

Tonj North County, Warrap State

Data collected on: 18 April 2020

IOM's Displacement Tracking Matrix (DTM) conducted Emergency Event Tracking through interviews with key informants to obtain information on recent displacement to Tonj North County. According to information received, some 2,018 individuals (381 households) escaped violence in Malual-Cum in Tonj East County and found shelter among the host community in Pariang Lou, a village bordering the two counties. Displacement was triggered by communal clashes between the Thiik community of Ananatak Payam and two communities of Jalwaw and Konggor of Wunlit Payam in Tonj East, which escalated due to land disputes.

Period covered: March – April 2020

IOM DTM employs Event Tracking as a more rapid and localized assessment tool complementing overall efforts to report on IDP and returnee figures nationally. IOM teams access IDP / returnee locations and consult local key informants including community representatives, local authorities or humanitarian partners and triangulate findings to provide partners with the most accurate as possible, actionable and current data.
