0 Returnee HHs

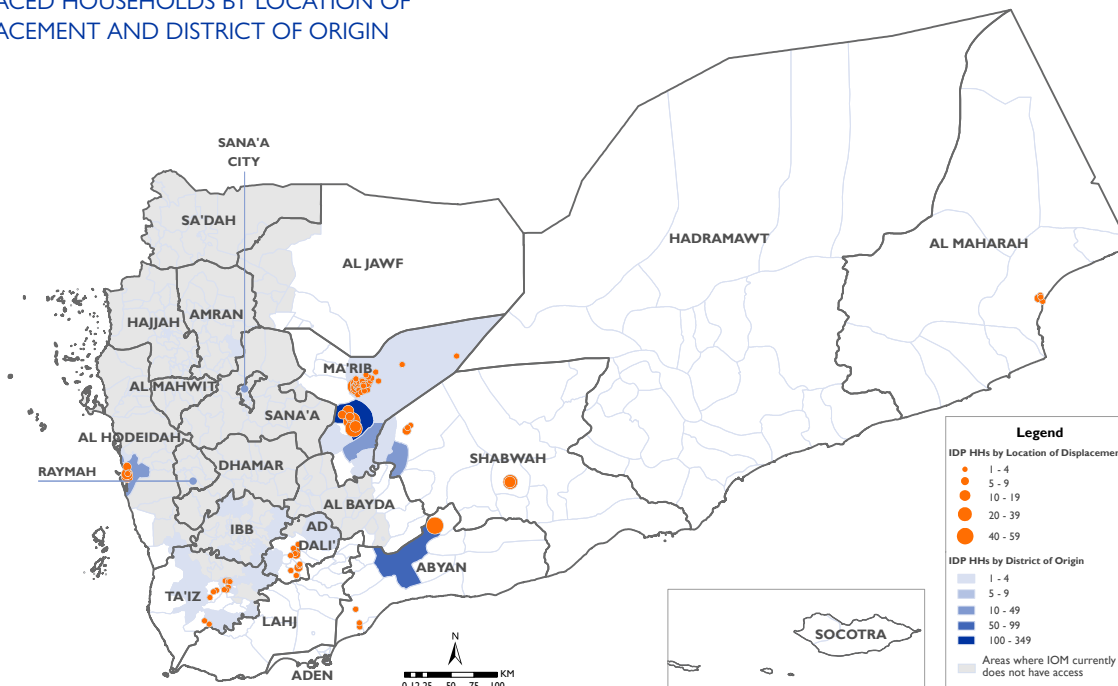

IOM Yemen DTM's Rapid Displacement Tracking (RDT) tool collects data on numbers of households forced to flee on a daily basis from their locations of origin or displacement, allowing for regular reporting of new displacements in terms of numbers, causes of displacement, geography and needs. It also tracks returnees who returned to their location of origin.

During the reporting period, Between 10 and 16 October 2021, IOM Yemen DTM tracked 583 households (3,498 individuals) displaced at least once. Conflict was the main reason for displacement, accounting for 98 per cent (574 HH) of the total, followed by economic reasons, accounting for two per cent (9 HH). From 01 January 2021 to 16 October 2021, IOM Yemen DTM estimates that 13,167 households (HH) (79,002 Individuals) have experienced displacement at least once.

Some 171 HH were displaced in the previous reporting period in governorates of Ad Dali, Shabwah, Marib, Al Maharah, and Taiz, which covered 03 October - 09 October 2021. However, they were only identified in the current period and so, this figure has been added to the cumulative displacement total recorded from the beginning of the year.
