

MOBILITY SNAPSHOT – Round 8

Report Production Date: 27 October 2023 | Data collected up till 1900h 26 October 2023

Overview

Since October 8th there has been an increase in cross-border incidents between Israel and Lebanon, resulting in the displacement of people both within the South and elsewhere within the country. Since October 10th, the Displacement Tracking Matrix (DTM) has been conducting the daily monitoring of population movements. The objective of the exercise is to inform preparedness and response planning.

Daily IDP Count – Per date of data collection

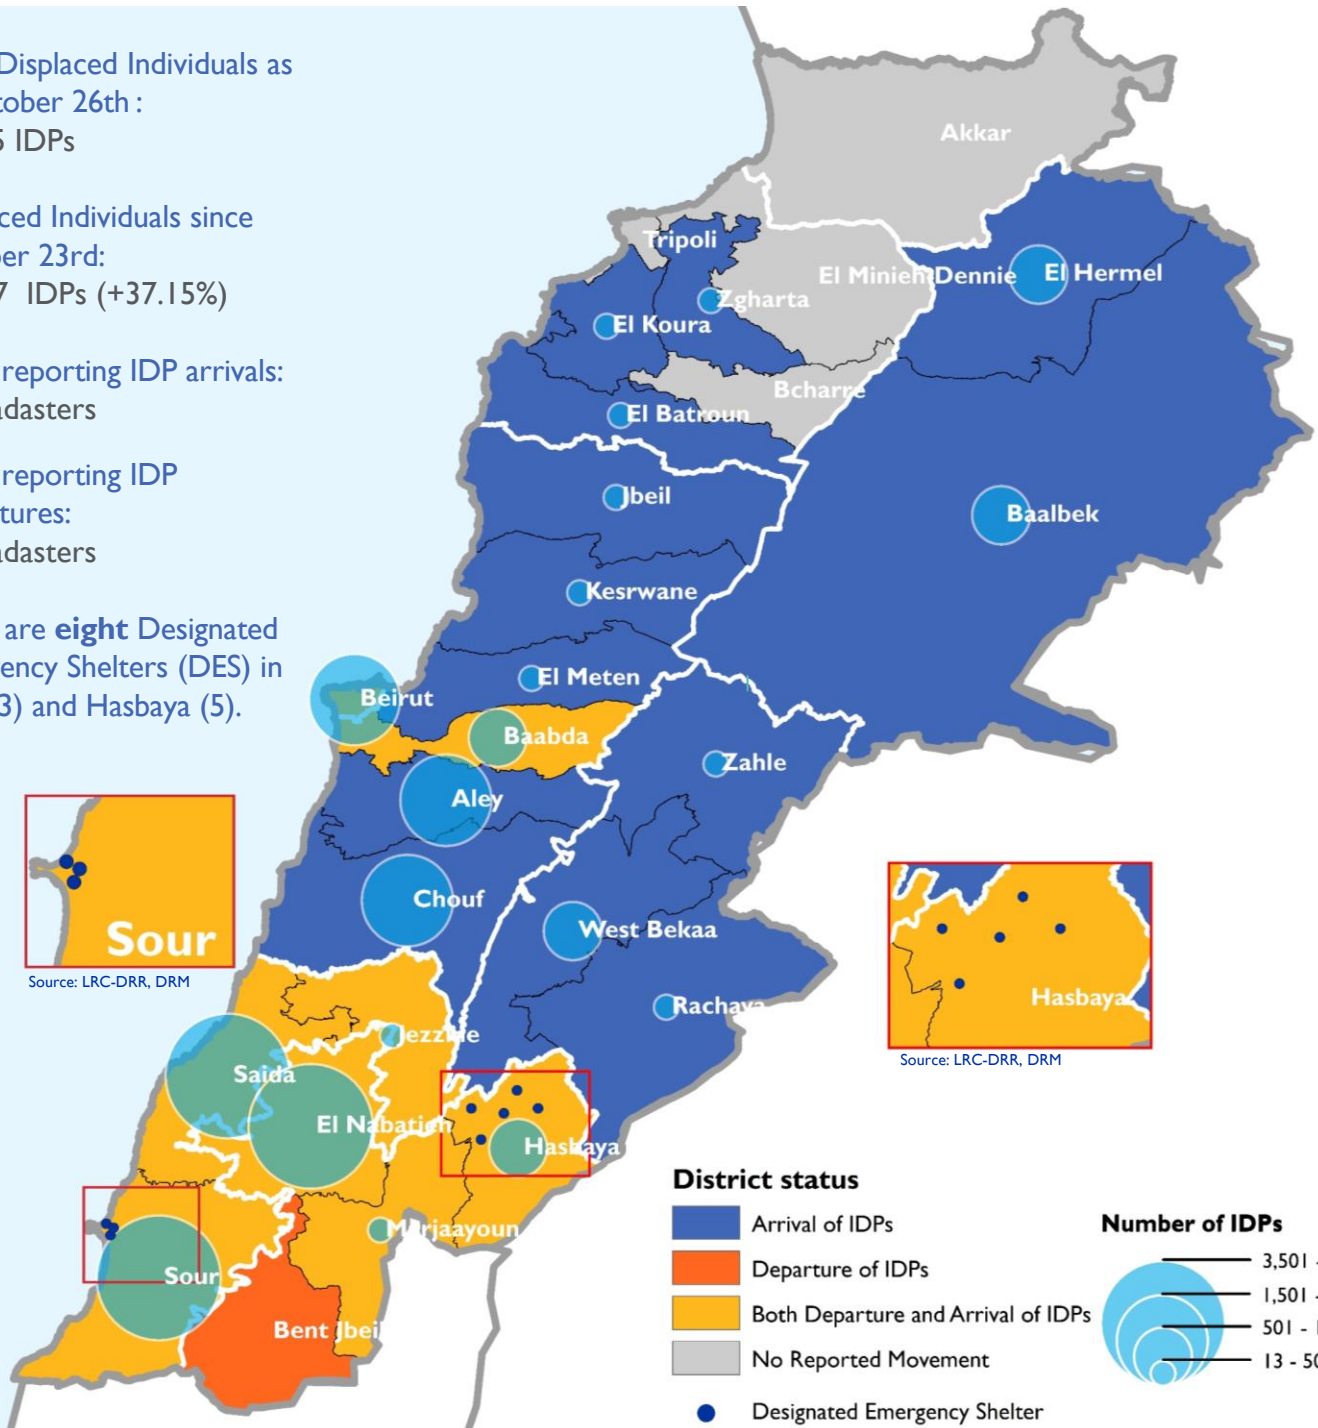

Total Displaced Individuals as of October 26th :
28,965 IDPs

Displaced Individuals since October 23rd:
+7,847 IDPs (+37.15%)

Areas reporting IDP arrivals:
236 cadasters

Areas reporting IDP Departures:
117 cadasters

There are **eight** Designated Emergency Shelters (DES) in Sour (3) and Hasbaya (5).

**This map is for illustration purposes only. Names and boundaries on this map do not imply official endorsement or acceptance by IOM.

Displacement within Lebanon

Methodology

Data is frequently collected on the presence of internally displaced persons (IDPs), including the area of displacement and the area of origin. This process is part of developing a comprehensive IDP baseline in line with the [DTM Global Methodological Framework](#).

The DTM is using a network of over 3,600 key informants across the country to provide localized numbers on displacement and departures. The Key informants consist of Government officials, Mukhtars, community representatives and neighborhood focal points.

The below tables provide an overview of displacement and place of origin by cadaster in Lebanon. Each governorate of displacement is represented by a separate table. Population numbers from the Designated Emergency Shelters (DES) have been directly provided from the data collected at the level of the emergency operation rooms, and supported by the Lebanese Red Cross- LRC and the Disaster Risk Management Unit- DRMU.
