YEMEN IDP DASHBOARD | REPORTING PERIOD: 2 TO 8 APRIL 2023

IOM Yemen DTM's Rapid Displacement Tracking (RDT) tool collects data on estimated numbers of households forced to flee on a daily basis from their locations of habitual residence or displacement, allowing for regular reporting of new displacements<sup>1</sup> in terms of estimated numbers, causes of displacement, geography and needs. It also tracks IDP returnees who returned to their location of habitual residence.

Between 2 and 8 April 2023, IOM Yemen DTM tracked 219 households (1,314 individuals)<sup>2</sup> who experienced displacement at least once.

Safety and security concerns as a result of the conflict were the main reason for displacement, accounting for 99 per cent (216 HHs) of the total followed by economic reasons related to conflict, accounting for one per cent (3 HHs).

From 1 January to 8 April 2023, IOM Yemen DTM tracked 2,763 households (HH)<sup>3</sup> (16,578 Individuals) who experienced displacement at least once.

IOM DTM also recorded 235 returnee households in the governorate of Shabwah returning to their locations of origin during the reporting period who were displaced by flood last week.

1. Displacement in Yemen refers to the 13 governorates where IOM DTM's team has access, namely: Abyan, Ad Dali', Aden, Al Bayda, Al Hodeidah, Al Jawf, Al Maharah, Hadramawt, Lahj, Ma'rib, Shabwah, Socotra, Ta'iz. 2. IOM DTM estimates that one household represents six individuals.

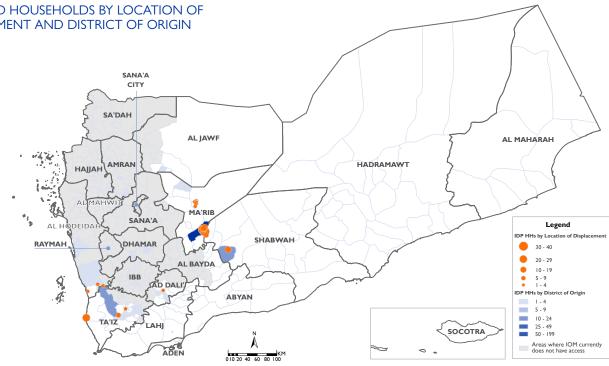

3. Please note that further additions to previous reporting periods can be reflected in cumulative totals without being individually addressed in narrative reports.
