

NON-YEMENI MIGRANT ARRIVALS AND YEMENI MIGRANT RETURNEES IN NOVEMBER 2022

9,212 Migrants | 5,421 Yemeni Migrant Returnees

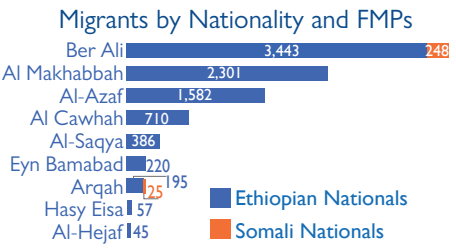

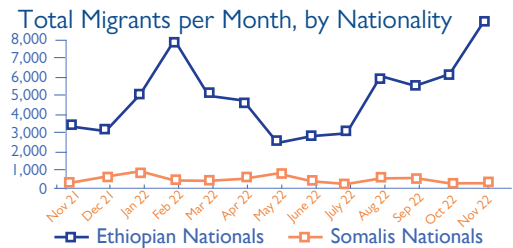

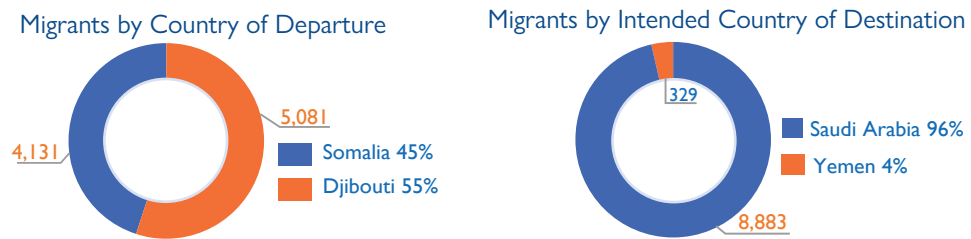

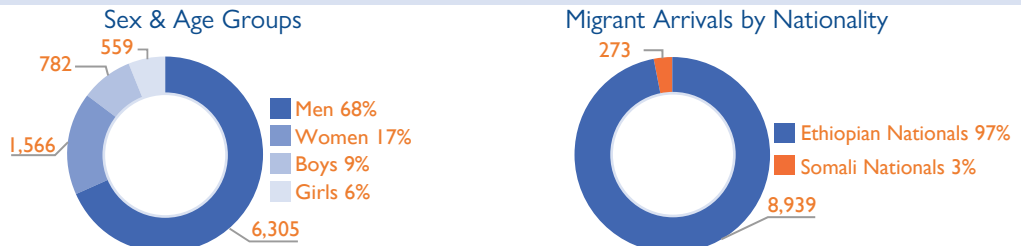

IOM Yemen DTM's Flow Monitoring Registry (FMR) monitors migrant arrivals on the southern coastal border and Yemeni return locations on Yemen's northern border with the Kingdom of Saudi Arabia (KSA). Enumerators placed at Flow Monitoring Points (FMPs) record migrant arrivals and returning Yemeni nationals to identify different patterns of migration, and to provide quantitative estimates to help define the population of irregular migrants entering the country. FMR is not representative of all flows in Yemen and should be understood as only indicative of migration trends of the unknown total number of migrants arriving in Yemen at FMPs during the time frame indicated. Access constraints limit the ability to collect data at some migrant arrival points.

In November 2022, IOM Yemen DTM recorded 9,212 migrants entering Yemen, a 44 per cent increase compared to October 2022 (6,381). In Lahj DTM has registered an increase in arrivals (+ 31%) compared to the last month. Similarly, there was a huge increase (+ 65%) in the number of migrants arriving through Shabwah's coast. The overall increase could be linked to weather conditions, sea tides and decreased coast guard patrolling in Djibouti. While travel had been primarily due to economic reasons in the first half of the year, DTM has been recording conflict induced movements since August, being the reason for 42 per cent of all incoming movements in November. All conflict motivated travel was recorded in Shabwah coming from Bari, Somalia (28% children, 24% women and 48% men).

Due to the deteriorating humanitarian crisis in Yemen and the challenges in moving towards KSA, many migrants opted to return to the Horn of Africa. DTM teams in Djibouti recorded that during November 2022, a total of 494 migrants took the risky return by boat from Yemen to travel home. Moreover, DTM recorded 5,421 Yemeni returns from KSA during the month of November 2022, compared to 5,454 in October 2022. Between 1 January and 30 November 2022, DTM recorded 62,613 migrants and 60,690 Yemeni migrant returnees to Yemen.
