IOM Yemen DTM's Rapid Displacement Tracking (RDT) tool collects data on estimated numbers of households forced to flee on a daily basis from their locations of habitual residence or displacement, allowing for regular reporting of new displacements<sup>1</sup> in terms of estimated numbers, causes of displacement, geography and needs. It also tracks returnees who returned to their location of habitual residence.

During the reporting period, between 13 and 19 March 2022, IOM Yemen DTM tracked 205 households (HHs) (approximately 1,230 individuals<sup>2</sup>) displaced at least once.

Safety and security concerns as a result of the conflict were the main reason for displacement, accounting for 91 per cent (186 HHs) of the total, followed by economic reasons related to conflict, accounting for nine per cent (19 HHs).

Between 1 January and 19 March 2022, IOM Yemen DTM tracked a cumulative 4,556 households (27,336 individuals) that experienced displacement at least once.

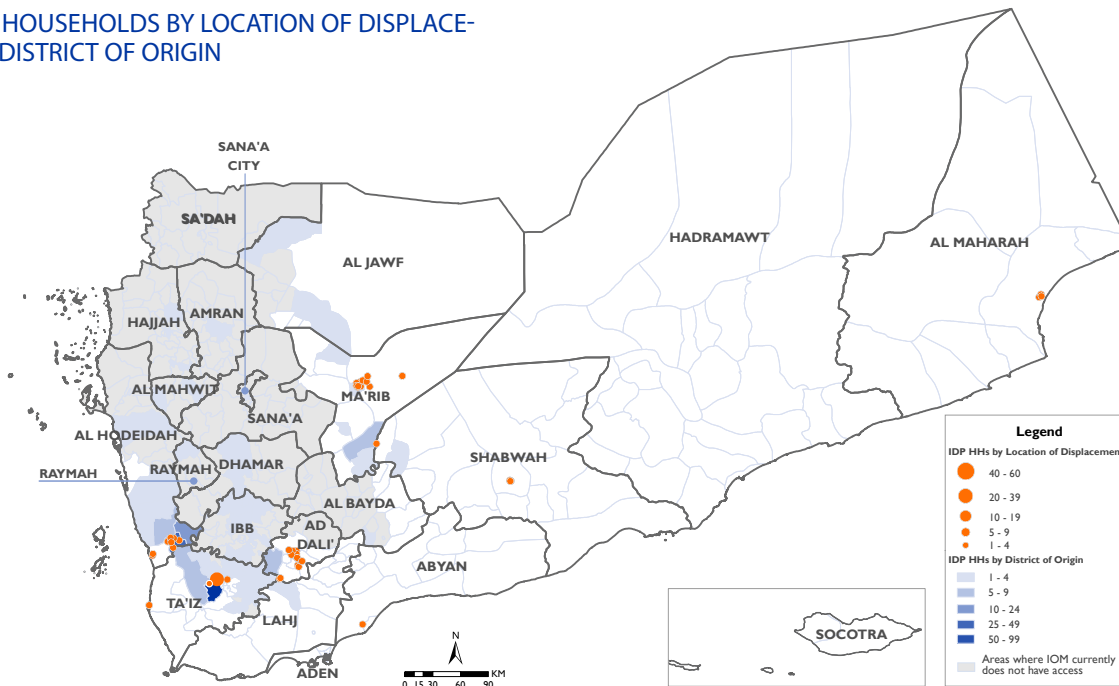

Some 71 households displaced in the previous reporting period, which covered 6-12 March 2022, in the governorates of Marib (31 HHs), Al Hodeidah (28 HHs), Al Maharah (5 HHs), Hadramawt (3 HHs), Taiz (2 HH), and Aden (2 HHs), were only identified in the current period and so, this figure has been added to the cumulative displacement

<sup>1</sup> Displacement in Yemen refers to the 13 governorates where IOM DTM's team has access, namely: Abyan, Ad Dali, Aden, Al Bayda, Al Hodeidah, Al Jawf, Al Maharah, Hadramawt, Lahj, Ma'rib, Shabwah, Socotra, Taiz.  
<sup>2</sup> IOM DTM estimates that one household represents six individuals.  
<sup>3</sup> Please note that further additions to previous reporting periods can be reflected in cumulative totals without being individually addressed in narrative reports.
