650 returnees in 17,413 households were identified. Results show that most of returnees (61%) live in displacement sites. The sites of Maingama, Danamadja, Sido Est et Kobiteye being the largest ones.

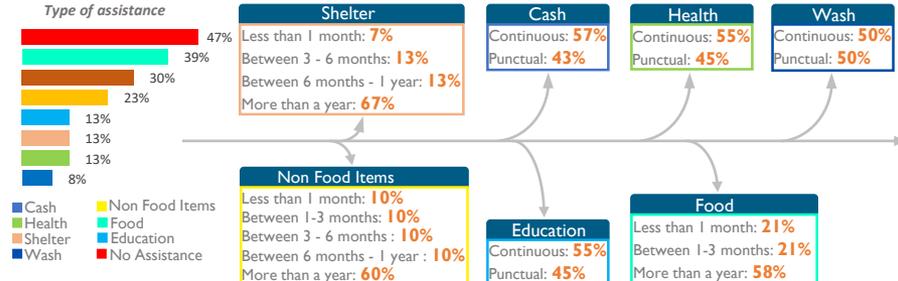

Trend of returnees from round 1 to round 2

Year of displacement

Period of the last humanitarian assistance received in assessed locations

LOGONE ORIENTAL	
Department	Number of returnees
La Nya	690
La Pendé	759
Monts de Lam	10,656
La Nya Pendé	21,712
Total	33,817

MOYEN-CHARI	
Department	Number of returnees
Lac Iro	3,708
Bahr-Kôh	5,471
Grande Sido	34,654
Total	43,833

61% of returnees live in sites
39% of returnees live in host communities
<1% of returnees live in public center
