25 government-listed sites were opened for the new IDPs.

SITES ACCESSIBLE FROM HIGHWAY

12

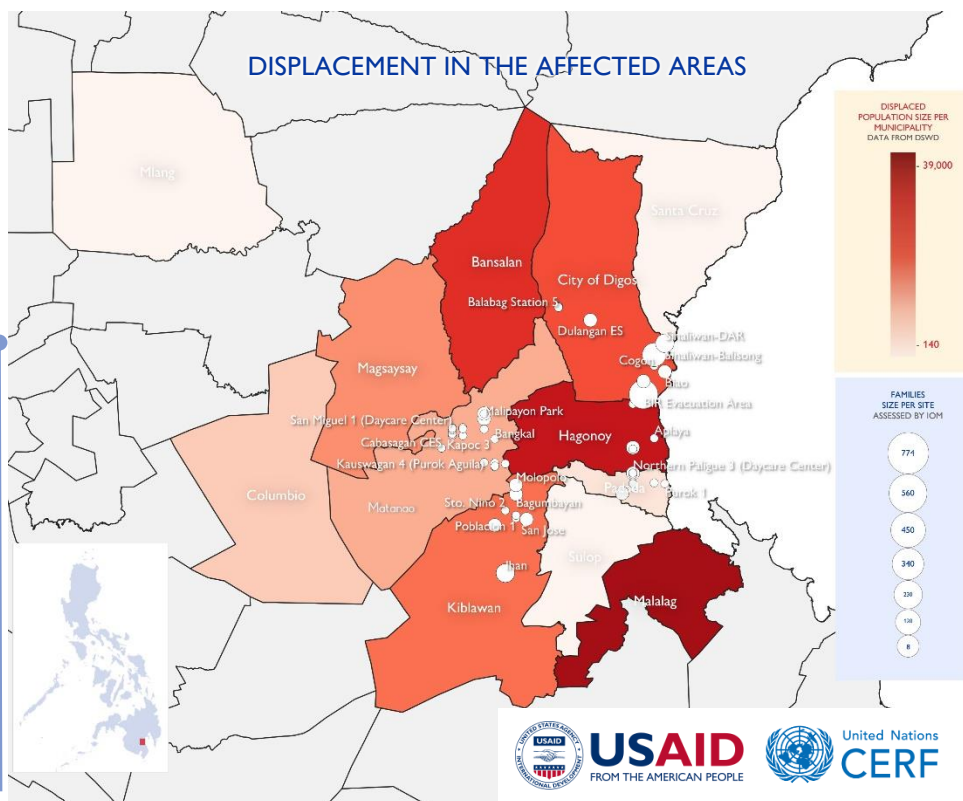

2,444 families in sites accessible from highway

SITES ON OPEN LOTS

45

6,273 families in open lots in makeshift shelters or tents

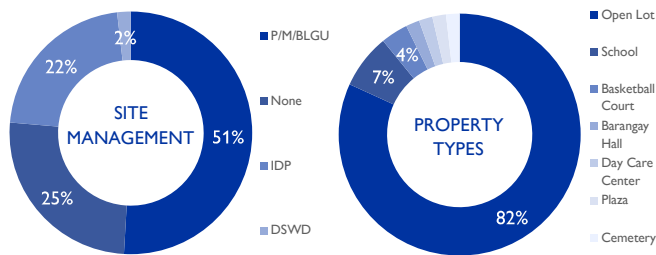

DISPLACEMENT IN THE AFFECTED AREAS

METHODOLOGY

This DTM report refers to the round of baseline site assessments conducted in the City of Digos and the municipalities of Matanao, Kiblawan, Padada and Hagonoy in Davao del Sur on 19-21 December 2019. IOM deployed 5 enumerators in 2 mobile DTM assessment teams which coordinated with the local governments of Davao del Sur, as well as DSWD Regions XI and P/M/ CDRRMOs. Data was derived from key informant interviews and focus group discussions in the assessed sites. This report assesses 55 accessible sites hosting 7,713 families.

SECTORAL FINDINGS

Camp Coordination and Camp Management

- 13 of the 55 sites assessed opened shortly after the first Tulunan Earthquake on 16 October 2019. The resident 1,151 families have been displaced since then.
- 1,563 families in 6 sites were displaced from barangays other than those where the IDP sites are located.
- 34 of the sites with 5,439 families are government-designated while 21 sites with 2,274 families are unrecognized sites which are also receiving government assistance.
- 45 sites with 6,273 families are in open lots while 4 sites with 615 families are in schools which will likely be reclaimed for resumption of classes after two weeks. The remaining 6 sites are in 2 covered courts, a barangay hall, a community plaza and a cemetery.
- 22 sites hosting 3,104 families are reported to be in private properties. The IDPs' continued use of the properties is subject to negotiation. The residents of Guihing 1 IDP Site in Hagonoy are being threatened with eviction.
- 75% sites hosting 6,540 families have a designated camp manager. 28 sites are managed by a local government official, 12 sites by IDP appointees and one by a DSWD deployee. Only the latter is formally trained. 14 sites hosting 1,173 families have no appointed camp manager.

Shelter

- Tents and plastic sheets have been distributed by government prioritizing those with destroyed houses. In many cases, plastic sheets are strung together to increase capacity for up to 9 families.
- Most families do not have access to materials for privacy partitions, however some families achieve a degree of privacy by erecting self-bought dome tents within these common spaces.
- 10 sites with 2,205 families do not have enough tarpaulins or tents to shelter IDPs. This leaves some of the families sleeping with less privacy and protection than would otherwise be available to them.

Food Security & Livelihood

- BIR IDP Site in Digos City benefits from the LGU's weekly food pack distribution but 6 sites in Barangay Kauswagan, Matanao have not received food distribution since immediately after the first Tulunan earthquake on 16 October 2019.
- In Balutakay IDP Site in Hagonoy, assorted cash-for-work activities organized by the Department of Labor is scheduled to begin.
- In at least 6 sites, most IDPs normally gain livelihood by farming or manual labor. In at least one site there are seaweed farmers who have not been able to harvest since late October. Fisherfolk IDPs have similarly not been able to fish.

Water, Sanitation and Hygiene

- Local government, civil society and faith-based groups deliver potable water to some sites but at least 3 sites with 1,511 families lack potable water.
- At least 9 sites with 1,789 families report a lack of latrines. IDPs are reluctant to use pre-existing latrines for fear of structural collapse. A few latrine construction efforts are on-going.
- At least 2 sites with 676 families need drainage canals to dispose waste water.

Protection, Safety & Security

- In at least 4 sites with 489 families, IDPs cook near or inside their shelters posing a fire hazard.
- At least 4 sites with 623 families need adequate lighting and a perimeter fence. At least one of them has already been intruded upon at night.
- At least two sites have natural hazards, one for landslides and sea surges and another for snakes.
