

# COVID-19 MOVEMENT RESTRICTIONS

YEMEN MOBILITY RESTRICTION DASHBOARD #21 (10 FEB 2021)

## Reported Covid-19 Cases in Yemen

Source: National Center for Disease Control

**2,134** Confirmed | **1,430** Recovered | **616** Deaths

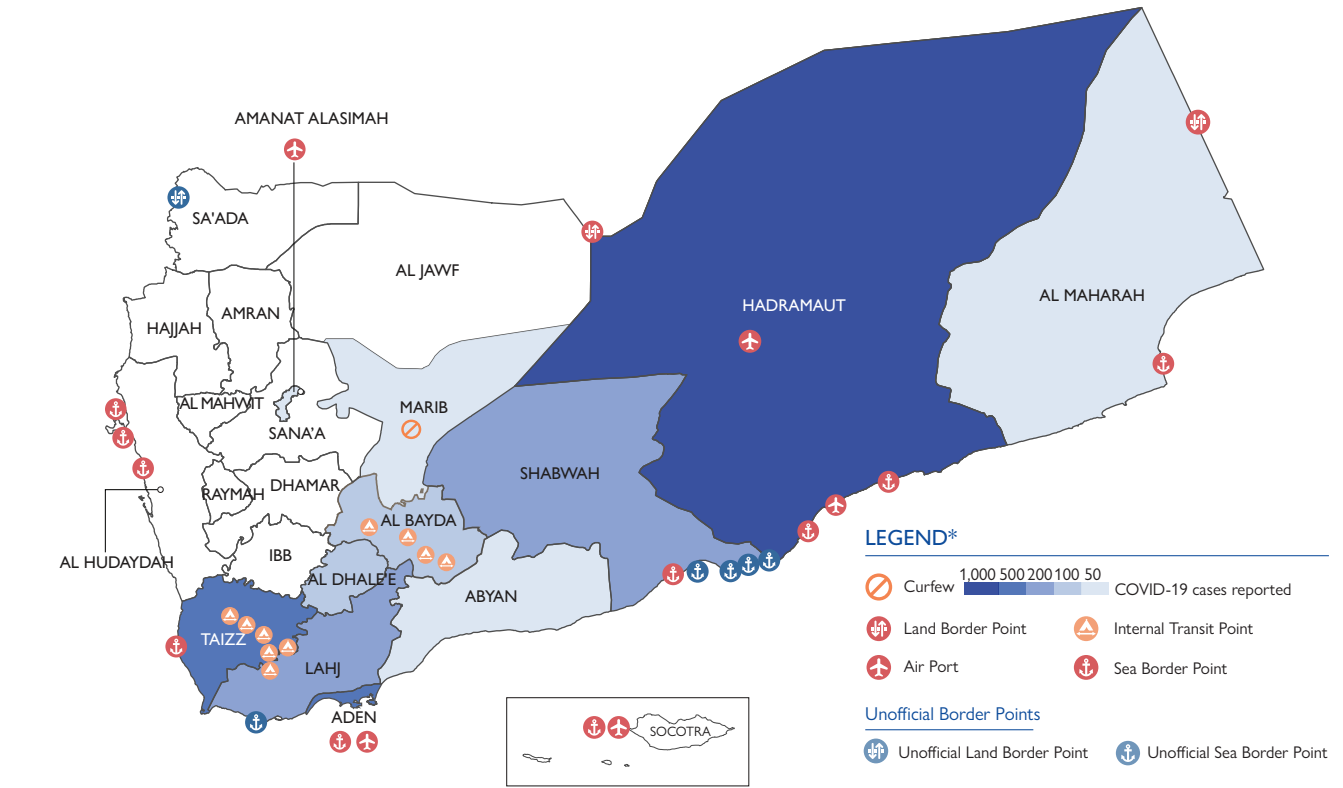

HIGHLIGHTS (From 27 Jan to 9 Feb 2021)

- 12 new cases – 0 new deaths | source : [WHO](#)
- Updates on numbers of new cases in areas controlled by Sana'a DFA are not available.
- 1,237 Non-Yemeni migrants arrived at southern governorates (Shabwah, Lahj, Abyan and Hadramaut). in addition, one Yemeni returned from Somalia ([Flow Monitoring Dashboard](#)).
- No IDP Households reported COVID-19 as the reason of displacement. So far, the total number of IDPs who have cited COVID-19 as the primary reason for displacement is 1,550 households ([see RDT Dashboard for more information](#)).

## Mobility Restrictions

In response to the COVID-19 pandemic, the local authorities of Yemen declared a nationwide health emergency and introduced many preventative measures similar to those adopted by the rest of the world starting in March 2020, in order to reduce the transmission of the virus. The Yemeni authorities had put additional preventive measures and health screenings for people passing through ten transit points used for public movement between southern and northern governorates, specifically at points located in Taizz and Al-Bayda. Recently, these restrictions have been loosened and the health screenings have been removed. For Yemeni returnees from KSA through the Al Wadeeah border entry point, providing a COVID-19 PCR test report is mandatory by the Yemeni authorities. Authorities at Al Wadeeah entry point have installed a PCR testing facility at the entry point for travelers who arrive without a PCR test report. On 28 September 2020, Sana'a International Airport reopened for humanitarian flights. Fifteen sea border points and three land border points are reopened for movement.

Al Wadeeah border entry point returned to its normal position, open to travelers travelling between Yemen and Saudi Arabia, after a two week closure from 20 December 2020 to 8 January 2021.

- ▲ The movement restrictions have eased, and the health screenings have been removed from transit points.
- ↕ Transit points along land borders are partially open for the entry and exit of passengers. Al Wadeeah land border point has reopened, allowing Yemenis holding a negative Covid PCR test and following health regulations to enter KSA.
- ✈ Sana'a International Airport has reopened for humanitarian flights.
- ⊘ Curfews are still in effect in Marib governorate from nine in the evening until six in the morning.

Governorate	Cases	Recovered	Deaths
Hadramaut	994	652	318
Taizz	303	221	81
