

DISPLACEMENT TRACKING MATRIX

MOSUL CORRIDOR EMERGENCY

DISPLACEMENT ANALYSIS TRACKING

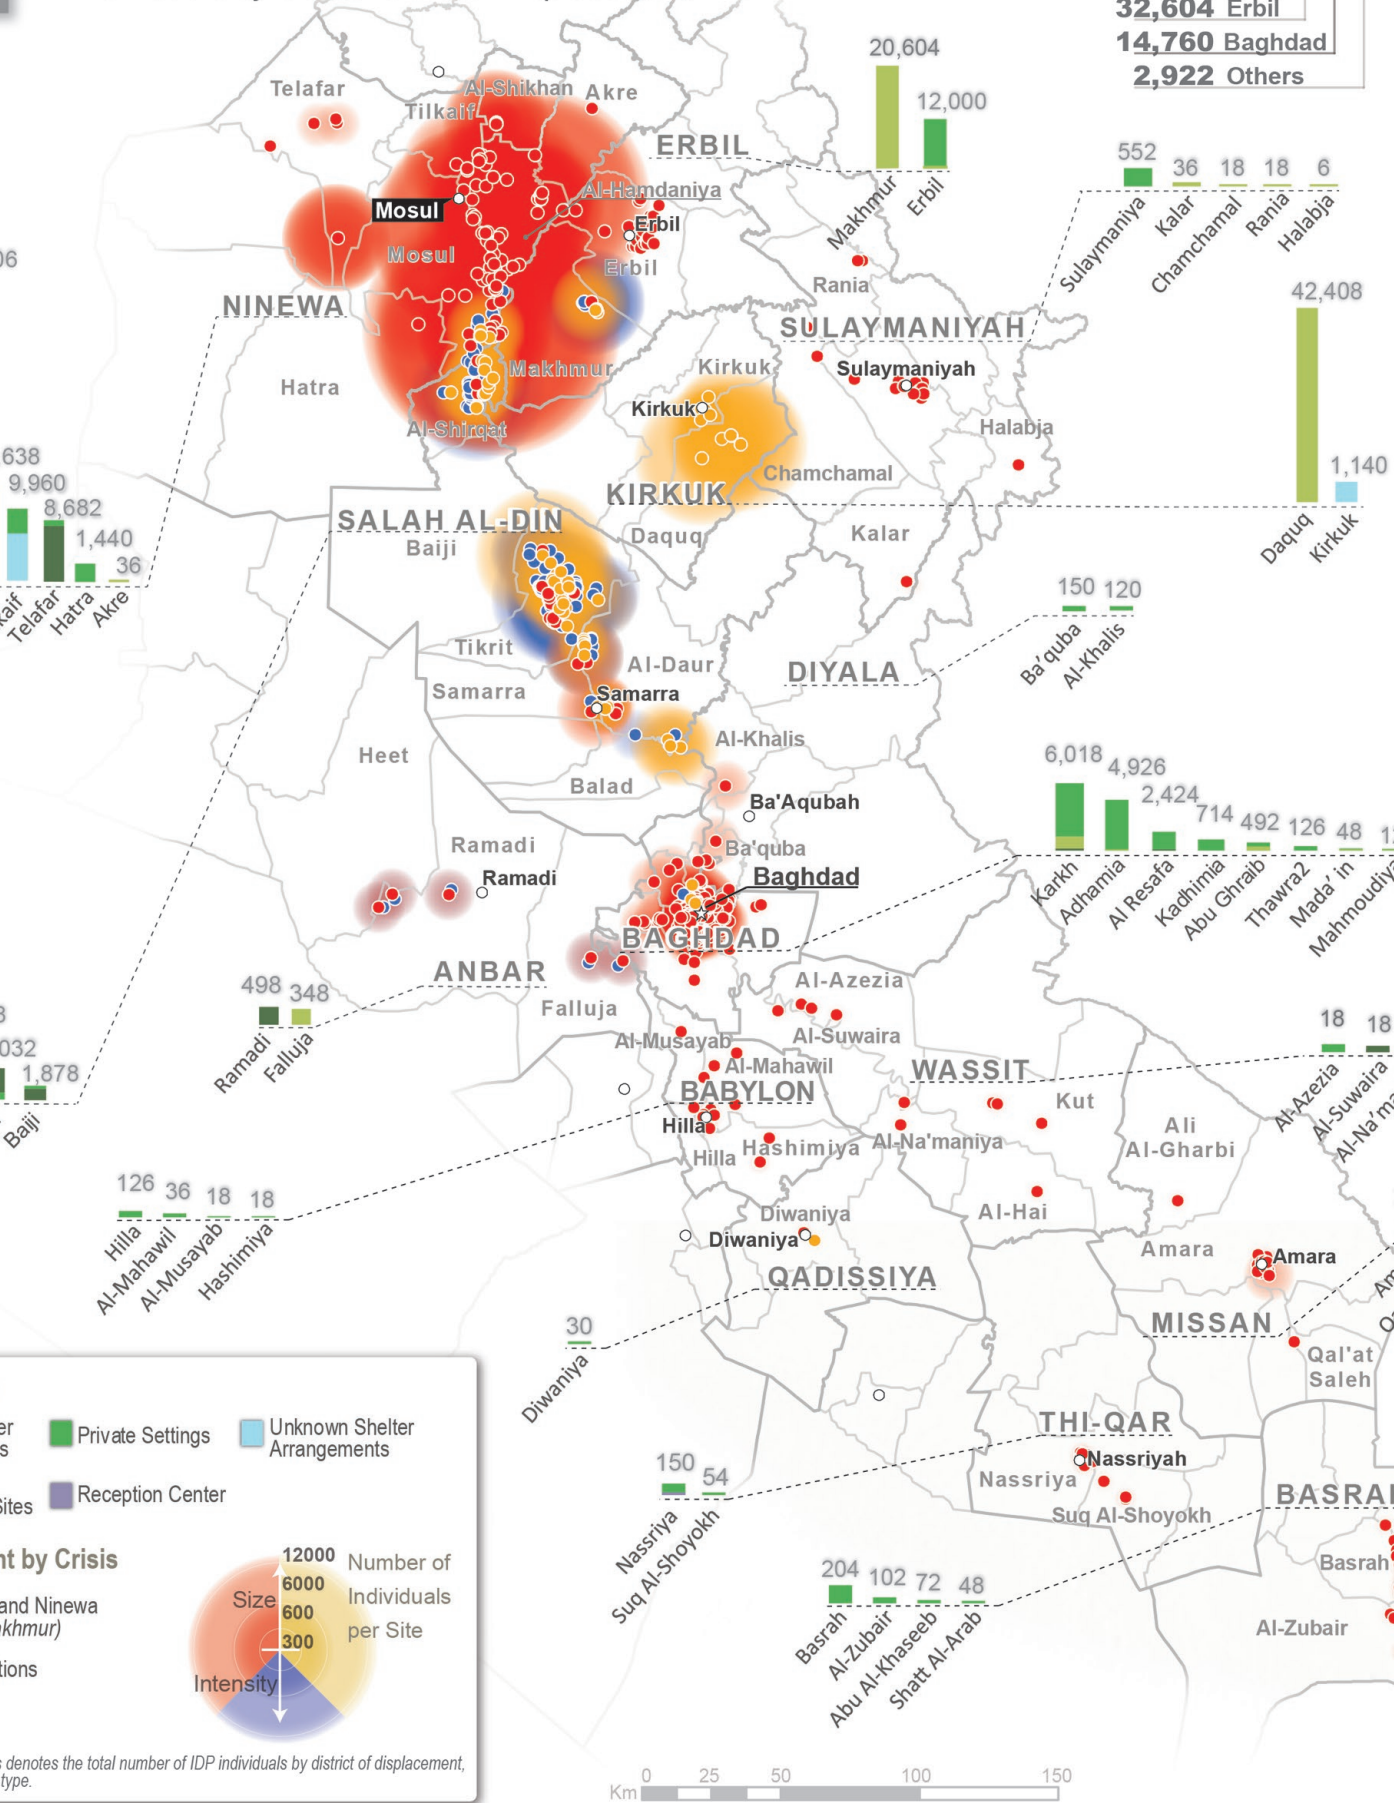

The Emergency Tracking (ET) system tool is aimed at tracking sudden population displacements or return movements triggered by specific crises. The ET figures are not cumulative, rather they provide a snapshot of the population currently displaced on the indicated date. This dashboard merges three ET datasets: **1) Salah al-Din and Ninewa ET** covers the displacement caused by the military operations in Shirqat and Baiji districts (Salah al-Din governorate), and Qayara sub-district (Ninewa governorate) since mid-June 2016; **2) Hawija ET** covers the displacement due to the clashes in Hawija district (Kirkuk governorate) since August 2016; **3) Mosul Operations ET** covers the displacement caused by military operations since 17 October 2016. The dashboard includes also the displacement caused by the military operations in Makhmur district at the end of March 2016.

as of 21 AUG 2017

181,183 IDP Families
1,087,098 Individuals¹

Ninewa
807,990
IDP Individuals by Governorate of Displacement

Shelter Type

- Critical Shelter Arrangements
- Private Settings
- Unknown Shelter Arrangements
- Camps/Emergency Sites
- Reception Center

Displacement by Crisis

- Salah al-Din and Ninewa (including Makhmur)
- Mosul Operations
- Al-Hawija

Number of Individuals per Site

- 12000
- 6000
- 600
- 300

Size
Intensity

Stacked column charts denotes the total number of IDP individuals by district of displacement, categorized by shelter type.

¹Figures for number of individual IDPs have been calculated by multiplying the number of families by 6, the average size of an Iraqi family.
