

## Mayom County, Unity State

Between 24 and 28 May 2020, IOM's Displacement Tracking Matrix (DTM) recorded the arrival of 630 South Sudan nationals (90 households) from Soba Arada (Khartoum, Sudan). The majority of arrivals, 406 individuals (58 households) managed to reach their home areas in Ngop Town (Mayom County) while 224 individuals (32 households) remained in a situation of displacement in a Ngop primary school due to a lack of shelter materials, NFI and land access.

DTM had established a headcount exercise at Kuerbone Bus Station in February 2020 in order to monitor the prevalence of returning populations following the formation of the Transitional Government of National Unity (TGoNU) in South Sudan. Headcounts show a significant reduction in arrivals from Sudan since the closure of the borders initiated as part of the COVID-19 preparedness activities in late March 2020.

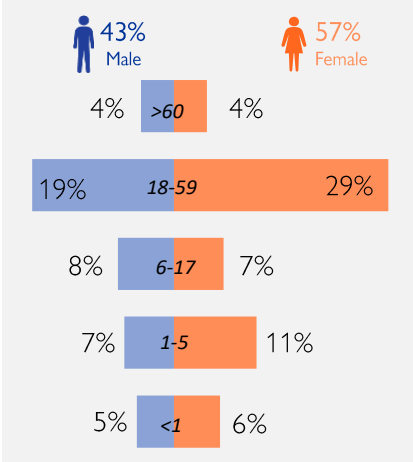

Assessment Date	Location	Trigger for movement	IDPs	Returns	Setting
28 May 2020	Ngop Primary School	Voluntary return to South Sudan	224 (32)		IDP Site
28 May 2020	Ngop Town	Voluntary return to South Sudan	-	406 (58 HH)	N/A

# Event Tracking Report

Mayom County, Unity State

Location: Ngop Primary School, Mayom County

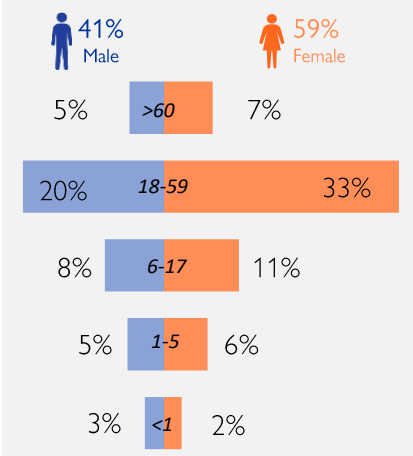

Data collected on: 28 May 2020

TRIGGER FOR MOVEMENT		Voluntary Return to South Sudan	DEMOGRAPHIC BREAKDOWN (224 inds.)		HUMANITARIAN NEEDS	
						
# of IDPs	224 (32 HH)				HEALTH	
# of Returnees	-				WATER	
Arriving from	Soba Arada, Khartoum, Sudan				SANITATION	
Mode of transport	Public Transport				PROTECTION	
Nature of movement	Spontaneous				FOOD	
Setting	IDP Site				SHELTER	
					NON-FOOD ITEMS	

Information source: Key Informant Interview

Location: Ngop Town, Mayom County

Data collected on: 28 May 2020

IOM DTM employs Event Tracking as a more rapid and localized assessment tool complementing overall efforts to report on IDP and returnee figures nationally (see Mobility Tracking round 7 reports and maps on [displacement.iom.int/south-sudan](https://displacement.iom.int/south-sudan)). IOM teams access IDP / returnee locations and consult local key informants including community representatives, local authorities or humanitarian partners and triangulate findings to provide partners with the most accurate as possible, actionable and current data.
