

The snapshot presents the number of Bangladeshi nationals who arrived by land and sea in the European Union and those who transited through the Western Balkan and Eastern Europe region, which comprise a portion but not all arrivals to EU in 2022. The data on arrivals and transits is made available by national authorities and then gathered by the IOM DTM Europe.¹ Numbers of apprehensions or registrations at the border in the Western Balkan and Eastern Europe region are not summed up to avoid double counting of the same persons who transit through multiple countries in their intent to reach Central and Northern Europe.

The snapshot is part of the outputs of the EU-funded Displacement Tracking Matrix (DTM) project “Regional Evidence for Migration Analysis and Policy” (REMAP). The objective of DTM REMAP is to increase the effectiveness of humanitarian and development efforts on migration and displacement in Afghanistan, Bangladesh, Kazakhstan, Kyrgyzstan, Pakistan, Tajikistan and Uzbekistan.

NUMBER OF BANGLADESHI NATIONALS WHO ARRIVED BY LAND AND SEA IN THE EUROPEAN UNION IN 2022

NUMBER OF BANGLADESHI NATIONALS WHO TRANSITED THROUGH THE WESTERN BALKAN AND EASTERN EUROPE REGION IN 2022
